We have treaded your papers with the utmost of care, however EAGE reserves the right to disclaim any responsibility on the part of itself and those organisations it employs.
A001 Correction of Buildings, Basements and Bridge Influences in an Urban Microgravimetry Survey  
P. Radogna, P. Chasseriau*, P. Logean & R. Olivier

A002 The Use of Microgravity for the Detection and Characterization of Sinkholes and Historic Extraction Features in the Chalk  
P. Styles*, S. Toon, E. Thomas & M. Kittrall

A003 Multichannel Spectral Induced Polarization (SIP) – Application to Geotechnics and Construction Materials  
E. Niederlehinger*, S. Kruschwitz, M. Behrens & A. Brink

A004 Microseismic Monitoring of Abandoned Salt Mines beneath Northwich, Cheshire, UK  
S.M. Toon* & P. Styles

A005 Borehole-to-Surface ERT Inversion  
P. Tsourlos*, R.D. Ogilvy & C. Papazachos

A006 Interpretation Enhancement by Combining SIP and NMR  
M. Müller* & U. Yaramanci

A007 Applicability of the Linear Model to Interpretation of Magnetic Resonance Soundings  
A. Legchenko*

A008 Laterally Constrained 1D-Inversion of 3D TEM Data  
E. Auken*, A.V. Christiansen, L. Jacobsen & K.I. Sørensen

A009 Characterization of Ashes in a Landfill with Magnetic and Electrical Methods  
J.C. Gourry*, V. Laperche & A. Bitri

A010 Ground-Truthing Airborne EM – Hydrochemical Characterization of a Coal Mine Plume  
D. Beamish*, B.A. Klinck & J. Trick

A011 Characterization of the Landfill Using Ves Data Inversion  
M. Mirzaei* & F. Ghadimi

A012 Investigation of a Former Quarry and Landfill Site Using Electrical Resistivity Tomography  
J.E. Chambers*, P.I. Meldrum, O. Kuras, R.D. Ogilvy & J. Hollands

A013 Groundwater Research Within the Estancia Basin, New Mexico  
J. Dimick*, V. Mitchell, D. Klepacki & M. Wennogle

A014 Relationship Between Biodegradation and Bulk Electrical Conductivity  
E. Atekwana*, E.A. Atekwana, F.D. Legall, R.V. Krishnamurthy & W.A. Sauck

A015 Constrained Inversion of Helicopter AEM Data for Managing Irrigation Salinity  
A. Green*, R. Brodie & T. Munday

A016 Towards Three and Four Dimensional Data Collection for Electrical Resistivity Data  
D.J. La Brecque*, R. Sharpe & M. Stubben

A017 Using Resistivity Measurements for Dam Safety Evaluation at Enemossen Tailings Dam  
P. Sjödahl*, T. Dahlin & S. Johansson

Near Surface 2004 - 10th European Meeting of Environmental and Engineering Geophysics, Utrecht, The Netherlands
A018 Quantitative Inspection of Sewer Systems Using Geophysical Methods
D. Orlowsky*, B. Lehmann, A. Redmann & T. Kabbe

A019 Non-Invasive Characterisation of Road Subgrade with Towed-Array Capacitive Resistivity Imaging

A020 Geophysical Investigation of Slow Active Faults in the Provence Area (France)
F. Nguyen, S. Garambois, D. Chardon, D. Jongmans*, O. Bellier & D. Hermitte

A021 Cross-Borehole Resistivity Tomography below Foundations in Covered Karst
J. Deceuster*, J. Delgranche & O. Kaufmann

A022 High Resolution Seismic Experiment within the Low-Noise Underground Laboratory (LSBB) of Rustrel (Province)
G. Sénéchal*, D. Rousset, E. Gloaguen & T. Lebourg

A023 Advances in the Interpretation of Geophysical Borehole Logs
M.G.G. de Jong*, S.D. Nio, D.T. Biewinga & D.G. Smith

A024 Random Gridding Decomposition (RGD) in Seismic Tomography
B. Abbad*

A025 Integrated GPR and Geo-Resistivity Study of Shallow Stratigraphy in Sandy Coastal Environments
M. Pipan*, E. Forte, M. Sugan, G. Dal Moro & P. Gabrielli

A026 Soil Moisture Dynamics with Time Lapse GPR
J. Schmalholz*, A. Kemna, M. Müller, H. Stoffegen & U. Yaramanci

A027 Monitoring of Water Infiltration Using GPR Data
P. de Beukelaar*, S. Mazouz, M. Meinster, A. Saintenoy & P. Tucholka

A028 Fracture Characterisation Using the NA Inversion Algorithm on Synthetic GPR Signals
C. Grégoire*, M. Jeannin, M. Wathelet, S. Garambois & D. Jongmans

A029 GPR Measurements at the Site of a German Medieval Imperial Palatinate
H. von Hartmann*

A030 Fast Imaging of a Romano-Celtic Temple with a Decimetric Resolution – 1 Ha in 2 Hours?
M. Dabas* & A. Favard

A031 Rapid and Precise Archaeogeophysical Survey Using a Multi-Sensor Platform (MSP)
I.A. Hill* & N. Linford

A032 MULTISENSOR - A Mobile Geophysical Multi-Sensor System for Archaeological Prospecting
E. Erkul, W. Rabbel, H. Stümpel & S. Woelz*

A033 Integrated Inversion of CVES and TEM Data Using Lateral Constraints
A.V. Christiansen*, N. Foged, E. Auken & K.I. Sørensen

A034 Joint Inversion of TEM and DC Soundings
P.O. Barsukov*, E.B. Fainberg & E.O. Khabensky
A035 Interpretation of a Hydrogeophysical Survey – Data from the High-Resolution SkyTEM System  
K.I. Sørensen*, B. Sørensen, A.V. Christiansen & E. Auken

A036 Constrained Inversion of Helicopterborne EM Data  
H. Thunehed*

A037 Empirical Inversion of HEM Data for Sea Ice Thickness Mapping  
A. Pfaffling*, C. Haas & J.E. Reid

A038 Magneto-Electric Mapping of 3D Electrical Conductivity Distributions – System Design and Resolution Analysis  
A. Verweerd*, A. Tillmann, E. Zimmermann, A. Kemna & H. Vereecken

B001 Moisture Dynamics in Urban Soils with High Resolution Geoelectrics  
M. Müller*, O. Mohnke, J. Schmalholz & U. Yaramanci

B002 Streaming Potentials Associated with Well-Pumping – Analogical and in Situ Results  
F.A. Gass*

B003 The Effect of Changing the Salinity of the Groundwater on SIP of Sandstones  
J. Scott, A. Weller*, N. Schleifer & R. Barker

B004 Hydrogeophysical Study at an Olive Farm, S. Italy  
S.A. al Hagrey, R. Meissner* & A. Ismaeil

B005 High-Resolution Echo-Sounding and Estimation of Sediment Properties Using Nonlinear Acoustics  
J. Wunderlich* & G. Wendt

B006 Two Acoustic Methods for Classification of Near-Surface Sediments  
C.S. Mesdag*, P.T.J. Kok, R. Romijn, G. Blacquiere, M. Snellen & D.G. Simons

B007 Shallow Gas in the Baltic Sea from a VHR 2.5-D Seismic View  
C. Müller*

B008 Integrated Repetitive Multibeam Bathymetry and Geophysical Surveys of an Offshore Disposal Site  
D.R. Parrott*, M.B. Parsons, M.Z. Li, V. Kostylev, J.E. Hughes Clarke, A. Duxfield & K.-L. Tay

B009 Applying Seismic Traveltime Tomography in the Exploration of the Foundations of a Byzantine Church  
L. Polymenakos*, S. Papamarinopoulos

B010 High-Resolution Electrical Resistivity Imaging at a Former Industrial Furnace Site, PA, USA  
B. Kulessa*, S. Haney, P. McCarthy & B. Chiarulli

B011 Modelling the Magnetic Field Gradient for Archaeological Structures in Saqqara (Egypt)  
A. El-Bassiony* & A. Weller

B012 Radar and Electrical Resistivity Data Comparison at Izmir Agora, Turkey  
R. Chapoulie, M.G. Drahor & M. Martinaud*
B017 A New System for High Speed Spatial Mapping of Soil – The ARP© System
M. Dabas*

B018 Numerical Modelling of Electroseismic Signals in Fractured, Contaminated Aquifer Systems
N.J. Cassidy*, G.W. Tuckwell & R.J.E. England

B019 Model-Based Integration of Seismic and CPT Data to Derive Soil Parameters
R. Ghose*

B020 Applied DC Resistivity for Tree Trunks
S.A. al Hagrey*, R. Meissner & A. Ismaeil

B021 Comparison of Different Electrodes for Frequency Domain Induced Polarisation (IP) Surveys
N. Schleifer* & A. Junge

B022 Improving Signal-to-Noise in Electrical and EM Methods with Sensor Arrays
M. Norvill* & A. Kepic

B023 Determination of Apparent Resistivity through High-Frequency Electromagnetic Measurements
G. Beziuk* & A. Pralat

B024 Near-Surface Electromagnetics for Imaging the Shallow Coal Seams at the Garzweiler Mine, West of Cologne
K. Farag* & B. Tezkan

B025 Shallow Shear Wave Seismic for Determining of the Average Near Surface Velocity VavS30
U. Polom*

B026 Shallow Imaging with Scattered Seismic Surface Waves
X. Campman*, C.D. Riyanti & G. Herman

B027 Offset-Variant Optimum Time Window for Near-Surface Seismic Reflection Data
K.Y. Kim*

B028 Some Pitfalls Associated with Dominant Higher-Mode Surface-Wave Inversion
A. O’Neill*, T. Matsuoka & K. Tsukada

B029 3-D Multi-Component Shearwave Seismic – A New Tool for Near Surface Prospecting?
S. Woelz* & W. Rabbel

B030 Detection of Artificial Cavities Using Very High-Resolution Seismic
O. Monnereau*, J.L. Deherripont & C. Boulanger

B031 From Shallow Land Seismic to Regional Geological Knowledge in the Aigion Active Fault Area, Gulf of Corinth, Greece
P. Thierry*, F. Lemeille & D. Sorel

B032 Seismic Characterization of a Contaminated Site Using a Multi-Approach Technique
G. Grandjean* & A. Bitri

B033 Monitoring an Alternative De-Icer in Salt Contaminated Aquifer Using ERT
T. Huotari*, H. Vanhala, P. Hellstén & K. Vaittinen
B034 Surface Geophysical Survey for Fly Ash Water Seepage Detection at Loy Yang Coal Mine
A. Viezzoli*, J.P. Cull & D. Massie

B035 Characterizing Tailings Impoundment at the Closed Hammaslahti Cu-Zn Mine, Finland

B036 Interdisciplinary Waste Site Investigation in Balassagyarmat / Hungary (NORISC-Project)
M. Perk*, B. Tezkan & A. Hördt

B037 Geophysical Investigations of a Waste Disposal in Urban Environment
D. Fielitz* & M. Degutsch

B038 The Use of Borehole Radar Tomography to Monitor a Steam Injection Pilot Study in a Contaminated Fractured Limestone (Maine, USA)
C. Grégoire*, J.W. Lane & P.K. Joesten

P001 Application of Geophysical Methods for Detection of Cavities in Khalifa City (B) of Abu Dhabi Emirate, U.A.E.
B. Li*, A. Taleb

P002 Oil Polluted Zones Mapping by Geoelectric Methods
S.P. Levashov, N.A. Yakymchuk*, I.N. Korchagin & J.M. Pyschaniy

P003 Refraction Seismic Survey to Evaluate the Danger of Ground Surface Damage in Mining Areas
J.A. Dec*

P004 Large-Scale Geophysical Studies in the Legio IV Scythica in Zeugma-Turkey
M.G. Drahor*, M. Hartmann & M.A. Spiedel

P005 GPR and ERT – Integrated Geophysical Methods in Archaeology
L. Baradello*, A. Bratus & D.N. Yabar

P006 The Use of Geophysical Methods in the Investigation of Subsurface Waters in Albania
L.L. Lleshý* & V. Azizaj

P007 Monitoring Tracer Experiments at the Krauthausen Test Site Using Time-Lapse ERT

P008 Estimate of the Aperture of Watersaturated Fractures by Nuclear Magnetic Resonance Logging
Y. Nakashima* & T. Kikuchi

P009 Application of the GPR Method to the Diagnostics of Building Structures in the Case of Buildings of Historical and Cultural Importance
M. Živanović*

P010 Seismic CPT Measurements
P. Dietrich*, T. Fechner & E. Nolte

P011 On the Use of Two- Vs. Three- Dimensional Transformation and Interpretation of Potential Field Anomalies
G. Florio*, M. Fedi & F. Cella
P012 Apparent Strike Resistivity Imaging  
M.J. Senos Matias*

P013 Structural 2-D Inversion of Resistivity Data  
P.J. Pujari*, W.P.H. Knoops, P.V. Ditmar & J.W. Bredewout

P014 Elements of Calibration and Data Interpretation of EMI Sounding Device EMS  
E.V. Balkov*, M.I. Epov, A.K. Manstein & Y.A. Manstein

P015 Hydrogeophysical Investigations of a Cork Oak Habitat, Portugal  
S.A. al Hagrey, U. Werban* & A. Ismaeil

P016 Dual-Frequency Subbottom Profiling for the Evaluation of Safety of Offshore Structures  
Y.P. Bezrodnykh & V.P. Lisin*

P017 Investigation of Pollution Resulting from Storage of Deicing Salt by Geophysical Measurements  
K. Martens* & K. Walraevens

P018 Integrated Study of the Sinkhole Development Site Using Geophysical Methods  
M.G. Ezersky*, I. Bruner, S. Keydar, P. Trachtman & M. Rybakov

P019 An Algorithm for the Numeric Combination of Geophysical Mappings of Archaeological Sites  
H. von der Osten-Woldenburg

P020 Exploring Ancient Topography by Seismic Tomography – The Case of the Chatby Cemeteries in Alexandria (Egypt)  
L. Polymenakos* & S. Papamarinopoulos

P021 Geophysical Characterization of a Coastal Acquifer – Initial Results  
H.R. Maurer*, S. Friedel, D. Jaeggi & S. Loew

P022 Detailed Geophysical Study of Glaciofluvial Aquifer at Kempele, Western Finland  
T. Valjus*, O. Breilin, H. Vanhala & J. Lehtimäki

P023 Cross-Hole Electrical Tomography on a Dam  
M. Möller & A. Weller*

P024 Multi-Offset GPR Profiling at the Aquifer Test Site Tettnang (SW Germany)  
A. Becht*, E. Appel & P. Dietrich

P025 Fresnel-Volume Migration of Elastic Seismic Data with Low Spatial Coverage  
S. Lüth*, A. Goertz, S. Buske & R. Giese

P026 Self Potential Measurements During Hydraulic Fracturing of Bunter Sandstones  
M. Grinat*, J. Sauer & W. Südekum

P027 Electromagnetic Data Inversion Using Genetic Algorithm  
N. Amini* & M.K. Hafizi

P028 New Filter for Calculation of Current Density Pseudosections from VLF Dip Angle Data  
N. Amini* & M.K. Hafizi

P029 Elimination of Cable Effects while Multi-Channel SIP Measurements  
T. Radic*
P030 Seismo-Electric Waves – Enhancement of Converted Signals and Polarization
M. Strahser*, W. Rabbel & F. Schildknecht

P031 Evidencing through Geophysical Methods (Electromagnetic and Seismic) the Deformation in Time of the Stratigraphic Limit Caused by the Interaction between the Building and the Foundation Land
V. Ciszkowski, T. Moldoveanu*, E. Oltean, M. Ciuperceanu, L. Bogateanu, V. Nita, I. Cernea & L. Baciu

P032 The Effect of Seasonal Temperature Variations on the Resistivity of Glacial Till
M.O. Cuthbert, E.J.F. Russell, R.D. Barker* & R. Mackay

P033 Geophysical Investigations on the Sophia Kyivska Cathedral Territory in Kyiv
S.P. Levashov, N.A. Yakymchuk*, I.N. Korchagin, J.M. Pyschaniy & J.N. Yakymchuk

P034 Variogram-Analysis in Geomagnetic Prospection of Archaeological Sites
F. Bilgili*, C. Müller, W. Rabbel & H. Stümpel

P035 Hydraulic Conductivity Estimation from Spectral Induced Polarisation Data – A Case History
A. Hördt*, R. Blaschek, A. Kemna, J. Suckut & N. Zisser

P036 Electrical Imaging of Faults in Karst Water Explorations
F. Šumanovac*

P037 A Fast Calibration Procedure to Assess the Reliability of Heat Pulse Flow Meter Measurements
Y. Hacini*, L. Marescot, R. Flynn & D. Chapellier

P038 Georadar Study of Main Distinctive Features of Obraztsovsky Region of Khotynetsky Zeolite Deposit

P039 Finite Difference Modelling for Tunnel Seismology
G. Kneib* & A. Leykam

P040 Development on Generalized Reciprocal Method
A. Darago* & T. Ormos

P041 Comparison of Inversion Results for Dike Investigation
K. Breede, A. Weller & T. Canh*

P042 Development of a 3D Geoelectrical Monitoring System to Follow Hydric Behavior of Soils during Rainfalls
N. Denchik*, A. Rosselet & D. Chapellier

P043 Development of New Equipment for Radiomagnetotellurics (RMT)
A.M. Steuer* & B. Tezkan

P044 MARSES – Possibilities of Long-Term Monitoring Spatial and Temporal Variations and Changes of Subsurface Geoelectrical Section on the Base Results of the Geophysical Survey Salt/Water Interface and Groundwater Mapping on the Marina Di Ragusa, Sicily and Shalter Island, USA
Y.R. Ozorovich*, A.K. Lukomsky & S.A. Potemkin

Near Surface 2004 - 10th European Meeting of Environmental and Engineering Geophysics, Utrecht, The Netherlands
P045 Characteristics of MRS Soundings with Separated Loops
M. Hertrich*, M. Braun & U. Yaramanci

P046 Alteration of Fluid Saturated Sand Characteristic in the Initial Stage of Stabilization
Y.I. Kolesnikov & D.A. Mednykh*

P047 The Results the Study of Radon Concentrations Indoor & in Drinking Water in Albania
S. Dogjani*, L. Langore & F. Vincani

P048 Geophysical Investigations for Archaeological Studying of the Historic Centre of Kazan
Z.M. Slepak* & G.G. Nugmanova

P049 Geoelectrics Estimating Changes in Water Saturation of the Vadose Zone
S. Mares*, L. Zima, J. Dohnal, Z. Jane & J. Knez

P050 Assessment of Water Retention of Agricultural Soils – Flood Prevention with Geophysics
G. Kurz*, M. Müller & U. Yaramanci

P051 3-D Interpretation and Cement Fill Monitoring Using GPR over an Abandoned Gypsum Mine
P. de Beukelaar*, M. Meinter, G. Meyer, A. Saintenoy & E. Sudriez

P052 Dual Interpretation for 2D Refraction Data
H. Hashemi* & M. Nabi-Bidhendi

P053 The Bornheim (Germany) Test Site – Validation of 3 Different Techniques (ESAC, NASW, MASW) to Derive S-Wave Velocity Profiles
S. Parolai, M. Picozzi*, C. Milkereit, S.M. Richwalski, F. Baliva, D. Albarello, K. Roy-Chowdhury, H. Van der Meer & J. Zschau

P054 Advanced Analysis of Self-Potential Data in Ore Deposits and Archaeological Sites
L. Eppelbaum*, B. Khesin, S. Itkis & Z. Ben-Avraham

P055 Increased Water Containing Rocks Zones Searching and Mapping by Geoelectric Methods

P056 Variation of Clay Resistivity with Moisture Loss
E. Russell & R. Barker*

P057 A New Model to Describe the Spectral Induced Polarization (SIP) of Sedimentary Rocks
N. Kitzsch*

P058 About the Application of Electrical Conductivity in Precision Agriculture
E. Lück* & J. Rühlmann

P059 A New Approach in the Detection of Salt Affected Soils; Integrating Surface and Sub-Surface Measurements
J. Farifteh*, A. Bouma & M. van der Meijde

P060 High Resolution GPR and Seismic Investigations – Interpretation through Modelling
G.W. Tuckwell* & N.J. Cassidy
