Accounting Information Systems
An Exploratory Study of Accounting & Financial Module in ERP Systems: Accountants’ Point of View in Turkey
Vichuda Nui Polatoglu and Seval Selimoglu .......................... 1331
IT Auditing: A Possible Career for MIS Majors
Jeffrey W. Merhout and Pauline E. Cothran .......................... 399

Business Data Communications and Networking
The Design and Implementation of an Integrated Web-Based Network Management Accounting System
Alan K. Zhang and Jairo A. Gutiérrez ................................. 1170
A Pricing Scheme for Competitive Access to Wireless Networks
Fernando Beltrán and Matthias Roggendorf .......................... 1290
The State of VoIP Adoption in Contemporary Organizations
Catherine Murphy Bakes, Kholekile L. Gwebu and David X. Zhu .................................................. 492
A Study of the Adoption of Mobile Commerce Applications and of Emerging Viable Business Models
Krassie Petrova .......................................................... 1133
The Battle for an ISP: The Case of a Polytechnic Institution in New Zealand
Nurul I. Sarkar and Nabeel A. Y. Al-Qirim ................................ 691
High Capacity Metro Access Networks: Technologies, Trends, and a Real-World Implementation
Farid Hallouche and John Laprad .................................. 829
Importance Analysis of Each Firm in the Keiretsu of Toyota
Takao Ito and Makoto Sakamoto .................................. 930

Business Process Management Tools and Technologies
A Process Modeling Success Model: Case Study Insights from an Australian Public Sector Organisation
Wasana Sedera and Michael Rosemann ............................... 1158
How Corporate Portals Facilitate Transformational Change
Jeff Gauer ............................................................... 767
Analyzing Loosely Structured Business Processes Using a Minimal Software Prototype
Birger Andersson, Erik Perjons and Ilia Bider .......................... 611
Modelling Multi-Facetted Purposes of Artefacts
Colette Rolland and Naveen Prakash .................................. 411
Managing Uncertainty in Mega-Size Projects from Construction and Engineering Company’s Point of View
Olli-Pekka Salmivuori and Hannu Vanharanta ...................... 1030
Using Roles and Business Objects to Model and Understand Business Processes
Artur Caetano, José Tribolet and António Rito Silva .......................... 796
A Software Component Specification: Founded in Business Processes
Marie-Therese Christiansson and Benneth Christiansson .................. 895
Conceptual Optimization in Business Process Management
Yves Callejas, Jean Louis Cavarero and Martine Collard .................. 232
A Comparative State-of-the-Art for Flexible Workflow Modeling
Selmin Nurcan and Awatef Hicheur .................................. 267
BPM for Native Applications
Khushnood Naqvi and Srinivas Thonse .............................. 1121
Relating Business Process Automation to Workgroup Computing
Brian W. Hollocks .......................................................... 1307

The ProKMuni-Platform: Process Oriented Knowledge Management for Municipalities
Lars Algermissen, Patrick Delfmann and Björn Niehaves .............................................. 28

Partial Completion of Activity in Business Process Specification
Joe Y.-C. Lin and Maria E. Orlowska ......................... 186

A Model to Enhance Risk Management of IT-Supported Business Processes
Christian Otto and Claus Rautenstrauch ...................... 380

BPR versus ISD
Sonia Ayachi Ghannouchi and Faida Ben Dhiab Mellouli ............................................ 997

Business Objects Repository Approach for Managing Changes in Employee IT Support
Matjaz Roblek, Tomaz Kern and Benjamin Urh ........ 1039

Modelling Interdependencies for Electronic Supply Chain Management
Latif Al-Hakim ................................................................. 1002

Organizational Context and Business Process Analysis
Parag Kosalge ................................................................. 20

A Process Modeling Approach to Identify and Locate Potential Crucial Knowledge: The Gameth* Framework
Michel Grundstein and Camille Rosenthal-Sabroux ...... 304

Assessing the Operational Impact of Changes in Business (OIC)
Mayank Gupta and Udhai Kakani Reddy ..................... 363

The Role of Messaging in Collaborative Business Processes
Shazia Sadiq, Maria Orlowska and Wasim Sadiq .......... 526

Information Collection Workflows for Automating Compliance with the UK Data Protection Act
Ben Cawley, Georgios John Fakas and Pedro R. Falcone Sampaio ................................. 1230

A Model for the Business Process Reengineering
Paolo Maresca and Antonino Mazzeo ......................... 1271

A Prototype of Business Process Management Using Web Service
Xin Li and Dongsong Zhang ............................................ 1292

Data Warehousing and Mining

Analyzing the Latent Trait of Association Rules via Item Response Theory
Shinichi Hamano ............................................................. 1183

Performance of a Ternary Bayesian Stacked Generalization
Matthew Donahue and Cecil Schmidt ......................... 1332

DW Techniques in Support of Kronos Banking Business
Fen Wang, Kenny Khoo and Ruodi Liu ......................... 913

Data Warehouse Projects: Increasing Awareness for Assumptions and Complexity from the Perspectives of Business and IT
Alexander Dreiling and Marta Indulska ...................... 375

Prediction for Compound Activity in Large Drug Datasets Using Efficient Machine Learning Approaches
Larry J. Layne and Shibin Qiu ................................. 57

Genetic Algorithm Enabled Data Mining in Information Maturity: A Framework
Pradeep Kumar and Tapas Mahapatra ......................... 1274
Configurative Reference Model-Based Development of Data Warehouse Systems
Ralf Knackstedt and Karsten Klose ................................. 32

Dynamic Data Driven Forecasting Between Foreign Stock Markets
Chiu-Che Tseng, Ching-Tsai Kang and June Wei ........... 572

Detecting Gains from Severe Criminal Activities Using Generic Algorithms for Money Laundering Detection
Christoph Blodig, Tino Jahnke and Juergen Seitz .......... 563

Dimensional Modeling: Identifying Patterns and Classifying Patterns
Mary Elizabeth “M.E.” Jones and Il-Yeol Song .............. 16

Database Management Technologies
Individualized Student Database Projects and How to Assess Them
Jeanne M Baugh ............................................................. 761

Architecturing Personalized Information Retrieval and Access Services in Data Intensive Domains
Nong Chen and Ajantha Dahanayake .............................. 1050

Towards Centralized Control and Autonomous Discovery and Data Retrieval of Distributed Heterogeneous Databases: A Conceptual Framework for Federated Database Systems
Xiaozhou David Zhu and Alan A. Brandbyberry .......... 1000

A Mining Approach to Support Database Evolution
Martine Collard ............................................................. 759

Embedded SOAP Server on the Operating System Level for Ad-Hoc Automatic Real-Time Bidirectional Communication
Thomas B. Hodel, Florian Specker and Klaus R. Dittrich ................................................................. 384

A Benchmark Comparison Between Native XML and Relational Databases
Alexander van der Linden and Paul Darbyshire ........... 216

Building a Data Quality Aware Internet Query System for Health Care Applications
Sandra de F. Mendes Sampaio, Chao Dong and Pedro R. Falcone Sampaio .................................................. 1217

An Analysis of XML Document and Data Storage Technology
Wouter Zell and Ajantha Dahanayake ............................ 808

Decision Support Technologies
A Normative, Simulation-Based Approach to Evaluating the Contribution of Conflict-Management Mechanisms to Groupware Effectiveness
Richard Burkhard and Thomas Horan .............................. 507

The Web Based Trident Application for Analyzing Qualitative Factors in Mega Project Management
Heli Aramo-Immonen, Jussi Kantola, Hannu Vanharanta and Waldemar Karwowski ............................................... 1027

Building Optimal Back-Propagation Trained Neural Networks for Firm Bankruptcy Predictions
Gary Qing Guan and Jim Q. Chen ................................. 449

A Web-Based Qualitative Decision Support Tool for Managing R&D
Olli Naukkarinen, Jussi Kantola and Hannu Vanharanta ................................................................. 1124

Some Issues in the Application of Artificial Intelligence: Expert Systems Methods of Economic Analysis
Andrew Ben Nyaboga, Muroki F. Mwaura and Finbar A. Fletcher ............................................................. 1241

Impact of Technology on the Legal System: An Initial Study of a Law Firm
Stan Lewis, Ernest W. King, Chang-Tseh Hsieh, Kuo-Lane Chen and Eddy J. Burks ............................................. 922
An Automatic Vehicle Classification System Using Pattern Recognition
H. Leng and Y. Lin .......................................................... 919

An Approach to Semantic Integration of Structured and Unstructured Data to Improve the Interoperability Between Decision Support Systems
Liane Haak and Axel Hahn .................................................... 1256

Intelligent Processing of Remote Sensing Imagery for Decision Support in Environmental Resource Management: A Neural Computing Paradigm
Yuriy V. Shkvarko and Ivan E. Villalon-Turrubiates ........ 1060

Intelligent Decision Support for Strategic E-Business Management: Stage I
Fen Wang and Guiseppe Forgionne ........................................ 1007

Decision Making and Information Visualization: Research Directions
Vince Kellen ........................................................................ 741

Distance Learning Technologies
Distance Mode Management Education through Technology
Vilas D. Nandavadekar, Z.S. Mulla and Gurudas Nag ....... 727

Learning Partnership: A Student-Centered Knowledge Delivery Beyond the Academic Walls
Mihyar Hesson, Fatima Kaneez and Hayder Al-Ameed ........ 698

E-Learning Critical Success Factors: An Exploratory Investigation of Student Perceptions
Hassan M. Selim .................................................................. 340

Assessing Satisfaction and Academic Locus of Control of Dropout Students in e-Learning Courses
Yair Levy ........................................................................... 402

Religious Institutions and Distance Learning
P. Clint Rogers and Scott L. Howell ..................................... 1361

Scalability Factors in Online Learning
R. Dwight Laws and Scott L. Howell .................................. 1366

Student Support Services in Distance Learning
Scott L. Howell and Wendi Ryder ....................................... 1370

Diversity in Information Technology
Bridging the International Digital Divide: Content Relevancy and Creation
Xiao Han and Xusheng Wang ................................................ 718

Computer Forensics
Leroy Beals ........................................................................ 1333

Enhancing the Information Technology Knowledge and Skills of Indiana High School Teachers and Their Students
Julie R. Mariga ...................................................................... 776

E-Business Research
Exploring E-Business Adoption: A European Perspective
Matthew Hinton and David Barnes ....................................... 1115

Shopbot Market Coverage
Gove Allen and Jianan Wu .................................................. 636

Electronic Markets and Infrastructure in India: Emerging Trends
M.J. Xavier and G. Balasubramanian .................................. 1207

Managing e-Business Change within a Global e-Marketplace
Colin G. Ash ......................................................................... 53

Information Quality Requirements of E-Business
 Wichian Chutimaskul and Sivaporn Wangpipatwong ......... 889

E-Business Transformation: An Emerging Model of Change in the E-Fulfilment Industry
Paul Alexander and Janice Burn ......................................... 315
Towards an Electronic Marketplace Design for the German Geographic Information Industry
Marcel Gogolin, Christoph Brox and Stefan Klein ........... 738

Do the Key Mediating Variables of Overall Satisfaction, Trust and Commitment Affect Low and High Relational Customers’ Future Intentions in Virtual Auctions?
Thomas J. Decker and Andrew S. Borchers .............. 476

The Effects of Customization on Satisfaction with Mobile Systems
Jean Lam, Susy Chan, Xiaowen Fang and Jacek Brzozinski ...................................................... 44

The Development of Business Models for Internet Portals: An Explorative Investigation of Revenue Streams
Björn Ortelbach ................................................... 290

Architecture for Next-Generation Holistic E-Recruiting
In Lee ............................................................. 987

IT Skills in E-Commerce Jobs
Abdulrahman A. Mirza ........................................ 1095

Bargain Shopping on the Web: An Empirical Investigation
Pola Gupta and Michael Klassen ................................. 1334

Conceptualization of an Approach for Automatic Re-Classification of Product Data
Sven Abels and Axel Hahn ...................................... 1074

Evaluating E-Business Level of Firms and Industries: The KEBIX Case
Dong-Sung Cho, Hea-Jung Kim and Kyoung Jun Lee .... 202

The Impact of Web Assurance Seals on Consumer Trust
Xiaorui Hu, Guohua Wu, Yuhong Wu and Han Zhang .... 462

The Notion of “Promises” in the Context of Web Site Design
Fatina Aweidah and Felix B. Tan ................................. 671

E-Collaboration
David Mayrhofer, Andrea Back, Roger Hubschmid and Florian Heidecke ........................................ 845

Leveraging the Virtual Concept to Improve Value Delivery: Some Lessons from Hong Kong
O.K.B. Barima and S.M. Rowlinson .............................. 123

DWM Technology: An Enabler of E-Collaborative Networks and LambdaGrids
Marlyn Kemper Littman .......................................... 701

A Framework for Identifying the Conditions for Effective Collaborative Commerce Adoption
Michelle Rowe, Helen Crippe, Janice Burn, Craig Standing, Beth Walker and Shirley Bode ................................ 651

Impacts of Web-Based Collaboration in Managerial Control and Work Practices: The Case of Introducing a Web-Based Collaboration Platform in a Construction Consortium
Athanasios Nikas and Angeliki Poulymenakou ............. 5

The E-Collaboration Paradox: A Study of 290 New Product Development Teams
Ned Kock and Gary Lynn ....................................... 444

Electronic Commerce Technologies Management
Generation and Storage of Contract Records in Electronic Businesses
Suresh Chalasani and Jayavel Sounderpandian ............ 786

Relationships Between Consistency of CRM and User Preferences in E-Commerce
A. Ant Ozok, Kristen Oldenburger, Booz Allen Hamilton and Gavriel Salvendy ........................................ 363
Electronic Government Research

Assessing E-Government Evolution in Mexico: A Preliminary Analysis of the State Portals
Rodrigo Sandoval Almazán and J. Ramón Gil-García .......................... 1083

Epistemological Perspectives on Multi-Methodological Electronic Government Research
Bjoern Niehaves, Lars Algermissen and Joerg Becker .......................... 258

Trends in E-Government and Their Implications for the Construction Industry: A Customer-Supplier Value Delivery Perspective
O.K.B. Barima ................................................................. 730

What Leads to Highly Functional State Websites? Exploring the Effects of Organizational, Institutional, and Contextual Factors
J. Ramón Gil-García ........................................................ 1222

Citizen Service Management, Web Portal Aggregation, and Electronic Service Delivery Performance
Assion Lawson-Body and Glenn Miller ........................................ 1077

Feng Huiling, Zhao Guojun and Wang Jian ..................................... 995

Defining E-Government and E-Readiness
Hany Abdelghaffar and Walaa Bakry ............................................ 1233

A Taxonomy of Business Models: BM Patent Analysis
Chulhyun Kim, Changwoo Choi, Youlbeen Kang, Juneseuk Shin and Yongtae Park ................................................................. 1112

E-Government: Transparency and Accountability
V.S. Venkatesan ................................................................. 863

End User and Organization Computing

A Conceptual Framework and Model for Design of End-User Information Systems Curricula
Lola B. Smith, C. Steven Hunt, Rik Berry and Darla Hunt .......................... 68

A Conceptual IT Training Model for Motivations to Learn and Transfer, and Organizational Performance
Albert Leung ................................................................. 242

A Longitudinal Case Study of End-User Satisfaction
Timo Leino ................................................................. 300

Critical Success Factors for Information Systems Implementation: An End-User Perspective
Hepu Deng and Pramila Gupta ................................................ 80

The Expectation-Confirmation Model of IS Continuance: A Replication in a Scandinavian E-Bank Context
Anne Sørebø, Johnny Andreassen and Roger Karlsson .......................... 205

An Empirical Examination of the Relationship Between Computer Self-Efficacy and Computer Training Outcomes
Bassam Hasan ................................................................. 9

The Impact of Interpersonal Conflict Between Managers and Users on Information Systems Success During the Implementation of a New Information System
Øystein Sørebø, Ann-Kristin Elstad, Anita Gustavsen and Tor J. Larsen ................................................................. 198
Enterprise Information Systems

Impact of IT Trajectories on ERP Adoption
Michael Wybo and Pierre-Majorique Leger

Application Usage Mining to Improve Enterprise Workflows: ERP Systems SAP R/3 as Example
Gamal Kassem and Claus Rautenstrauch

Essential Characteristics of Process Transformation in Real-Time Enterprises Information Integration
Vikas S. Shah

Defining Business Agility: An Exploratory Study
Sathasivam Mathiyalakan, Noushin Ashrafi, Wei Zhang, Frenck Waage, Jean-Pierre Kuitboer and David Heimann

An Approach to Increase Adaptability in ERP Systems
Katja Andresen and Norbert Gronau

Migration Paths to Integrated Asset Management Systems at Electric Power Distribution Utilities
Lars Nordström

Data Quality Issues in Asset Management
Shien Lin and Andy Koronios

Measuring the Maturity of Data Integration
Daniel S. Lah

The Expanding Role of IT Trainers for Enterprise Information Systems: A Case Study
Timothy Shea, Omar Khalil and Angappa Gunasekaran

The Application of Enterprise Resource Planning Packages in Large Organizations: Developing a Conceptual Framework to Explore Their Impact on Organizational Structure
L. Wang and N.F. Doherty

Implications of Enterprise Architecture for Enterprise Information Systems
Sudeep Mallick and Rakesh Mishra

A Preliminary Study of Organizational Culture and Enterprise Systems Success
Peter Birbeck and Glenn Stewart

Critical Success Factors to ERP Implementation: A Technology Innovation Perspective
Hayward P. Andres

Web Service-Based ERP Systems and an Open Security Model
Nico Brehm, Jorge Marx Gómez and Claus Rautenstrauch

Global IT Management

Issues and Challenges in Global IT Outsourcing
Subhankar Dhar and Bindu Balakrishnan

E-Customer Chain Management for Airline Industry
William Echols, June Wei, Chiu-Che Tseng and Lai Liu

Digital Offshore Outsourcing: The Hidden Transaction Costs
Kathleen S. Hartzel and Jennifer Paige Nightingale

Relationship Antecedents in Outsourcing Success: Empirical Investigation of Three Outsourcing Relationships
Usman Waheed, Alemayehu Molla, and Adekunle Okunoye

Optimizing the Email Communication Environment
Thomas W. Jackson, A.Burgess and J.Edwards

Human Computer Interaction

Catching Missing Attachments: The Use of Alternative Presentation Techniques to Increase the Usability of Low Precision Systems

Vladimir Modrák and Imrich Kiss
Search Engine Result Bias: An Empirical Investigation of Commercial Web Based Search Tools
Kholekile Gwebu and Jing Wang .......................... 584

Managing Ethics in GIS Implementations
David Gadish .................................................. 815

The Use of Dataglyphs in Mail Surveys: Methodological and Ethical Implications
Esperanza Huerta ............................................. 746

IT as a Profession: Ethical Implications
Robert A. Schultz ............................................ 778

Webmaster Perceptions of Ethics within an IT Setting
Alfreda Dudley-Sponaugle and Jonathan Lazar ............. 164

Information Security Management

Use of Reconnaissance Patterns for Intelligent Monitoring Model
Mariana Hentea .................................................. 160

An Empirical Investigation into Actual User Password Use from an E-Commerce Site
Joseph A. Cazier, B. Dawn Medlin and Dinesh S. Dave ... 704

Comparing and Matching Privacy Policies Using Community Consensus
George Yee and Larry Korba .................................. 208

Classification of Online Gaming Crime and Security
Ying-Chieh Chen, Ronggong Song, George Yee, Larry Korba and Patrick S. Chen ........................................ 941

Student Perceptions of IT Risk in Banking
James A. Nelson and Maria de Boyrie ......................... 1254

Sending Messages via Port Knocking
Scott Magruder, Stanley X. Lewis Jr., Kuo Lane Chen and Eddy J. Burks .................................................. 1214

Security Model for Businesses with Network Data Structures
Lech J. Janczewski and Victor Portougal ..................... 522

Scenarios for Privacy Rights Management Using Digital Rights Management
Larry Korba, Ronggong Song, George Yee and Bomy Chen ................................................................. 468

Developing a Knowledge Architecture for IT Security
Someshwar Kesh and Pauline Ratnasingham ................ 1010

Cyber-Terrorism: A Threat to Australia?
Christopher Begg ............................................... 472

Issues and Challenges for Secured Ad Hoc Collaboration
Kristie Kosaka and Samir Chatterjee ........................ 115

Enhancing Information Security: A Qualitative Risk Analysis Method for Overcoming the Insider Threat
Patricia Y. Logan and Allen C. Clarkson ....................... 212

WLAN Client Authentication
Goran Pulkkis, Kai J. Grahn and Jonny Karlsson ............ 95

Watermarking Application System for Map Content Distribution
Takaaki Yamada, Yasuhiro Fujii, Isao Echizen, Satoru Tezuka and Norihisa Komoda ................................. 618

Adoption of Instant Messaging in an Information Security Supervision and Management Environment: An Empirical Study in Workplace Adoption
Xin Luo, Cheon-Pyo Lee and Merrill Warkentin .......... 856

Information Security Risk Analysis: A Matrix-Based Approach
Sanjay Goel and Vicki Chen ................................... 220

Implementing a Comprehensive Information Security Laboratory Infrastructure: A Case Report
Jean-Philippe Labruyere, Linda V. Knight and Theresa A. Steinbach ......................................................... 959
