PROCEEDINGS OF THE TWENTY-NINTH ANNUAL
BRITISH COLUMBIA MINE RECLAMATION SYMPOSIUM

"THE MANY FACETS OF MINE RECLAMATION"

Editors: William Price, Bob Hart, Brenda Dixon,
Peter Jarman, Barb Riordan,
Mark Freberg, and Carol Howell

Organized and Published by: The British Columbia Technical and
Research Committee on Reclamation

Available from: Bitech Publishers Ltd., Richmond, B.C.

Convened at the Ramada Plaza Inn
Abbotsford, British Columbia
September 19 - 22, 2005

9. Polaris Mine - A Case Study of Reclamation in the High Arctic
   Bruce Donald, Teck Cominco Limited

10. Some Examples From Boliden’s Programme for Mine Sites Reclamation
    Manfred Lindvall, Boliden AB

11. A Tale of Two Pit Lakes - The Kemess Mine Expansion
    Rob Marsland, Marsland Environmental Associates; Rob Booker, Klohn Crippen
    Consultants Ltd., and Harold Bent, Northgate Minerals Ltd.

12. Remedial Works Implementation at the Britannia Mine Remediation Project
    Gerry O’Hara, Golder Associates Ltd.

13. Closure and Sustainability Initiatives Leading to the Reopening of the
    Gibraltar Mine
    R.J. Patterson, Gibraltar Mines Ltd., and John Errington, John C. Errington and
    Associates Ltd.

14. Kemess South Fisheries Compensation Agreement and Bull Trout Utilization of the
    Kemess Creek System
    Scott Davidson and Wade Stogran, Kemess Mines Ltd.

15. Development and Implementation of a Decommissioning and Closure Plan at the
    Premier Gold Project
    David M. Mchaina, Boliden Limited

16. Measurements and Model Predictions of the Rate of Drying With Time at the
    Surface of a Waste-Rock Pile After Heavy Rainfall Events
    L.K. Kabwe and G.W. Wilson, Department of Mining and Mineral Process
    Engineering, University of British Columbia

17. A Review of Environmental Impact Statements and Their Utility for Surface Coal
    Mine Reclamation in Alberta and British Columbia
    C.R. Smyth, EBA Engineering Consultants Ltd.

18. A Duplicate Column Study of Arsenic, Cadmium and Zinc Treatment in an
    Anaerobic Bioreactor Based on a System Operated by Teck Cominco in Trail,
    British Columbia
    Jonathan D.E. Kawaja, Katy Morin and William D. Gould,
    Natural Resources Canada
19. Field Performance Evaluation of Soil-based Cover Systems to Mitigate ARD for the Closure of a Potentially Acid-Generating Tailings Storage Facility  
K. Renken and E.K. Yanful, Civil & Environmental Engineering, University of Western Ontario; D.M. Mchaina, Boliden Limited

20. Using Multispectral Remote Sensing to Monitor Aquatic Vegetation in Ponds at a Reclaimed Mine Site  
Gary Borstad, Mar Martinez, Leslie Brown, Randy Kerr and Peter Willis, G.A. Borstad Associates Ltd.; Heather Larratt, Larratt Aquatic Consulting Ltd. and Mark Richards, Highland Valley Copper

21. Selenium Status - Elk River Valley, BC  
Peter M. Chapman, Golder Associates Ltd.

22. Selenium Monitoring and Management - New Mines  
Peter M. Chapman, Golder Associates Ltd.
