Lecture Series 2005-06

INNOVATIVE CONFIGURATIONS AND ADVANCED CONCEPTS FOR FUTURE CIVIL AIRCRAFT

June 6 – 10, 2005

Edited by: E. Torenbeek & H. Deconinck
Technical University of Delft & von Karman Institute, Belgium
TABLE OF CONTENTS

Preface

TORENBEEK, E. – Delft University (retired), The Netherlands
Introductory overview of innovative civil transport aircraft configurations

McMASTERS, J.H. - The Boeing Company & University of Washington, USA
A U.S. perspective on future commercial airliner design

FROTA, J. & VIGNERON, Y. - Airbus, France
Airbus future projects approach to new aircraft concepts and R&T

RICHTER, H. & MENCZYKALSKI, S. – Rolls-Royce, Germany
Civil propulsion of the future

GREEN, J.E. – Aircraft Research Association, United Kingdom
Greener by design

SLINGERLAND, R. – Delft University of Technology, The Netherlands
Aircraft with LH2 propulsion

LIEBECK, R.H. - The Boeing Company, USA
Design of the blended-wing-body subsonic transport

MARTINEZ-VAL, R. & PÉREZ, E. – Universidad Politécnica de Madrid, Spain
Medium size flying wings

BOLSUNOVSKY, A.L; BUZOVERYA, N.P.; GUREVICH, B.I.; DENISOV, V.E.; SONIN, O.V. - TsAGI (Central Aerohydrodynamic institute), Zhukovsky, Russia
Flying-wing – problems and decisions

FREDDIANI, A. - Pisa University, Italy
The Prandtl wing

KROO, I. – Stanford University, USA
Nonplanar wing concepts for increased aircraft efficiency

SACCO, G. & LANARI, C. - Piaggio Aero Industries, Italy
The three lifting surface configuration concept and lessons learned from the Piaggio P180

FRIEND, M.G. & CHESTER, P.N. - Boeing Commercial Airplanes, USA
From concept to market reality: a case study of the Sonic cruiser

KROO, I. – Stanford University, USA
Unconventional configurations for efficient supersonic flight

ARONSTEIN, D.C. – Raytheon Aircraft Company, USA
Supersonic business jets and sonic boom reduction
CICALÈ, M; BIANCHI, E.; MONTEGGIA, C.; SAPORITI, A.; CAMPANILE, A. – AGUSTA, Italy
The ERICA tiltrotor concept

VAN HOLTEN, TH. & HEILIGERS, M. - Delft University of Technology, The Netherlands
The ornicopter: a single rotor helicopter without reaction torque
