Contents: Volume 2

Proceedings of the 2005 IEEE International Conference on Web Services

ICWS 2005

Message from the General Chairs .............................................................................. xvii
Message from the Industry Program Co-Chairs .......................................................... xix

Tutorial Sessions

Distributed System Development Using Web Service and Enterprise Java Beans .................. xxiii
   A. Kumar
Designing and Implementing Enterprise Service Bus (ESB) and SOA Solutions .......................... xxiv
   M. Luo, B. Goldshlager, and LJ Zhang
Semantic Web Services Tutorial .............................................................................. xxv
   M. Stollberg and A. Haller
Quality-of-Service Specification and Management for XML Web Services .......................... xxvi
   V. Tosic and P. Hung
Perspectives on Service-Oriented Architecture ............................................................ xxvii
   S. Anand, S. Padmanabhuni, and J. Ganesh
Collaborative Business Transactions Management: Issues and Challenges ....................... xxviii
   Y. Zhang, J. Yang, and C. Liu

INDUSTRY PAPERS

Industry Session 1

Web Services for Business Communication Applications

Web Service Enablement of Communication Services .................................................. 393
   W. Chou, L. Li, and F. Liu
A Novel Web Service for Presence and Its Implementation in an IETF SIMPLE Protocol Environment ........................................................................................................... 401
   R. Karunamurthy, R. H. Glisho, and F. Khendek
Performance Impact of Web Service Migration in Embedded Environments ....................... 409
   K. J. Ma and R. Bartoš
Industry Session 2
Web Services Composition

Towards a Web Service Composition Management Framework ......................................................... 419
  B. Esfandiari and V. Tosic

Fully Automated Web Services Orchestration in a Resource Retrieval Scenario ........................................ 427
  A. Ragone, T. Di Noia, E. Di Sciascio, F. M. Donini, and S. Colucci

Autonomic Execution of Web Service Compositions .............................................................................. 435
  C. Pautasso, T. Heinis, and G. Alonso

Industry Session 3
Web Services Process Modeling

WSCF: A Framework for Web Service-Based Application Supporting Environment ........................................ 445
  J. Hu, C. Guo, and P. Zou

UML-Based Modeling and Validity Checking of Web Service Descriptions .............................................. 453
  J. Jiang and T. Systä

A Semantic Template-Based Designer for Web Processes ........................................................................ 461
  R. Mulye, J. Miller, K. Verma, K. Gomadam, and A. Sheth

Industry Session 4
Web Services Discovery

Partner and Service Discovery for Collaboration Establishment with Semantic Web Services .................. 473
  M. Stollberg, U. Keller, and D. Fensel

Domain-Specific Web Service Discovery with Service Class Descriptions ............................................ 481
  D. Rocco, J. Caverlee, L. Liu, and T. Critchlow

A Methodology for Engineering Collaborative Applications over Mobile Web Objects Using SyD Middleware .............................................................................................................. 489

Industry Session 5
Web Services Policy

Resilient Trust Management for Web Service Integration ........................................................................ 499
  S. Park, L. Liu, C. Pu, M. Srivatsa, and J. Zhang

A Web Service Authentication Control System Based on SRP and SAML ............................................. 507
  F. O. Silva, J. A. A. Pacheco, and P. F. Rosa

Mediation of Trust Across Web Services ............................................................................................... 515
  E. R. de Mello and J. da Silva Fraga
Industry Session 6
Web Services Interactions

Two-Way Web Service: From Interface Design to Verification
L. Li and W. Chou

Modelling Inter-Organizational Workflow Security in a Peer-to-Peer Environment
M. Hafner, M. Breu, R. Breu, and A. Nowak

Supporting Adaptive Web-Service Orchestration with an Agent Conversation Framework
W. Blanchet, E. Stroulia, and R. Elio

Industry Session 7
Grid Services and Service Access

A Service-Oriented, Scalable Approach to Grid-Enabling of Legacy Scientific Applications
V. Sanjeepan, A. Matsunaga, L. Zhu, H. Lam, and J. A. B. Fortes

Attributed Based Access Control (ABAC) for Web Services
E. Yuan and J. Tong

CoFrame: A Framework for CSCW Applications Based on Grid and Web Services
J. Jiang, S. Zhang, Y. Li, and M. Shi

Industry Session 8
Web Services Security

Improving WS-Security Performance with a Template-Based Approach
S. Makino, M. Tatsubori, K. Tamura, and Y. Nakamura

3PAC: Enforcing Access Policies for Web Services
J. van Bemmel, M. Wegdam, and K. Lagerberg

Nedgty: Web Services Firewall
R. Bebawy, H. Sabry, S. El-Kassas, Y. Hanna, and Y. Youssef

Industry Session 9
Secure Web Services Transactions

Negotiated Security Policies for E-Services and Web Services
G. Yee and L. Korba

Policy Lifecycle and Policy Enabled Telecom Open Service Delivery Platform
D.-J. Lan, C. Ying, J. Liu, and W. Lu

Criteria Analysis and Validation of the Reliability of Web Services-Oriented Systems
J. Zhang and L.-J. Zhang
Industry Session 10
Web Services Middleware

A Middleware for Replicated Web Services

X. Ye and Y. Shen

Service Platform for Rapid Development and Deployment of Context-Aware, Mobile Applications

S. Pokraev, J. Koolwaaij, M. van Setten, T. Broens, P. D. Costa, M. Wibbels, P. Ebben, and P. Strating

Middleware Architecture for Evaluation and Selection of 3rd-Party Web Services for Service Providers

D. Chakraborty, S. K. Jaiswal, A. Misra, and A. A. Nanavati

Industry Session 11
Web Services Enabling Technologies

Dynamic Stochastic Models for Workflow Response Optimization

R. Sion and J. Tatemura

Schema Based Enhancement of XPath Engine

K. Iguchi, K. Koyama, S. Hosono, and S. Fujita

Modeling Response Time of SOAP over Http

H. Liu, X. Lin, and M. Li

Industry Session 12
Web Services Architecture and Service Integration

Shared Data Services: An Architectural Approach

V. Niranjan, S. Anand, and K. Kunti

How to Bridge the Last Gap of Detail for a Complete Integration of Web Services into Users' Tasks

K. Englmeier, J. Mothe, and F. Murtagh

Context-Based Web Ontology Service for TCM Information Sharing

Y. Mao, Z. Wu, H. Chen, and Z. Xu

Industry Session 13
Web Services Applications

3D Medical Volume Reconstruction Using Web Services

R. Kooper, A. Shirk, S.-C. Lee, A. Lin, R. Folberg, and P. Bajcsy

A Study of Service Composition with QoS Management

Controlling Remote Instruments Using Web Services for Online Experiment Systems

Y. Yan, Y. Liang, and X. Du

A Small Listener for Heterogeneous Mobile Devices: A Service Enabler with a Uniform Web Object View

B. Liu, S. K. Prasad, and E. Dogdu
Industry Session 14

Web Services in Service Deployments

- WS-Attestation: Efficient and Fine-Grained Remote Attestation on Web Services
  S. Yoshihama, T. Ebringer, M. Nakamura, S. Munetoh, and H. Maruyama
  743

- Towards Intelligent Services: A Case Study in Chemical Emergency Response
  A. Bansal, K. Patel, G. Gupta, B. Raghavachari, E. D. Harris, and J. C. Staves
  751

- SLL: Running My Web Services on Your WS Platforms
  D. Kossmann and C. Reichel
  759

- M2M Interface: A Web Services-Based Framework for Federated Enterprise Management
  L. Liu, M. Gaedke, and A. Koeppel
  767

POSTER PAPERS

Poster Session 1
Business Integration

- A Multi-Agent System to Implement E-Business
  J. Gao, Y. Peng, and B. Liao
  779

- Enterprise Transformation to a Service-Oriented Architecture: Successful Patterns
  M. R. Halley and C. Bashioum
  781

- An E-Mail Client Implementation with Spam Filtering and Security Mechanisms
  S.-J. Horng, M.-Y. Su, and C.-Y. Wu
  783

- SOA-Based Integration of IT Service Management Applications
  C. Mayerl, T. Vogel, and S. Abeck
  785

- Main Business Service Dimensions in an E-Commerce Environment
  Y. Yang, P. Humphreys, and R. McIvor
  787

- BPIMS-WS: A Service-Oriented Architecture for Trading Partners Integration
  G. Alor-Hernández and J. O. Olmedo-Aguirre
  789

- Service-Oriented Development and Integration: Toward Web Services-Based Business Information Systems
  S. Chung, Z. Bylin, and S. Davalos
  791

Poster Session 2
Business Solutions and Performance Management

- SPL: A Structured Pipeline Method for Frequent Remote Service Interactions in Bioinformatics Workflows
  X. B. Huang and J. Tang
  795

- i2Map: An Approach to Model the Landscape of Federated Systems
  M. Gaedke, J. Meinecke, and M. Nussbaumer
  797
On Improving Performance and Conserving Power in Cluster-Based Web Servers

H. K. Lee, G. Vageesan, and E. J. Kim

Poster Session 3

QoS

Evaluating the Process Control-Flow Complexity Measure
J. Cardoso

Global and Local QoS Constraints Guarantee in Web Service Selection
D. Ardagna and B. Pernici

QoS-Aware Composition of Web Services: A Look at Selection Algorithms
M. C. Jaeger, G. Mühlf, and S. Golze

Poster Session 4

Security/Privacy

Dynamic Trust Establishment with Privacy Protection for Web Services
Z. Wu and A. C. Weaver

Poster Session 5

Service Discovery and Composition

Beyond Web Services: Towards On-Demand Complex Adaptive Environments
R. Cherinka, R. Miller, and C. Smith

Composing Web Services on the Basis of Natural Language Requests
A. Bosca, A. Ferrato, F. Corno, I. Congiu, and G. Valetto

Toward Fundamental Primitives and Infrastructure Enhancements for Distributed Web Object Coordination and Workflows
J. Balasooriya and S. K. Prasad

Validating Compositions of Geospatial Processing Web Services in a Scientific Workflow Environment
J. Zhang, D. D. Pennington, and W. K. Michener

A Universal Service Description Language
I. Simon, A. Mallya, A. Bansal, G. Gupta, and T. D. Hite

OWL-S-Based Autonomic Services for Grid Computing
N. Jabisetti and Y. Lee

Poster Session 6

SOA and Web Services Applications

A Framework for Applications Utilizing Web Services with Callbacks
M. Ruth, F. Lin, and S. Tu

Temporal Aggregates for Web Services on the Semantic Web
F. Pan
Semantic Management of Web Services ................................................................. 833
  D. Oberle, S. Lamparter, A. Eberhart, and S. Staab

Formalized Model and Implementation of Service Virtualization ......................... 835

Service-Oriented Software Reengineering: Bertie3 as Web Services ....................... 837
  S. Chung, P. S. Young, and J. Nelson

Poster Session 7
Web Services Applications

ELIN: A Framework to Deliver Media Content in an Efficient Way Based in MPEG Standards ................. 841
  J. Casademont, F. Perdrix, M. Einhoff, J. Paradells, G. Dummer, and A. Boyer

A Web Service for Efficient Ontology Comparison .................................................. 843
  J. Z. Wang, F. Ali, and R. Appaneravanda

Rethinking the Java SOAP Stack .............................................................................. 845
  S. Loughran and E. Smith

Author Index ............................................................................................................. 853
