“Makes Me Feel Like a Real Person”: An Investigation into Personal Experiences of
Students with Cerebral Palsy Playing Computer Games .................................................. 2872
Paul Kearney, Unitec New Zealand, New Zealand

Investigating lecturers changing epistemologies and pedagogies during engagement with
e-learning in an education faculty ......................................................................................... 2880
Geoffrey Lautenbach, Duan Van der Westhuizen, University of Johannesburg, South Africa

In Search of the Mobile Learning Paradigm as We Are Going Nomadic .......................... 2888
Insook Lee, Sejong University, Korea (South); Tsuneo Yamada, Yasutaka Shimizu, Masanori Shinohara, Yoshiaki
Hada, National Institute of Multimedia Education, Japan

A Discussion of the Problems of Identity and of Establishing Communities of Practice in
Online Learning Contexts ..................................................................................................... 2894
Paul MacLeod, University of Sharjah, United Arab Emirates

Challenges and Opportunities in an International Technology Professional Development
Program ................................................................................................................................. 2900
Wendy Martin, Daniel Light, EDC!Center for Children and Technology, USA

Creating Situational Interest and Motivating Tasks in an e-Learning Environment ........... 2903
Catherine McLoughlin, Australian Catholic University, Australia; Joe Luca, Edith Cowan University, Australia

Using Student Learning Needs to Guide eLearning Development Now and in the Future ..... 2912
Carmel McNaught, The Chinese University of Hong Kong, Hong Kong; David M. Kennedy, Hong Kong Institute of
Education, Hong Kong

Combating ‘Cut N Paste’ Culture: The Impact of New Media Technologies on Plagiarism .... 2918
Caroline Miall, Queensland University of Technology, Australia

Creating E-Learning Based on Adult Learning Theory ....................................................... 2924
Kristine Olka, IBM, Design & Information Development, USA

A Life Story Study of Technology Specialist Teachers in Japan: Latent Significance of
Lack of Human Content in Educational Media and Technologies ....................................... 2932
Takashi Otani, Nagoya University, Japan

Creating Texts with the Internet as an External Source of Information ............................ 2938
Burkhard Priemer, Maria Ploog, Humboldt-University Berlin, Germany

Qualitative and Quantitative Aspects of Dialogue on a Distance Course ......................... 2944
Ruslan Ramanau, The Institute of Educational Technology, The Open University, UK

Promoting Deep Learning using Online Technologies in a Blended Delivery ................. 2950
Carol Richards, Neville Schofield, University of Newcastle, Australia

If you build it, will they come? Student participation and attitudes to e-learning ............... 2954
Heidi Sugarman, Aviva Weisel-Eichler, Ben Gurion University, Israel

From Mobile Learning to Pervasive Learning Environments ............................................. 2960
Antti Syvanen, Hypermedia Laboratory, University of Tampere, Finland; Petri Nokelainen, Pekka Ruohotie,
Research Centre for Vocational Education, University of Tampere, Finland

A Case Study on Correlations between Student Personalities and the Learning Process of
Web Based Training Materials ............................................................................................. 2967
Kosuke Terashima, Nagasaki University, Japan; Ryosuke Ikai, Graduate School, Kansai University, Japan; Kenichi
Kubota, Kansai University, Japan

Assessing learners’ perceptions of interaction with web-based instruction in adult and higher
education in Taiwan .............................................................................................................. 2971
Po-Yin Wang, The Overseas Chinese Institute of Technology, Taiwan; Yung-Sheng Chang, National Taichung
Institute of Technology, Taiwan

Learning and Problem-Solving Transfer between Physics Problems using Web-based
Homework Tutor .................................................................................................................. 2976
Rasil Warnakulasooriya, David Pritchard, Massachusetts Institute of Technology, USA

The Nature of the Learner to Learner Interaction in an Authentic Online Learning
Environment ......................................................................................................................... 2984
Younghee Woo, The University of Georgia, USA

How to Support Less-Successful Learners of Japanese—by Using Web-based Instruction ... 2987
Chih-Hsiu Wu, Yung-Sheng Chang, National Taichung Institute of Technology, Taiwan; Po-Yin Wang, The Overseas
Chinese Institute of Technology, Taiwan
The relationships between Taiwanese university students' Internet attitudes and their Internet self-efficacy ................................................................. 2989
Ying-Tien Wu, Department of Earth Sciences, National Taiwan Normal University, Taiwan, Taiwan; Chin-Chung Tsai, Institute of Education, National Chiao Tung University, Taiwan, Taiwan

Linking Professional Development with Technology Integration in the Classroom ................................................................. 2997
Joann Adams, Acadia University, Canada

Cross curricular units for cultivating students' learning skills through 'Bioethics Project' .................. 3003
Mika Asato, Naha Kokusai High School, Japan

Multimedia in Education: Integration on Multiple Levels .................................................. 3008
Dixie Billheimer, Regional Education Service Agency, II, USA; Kim Sigman, Buffalo High School, USA; Michael Murphy, Lisa Heaton, Marshall University, USA

Technology Supports for Struggling Readers and Writers in Public High Schools: Boulder, Colorado .................................................. 3012
Rosemary Bogart, Boulder Valley School District (BVSD), USA; Peggy Dalton, Freedom Scientific, Learning Systems Group, Canada; Anja Kintsch, Jean Riordan, Paul Visvader, Boulder Valley School District (BVSD), USA

Developing complex thinking skills in online learning environments .................................. 3018
Jean Botha, Dwan Van Der Westhuizen, University of Johannesburg, South Africa

A View Inside An Online Alternative Teacher Certification Program: "Can Learning Styles Be Self-Assessed?" .................. 3027
Evelyn R. Brown, LeTourneau University, USA

Life-Long Education Developing Factors in Internet Learning Environments Employing Multimedia and its Application - Traditional Teaching/Learning Roles Maintained? .................................................. 3028
Lenka Bucherova, Brno University of Technology, Faculty of Chemistry, Czech Republic

CAMPUS: a generic framework for Computer Assisted Mathematical Problem Understanding and Solving .................................................. 3032
Gilbert Busana, Romain Martin, University of Luxembourg, Luxembourg

Developing and Using Interactive Learning Objects in a Construction Management Course ..... 3035
Helen Carter, Hamish Dobbs, Willy Sher, University of Newcastle, Australia

Designing a Feedback System for Teachers to Diagnose Students' Concept Map in the Web-based PBL Learning Environment .................................................. 3043
Alex Chang, Kun-Fa Cheng, Dept. of Information and Computer Engineering, Chung-Yuan Christian Univ., Taiwan; Maiga Chang, Office of National Science and Technology Program for e-Learning in Taiwan, Taiwan; Jia-Sheng Heh, Dept. of Information and Computer Engineering, Chung-Yuan Christian Univ., Taiwan

The Relationships between Participation in Online Discussions and Quality of Project-Based Products: An Empirical Case Study of Web-Enabled Project-Based Learning Community Using Jigsaw Collaborative Learning .................................................. 3050
Chi-Cheng Chang, Institute of Technological & Vocational Education, National Taipei University of Technology, Taiwan

The Attitudes and Opinions of Cypriot Elementary Teachers about the Use of the Internet as an Educational Tool .................................................. 3058
Kyriacos Charalambous, Frederick Institute of Technology, Cyprus; Ifigenia Ioannou, Ministry of Education and Culture, Cyprus

An Examination of the Interactive Strategies in Virtual Classrooms .................................................. 3066
Hsiang Chen, National Sun Yat-sen University, Taiwan; Pi-yu Kao, Southern Taiwan University of Technology, Taiwan; Chun-ching Yang, Department of Applied Gerontology, Toko University, Taiwan

Individual and Group Factors that Affect Critical Thinking Online .................................................. 3070
Simone Conceicao, University of Wisconsin-Milwaukee, USA

The new meaning of S-P Chart .................................................. 3074
Chien Yun Dai, Jung-Kai Cheng, Yung-Chang Hsu, National Taiwan Normal University, Taiwan

eQ Through the FOSP Method .................................................. 3080
Violeta Damjanovic, Postal savings bank, Yugoslavia; Milos Kravicik, Fraunhofer Institute for Applied Information Technology FIT, Germany; Dragom Gasevic, School of Interactive Arts and Technology, Simon Fraser University Surrey, 2400 Central City, 10513 King George Hwy., Surrey, BC V3T 2W1, Canada

Designing Activities to Promote Critical Thinking in a Graduate Distance Course .................................................. 3089
Yu Feng, Indiana University Bloomington, USA
Operationalizing Nine Design Elements of Authentic Learning Environments in a Classroom-based On-line Simulation
Brian Ferry, Lisa Kervin, University of Wollongong, Australia; John Hedberg, Macquarie University, Australia; Jan Turbill, Brian Cambourne, University of Wollongong, Australia; David Jonassen, University of Missouri, USA

East meets West: A web-based training needs analysis of e-learning professionals across cultures
Lara Frumkin, Mike Mimikinis, Alan Murphy, Middlesex University, UK

Geometry Sketching Software: Its Elementary Dear Euclid
Joseph Furner, Florida Atlantic University, USA

The Use of Task Based Learning in a Web Commerce Development Undergraduate Unit
Stuart Garner, Edith Cowan University, Australia

The value of e-writing effort in technology-mediated interaction
Ruth Geer, University of South Australia, Australia

Using AgentSheets to Introduce the List Data Structure
James Greer, Linda Sherrell, The University of Memphis, USA

The Use of Practical Case Studies in Information Systems Courses
Edward Hanssen, Queensborough Community College CUNY, USA

A taxonomy for instructional design
Brad Hokanson, Simon Hooper, University of Minnesota, USA

Effective Integration of Online Technology in the Face-to-Face Classroom, Going Beyond the Evolution Phase
Marie-Pierre Huguet, Rensselaer Polytechnic Institute, USA; Sehnaz Baltaci, SUNY Albany, USA; Frank Wright, Rensselaer Polytechnic Institute, USA

New Directions for Technology Use: Handheld Computers?
Doris G. Johnson, Wright State University, USA

Demonstration of a game-like simulation of a complex biological system, the immune system, designed to help learners integrate fragmentary knowledge
Brian Kahn, United Nations International School, USA

E-Learning without Text and Language: A Language-Free Learning Model
Hakan Kalinyaprak, Institute of Software Technology, Information & Software Engineering Group, Vienna University of Technology, Austria; Gerald Futschek, Institute of Software Technology, Information & Software Engineering Group, Vienna University of Technology, Austria; Georg Blaha, fh-campus wien, Zentrum Neue Medien und Fernlehre, Austria; Edgar Weippl, Institute of Software Technology, Information & Software Engineering Group, Vienna University of Technology, Austria

Effects of Prior Knowledge on Multimedia Learning: Does Expertise Reverse and How to Manage It?
Slava Kalyuga, University of New South Wales, Australia

Student managed learning management systems: Teachers as designers
David M Kennedy, Hong Kong Institute of Education, Hong Kong

Learning Effectiveness in On-Line Collaborative Concept Mapping via CMC: Comparing Different Mode of Interactions
Ahmad Khamesan, Nick Hammond, University of York, UK

Talented/gifted students’ perception of their best teachers
Mi Song Kim, McGill University, Canada

Technology Integration Techniques in Preservice and Alternative Teacher Education Preparation
Wanjira Kinuthia, Georgia State University, USA

DIVIDU - Learning from Professional Practice through Online Video
Riet Kulk, Developer ICT & Education, ACTA (Academic Centre of Dentistry Amsterdam), Netherlands; Judith Janssen, Anne-Martine Gielis, Projectmanager ICT & Teacher Education, Graduate School of Teaching and Learning (ILO), Universiteit van Amsterdam, Netherlands; Els Scheringa, Teacher educator, Dept. Biology, Centre for Educational Training, Assessment and Research (CETAR) VU, Netherlands

From Folk Song to Art Music: Deconstructing the Metamorphosis
Martin Kunowski, QUEENSBOROUGH COMMUNITY COLLEGE, USA

Asynchronous Online Discussion: Empirical Evidence on Quantity and Quality
Paul Lam, Kin Fai Cheng, Carmel McNaught, The Chinese University of Hong Kong, Hong Kong
Searching for Word(s): Common Preconceptions about Writing Technologies .................................................. 3216  
Cara Lane, Program for Educational Transformation Through Technology, USA

Optimizing e-Learning Effect with the Right Technological Solution .......................................................... 3223  
David Weimann Lee, I-Fang Ho, The Overseas Chinese Institute of Technology, Taiwan; Nicole P. W. Huang, National Formosa University, Taiwan

Navigation Flow Map Method of Representing Students’ Searching Strategies on the Web ................... 3229  
Chia-Ching Lin, Chin-Chung Tsai, Institute of Education and Center for Teacher Education, NCTU, Taiwan

Developing computer games in critical thinking assessment ................................................................. 3237  
Yu-ling Lu, Department of Science Education, Taiwan; Shu-hua Cheng, Department of Applied Chemistry, Taiwan; Chi-jui Lien, Department of Science Education, Taiwan

Producing Web Based Multimedia for Web Design Instruction ................................................................. 3240  
Thomas Mackey, School of Information Science & Policy, University at Albany, SUNY, USA

Full Disclosure: Mediated Meaning or Dismediation? ............................................................................. 3247  
Nicola Martinez, SUNY Empire State College, USA

Essence of Success in the Development and Implementation of Web-enhanced Foreign Language Courses ......................................................................................................................... 3252  
Kazue Masuyama, California State University, Sacramento, USA

Developing Metacognition through Student Contracts ............................................................................. 3260  
Mark McMahon, Edith Cowan University, Australia; Joe Luca, Edith Cowan University, Australia

Web-Based Educational Discussion Forums in a College Undergraduate Program Setting: the Case of Alfamat ........................................................................................................................................ 3269  
Luisa Miranda, Carlos Morais, Polytechnic Institute of Bragança, Portugal; Paulo Dias, Conceicao Almeida, University of Minho, Portugal

Quizzes are not enough to reach high-level learning objectives! ................................................................. 3275  
Felix Möhrtscher, ICM, Graz University of Technology, Austria; Alexandra Sindler, Graz University, Austria

Predicting and Encouraging Student Persistence and Achievement Online ............................................. 3279  
Libby Morris, University of Georgia, USA; Catherine Finnegan, University System of Georgia, USA

E-mail in the Educational Community: the Beginning of a Future ............................................................. 3285  
Jacinta Paiva, Centre for Computational Physics and FPS – Softsciences, Portugal; Maria Teresa Mendes, José Manuel Canavarro, School of Psychology and Education University of Coimbra, Portugal

Educational Multimedia and Concept Learning Strategies ......................................................................... 3289  
Seyyed Abbas Razavi, National Organization for Educational Testing, Iran (Islamic Republic Of)

Speak to the Computer: Speaking Practice for the Language Learner ....................................................... 3292  
Linh Pallos, Kyoto University of Foreign Studies, Japan

Pushing the Boundaries of Preservice Teacher Training Programs: From Designing Better Online Courses to Developing Better Online Teachers ......................................................................................... 3305  
Karim Remtulla, Ontario Institute for Studies in Education at University of Toronto (OISE/UT), Canada

The Influence of Culture and Computer Skills on the Use of CALL Activities in Self-Access Learning: A Qualitative Case Study .................................................................................................................. 3310  
Torsten Schlak, Ruhr-University Bochum, Germany, Germany

Deep Learning; Media, Methods and Meaning, Part 1 .............................................................................. 3316  
Julia Shaw, Nicola Martinez, Fabio Chacon, SUNY Empire State College, USA

Deep Learning; Media, Methods and Meaning, Part 2 ...................................................................... 3320  
Julia Shaw, Nicola Martinez, Fabio Chacon, SUNY Empire State College, USA

Motivating Ill-Structured Problem Solving in a Web-Based Peer Group Environment: A Learning Goal-Orientaton Perspective .................................................................................................. 3324  
Hae-Deok Song, University at Albany, State University of New York, USA

An Investigation of Hispanic Student Achievement in Elementary School Mathematics through the Use of a Computer-Assisted Instruction Receptive/Expressive Language Model .................................................. 3331
