Proceedings of the
Eleventh International Congress on Sound and Vibration
St. Petersburg, Russia
5-8 July 2004

Edited by
Nickolay I. Ivanov
Malcolm J. Crocker
THE ACOUSTIC MONITORING OF URBAN TERRITORY. INFLUENCE OF PARTICULAR CONDITION UPON NOISE LEVELS
Salvatore Barbaro, Rosario Caracausi, Rosa Maria Chisesi, Gaetano Cognata, Italy ............. 1219

ACOUSTIC ZONING AND CHARACTERIZATION OF THE URBAN AREA OF SCIACCA (ITALY)
Salvatore Barbaro, Rosario Caracausi, Rosa Maria Chisesi, Gaetano Cognata, Italy ............. 1229

ESTIMATION AND REDUCTION OF CONFECTIONERY FACTORY VENTILATION EQUIPMENT EXTERNAL NOISE
I. E. Tsukernikov, V. M. Dormidontova, Russia ................................................................. 1237

NOISE SURVEYS IN THE CITY OF CÁCERES (SPAIN): COMPARISON BETWEEN NORMAL AND CONFLICTIVE ZONES
J. M. Barrigón Morillas, J. Redondo Bermejo, V. Gómez Escobar, J. A. Méndez Sierra, R. Vílchez-Gómez; J. M. Vaquero Martínez, Spain ................................................................. 1245

THE USE OF MITHRA CODE TO FORECAST ACOUSTIC CLIMATE IN URBAN AREA: EXPERIMENTAL TESTS TO PROVE THE RELIABILITY AND ACCURACY OF FORECAST
Francesco Patania, Antonio Gagliano, Francesco Nocera, Aldo Galesi, Italy ............................. 1253

NOISE LEVELS IN A GALVANIZATION PLANT
M. Asselineau ......................................................................................................................... 1261

USE OF COMPUTATIONAL AND EXPERIMENTAL METHODS FOR EVALUATION AND REDUCTION OF TRANSPORT NOISE
Marina Butorina, Russia ........................................................................................................ 1265

METHANOL HEIGHTENS OTOTOXIC EFFECTS OF NOISE IN GUINEA PIGS
Ikuharu Morioka, Hiroichi Yamamoto, Yoshihiro Minami, Nobuyuki Miyai, Kazuhisa Miyashita, Toshio Kawai, Japan ................................................................. 1275

TRANSPORT NOISE MAPPING OF TOGLIATTI CITY
Andrei V. Vassiliev, Denis P. Shevchenko, Russia ................................................................. 1283

NOISE IMMISSION FROM FIRECRACKERS
Mirko Čudina, Ferdinand Deželak, Jurij Prezelj, Slovenia ...................................................... 1291

NOISE IN OFFICE ROOMS
Anna Kaczmarska, Witold Mikulski, Bozena Smagowska, Poland ........................................ 1299

A NOISE SURVEY IN THE HISTORICAL OLD PART OF THE CITY OF CÁCERES (SPAIN)
J. M. Barrigón Morillas, J. A. Méndez Sierra, V. Gómez Escobar, G. Casas Escudero, R. Vílchez-Gómez; J. M. Vaquero Martínez, Spain ................................................................. 1307

EVALUATION OF NOISE PENETRATION INTO INHABITED AREAS AT THE BUILDING OF THE RING-ROAD ROUND SAINT-PETERSBURG
Marina Butorina, Natalia Minina, Russia .................................................................................. 1315

FREQUENCY ANALYSIS OF CEMENT FACTORY NOISE AND EFFECT OF VARIOUS NOISE REDUCTION TREATMENTS
Jong Min Lee, Yoha Hwang, Korea ......................................................................................... 1323
UNCERTAINTY QUANTIFICATION OF A PREDICTION MODEL FOR GROUND-BORNE VIBRATIONS IN BUILDINGS  
M. Arnst, H. Chebli, R. Othman, D. Clouteau, France; G. Degrande, Belgium ........................................... 1331

NOISE RISK ASSESSMENTS IN APPLICATION OF ITALIAN LAW D.LGS. 277/91 AND DIRECTIVE 2003/10/EC IN USE OF PROFESSIONAL FARM MACHINERY  
Gennaro Vassalini, Roberto Fanigliulo, Marco Fedrizzi, Italy ................................................................. 1339

OPTIMISING ERGONOMIC AND ACOUSTIC DESIGN OF HAND-HELD SOUND LEVEL METERS  

QUALITATIVE SOUND MAPS AND SOUNDSCAPE REPRESENTATION  
M. Boubezari, J. L. Bento Coelho, Portugal ........................................................................................................ 1353

EVALUATION OF THE PERCENTAGE OF PEOPLE AFFECTED BY ENVIRONMENTAL NOISE IN AN URBAN AREA  
Miguel Arana, Antonio Vela, Luisa San Martin, Emilio Aramendia, Ricardo San Martin, Spain .................................. 1361

VIBRATION & GROUND BORNE NOISE CRITERIA & MITIGATION MEASURES AT ATHENS TRAMWAY  
Constantinos Vogiatzis, Sophie Chaikali, Greece .................................................................................................. 1369

NOISE BARRIERS FOR ST. PETERSBURG RING ROAD: DESIGN FEATURES AND PARAMETERS  
Natalia Tyurina, Russia ........................................................................................................................................ 1377

EXPERIMENTAL MEASUREMENT TECHNIQUES .................................................................................................... 1383

ON THE CALCULATION OF THE ELASTIC CONSTANTS IN ISOTROPIC MATERIALS FROM RAYLEIGH WAVE  
Francisco Gascon, Ana Bayón, Francisco J. Nieves, Spain .................................................................................. 1385

FREQUENCY ANALYSIS OF AN ULTRASONIC VIBRATOR FOR THE ELASTIC SENSOR  
Ryoji Aoyagi, Tetsuo Yoshida, Kenshi Kishi, Japan ............................................................................................ 1393

ON CALCULATION OF THE PERFORMANCE OF COLLISION SENSORS DIRECTLY INITIATING PYROTECHNIC MEANS OF AUTOMOBILE PASSIVE SAFETY SYSTEMS  
A. A. Bazhenov, A. V. Gorish, V. I. Yarovikov, Russia ....................................................................................... 1401

A PRACTICAL SOLUTION FOR A NOISE PROBLEM IN A VERY CROWDED AREA NOISE BY HVAC SYSTEM CASE STUDY  
Mansour EI Bardisi, Egypt .................................................................................................................................... 1409

MICROPHONE ARRAY MEASUREMENTS FOR AEROACOUSTIC SOURCE ANALYSIS  
Andreas Zeibig, Christian Schulze, Ennes Sarradj, Jörn Hübelt, Germany ........................................................ 1417

EXPERIMENTAL INVESTIGATION FOR ULTRA FREEZERS NOISE REDUCTION  
Franco Cotana, Federico Rossi, Andrea Nicolini, Italy .......................................................................................... 1425
IDENTIFICATION OF A SUBSTRUCTURE FROM RESPONSE MEASUREMENTS ON THE COMPLETE STRUCTURE
W. D'Ambrogio, A. Fregolent, Italy ................................................................. 1433

STATIC PRESSURE COEFFICIENT OF LABORATORY STANDARD MICROPHONES IN THE FREQUENCY RANGE 2-250 HZ
Roman Kosoborodov, Stanislav Kuznetsov, Russia ........................................ 1441

PRECISE COMPARISON CALIBRATION OF MEASURING CONDENSER MICROPHONES
Roman Kosoborodov, Stanislav Kuznetsov, Russia ........................................ 1449

EXPERIMENTAL AND ANALYTICAL MODAL ANALYSES OF A STEEL COMPOSITE GIRDER BRIDGE
Hidehiro Goromaru, Shoji Iwasaki, Hideaki Deto, Takazumi Ota, Japan ............ 1457

ESTIMATION OF TOOTH WEAR OF GEAR BY CALCULATING THE FLUCTUATION OF ROTATIONAL SPEED
Tadao Kawai, Masayuki Ninomiya, Japan ...................................................... 1465

OPTIMIZATION OF IN SITU NOISE BARRIER INTRINSIC CHARACTERISTICS MEASUREMENTS
Francesco Asdrubali, Giulio Pispola, Giorgio Baldinelli, Italy ........................ 1473

A BASIC STUDY FOR KNOWING THE WELDING STATE FROM TRANSMITTED ULTRASOUND THROUGH WELDING SURFACE IN ULTRASONIC WELDING OF PLASTIC RODS
Nobuyoshi Masuzawa, Japan ........................................................................... 1481

TWO-DIMENSIONAL SONIC CRYSTALS, SONIC-CRYSTAL SLABS AND SONIC WAVE-GUIDES FOR SOUND CONTROL AND MEASUREMENT
Toyokatsu Miyashita, Masaki Nagase, Japan .................................................. 1487

VIBRATION MEASUREMENT TECHNIQUES
R. S. Birajdar, India ........................................................................................ 1495

‘OPTIMUM’ WAVEFORMS FOR MEASURING TRANSFER FUNCTIONS
John Smith, Australia ....................................................................................... 1503

EXPERIMENTAL 3D VISUALIZATION OF POWER FLOW AROUND OBSTACLES IN REAL ACOUSTIC FIELD
Stefan Weyna, Poland ...................................................................................... 1509

ACOUSTIC OPERATIONAL MODAL ANALYSIS: SENSITIVITY-BASED MODE SHAPE NORMALISATION
G. De Sitter, P. Guillaume, E. Parloo, Belgium ............................................... 1517

CHARACTERIZATION OF ELECTROMAGNETIC RELAYS SUBMITTED TO MECHANICAL SHOCKS
D. Wattiaux, O. Verlinden, C. Conti, Ph. Tamigniaux, Belgium ......................... 1525
THE EFFECT OF PIPE CONTENTS FOR DEFECT DETECTION USING T(0,1) MODE
Jyin-Wen Cheng, Shiuh-Kuang Yang, China.................................................... 1533

NUMERICAL AND EXPERIMENTAL IDENTIFICATION OF FOUNDATION PARAMETERS
IN A ROTOR-BEARING-FOUNDATION SYSTEM
J. Wang, China; N. S. Feng, E. J. Hahn, Australia........................................ 1541

OPTIMISED SENSOR PLACEMENT FOR VIBRATION MEASUREMENTS AND MODEL
CORRELATION
L. Bregant, P. Bertolo, Italy............................................................................. 1549

PLAUSIBILITY CHECK OF RPM MEASUREMENTS
Ismaël Belghit, Antonio Vecchio, Karl Janssens, Belgium.............................. 1557

CONSTANT ENERGY AND CLEAN SEGMENT SEQUENCES BASED ON MLS APPLIED
TO ROOM IMPULSE RESPONSE MEASUREMENT
Joel P. Paulo, J. L. Bento Coelho, Carlos R. Martins, Portugal....................... 1565

A REPEATABILITY STUDY ON BROADENING THE SPECTRUM OF A
TRANSMIT/RECEIVE ULTRASONIC SYSTEM
Rodrigo P.B. Costa-Félix, João Carlos Machado, Brazil............................... 1573

THE DEVELOPMENT OF THE EXPERIMENTAL SYSTEM FOR MEASURING THE
HYDRODYNAMIC NOISE IN CENTRIFUGAL PUMPS
Ke Liu, Tao Feng, Xiaohong Li, Xiaopeng Tong, Jing Tian, China;
Fengshou Gu, Andrew Ball, UK....................................................................... 1579

THE MEASUREMENT THEORY AND EXPERIMENT INVESTIGATION OF
TRANSMISSION LOSS OF MATERIAL – FOUR TRANSDUCERS METHOD
Ke Liu, Zhou Qijun, Tao Feng, China............................................................... 1585

APPLICATION OF STROBOSCOPIC PHASE SHIFTING ESPI FOR THE QUANTITATIVE
VIBRATION AMPLITUDE MEASUREMENT
Koung-Suk Kim, In-Young Yang, Hyun-Chul Jung, Ki-Soo Kang, Dong-Pyo Hong, Korea... 1593

FEM IN ACOUSTICS.......................................................................................... 1601

DYNAMIC BEHAVIOR OF THE ORGAN OF CORTI: TWO-DIMENSIONAL FINITE-
ELEMENT MODEL
Masayoshi Andoh, Hiroshi Wada, Japan.......................................................... 1603

TBL EXCITED PLATE IN MF AND HF RANGES: COMPARISON WITH EXPERIMENTS
BETWEEN FINITE ELEMENT APPROACH AND SEA METHOD
Jean-Michel David, France............................................................................... 1611

ANALYTICAL ACOUSTIC FEM EVALUATION AND OPTIMIZATION IN PASSENGER CAR
BODY DEVELOPMENT
Andreas Kropp, Germany.............................................................................. 1619
HUMAN RESPONSE TO SOUND AND VIBRATION

PEOPLE'S RESPONSE TO ENVIRONMENTAL NOISE - SOME RESULTS FROM QUESTIONNAIRE SURVEYS
Toshio Sone, Shunichi Kono, Masazumi Kumagai, Japan

DEVELOPMENT OF A MINIMALLY INVASIVE IMPLANTABLE HEARING AID USING AN ELECTROMAGNETIC COIL TO VIBRATE THE STAPES
Takuji Koike, Satoshi Aoki, Kyouji Homma, Hiroshi Wada, Japan

WHOLE BODY VIBRATION MEASUREMENTS AND ANALYSIS BASED ON EUROPEAN DIRECTIVE IN FINNISH WORKING ENVIRONMENTS
Ykä Marjanen, Finland

COMPARISON OF DYNAMIC PROPERTIES OF TRANSDUCER ADAPTERS FOR THE MEASUREMENT OF VIBRATION TO THE HAND
Han-Kee Jang, Chi-Mun Song, Jangbom Chai, Korea

AN ACOUSTIC ANALYSIS OF SOUNDS DURATION – EFFECTS OF EXPERIENCE ON NATIVE AND NON-NATIVE SPEAKER'S PRODUCTION
Hyeon-Zoo Kim, Korea

IMPROVED DESIGN OF AIR SUSPENSION FOR SEATS OF MOBILE AGRICULTURAL MACHINES
Ivo Hostens, Koen Deprez, Herman Ramon, Belgium

AN ANALYSIS OF THE EFFECT OF VEHICLE VIBRATION ON HUMAN ORGANISM
Jan Rózowicz, Miroslav Nader, Jaroslav Korzeb, Poland

SIMULATION RESEARCH OF THE EFFECT OF VEHICLE VIBRATION ON DRIVER'S LUMBAR SPINE
Jaroslav Korzeb, Miroslav Nader, Jan Rózowicz, Poland

IDENTIFICATION OF HEALTH HAZARDS BASED ON REAL VEHICLE RESEARCH
Miroslav Nader, Edyta Purta, Poland

A STUDY OF THE ACOUSTIC PROPERTIES OF BIOLOGICAL TISSUE
J. A. Hession, B. A. O. McCormack, Ireland

A COMPARATIVE ESTIMATION OF HARMONIC DISTORTIONS AT A MONO- AND BINAURAL AUDITION IN ACCORDANCE WITH PRESSURE
Andrey Panin, Mukhsen Mokhd, Vladimir Davydov, Russia

ABOUT A DEPENDENCE OF THE CRITICAL HEARING BANDWIDTH ON BINAURAL PHASE SHIFTS
Mukhsen Mokhd, Andrey Panin, Vladimir Davydov, Russia

PERCEPTION OF MODAL DISTRIBUTION IN CRITICAL LISTENING SPACES
B. Fazenda, F. Jacobsen, Denmark; M. R. Avis, W. J. Davies, UK

BIOMEDICAL RESEARCH, LEGISLATION AND THE LOW FREQUENCY NOISE CONTAMINANT
Mariana Alves-Pereira, João Joana de Melo, Nuno A. A. Castelo Branco, Portugal; Jerzy Motlyewski, Elzbieta Kotlicka, Poland
