Contents

Melt Treatment	1
Melt Treatment of Copper and Aluminium – The Complex Step Before Casting <i>Friedrich, B., Kräutlein, C., Krone, K., IME Process Metallurgy and Metal Recycling RWTH Aachen, Germany</i>	3
A Study on Surface Defects Caused by Grain Refiners <i>Keles, O., Dundar, M., Assan Aluminum, Istanbul, Turkey</i>	23
Effect of Grain Refiner on Surface Crack of 3004 Alloy during DC Casting <i>Morishita, M., Tokuda, K., Kobe Steel, Ltd, Moka-city, Tochigi, Japan</i>	29
Investigation of Factors Affecting the Extent of Microporosity in an Aluminum Casting <i>Savas, O., Kayikci, R., Sakarya University, Sakarya, Turkey</i>	36
Model Studies of Gas Bubbles Physical Characteristics at Inert Gas Purging into Molten Metals and Alloys <i>Stefanoiu, R., Geanta, V., Voiculescu, I., Politehnica University of Bucharest, Bucharest, Romania</i>	42
Casting Technology	49
Remarks about Process and Technology of Continuous Casting <i>Schliefer, H., Khoury, A., Porten, M., Norddeutsche Affinerie AG, Hamburg, Germany; Wolber, P., Boller, K.H., SGL, Bonn, Germany; Dürschnabel, W., Müller, H.R., Wieland-Werke AG Ulm, Germany; Schneider, St., Deutsche Gießdraht GmbH, Emmerich, Germany; Müller, W.H., Schwarze, M., SMS-Meer, Mönchengladbach, Germany; Oelmann, H., Rode, D., Frankenberg, R., KME, Osnabrück, Germany</i>	51
Continuous Strip Casting of Magnesium Alloy by a Horizontal Twin Roll Caster <i>Watari, H., Oyama National College of Technology, Oyama, Japan; Haga, T., Osaka Institute of Technology, Osaka, Japan; Koga, N., Nippon Institute of Technology, Saitama, Japan; Davey, K., The University of Manchester, Manchester, UK</i>	70
Strip Casting of Mg-Al based alloy with Ca by Twin Roller Caster <i>Matsuzkai, K., Hatsushikano, K., Torisaka, Y., Hanada, K., Shimizu, T., National Institute of Advanced Industrial Science and Technology(AIST), Tsukuba, Japan</i>	77

VIII

New Strip Casting Process for Magnesium Alloys <i>Bach, Fr.-W., Hepke, M., Rossberg, A., Institute of Materials Science (IW), University of Hanover, Germany</i>	81
Production of Twin Roll Cast AA6016 for Automotive Applications <i>Dündar, M., Keles, Ö., Assan Aluminum, Ýstanbul, Turkey; Anger, G., AMAG Automotive GmbH, Ranshofen, Austria</i>	87
Magnesium Upward Direct Chill Casting <i>Bach, Fr.-W., Schacht, S., Rossberg, A., Institute of Materials Science (IW), University of Hanover, Germany</i>	95
Spray Forming of Advanced High Strength Aluminum Alloys <i>Krug, P., Commandeur, B., PEAK Werkstoff GmbH, Velbert, Germany</i>	101
A Method of VDC Hot Top Mould Design and Setting of Process Conditions <i>Bainbridge, I.F., Cooperative Research Centre for Cast Metals Manufacturing (CAST), Division of Materials, The University of Queensland, Brisbane, Australia; Grandfield, J.F., Cooperative Research Centre for Cast Metals Manufacturing (CAST), CSIRO, Division of Manufacturing and Infrastructure Technology, Preston, Australia.</i>	106
Continuous Casting of Non Ferrous Metal Micro Wrought Shapes <i>Bast, J., TU Bergakademie Freiberg, Germany; Bombach, E., Deutsche Solar AG Freiberg, Germany</i>	112
Influence of Quality of Water and Surface Roughness on Quenching Rate <i>Król, J., Specht, E., Otto-von-Guericke-University, Magdeburg, Germany</i>	118
Electromagnetic Casting of Aluminum and Steel Billet Using Slit Mold <i>Park, J., Kim, M., Research Institute of Industrial Science and Technology; Jeong, H., Kim, G., POSCO</i>	124
Aluminium Alloy Strip Casting Using an Unequal Diameter Twin Roll Caster <i>Haga, T., Osaka Institute of Technology, Osaka, Japan; Watari, H., Oyama National College of Technology, Oyama city, Japan; Kumai, S., Tokyo Institute of Technology, Kanagawa, Japan</i>	131
Fabrication of High Purity Copper Rod with Unidirectional Solidification Structure by Continuous Casting Using Cooled Mold <i>Hoon Cho, Duck-young Hwang, Han-shin Choi, Shae K. Kim, Hyung-ho Jo, Korea Institute of Industrial Technology, Yeonsu-gu Incheon, Korea</i>	137

High Speed Roll Casting of Al Alloy and Mg Alloy Strips	143
<i>Haga, T., Osaka Institute of technology, Osaka city, Japan; Watari, H., Oyama national collage of Technology, Oyama city, Japan; Kumai, S., Tokyo Institute of Technology, Kanagawa, Japan</i>	
Simulation / Modeling	149
State-of-the-Art in the Modelling of Aluminium and Copper Continuous Casting Processes	151
<i>Drezet, J.-M., Computational Materials Laboratory, Ecole Polytechnique Fédérale de Lausanne and Calcom-ESI SA, Lausanne, Switzerland; Gremaud, M., Calcom-ESI SA, Parc Scientifique, Lausanne, Switzerland; Rappaz, M., Computational Materials Laboratory, Ecole Polytechnique Fédérale de Lausanne, Lausanne, Switzerland</i>	
Numerical Simulation of the Growth of Interacting, Equiaxed Dendrites with a Two-Scale Model	162
<i>Jurgk, M., Max-Planck-Institut für Physik komplexer Systeme, Dresden; Emmerich, H., Siquieri, R., RWTH Aachen, Germany</i>	
Monte Carlo Simulation of Grain Growth in Three Dimensions	168
<i>Zöllner, D., Streitenberger, P., Otto-von-Guericke-Universität Magdeburg, Fakultät für Naturwissenschaften, Magdeburg, Germany</i>	
Thermal Conductivity of Ternary and Multi-Component Aluminum Alloys up to and above the Melting Temperature	174
<i>Brandt, R., Neuer, G., Institute for Nuclear Technology and Energy Systems (IKE), University of Stuttgart, Stuttgart, Germany; Bender, W., Grün, G.-U., Hydro Aluminium GmbH, Bonn, Germany</i>	
FEM Simulation of Near Net Shape DC Billet of High Strength Al-Mg-Si Alloy	182
<i>Nagaumi, H., Takeda, Y., Nippon Light Metal Company Ltd., Kambara, Japan; Suvanchai, P., Umeda, T., Chulalongkorn University, Bangkok, Thailand</i>	
Numerical Simulation of DC casting	189
<i>Boender, W., Burghardt, A., van Klaveren, E.P., Corus RD&T, IJmuiden, The Netherlands</i>	
Continuous Casting of Hypermonotectic AlBiZn Alloys: Experimental Investigations and Numerical Simulation	194
<i>Gruber-Pretzler, M., Mayer, F., Wu, M., Ludwig, A., University of Leoben, Leoben, Austria; Moiseev, J., Tonn, B., Clausthal University of Technology, Clausthal-Zellerfeld, Germany</i>	

Numerical Simulation of the Upward Continuous Casting of Magnesium Alloys <i>Landaberea, A., Pedrós, P., Anglada, E., Garmendia, I., INASMET Foundation, San Sebastian, Spain</i>	202
New Possibilities in the Simulation of Continuous Casting Processes with WinCast-Conti <i>Ricken, H., Technische Universität München, Institute of Metal Forming and Casting (utg), Garching, Germany; Honsel, C., RWP GmbH, Roetgen, Germany</i>	209
Modeling Continuous Casting of Metal Wire Rods <i>Chang Hung-Ju, Hwang Weng-seng, Department of Material Science and Engineering, National Cheng Kung University, Tainan, Taiwan; Chao Long-sun, Pan Wensen, Department of Engineering Science, National Cheng Kung University, Tainan, Taiwan; Lai Yi Lin, Metal Industries Research & Development Center</i>	213
Modeling of Macrosegregations in Continuous Casting of Sn-Bronze <i>Gruber-Pretzler, M., Mayer, F., Wu, M., Ludwig, A., Christian-Doppler Laboratory for Multiphase Modeling of Metallurgical Processes, Department of Metallurgy, University of Leoben, Leoben, Austria</i>	219
Continuous Casting Simulation: From Solidification and Fluid Flow to the Calculation of Grain Structures <i>Eberle, R., Wieland-Werke-AG, Ulm, Germany</i>	226
Mould Temperature Fields during Continuous Casting of DHP-Copper <i>Mäkinen, M., Helsinki University of Technology, Espoo, Finland; Uoti, M., Outokumpu Copper R&D, Pori Finland</i>	234
Simulation of Heat Transfer and Solidification in Continuous Casting of Copper Alloys and the Effect of Fluid Flow <i>Vapalahti, S., Louhenkilpi, S., Mäkinen, M., Väyrynen, P., Helsinki University of Technology, Laboratory of Metallurgy, Espoo, Finland</i>	240
Micro / Macro Structure	247
Spray Forming and Post Processing of Superalloy Rings <i>Uhlenwinkel, V., Ellendt, N., University Bremen, Bremen, Germany; Walter, M., Böhler Edelstahl, Kapfenberg, Austria; Tockner, J., Böhler Schmiedetechnik, Kapfenberg, Austria</i>	249
Macro- and Microstructure of Spray-Formed Tin-Bronze <i>V. Kudashov, D., Müller, H.R., Zauter, R., Wieland-Werke AG, Ulm, Germany</i>	256

- Influence of the Crystallization Conditions on the Microstructure and Mechanical Properties of TiAl- and Ti₃Al-Based Alloys 265
Greenberg, B.A., Kazantseva, N.V., Volkov, A.E., Akshentsev, Yu.N., Institute of Metal Physics, Ural Division, Russian Academy of Sciences, Ekaterinburg, Russia
- Effects of Process Parameters on the Characteristics of the Billet Sump and Related Defect Formation during DC Casting of Aluminum Alloys 271
Eskin, D.G., Netherlands Institute for Metals Research, Delft, The Netherlands; Katgerman, L., Delft University of Technology, Dept. Materials Science and Engineering, Delft, The Netherlands
- Effect of Casting Speed and Grain Refining on Macrosegregation of a DC Cast 6061 Aluminum Alloy 277
Kumar Nadella, R., Eskin, D., Netherlands Institute for Metals Research, Delft, The Netherlands; Katgerman, L., Delft University of Technology, Department of Materials Science and Technology, Delft, The Netherlands
- Effect of Melt Flow on Macrostructure and Macrosegregation of an Al-4.5% Cu Alloy 283
Turchin, A.N., Eskin, D.G., Netherlands Institute for Metals Research, Delft, The Netherlands; Katgerman, L., Delft University of Technology, Department of Material Science and Engineering, Delft, The Netherlands
- Quenching Study on the Solidification of Aluminum Alloys 290
Ruvalcaba, D., Eskin, D., Netherlands Institute for Metals Research, Delft, The Netherlands; Katgerman, L., Kiersch, J., Delft University of Technology, Delft, The Netherlands
- Numerical Study of the Influence of an Applied Electrical Potential on the Solidification of a Binary Metal Alloy 296
Nikrityuk, P.A., Eckert, K., Grundmann, R., Institute for Aerospace Engineering Dresden University of Technology, Dresden, Germany
- Microstructure and Strain Distribution Influence on Failure Properties in Eutectic AlNi, AlFe Alloys 309
Olaru, P., INAV-S.A., Bucharest, Romania; Gottstein, G., IMM, RWTH-Aachen, Germany; Pineau, A., ENSM, Paris, France
- Dendrite Coarsening and Embrittlement in Continuously Cast Tin Bronzes 314
Virtanen, T., Tampere University of Technology, Tampere, Finland
- Continuous Casting of Tin Containing Alloys and their Transformation 320
Lebreton, V., Sadi, F., Bienvenu, Y., Centre des matériaux P.M.Fourt, Ecole Nationale Supérieure des Mines de Paris, Evry, France

Supplier Session	327
Horizontal Casting Technology for Copper Products <i>Müller, W., Schneider, P., SMS Meer GmbH, Mönchengladbach, Germany</i>	329
Horizontal Direct Chill (HDC) Casting of Aluminium – The HE Universal Caster <i>Niedermair, F., Zeillinger, H., Hertwich Engineering, Braunau, Austria</i>	336
Aluminium-Semi-Continuous Casting Technic, State of the Art <i>Brockmann, G.J., Maerz-Gautschi Industrieofenanlagen GmbH., Tägerwilen, Switzerland</i>	344
OCP Crucible Monitoring System in Long-Term Tests <i>Schmitz, W., Donsbach, F., Otto Junker GmbH, Simmerath, Germany; Hoff, H., Lios Technology GmbH, Cologne, Germany</i>	353
A New Continuous Casting Process <i>Sommerhofer, H., Sommerhofer, P., Sommerhofer Technologies, Graz, Austria</i>	368
Author Index	377
Subject Index	379
