25/26 September 2003, Prague, Czech Republic

1st European Weathering Symposium
Natural and Artificial Ageing of Polymers

Editor
Thomas Reichert
Gesellschaft für Umweltsimulation

Publication No 5, 2004
CONTENT

Session 1:
General Considerations on Weathering Tests
Chairman: Jörg Boxhammer

Comparative Examinations under Different Weathering Conditions 23
E. Pohle, L. Kranner, ofi-Research Institute for Chemistry and Technology, Wien, A

Expensive Weathering Tests _ Some Mathematical and Technical Ways to Increase information Obtained by Natural and Artificial Weathering 35
A. Lichtblau, Clariant GmbH, Gersthofen, D

Session 2 :
Weathering Reference Materials
Chairman: Ignacy Jakubowicz

Reference Materials for Weathering Tests 61
P. Trubiroha, A. Geburtig, V. Wachtendorf, BAM, Berlin, D

The New Role of Reference Specimens as Weathering Gauges 73
Y. Takane, Y. Watanabe, Japan Weathering Test Center, Choshi City, JAP

Recent Proposals for Weathering Reference Materials as Discussed by DIN and VDA 81
A. Lüthi, D. Fäh, EMPA Testmaterialien AG, St. Gallen, CH; V. Wachtendorf, A. Geburtig, BAM, Berlin, D

Session 3 :
New Test Procedures and Devices
Chairman: Leopold Kranner

Static and Rotating Xenon Arc Exposures Compared: Technical Issues, Practical Considerations & How Different Types of Hardware Comply to the New Performance-Based Test Methods 97
P. J. Brennan, Q-Panel Lab Products, Westlake, Ohio, USA

Time-Lapse Ageing of Technical Textiles Using a Complex Environmental Test System 113
Comparison of the Quality of Three Similar Components Using Stepped Stress Environmental Loading
Z. Sherf, A. Katz, A. Manor, P. Hopstone, Rafael, Haifa, IL
Bross, Y. Kanfi, ELGEMS, Haifa, IL

Accelerated Acid Etch for Automotive Clearcoats
A joint research project provides correlation between lab & field
J. Boisseau, D. Cambell, BASF Corporation, USA
W. Wurst, P. J. Brennan, Q-Panel Lab Products, Westlake, Ohio, USA
Presented by U. Schernau, BASF Coatings AG, Münster, D

Session 4:
Thermal Ageing
Chairman: Hiltmar Schubert

The Rheological Properties of Aged Polymer Bitumen
V. Rek, Z. M. Barjaktarovic, T. H. Grguric, Dept. of Polymer Engineering and Organic Chemical Technology, University of Zagreb, Zagreb, HR

The Effect of Humidity on Thermal Oxidation of Cellulose
J. Rychly, L. Matisová-Rychlá, Polymer Institute Slovak Academy of Sciences, Bratislava, SK

Session 5:
Weathering of Polymer Products
Chairman: Jan Pospisil

Assessment of Service Life of Solar Thermal Components by Accelerated Life Testing
B. Carlsson, K. Möller, SP Swedish National Testing and Research Institute, Boras, S
M. Köhl, M. Heck, Fraunhofer ISE, Freiburg, D
S. Brunold, Institut für Solartechnik SPF, Hochschule Rapperswil, CH
J.-C. Marechal, CSTB Centre Scientific et Technique du Batiment, F
G. Jorgensen, NREL National Renewable Energy Laboratory, USA

Durability of Polymeric Glazing Materials for Solar Applications
G. Jorgensen, NREL National Renewable Energy Laboratory, USA
B. Carlsson, K. Möller, SP Swedish National Testing and Research Institute, Boras, S
M. Köhl, M. Heck, Fraunhofer ISE, Freiburg, D
S. Brunold, Institut für Solartechnik SPF, Hochschule Rapperswil, Rapperswil, CH
Studies into the Long-Term Durability of Elastomeric Building Sealants 217
T. Boettger, University of Leipzig, Leipzig, D
H. Bolte, Institute of Building Chemistry, Leipzig, D

Within-Chamber Uniformity of Xenon Test Chambers (Rotating & Static Specimen Mounting Systems Compared) 243
G. Fedor, P. J. Brennan, Q-Panel Lab Products, Westlake, Ohio, USA
G. Pausch, Pausch Messtechnik GmbH, Haan, D

Session 6:
Weathering of Coatings
Chairman: Dieter Kockott

A Reliable Artificial Weathering Test for Wood Coatings 259
L. Podgorski, CTBA, Bordeaux, F
M. Arnold, EMPA, CH
G. Hora, Fraunhofer WKI, Braunschweig, D

Service Life Prediction for Coatings Concerning Loss of Gloss 279

Adaption of the Acid Dew and Fog (ADF) Test for Service Life Prediction of Aircraft Coatings 301
V. Wachtendorf, U. Schulz, P. Trubiroha, BAM, Berlin, D

Session 7:
General Remarks on Weathering Tests
Chairman: Karl-Friedrich Ziegahn

Decay of Polyamide and Polyethylene Exposed in the UN/ECE ICP Materials Programme 321
J. Tidblad, V. Kucera, D. Persson, Swedish Corrosion Institute, Stockholm, S

Polymer Weathering: Dose-Response Functions for Material Properties Changed by Climatic and Air Pollution Effects 341
T. Reichert, U. Pohsner, K.-F. Ziegahn, Fraunhofer ICT, Pfinztal, D

The Influence of Mildew Growth on Automotive Coatings on the Results of Outdoor Weathering 357
U. Schulz, V. Wachtendorf, A. Geburtig, BAM, Berlin, D
Characterizing Effects of Weathering Variables Using Accelerated Fractional Factorial Experiments
H. K. Hardcastle, Atlas Material Testing Technology LLC, Miami, USA

Session 8:
Materials Testing/Analysis
Chairman: Jozef Rychly

The Action of Weathering on the Scratch Behaviour of Automotive Clearcoats
A. Geburtig, U. Schulz, BAM, Berlin, D
T. Klimmasch, M. Mechtel, Bayer AG, Leverkusen, D

Impact of Weathering on Chemical and Morphological Changes in Stabilized Polymers
J. Pospisil, J. Pilar, A. Marek, Z. Krulis, Institute of Macromolecular Chemistry, Academy of Sciences of the Czech Republic, Prague, CZ
N. C. Billingham, School of Chemistry, Physics and Environmental Science, University of Sussex, Brighton, UK
W. D. Habicher, Institute of Organic Chemistry, TU Dresden, Dresden, D

Chemical Transformations of Poly[methyl(phenyl)silylene] Under Weatherometer Exposure
O. Meszáros, P. Schmidt, J. Pospíšil.
S. Nespurek, Institute for Macromolecular Chemistry, Academy of Sciences of the Czech Republic, Prague, CZ
