-REWAS’04-
GLOBAL SYMPOSIUM ON RECYCLING, WASTE TREATMENT AND CLEAN TECHNOLOGY

VOLUME – I

- SUBJECTS -
AUTOMOTIVE RECYCLING
CASE STUDIES
COMPOSITE MATERIALS
CONVERSION AND REUTILIZATION
DESIGN AND ENGINEERING OF WASTE TREATMENT PLANTS
FLY ASHES
GENERAL RECYCLING AND EFFLUENTS TREATMENT
INDUSTRIAL SITES
LIGHT METAL RECOVERY AND SECONDARY PRODUCTION
LIGHT METALS
PILOT SCALE INVESTIGATION ON THE UTILIZATION OF
PELLET SCREENINGS IN THE SINTERING MACHINE FEED CAKE ..........................3
Helio C. Pereira, Antonio E. C. Peres

STABILIZATION OF AUTOMOTIVE SHREDDER RESIDUE
BY CALCIUM SULFOALUMINATE CEMENT ..................................................................13
Jean Péra, Jean Ambroise

CONCEPT OF VEHICLES RECYCLING IN POLAND ..................................................19
Piotr A. Wrzecioniarz, Wojciech Ambroszko, Leszek Janusiewicz, Dominik Laska,
Krzysztof Oldakowski

SEPARATION OF AUTOMOBILE SHREDDER RESIDUES FROM
END-OF-LIFE VEHICLES AND PREPARATION OF RDF BY HOT MOLDING ..............27
Hwa-Young Lee and Jong-Kee Oh

THE EFFECT OF DESIGN ON RECYCLING RATES FOR
CARS PART 1 – THEORY ..................................................................................35
A. van Schaik and M. A. Reuter

THE EFFECT OF DESIGN ON RECYCLING RATES FOR
CARS PART 2 – PRACTICE ..................................................................................45
A. van Schaik and M. A. Reuter

CASE STUDIES

COMPARISON STUDY FOR DURABILITY OF MORTARS CONTAINING
DIFFERENT POZZOLANIC MATERIALS ..........................................................61
A.A.F. Shaheen

DEHALOGENATION: A KEY TECHNOLOGY FOR FEEDSTOCK
RECYCLING OF MUNICIPAL WASTE PLASTICS (MWP) AND
COMPARISON WITH AUTOMOBILE SHREDDER RESIDUE (ASR) .....................71
Yusaku Sakata, Thallada Bhaskar, Akinori Muto, Md. Azhar Uddin

DEVELOPMENT OF TECHNOLOGIES FOR RECYCLING INCINERATOR
FLY ASH AND SLAG ..................................................................................81
Mototsugu Matsuno, Katsuhiro Tomoda, Takashi Nakamura.

CONVERSION AND REUTILIZATION OF MINING AND METALLURGICAL
WASTE: CASE STUDY IN THE MURMANSK REGION, NW RUSSIA .....................93
Anatoly N. Vinogradov and Vyacheslav A. Tsukerman

— xi —
INTEGRATED PLANT, PROCESS AND PRODUCT UNDERSTANDING IN
THE HIGH TEMPERATURE MINERAL PROCESSING INDUSTRY: AN
IN PROGRESS CASE STUDY OF SYNTHETIC AGGREGATE .........................103
Derren J.F. Cresswell, Peter J. Wainwright, Mick McKeever and Mark Kelly

DEVELOPMENT OF RDF MANUFACTURING SYSTEM FOR ASR USING
A NEW BRIQUETING MACHINE ..............................................................113
Takashi Furuyama, Katsuaki Inoue, Abel Bissombolo, Sukeyuki Mori,
Masamichi Hata, Tetsuo Ikejiri, Yoshitsugu Koga

COMPOSITE MATERIALS

MECHANICAL PROPERTIES AND MICROSTRUCTURE OF PIASSAVA
FIBER COMPOSITES WITH POLYESTER MATRIX ......................................125
Regina C.M.P. Aquino, José R.M. d’Almeida, Sergio N. Monteiro.

STRUCTURE AND PROPERTY RELATIONSHIPS IN TERNARY
POST-CONSUMER POLYPROPYLENE / HIGH IMPACT POLYSTYRENE /
FILLER COMPOSITE FILM .................................................................133
Ruth Campomanes Santana, Sati Manrich

THERMOPLASTIC COMPOSITES WITH CELLULOSE FIBERS ......................143
Anna Kozłowska, Marek Kozłowski, Inga Polec

THE INFLUENCE OF ISOCYANATE COMPONENTS ON THE
PROPERTIES OF URETHANE WASTE RUBBER COMPOSITES ....................149
Wieslaw W. Sułkowski, Adam Danč, Marek Moczyński, Agnieszka Radoń,
Anna Sułkowska, Jerzy Borek, Anna Pszczela

RECYCLING OF DISCONTINUOUSLY REINFORCED ALUMINUM-MATRIX
COMPOSITES BY AN INNOVATIVE GASEOUS PROCESS ............................159
Ana E. Bohé and Horacio E. Nassini

CONVERSION AND REUTILIZATION

UTILISATION OF WASTE MATERIALS IN CLAY BUILDING BRICKS ..............171
Ana Andrés, M. Carmen Díaz, Alberto Coz, Javier R. Viguri, Ángel Irabien

ENHANCED RECYCLING TECHNIQUES FOR ASPHALT PAVEMENTS, AS
STUDIED IN THE PARAMIX PROJECT ..................................................183
Luc De Bock and Martín Bou Jove

THE USE OF CONSTRUCTION AND DEMOLITION AGGREGATE
IN BITUMINOUS CONCRETE FOR ROAD BASE LAYERS ..........................93
Marco Pasetto, Nicola Baldo
DEVELOPMENT OF AN INNOVATIVE MINERAL CATALYST ADDED PELLETISED FUEL FROM ORGANIC WASTES; INTERMEDIATE PROJECT RESULTS .......................................................... 319
Christoph M. Friedrich; Mikel Belsue; Elmar K. Wolff

WASTE FREE PROCESSING OF SOLIDS USING AGGLOMERATION TECHNOLOGIES .......................................................................................... 327
Wolfgang Pietsch

INNOVATIVE RECYCLING TECHNOLOGY FOR END OF LIFE REFRIGERATOR USING HIGH SPEED CUTTING SYSTEM WITH SAFE RECOVERY OF FLUOROCARBON GAS FROM POLYURETHANE FOAM .............................................. 341
Mikio Yotsumoto, Yutaka Matsuda

VALORIZATION OF WOOD INDUSTRY BY-PRODUCT FOR BIOLOGICAL ELIMINATION OF VOLATILE ORGANIC COMPOUNDS ........................................ 351
Leslous, P. Pré, A. Delebarre

OPTIMIZATION OF IRON AND CHROMIUM RECOVERY FROM MIXED-ACID PICKLING LIQUORS ........................................................................... 361
Javier Dufour, José L. Gálvez, Carlos Negro, Federico López-Mateos

PROCESSING OF RED MUD FOR DEVELOPMENT OF WOOD SUBSTITUTES ........ 371
Mohini Saxena, and C. R. Mishra

SUBSTITUTION OF ALUMINA BY SPENT CATALYST CARRIER IN THE REFRACTORY PRODUCTION ............................................................... 381
Vladyslav M. Sokolov, Luydmila G. Litvin, Valeriy V. Martynenko, Alexander V. Suvorin, Alexander N. Mekhed

ADSORPTION BEHAVIOUR OF COPPER ION ON DEEP-SEA MANGANESE NODULES .................................................................................. 391
Kyung-Ho Park, Beom-Sik Roh, Chul-woo Nam

A COMPARISON OF THE MINERALOGICAL CHARACTERISTICS AND ALKALI ROASTING BEHAVIOUR OF RED MUD OF DIFFERENT ORIGINS ......................................................... 401
V. Tathavadkar, A. Jha, T. Fülöp, T. I. Török, and Á. Rédey

PROCESSING OF SPENT CATALYSTS FOR RECOVERY OF VALUABLE ELEMENTS ....................................................................................... 411
Júlio Carlos Afonso, Ana Acácia de Sá Pinheiro, Paula Constante Campos, Tatiana Siqueira de Lima, Graziele Cristine Silva, Renata de Melo Aguiar, Mayko de Sousa Menezes, Emmanuel Soares Santos and Alexandre Barboza Pontes

NATURAL FIBRE COMPOSITES FOR AUTOMOTIVE APPLICATIONS ............... 423
A. Rubio, C. Elitzetxe, N. Calleja, and I. Gaztelumend

— xiv —
USE OF IRRADIATED BIOSOLIDS AS FERTILIZERS FOR
INDUSTRIAL CROP ................................................................. 433
Cecilia Magnavacca, Mónica Sánchez, Federico Pérez Zamora

COMPREHENSIVE PROCESSING OF WASTE OF PHOSPHORUS
INDUSTRY RESULTING IN THE PRODUCTION OF MINERAL FILLERS .......... 445
Z.S. Abisheva, A. N. Zagorodnyaya, E.G. Bochevskaya, V.V. Matichenkov,
Corby G. Anderson

RECYCLING OF SILICON FOR SEMICONDUCTORS BY VACUUM
REMELTING TECHNIQUE ..................................................... 457
Norichika Yamauchi, Takehiko Shimada, Masafumi Maeda

INVESTIGATION ON THE CEMENTITIOUS MATERIALS OF BLAST
FURNACE SLAG ACTIVATED BY USING VARIOUS
WASTE-RECYCLING MATERIALS ............................................. 465
Ji-Whan Ahn, Jin-Sang Cho, Kwang-Suk You, Sung-Min Cheon, Gi-Chun Han,
Ki-Suk Han, Hee-Chan Cho and Myung-Hwan Oh

USE OF RECYCLED NATURAL FIBER WASTES AS REINFORCEMENT
FOR POLYMERIC COMPOSITES ............................................. 475

ENVIRONMENTAL AND TECHNICAL ASPECTS OF THE UTILIZATION
OF LEATHER SHAVINGS FROM CHROMIUM-TANNED LEATHER AS
RAW MATERIAL TO CERAMIC TILE INDUSTRY ......................... 483
Tania Basegio, Andréa M. Bernardes, Jaime Pedrassani and Carlos P. Bergmann

ENVIRONMENTALLY CORRECT PROCESS FOR INDUSTRIAL
DIAMOND PURIFICATION .................................................... 493
A.L.D. Skury, G.S. Bobrovnitchii, S.N. Monteiro, G.S.D. Medeiros

PRE-LABORATORY ASSESSMENT OF THE REUSE-POTENTIAL
OF INDUSTRIAL WASTES IN CLAY-BASED PRODUCTS ................. 503
A.M. Segaddes, C. Kniess, W. Acchar, N.C. Kuhnen and D. Hotza

ADAPTATION OF PROCESS CONTROL TO INCREASED PHOSPHOROUS
CONTENT OF RAW MATERIALS IN FERROVANADIUM PRODUCTION .......... 513
Markus Hochenhofer, Helmut Antrekowitsch and Matija Juhart

VITRIFICATION OF COPPER FLOTATION WASTE .......................... 525
Alexander Karamanov, Mario Pelino, Mirko Aloisi, Giuliana Taglieri,
Osman Nuri Ergun, Semra Coruh

DEPHOSPHORIZATION PROCESS BY USING POTASSIUM FERRITE
FOR PRODUCING FERTILIZER ............................................ 537
Yasushi Sasaki, Mitsutaka Hino and Manabu Iguchi

— XV —
REACTION OF URANIUM CONTAINING WASTES IN GASIFICATION PROCESS ...545
Takashi Makita, Kazuhiro Arai, Nobuaki Sato

CHEMICAL EXTRACTION OF LITHIUM FROM LiCoO₂ USING OXALIC ACID .....553
C. K. Lee, J.S. Sohn, H. J. Sohn, and K.-I. Rhee

PRODUCTION OF MAGNESIUM COMPOUNDS FROM KUMA (TURKEY)
ELECTRO-FILTER MAGNESITE DUST WASTE .............................................563
Muammer Kaya and Necmettin Erdödän

DESIGN AND ENGINEERING OF WASTE TREATMENT PLANTS

FLOW SIMULATION OF SHREDDED SOLID WASTE IN A ROTARY-KILN
HAZARDOUS WASTE INCINERATOR .............................................................575
Yongxiang Yang, Markus A. Reuter and Joep Verwoerd

DEVELOPMENT OF SONET PROCESS AND PLANT CONSTRUCTION
AIMED AT THE MATERIAL RECYCLING BUSINESS OF WASTE
GLASS FIBER REINFORCED PLASTIC BOATS ...........................................593
Masaru Fujinaga, Yuhsuke Tsutsumi, Tamotsu Fukui, and Masao Suzuki

A DYNAMIC MODEL FOR METAL PRODUCTION AND WASTE
MANAGEMENT .........................................................................................603
Markus A. Reuter, Gerard P.J. Dijkema and Jacques Villeneuve

CONCEPTUAL DESIGN OF ELV DISMANTLING SYSTEM BASED
ON SIMULATION ....................................................................................617
Myon-Woong Park, Young-Tae Sohn

FLY ASHES

FILLERS ELABORATED FROM STABILISED MSWI FLY ASH USED
IN DIFFERENT TYPES OF ROAD APPLICATIONS: LAB, PILOT AND
FULL SCALES OF EXPERIMENTATION ..................................................629
G. Bröns-Laot, J. Mehu, C. Bazin

GASIFICATION OF FLY ASH IN BUILDING CERAMICS ........................639
Mónica Aineto, Isabel Iglesias, Anselmo Acosta

THE MELTING CHARACTERISTIC OF THE VARIOUS INCINERATION
ASHES BY THE PLASMA MELTING FURNACE .......................................649
Shigeyoshi Tagashira, Hisanori Shimakura, Yoshiaki Shimizu, Yasushi Kajiwara

CLEAN TECHNOLOGY FOR BULK UTILISATION OF COAL ASH
IN AGRICULTURE ..................................................................................655
Mohini Saxena, S. Murali, P. Asokan C. R. Mishra, H. K. Pal

— xvi —
USE OF BOTTOM ASH IN CONCRETE .................................................................665
Hee Chan Cho, Kwan Ho Kim, Kwang Soon Moon, Dae Ho Kim, Kwang Woo Park

AERATED AUTOCLAVE CONCRETE FROM FLY ASH AND EFFECTS
OF FLY ASH COMPOSITION ........................................................................675
V. Madhusudhan Rao

VITRIFICATION OF INDUSTRIAL WASTES .....................................................685
J.Ma. Rincón, Mª. S. Hernández-Crespo and M. Romero

HARMLESSNESS TREATMENT BY STABLE MINERALIZATION
OF INORGANIC WASTE CONTAINING HARMFUL COMPONENTS .......................697
Hiroyuki Sano, Masa-aki Yamade and Toshiharu Fujisawa

IMPROVEMENT OF THE ENVIRONMENTAL CHARACTERISTICS
OF MSWI-BOTTOM ASH BY WASHING, HEATING OR
CARBONATION IN VIEW OF RECYCLING .....................................................707

INCORPORATION OF FLYING ASHES FROM A MSW INCINERATION
PLANT INTO MORTARS. MAIN PROPERTIES AND
HYDRATION MECHANISMS ........................................................................719
Amparo Moragues Terrades, Kátia Frassi de Souza, Manuel Fernández Cánovas

NEW MATERIALS FOR QUARRY BACK-FILLING AND UNDERGROUND
CONSTRUCTIONS BASED ON MSWI BOTTOM ASH REUSE :
NEW MATERIALS DEVELOPMENT AND ECO-
COMPATIBILITY ASSESSMENT ................................................................735
M-A.Aubry, G. Evers, M-C. Magnié, J.Méhu, R.Pierkes, B.Vandenbroucke,
J. Santos Oliveira, G.Depelsenaire

INNOVATIVE MORTARS CONTAINING MSWI BOTTOM ASHES FOR
QUARRY BACK-FILLING : ENVIRONMENTAL ASSESSMENT
OF LONG TERM BEHAVIOUR .....................................................................745
G. Bröns-Laot, Rr. Barna, L. Tiruta-Barna, J. Méhu, P. Moszkowicz,
M-A. Aubry, M-C. Magnié

THE COMPLETE REUTILIZATION OF INCINERATOR ASH USING
A NOVEL PARA-eco RECYCLING SYSTEM BASED
ON REDUCTION REFINING TECHNOLOGY .............................................757
Kiyoshi Takai, Ken-ichi Ohkura, Kosuke Murai, and Masao Suzuki

USE OF BIOMASS ASHES AS AN ADDITION TO RED CERAMICS ...............767
M.C. Borlini, H. F. Sales, C.M.F. Vieira, R.A. Conte, D.G. Pinatti, S. N. Monteiro

PROCESSING OF RICE HULL ASH FOR PRODUCTION OF SODA-GLASS ......775
Amer, A.M.
GENERAL RECYCLING AND EFFLUENTS TREATMENT

CATALYTIC PROPERTIES OF ALUMINA IN THE REDUCTION OF NITROGEN MONOXIDE BY PROPYLENE IN THE PRESENCE OF OXYGEN: “NO” ADSORPTION AND CATALYTIC ACTIVITY ..........................................................785
Tiep Le Van, Nguyen Quoc Thiet, Cyril Thomas, Gerald Djega-Mariadassou

MECHANOCHEMICAL SYNTHESIS OF A VISIBLE-LIGHT ACTIVE PHOTOCATALYST ..........................................................793
Qiwu Zhang, Jun Wang, Shu Yin, Tsugio Sato and Fumio Saito

PRINCIPLES OF RECYCLING WATERS CONDITIONING IN FLOTATION ........................................801
A.A. Abramov and G.G. Shtoik

SEPARATION OF METAL AND NON-METAL PARTICLES USING A SHAKING PARTICLE BED ..................................................811
Hirosi Nakazawa, Yasuo Kudo and Eiji Huijwara

THE POTENTIAL OF A FRIENDLY ENVIRONMENTAL BIOCOLLECTOR FOR HEMATITE-QUARTZ FLOTATION SYSTEM ..................................................817
L. M. S. de Mesquita, M. L. Torem, F. F. Lins

CREATING NEW LIBERATION MODEL CONSIDERING PREFERENTIAL BREAKAGE AT PHASE BOUNDARIES FOR MATERIAL RECYCLING ...........................................829
Shuji Owada, Takayuki Ohmiya, Ryosuke Oda, and Mayumi Ito

INDUSTRIAL SITES

SINTERED GLASS-CERAMICS FROM END OF LIFE CATHODE RAY TUBES GLASS ..........................................................843
Fernanda Andreola, Luisa Barbieri, Anna Corradi, Isabella Lancellotti

REMOVAL OF MERCURY FROM CONTAMINATED SOILS AT THE PAVLODAR CHEMICAL PLANT ..................................................853
V. Ye. Krhapunov, R. A. Isakova, B. L. Levintov, P. D. Kalb, I. M. Kamberg, A. Trebukhov

CADMIUM POLLUTION IN THE WEATHERED ZINC METALLURGICAL DISPOSAL LANDFILL WASTE SITE OF INGÁ, RIO DE JANEIRO, BRAZIL A REMEDIATION PROPOSAL ..................................................861
Vida Espinola, Luiz Gonzaga Santos Sobral, Ronaldo Luiz Correa dos Santos and Byron Rosemberg dos Santos Costa

STUDY OF THE EFFECTS OF RESIDUES CO-PROCESSING ON THE CEMENT PROPERTIES ..................................................871
T. I. Garcia, F. J. Moura and L. C. Bertolino

ELECTROREMEDIATION OF Cr(VI) CONTAMINATED SOIL: IDENTIFYING SCALING-UP CRITERIA ..................................................881
C. Sanjay, D. Pradhan, P.P. Sahoo, R. Shekhar, R. P. Das

— xviii —
LIGHT METAL RECOVERY AND SECONDARY PRODUCTION

RECYCLING TITANIUM AND OTHER REACTIVE METAL SCRAPS
BY UTILIZING CHLORIDE WASTES ................................................................. 893
Toru H. Okabe, Ryosuke Matsuoka, Osamu Takeda

GAS TREATMENT AS A REFINING PROCESS FOR ALUMINUM RECYCLING ......903
M. Ebner, H. Antrekowitsch, K. Gamweger and R. P. Campabadal

ALUMINA OR MULLITE-BASED PIGMENTS MADE FROM WASTES
OR NATURAL SUB-PRODUCTS ..........................................................................913
V. Gomes, A. P. Novaes de Oliveira, L. D. Carlos, R. A. Sá Ferreira, T. Trindade,
J.A. Labrincha

TREATMENT OF ALUMINUM PRODUCTION SLAG AIMING AT DESTROYING
CYANIDE AND RECOVERING INORGANIC RAW MATERIALS .......................923
Luis Gonzaga Santos Sobral, Ronaldo Luiz Correia dos Santos and
André Luiz Ventura Fernandes

DETERMINATION OF THE AMOUNT OF ALUMINUM CONTENT
IN ALUMINUM DROSS THROUGH X-RAY DIFFRACTION ..................................929
Adriana Gómez, Nelson Batista de Lima, Jorge Alberto Soares Tenorio

INFLUENCE OF TIC ON THE ELECTRICAL CONDUCTIVITY
OF TITANIA SLAG ........................................................................................... 937
Shu-Lan Wang, He-Xiang Zhong, and Dan-Zhao Shi

LIGHT METALS

RECYCLING OF ALUMINIUM BY FLOTATION ................................................. 947
Ljudmilla Bokányi

IMPROVEMENT OF ALUMINA RED MUD PROPERTIES FOR
THE DEVELOPMENT OF A REVEGETATION COVER ......................................959
A. Xenidis, A.D. Harokopou, E. Mylona, G. Brofas

SYNTHESIS OF HYDROTALCITE-LIKE COMPOUNDS FROM ACID
WASTE STREAMS FROM THE AI-ANODISING INDUSTRY ..................................969
E. Álvarez Ayuso and H. W. Nugteren

— xix —
