CONTENTS

Designing Usable Ships
Jorgen Rasmussen, Danish Maritime Authority, Denmark

Integration of Human Factors into the Design Process/Practical Applications of Human Factors Engineering
Martine Pellen-Blin & Nelly Chouvy, DGA, France

Continuous Feed Back into the Design Loop
Commander Saibal Sen & Commander Manohar Kapale, Indian Navy, India

Human Factors Program Eliminates Safety Hazards of Marine Seismic Streamer Handling Operations
Mark Williamson, Schlumberger Design & Ergonomics, UK

Human Factors in the Design Process – A New Approach to the Design of Maritime Communication Equipment
Thomas Koester, FORCE Technology, Denmark

Human Factors Challenges of High-Speed Combatant Craft
Timothy Coats, Naval Surface Warfare Center, USA

Advanced Evacuation Simulation Software and its Use in Warships
Pauline Boxall, Defence Procurement Agency, Ministry of Defence, UK
Steve Gwynne, Lazaros Filippidis, Ed Galea & David Cooney, University of Greenwich, UK

Conducting a Human Factors Engineering 3D Computer Modelling Ship Design Review
Theresa Dalpiaz & Martin Emmrich, BMT Designers & Planners, Inc, USA
Darren McQuillan, National Steel & Shipbuilding Company (NASSCO), USA
Gerry Miller, G.E. Miller & Associates, USA

Accident Database Review of Human-Element Concerns: What do the Results Mean for Classification?
Clifford C. Baker & Denise B. McCafferty, American Bureau of Shipping, USA

Human Factors and Regulatory Regime in Design and Construction of Safe and Robust Ships and Maintaining them for their Lifetime
Tae-Woo Kim, Korean Register of Shipping, Korea

Structure of Human Factors Requirements in Warship SRDs
Sam Ranasinghe, Atkins Aviation and Defence Systems, UK
Patrick Osmond, JCTS IPT, UK

The Human Element in Class Rules
Lillian Antonio, University of Loughborough, UK
Jonathan Earthy, Lloyd’s Register, UK

© 2005: The Royal Institution of Naval Architects
Content and Context: Understanding the Complexities of Human Behaviour in Ship Operations
Claire Pekcan, David Gatfield & Mike Barnett, Warsash Maritime Centre, UK

Sarah Tapley & Simon Monnington, Health and Safety Executive, UK

Effects of Alcohol Intoxication on Ship Operational Ability Using Ship Handling Simulator
Hongtae Kim, Chan-Su Yang, Bong-Wang Lee & Young-Hoon Yang, Korea Research Institute of Ships and Ocean Engineering, Korea

On the Influence of Stress on Crew and Passengers during Evacuation
Monica Andersson, Chalmers, Sweden

Development of a Human Element Assessment Tool (HEAT) for the Maritime Industry
Keith Tatman & Andrew Sillitoe, Maritime & Coastguard Agency, UK
Edmund Hughes, HM Treasury, UK

Impact Injury and the High Speed Craft Acquisition Process
Ronald S. Peterson, Naval Surface Warfare Center - Panama City, USA
Cameron Bass, University of Virginia, USA

A New Framework for Situation Based Analysis of the Work on Board Ships
Carl Thue Rabjerg and Thomas Koester, FORCE Technology, Denmark

Dynamic Coastal Views in 3D Nautical Charts
Thomas Porathe, Mälardalen University, Sweden

Performance of the Total Bridge System
Erling Linna, DNV, Norway

Human Integration of Bridge Technology
Margareta Lützhöft, Swedish National Road and Transport Research Institute (VTI), Sweden

Twenty Years on the Wrong Heading Dead Ahead. Lessons from Aviation for Bridge Design
Brian Sherwood Jones, Process Contracting Ltd., UK
