<tr>
<td>Gender Differences in Japanese College Students' Participation in a Qualitative Study</td>
<td>104</td>
</tr>
<tr>
<td>Douglass Scott, Waseda University, Japan</td>
<td></td>
</tr>
<tr>
<td>E-learning for Accounting Education in Thailand</td>
<td>110</td>
</tr>
<tr>
<td>Saowanee Sitchawat, Thammasat University, Thailand</td>
<td></td>
</tr>
</tbody>
</table>
Quality Benchmarking for eLearning in European Universities .................................................. 116
Chiara Succi, Lorenzo Cantoni, University of Lugano, Switzerland

Megan Elias, Megan Elias, History Dept., QCC, City University of New York, USA; Lori Anderson-Moseman, Lori
Anderson-Moseman, English Dept., QCC, City University of New York, USA; Kenneth Golden, Kenneth Golden, Art
Dept., QCC, City University of New York, USA; Martin Kutnowski, Martin Kutnowski, Music Dept. QCC, City
University of New York, USA

Learning language and bilingual communication by the internet .............................................. 128
Andre Avis, Jutta Eschenbach, University College of Oestfold, Norway

Open Source Strategies for Educational Multimedia ................................................................. 133
Ronald Baecker, KMDI, University of Toronto, Canada

The Technology Integration Mentoring Project: Year 3 Progress Report .............................. 138
Tammy Banerjee, Paul Jones, Thomas Proffitt, Towson University, USA

Modular Virtual Learning World ................................................................................................. 146
Nadeem Bhani, Eike Godehardt, Christoph Hornung, Fraunhofer IGD, Germany

Digital Learning Cards in Mobile Learning Scenarios ............................................................... 154
Birgit Bomdsorf, Stefan Betermieux, Gunter Schlager, University of Hagen, Germany

Taking ePORTFOLIO to the Next Level: Integrating eTUTOR to Support Writing .............. 160
Karen Bonsignore, New York City College of Technology, USA

Discover. Apply. Succeed. An Innovative Career and Technology High School .................. 162
Theron T Brown, Spring Branch Independent School District, USA

SANS: A Simple Ad Hoc and Sensor Network Simulator ......................................................... 164
Nicolas Burri, Roger Wattenhofer, Weber Yves, Aaron Zollinger, ETH Zurich, Switzerland

Using Flash and XML for Rapid Production of Personalized Materials ............................. 172
Britt Carr, Gail Johnson, Miami University, USA

The Development of a Web-based Two-Tier Test for Internet Ethics .................................. 174
Chien Chou, Chin-Chung Tsai, Institute of Education, National Chiao Tung University, Taiwan

Structuring Data Bases from UML to Code .............................................................................. 179
Robert Dollinger, UNIVERSITY OF WISCONSIN-STEvens POINT, USA; Daniel Goulet, David Gibbs, University
of Wisconsin-Stevens Point, USA

Implementing Interactive Self -Paced Learning Resources for Teaching Procedural Law .... 185
Stuart Fletcher, Mark Nolan, Simon Bronitt, Jenny Edwards, Australian National University, Australia

Integrating Assessment Tools into Multi-modal College Programs and Courses ................. 187
Robert Fulkerth, Golden Gate University, USA

AI: Objects and Meta Objects in Learning Musical Performance ......................................... 194
Kathiravelu Ganeshan, Unitec Institute of Technology, New Zealand

Technology as the Catalyst: Research on Research at Ohio State University ..................... 201
Victoria Getis, Catherine Gynn, Ohio State University, USA

Belle Gironda, English Dept., QCC, City University of New York, USA; Megan Elias, History Dept., QCC, City
University of New York, USA; Lori Anderson-Moseman, English Dept., QCC, City University of New York, USA;
Kenneth Golden, Art Dept., QCC, City University of New York, USA; Martin Kutnowski, Music Dept. QCC, City
University of New York, USA

A case study of using E-Learning in Hong Kong early childhood teacher education ........ 212
Christina Han, Hong Kong Institute of Education, Hong Kong

How to Train Working Life Experts to Online Mentoring? ................................................. 218
Riina Helenius, Irja Leppisaari, Central Ostrobothnia Polytechnic, Finland

International collaboration in the development of Interactive Learning Objects in the .... 224
Building discipline
Geoff Hodgson, University of Loughborough, UK; Willy Sher, Helen Carter, Hamish Dobbs, University of
Newcastle, Australia

Dovetailing pedagogical and technical support with evaluation ............................................. 226
Paula Hodgson, University of Auckland, New Zealand; Paul Lam, The Chinese University of Hong Kong, Hong
Kong; Yiu-Hing, Eric Wong, The Hong Kong Polytechnic University, Hong Kong

Non-course-based On-line Physics Discussion Forum ......................................................... 234
Fu-Kwun Hwang, Dept. of Physics, National Taiwan Normal University, Taiwan

Literacy & Technology Infusion: Multimedia Projects for Teachers and Students ............. 241
Jennifer Jilks-Racine, OCDSB, Canada
Authentic Doing – Using Digital Video to Produce & Publish Oral Histories on the Web ........................................ 247
Howard Levin, The Urban School, USA

Measuring the Effectiveness of Multimedia in Promoting Student Mastery of the Periodic Table .......................................................................................................................................................................... 251
Ralph Locklin, Andy Wiesner, Patrick Ray, Paul Howell, Penn State University, USA

Connecting Students with the Real World, Virtually .................................................................................................................. 257
Peter Mikolaj, Indiana State University, USA; Sharon Guan, DePaul University, USA

Principal factors of an audio reading delivery mechanism: Evaluating educational use of the iPod ........................................................................................................................................................................... 260
Michael Miller, Michael Filler, National Defense University, USA

Instructional Design Workshop based on Needs Analysis at University of South Pacific .......................................................... 268
Junko Nemoto, Iwate Prefectural University, Japan; Valentine Hazelman, University of South Pacific, Fiji; Katsuki Suzuki, Iwate Prefectural University, Japan

Outdoor education by location-awareness using RFID and two-dimensional symbology tags .................................................. 276
Noritaka Osawa, National Institute of Multimedia Education, Japan; Katsuki Noda, Satoru Tsukagoshi, Yutaka Noma, Akiyazu Ando, Chiba University, Japan; Tomoharu Shibuya, Kimio Kondo, National Institute of Multimedia Education, Japan

Mariolina Pais Marden, University of Wollongong, Australia

Best practices in elearning project management ................................................................................................................................................................................................. 289
Bev Pasian, Bodec Corp, Canada; Gary Woodill, Operitel Inc., Canada

Yearbook: A Dynamic Multimedia Project ................................................................................................................................................................................................. 292
Daisy Sang, Daisy Sang, Cal Poly Pomona, USA; Chang-Shyh Peng, Chang-Shyh Peng, California Lutheran University, USA

The Integration of Technology within a Mainstream Undergraduate Healthcare e-Curriculum .................................................. 298
Nancy Posel, McGill University, Faculty of Medicine, Canada; David Fleiszer, McGill University Faculty of Medicine, Canada

What makes e-learning work? A selective review of successful new media innovations .......................................................... 302
Andrew Ravenscroft, Learning Technology Research Institute, UK

The Use of Multimedia in Teaching the Taxonomy of Materials: An Introduction to the River of Paradise ................................................................................................................................................................................................. 310
Patrick Ray, Mike Fleck, Ralph Locklin, Andy Wiesner, Paul Howell, Penn State University, USA

Ecodesign - an Online University Course for Sustainable Product Design .................................................................................. 316
Markus Rester, Margit Pohl, Vienna University of Technology, Austria

Multidisciplinary Network-Based Mobile Education (NBME) and Teaching–Studying–Learning (TSL) processes: The MOMENTS Integrated Metamodel ................................................................................................................................................................................................. 324
Heli Ruokamo, University of Lapland, Finland; Seppo Tella, University of Helsinki, Finland

Rock Art in Arkansas: Preserving & Sharing Cultural Legacies Through E-Environments .................................................... 330
George Sabo, Ann Shortridge, University of Arkansas, Fayetteville, USA

Breaking Barriers: An Educational Project for Preschool Using Internet .................................................................................. 332
Luz Santos-Quintero, Veronica Gonzalez-Robles, Edmar Mota-Garcia, Departamento de Tecnologia Educativa, Mexico

The Gameboy-[R]evolution - ppc@school ................................................................................................................................................................................................. 341
Wolfgang Seper, Primary School of the of the Educational Academy of the Archdiocese of Vienna, Austria

Assessing Computer Literacy Using a Learning Management System .................................................................................................................. 347
Donald Sheridan, University of Auckland Business School, New Zealand

Case Study, Sharing Digital Middletown Project Experiences and Findings: Practical Deployment of Rich Media Content for Education and Entertainment by Long Distance High Bandwidth Wireless Technology ................................................................................................................................................................................................. 351
H. O'Neal Smitherman, Bizhan Nasseh, Philip Repp, Ball State University, USA

The Shoah Visual History Archive: Experience from the Classroom .................................................................................................................. 355
Lisa Spiro, Janice Bordeaux, Diane Butler, Andrea Martin, Chris Pound, Aniko Sandor, Geneva Henry, Rice University, USA

An Investigation of Hispanic Student Achievement in Elementary School Mathematics through the Use of a Computer-Assisted Instruction Receptive/Expressive Language Model ................................................................................................................................................................................................. 361
Jane Strickland, Idaho State University, USA
Creativity Education by Distance Learning Connecting Kyoto University and UCLA ........................................ 366
  Hideyuki Takada, Hajime Kita, Kyoto University, Japan

Development and Assessment of a Model For Web-Based Safety and Health Education ................................. 373
  Sandra Tillett, National Labor College, USA; Terri Heidottiong, National Institute of Occupational Safety and Health, USA

Best practices for the organization of a support unit for a Virtual Learning Environment ................................ 381
  Joke Tisaun, K.U.Leuven, Belgium; Jan Vanthienen, K.U.leuven, Belgium

An European Project for Internet-based Performance Centered Instruction in Microelectronics ........................................ 387
  Slavka Tzanova, Technical University of Sofia, Bulgaria

Designing Learning Experiences for Virtual Spaces ............................................................................................. 394
  Maria J. Verdú, University of Valladolid, Spain; Elena Verdú, CEDET El Spain; Luisa M. Regueras, Juan Pablo de Castro, University of Valladolid, Spain

Blending instructional design principles with computer game design: The development of Descartes’ Cove .......................................................... 402
  Patricia Wallace, Johns Hopkins University Center for Talented Youth, USA

Development of an Education Model to Enhance Mathematics and Science Learning through Creation with Squeak eToy ........................................ 408
  Kentaro Yoshimasa, Hideyuki Takada, Tetsuro Sakai, Graduate School of Informatics, Kyoto University, Japan

The Impact of Title V Funded Technology Institutes on Faculty Use of Technology ........................................... 417
  Cheryl Anderson, University of the Incarnate Word, USA

Capturing, Transferring, and Evaluating Student Voice: The PALs Project ......................................................... 423
  Jamie Bishop, Jacques Morin, UNC Chapel Hill, USA

Organizational Support for Online Teaching: Success, Issues and Solutions ...................................................... 426
  Curtis J. Bonk, Richard J. Magjuka, Xiaojing Liu, Seung-hee Lee, Shijuan Liu, Kyong-Jee Kim, Mengyu Zhai, Bude Su, Indiana University, USA

What Do We Manage—And How Do We Assess It? Results of an Exploratory Study with Executives in Training and Other Content Development Disciplines .............................................. 432
  Saul Carlinen, Concordia University, Canada

Chemistry Online Laboratory Preparation ........................................................................................................... 435
  Dorothy Clayton, Laurie Godwin, Joyce Newman, East Carolina University, USA

The Significance Lies in the Difference: Student Perceptions of the Importance of Design and Screen Display In Computer Based Learning Materials In Higher Education ....................................... 441
  Billy Cooper, University of Strathclyde, UK

Students in the Ubiquitous Computing Environment at the College of New Rochelle ..................................... 447
  Emory Craig, The College of New Rochelle, USA

Internet aided courses in Mathematics for Engineers: a multi-campus course management ........................................... 453
  Thiery Dana-Picard, Jerusalem College of Technology, Israel

Irony and Asynchronicity: Interpreting Withdrawal Rates in E-Learning Courses ................................................... 459
  Norbert Elliott, Robert Friedman, Vladimir Briller, New Jersey Institute of Technology, USA

Internet Literacy for Diverse Language Learning Environments .............................................................................. 466
  Garry Forger, Susan Penfield, Paul Lyddon, The University of Arizona, USA

A Taxonomy of Factors to Promote Quality Web-Supported Learning ................................................................. 474
  Jill Fresen, University of Pretoria, South Africa

Barriers to the Reuse of Learning Objects ............................................................................................................. 482
  Michael Harris, Henric Beiers, RMIT University, Australia

The Seven Principles of Good Practice in Undergraduate Education and Instructional Technology .................................................. 490
  Louise Hay, Grand View College, USA; John McTaggart, Drake University, USA; Jane Zahner, Valdosta State University, USA

Making Videoconference Museum Tours Substantive ............................................................................................. 492
  Julie Heath, Suzannah Nipold, Smithsonian American Art Museum, USA

Implementation of ICT at the University of Helsinki ............................................................................................... 498
  Maarit Heikkilä, Anne Haarala-Muhonen, Anne Nevgi, University of Helsinki, Finland

LOM facing Reality - Indexation through a Virtual University Project ................................................................. 503
  Pierre Jarraud, Université Pierre et Marie Curie - Paris 6, France
Moving from Computer Literacy to Mindtools: A Curriculum Development Proposal .......................... 511
Gunizi Kartal, Senem Yildiz, Erol Inelmen, Bogazici University, Turkey

Using Competency-Based Curriculum: A Case Study ................................................................. 516
Kyung Kim, Daebul University, Korea (South); Hye-kyung Lim, Shin-yon Kim, Hanyang Women Colledge, Korea (South)

The Design of an Online Music Learning Portal ................................................................. 519
Mathias Klein, University of New Brunswick, Canada; Yuhong Yan, National Research Council, Canada; Ning Wang, Han Liang, University of New Brunswick, Canada

Useful and Challenging Characteristics of Online Learning: Perceptions of Korean Technology-based Employees ................................................................. 525
Myung Hwa Koh, Janette Hill, University of Georgia, USA

Best Practices for Implementing New Technologies in Existing Postgraduate Online and Residential Courses ................................................................. 531
Dina Kurzweil, Beth Hottle, Michael Miller, Michael Filler, National Defense University, USA

Learning in Virtual Environments in Higher Education ................................................................. 537
Erika Löfström, Anne Nevgi, University of Helsinki, Finland

Learning culture meets new media: A content analysis of online tutorials among Malaysian students ................................................................. 544
Zenaida Lowe, Rezzen (M) Pte Ltd, Malaysia

Designing an Online Collaboration System ........................................................................... 548
Alireza Moghaddam, George Gadandidis, University of Western Ontario, Canada

Quality Issues in the Blended Learning and E-learning Instructional Model of “Tecnológico de Monterrey”, Mexico City Campus: A Mexican Case Study ........................................................................... 554
Fernando Mortera-Gutiérrez, Instituto Tecnológico y de Estudios Superiores de Monterrey, Campus Ciudad de México, Mexico

Implementing a Virtual Learning Environment to Enhance Modeling skills and Collaboration in a Pre-service Teacher Education Science Program: Students’ Ideas about a Blended e-Learning Approach ........................................................................... 560
Iolie Nicolaidou, Concordia University, Canada; Christiana Nicolou, Constantinos Constantinou, University of Cyprus, Cyprus

The application of e-learning and m-learning technology in the context of Life Long Learning in Irish Higher Education ........................................................................... 568
Carol O Shea, Deirdre Lillis, Seamus O Shea, Paul Collins, Institute of Technology Tralee, Ireland

Development and Application of an Objectives-driven eContent Structuring and Deployment Model ........................................................................... 573
Elijah Omwenga, Timothy Waema, University of Nairobi, Kenya; Georges Eisenrath, Arno Libotton, Vrije Universiteit Brussels, Belgium

The importance of target audiences in the design of training actions ........................................................................... 579
Sara Petiz, Alexandre Sousa, Miguel Oliveira, Programa Aveiro Norte - Universidade de Aveiro, Portugal; Silvina Santana, Universidade de Aveiro, Portugal; Manuel Oliveira Duarte, Programa Aveiro Norte - Universidade de Aveiro, Portugal

Results of an Experiment Evaluating the Use of Video Cases to Help Pre-Service Teachers Become Better Teachers of Literacy ........................................................................... 585
Michael M. Phillips, Matthew J. Koehler, Gaoming Zhang, Aman Yadav, Cheryl Rosaen, Michigan State University, USA

Essential Computing Skills: The Institutional Development of Multimedia Tutorials ........................................................................... 593
Susan Prion, Mathew Mitchell, University of San Francisco, USA

Network-Based Mobile Teaching and Studying on a Wireless Campus ........................................................................... 599
Hanna Räsänen, Miika Lehtonen, Heli Ruokamo, Hannakaisa Isomäki, University of Lapland, Finland

Semantic Differential Analysis in Architectural Education: The Leverage of Polarity Profiles in Case-based Reasoning ........................................................................... 605
Margit Rudy, Vienna University of Technology, Austria

Starting e-learning program at King Abdul-Aziz University in Saudi Arabia ........................................................................... 613
Salem Sahab, King Abdul-Aziz University, Saudi Arabia

The University of Mauritius e-Learning Model: Practice, Pedagogies and Tools ........................................................................... 619
Mohammad Issack Santly, VCILT - University of Mauritius, Mauritius; Mahen Govinda, Alain Senteni, University of Mauritius, Mauritius
Using the Internet as a data gathering Tool to Research an online Collaborative Learning Environment: Advantages and Pitfalls ........................................... 626
Ieda Santos, University of Warwick, UK; John LeBaron, College of Education and Allied Professions Western Carolina University, USA

Development of an Online Adaptive Vocabulary Test System ........................................... 632
Wen-shuenn Wu, Chung Hua University, Taiwan

SCIELNLAB - an educational virtual laboratory ........................................... 638
Carmen Ciubotariu, Philip Daum, University of Calgary, Canada

RODP: Meeting the Needs of the Online Learner ........................................... 639
Carol Helton, Raylean Henry, Tennessee Board of Regents, USA

Experience with WINDS Virtual University ........................................... 642
Milos Kravcik, Marcus Specht, Fraunhofer FIT, Germany

A Critical Evaluation of Student Support Services provided by the National Open University of Nigeria (NOUN) ........................................... 650
Godwin Ogieva, Ministry of Education (IT & Distance Learning Section), Post - Primary Education Board and Government Science and Technical College, Nigeria

What makes online learning a success: profiling successful online learners? ........................................... 655
Ramesh Sharma, Indira Gandhi National Open University, India

Applying Pedagogical Models in Network-Based Education: Research Findings from the Finnish HelLa Project Case Studies ........................................... 656
Varpu Tissari, Sanna Vahtivuori-Hänninnen, University of Helsinki, Finland; Virpi Vaattovaara, Heli Ruokamo, University of Lapland, Finland; Seppo Tella, University of Helsinki, Finland

HUMAN-COMPUTER INTERACTION (HCI/CHI)

A Conceptual Framework for Scaffolding Critical Thinking in an Online Conference for a Science Education Methods Course ........................................... 664
Charoula Angeli, Nicos Valanides, Department of Education, University of Cyprus, Cyprus

Virtual Community: Re-Interpreting the Learning Relations ........................................... 670
Luciana Backes, Eliane Schlemmer, Universidade do Vale do Rio dos Sinos, Brazil; Susane Martins Lopes Garrido, Universidade do Vale do Rio dos Sinos/Universidade Federal do Rio Grande do Sul, Brazil

A Role for Weblogs in Electronic Course Delivery ........................................... 677
Philip Barker, University of Teesside, UK

Analysis of Interactions Patterns in Video-Mediated Virtual Communities to Model Social Capital ........................................... 683
Ben Daniel, Ben Daniel, ARIES Lab, University of Saskatchewan, Canada; Nancy Poon, Nancy Poon, Department of Sociology, University of Saskatchewan, Canada

The Distance Education Electronic Portal: A Study of the Communicative Dimensions in an Asynchronous Forum Board ........................................... 689
Soon Fook Fong, Zuraidah A Rahman, Hanafi Atan, Ahmad HjMohamad, Zulham Hamdan, Rozhan M Idrus, Universiti Sains Malaysia, Malaysia

From Post-mortem Daguerreotypes to Post-modern Deconstructions: Students Make Documents Reveal ........................................... 696
Ken Golden, Queensborough Community College, USA

Instant Messaging Use and Its Effect on Student Participation in Online Group Work ........................................... 701
Stefan Hrastinski, Jönköping International Business School, Sweden

Research on Computer-Mediated Communication in Education: Summarizing the Past to Prepare for the Future ........................................... 707
Stefan Hrastinski, Jönköping International Business School, Sweden

Familiarity among participants on a BBS: Analysis of relationship between depth of self-disclosure of questions and replies ........................................... 715
Shogo Kato, Kanji Akahori, Tokyo Institute of Technology, Japan

Effects of Emotional Transmissions between Senders and Receivers on Emotions Experienced in E-mail Communication ........................................... 723
Yuuki Kato, Kanji Akahori, Tokyo Institute of Technology, Japan

Awareness Support for Student Led Online Conferencing ........................................... 731
Kimmo Koivunen, University of Tampere, Finland
