Proceedings of the 5th International SPICE Conference on Process Assessment and Improvement (SPiCE 2005)
# Table of Contents

**D. R. Goldenson**  
The Impact of Model Based Improvement (keynote)  

---

**G. Chroust, H. Lexen**  
Sustaining the Effects of Inspections – 8 Years later  

---

**D. H. Kitson**  
The CMMI Product Suite and International Standards  

---

**F. G. Wilkie, D. McFall, F. McCaffery**  
The Express Process Appraisal Method  

---

**T. Makinen, T. Varkoi**  
A Harmonizes Design for process Assessment Indicators  

---

**B. Barafort, B. Di Renzo, V. Lejeune, J-M. Simon**  
ITIL Based Service Management measurement and ISO/IEC 15504 process assessment: a win – win opportunity  

---

**H. van Loon**  
Surveying the status of organizational culture, improvement and innovation in the SPICE and Knowledge Management communities  

---

**H. van Loon, C. Pinaud, J.-P. Blanquart, J.M. Carranza, A. Cass**  
Setting Target Capability Profiles for Different Criticality Classes of Software Experiences of SPICE for SPACE  

---

**V. Shah**  
Costs and Benefits of using Smaller Assessment Models for Software Process Assessment and Improvement in Small Software Organizations  

---

**A. Coletta, A. Piazzolla, D. Ruffinazzi**  
An industrial experience in assessing the capability of non-software processes using ISO/IEC 15504  

---

**D. Smite, U. Sukovskis**  
A Case Study: Communication Practices in Global Software Development  

---

**F. McCaffery, D. McFall, F.G. Wilkie, E. Wilkinson**  
An Online Tool for Periodic Self-Assessment  

---

**M. Sanders, I. Richardson**  
What Really Happened After SPI Assistance in Ireland  

---

**F. McCaffery, M.F. McTear, F.G. Wilkie, D. McFall**  
Introducing Technology Into Process Appraisals  

---

**C. Bianco**  
Waiting for SPiCE for Medical Devices
Operational Risk Management in Financial Institutions: Process Assessment in Concordance with Basel II

T. Rout, A. Tuffley
The ISO 15504 Measurement Framework for Process Capability and CMMI
