Preface vii

Part 1. General Papers

Surface effects on intrinsic thin-film stresses
*R. C. Cammarata* 3

Adhesion properties of functionally gradient diamond-like carbon nanocomposite films
*R. J. Narayan* 13

Adhesion improvement of magnetron-sputtered amorphous carbon coating on cemented carbide
*S. Zhang and X. L. Bui* 37

Characterization of polyethylene–metal composite thin films deposited by evaporation
*S. Iwamori, F. Tateishi, Y. Ono and Y. Yamada* 49

Selection of efficient coatings for milling Inconel 718 based on their adhesion properties
*O. Knotek, E. Lugscheider, K. Bobzin, C. Piñero, F. Klocke, D. Lung and J. Grams* 57

Investigation of tissue compatibility and hemocompatibility of DLC and CNₓ coatings
*D. J. Li and L. F. Niu* 69

A study on structural characterization of and cell attachment to Ti-containing coatings
*Y. Liu, S. Liu, Q. X. Liu and D. J. Li* 79

Adhesion issues with polymer/oxide barrier coatings on organic displays
Part 2. Metallized Plastics

Surface modification of polymers by ion-assisted reactions: An overview

Contribution of chemical interactions between Al atoms and different types of functional groups to the adhesion of Al–polymer systems
R. Mix, G. Kühn and J. Friedrich 123

Deposition of aluminum on three-dimensional polymeric substrates
O. Knotek, E. Lugscheider, K. Bobzin, M. Maes and A. Krämer 145

Improvement of metal adhesion to silicone films: A ToF-SIMS study
A. Delcorte, S. Befahy, C. Poleunis, M. Troosters and P. Bertrand 155

Mechanical stability of a TiO$_2$ coating deposited on a polycarbonate substrate
M. Ignat, S. Gétin, B. Latella, C. Barbé and G. Triani 167

Part 3. Adhesion Measurement

Advances in adhesion measurement good practice: Use of a certified reference material for evaluating the performance of scratch test instrumentation
N. M. Jennett, R. Jacobs and J. Meneve 179

Film hardness effect on adhesion strength of TiO$_2$ film on a glass substrate measured by the scratch test
A. Kinbara, E. Kusano and H. Nanto 195

Two critical events observed on Cu films on glass substrate in the microscratch test
S. Baba, Y. Yamaguchi, M. Ogawa and T. Nakano 203

Abrasion life and scratch durability of sputtered PTFE thin film
S. Iwamori, Y. Nagayama, Y. Yamagata and Y. Yamada 215
