Life Beyond PT3: Field-Testing and Marketing an E-Portfolio Digital Textbook ........................................ 4253
Curtis Ho, Gary Theal, Ariana Eichelberger, University of Hawaii at Manoa, USA

Live Anaglyphic Camera Recordings: A Software System for Real-Time Recording of Stereoscopic Image-Sequences and Videos ................................................................. 4259
Peter Hoffmann, Institute for Multimedia and Interactive Systems, University of Luebeck, Germany; Tobias Nothdurft, University of Luebeck, Germany; André Melzer, Michael Herczig, Institute for Multimedia and Interactive Systems, University of Luebeck, Germany

The framework of Knowledge Sharing in E-learning Environments: Based on Activity Theory ........................................ 4265
Hsiu-Mei Huang, National Taichung Institute of Technology, Taiwan; Shu-Sheng Liaw, General Education Center, China Medical College, Taiwan; Geeng.-Neng You, Department of Multimedia Design, National Taichung Institute of Technology, Taiwan

A Study of Multimedia Annotation of Web-Based Materials ................................................................. 4272
Wu-Yuin Hwang, Graduate School of Network Learning Technology, NCU, Taiwan, Taiwan; Chin-Yu Wang, Department of Computer Science and Information Engineering, NCU, Taiwan, Taiwan; Mike Sharples, Electronic, Electrical and Computer Engineering, University of Birmingham, UK, UK

Information Visualisation: Towards an Extensible Framework for Accessing Learning Object Repositories ........................................................................ 4281
Joris Klers, Michael Meire, Stefaan Ternier, Katrien Verbert, Erik Duval, Katholieke Universiteit Leuven, Belgium

Dynamic Web Delivery of Media ........................................................................ 4288
Jonathan Leamon, Jianjun Wang, Williams College, USA

Organizing and sharing web information in personal information space to promote knowledge exchange ........................................................................ 4290
Liang-Yi Li, Department of Computer Science & Information Engineering, National Central University, Taiwan; Baw-Jhiune Liu, Department of Computer Science & Information Engineering, Yuan Ze University, Taiwan; Jorng-Tzong Horng, Gwo-Dong Chen, Department of Computer Science & Information Engineering, National Central University, Taiwan

Modeling the Concept of Dynamic Market Activity in Ba-Gua Shan Community: Using IOOI Framework ........................................................................ 4298
MeiChung Lin, National Changhua University of Education, Taiwan

A Web Based Application Using Videos of Practice to Support Teacher Education in Quebec ........................................................................ 4302
Florian Meyer, Robert David, Universite de Montreal, Canada; Judith Cantin, AQUOPS, Canada; Michel Aube, Universite de Sherbrooke, Canada

3D User Interfaces and Multimedia in E-Learning ........................................................................ 4306
Teresa Monahan, Gavin McArdle, Michela Bertolotto, Eleni Mangina, University College Dublin, Ireland

Situated Design Considerations for Video and Media Format of Multimedia Learning Objects ........................................................................ 4314
Christopher Moore, Marie-Pierre Huguet, Rensselaer Polytechnic Institute, USA

The Multimedia Effect in Electronic Bilingual Dictionaries: The Effects of Graphic Representations on Vocabulary Acquisition of a Foreign Language ........................................................................ 4319
Carlos Nakamura, Susanne Lajoie, McGill University, Canada; Rodolfo Franconi, Dartmouth College, USA

Dynamic Concept Maps ........................................................................ 4323
John Nesbitt, Oluosola Adesope, Simon Fraser University, Canada

Automatically Generating Game-based Assessments for Dynamically Selected Learning Objects ........................................................................ 4330
Pam Nesbitt, IBM Tivoli Education, USA; Elizabeth Bagley, IBM Technical Learning, USA; MaryEllen Coleman, IBM User Technologies, USA; Missy Johnson, Christopher Dawson, IBM Design & Information Development, USA; David Ross, IBM Technical Learning, USA

An Active Learning and Training Environment for Database Programming ........................................................................ 4338
Claus Pahl, Claire Kenny, Dublin City University, Ireland

LIIEBRE (Local Integrated and Interactive E-hyperbooks for Basic and Recreational Education): A Hypermedia System for Mexican Basic Education ........................................................................ 4346
D. Alvaro González Perales, Alex de Fuentes Martinez, Instituto Tecnológico de Cuautla, Mexico; Rosmary Selene Lara Villanueva, Universidad Autónoma del Estado de Hidalgo, Mexico

Low Level Architecture: Initial Reports from the Classroom ........................................................................ 4352
Michael Piller, National Defense University, USA; Michael Miller, National Defense University, USA
Developing New Tools for Video Analysis and Communication to Promote Critical Thinking
Michael Preston, Gordon Campbell, Columbia Center for New Media Teaching and Learning, USA; Herbert Ginsburg, Teachers College, Columbia University, USA; Peter Sommer, Frank Moretti, Columbia Center for New Media Teaching and Learning, USA

Integrating Computer-based Multimedia Instructional Design into Teaching International English Phonetic Symbols
Mingzhu Qiu, CTL, OISE/UT, Canada; Jim Hewitt, OISE/UT, Canada

The Development and Evaluation of Network Collaboration of “School Renga: Linking Images”
Yukie Sato, Yokohama City Oguchidai Elementary School, Japan; Hitoshi Nakagawa, Kanazawa University, Japan; Rieko Nakamura, Toshihiro Anzai, Artist, Japan; Kyuichiro Kita, Adobe Systems, Inc., Japan

Challenges in Developing Multimedia Assessment Objects
Gavin Sim, University of Central Lancashire, UK; Stephanie Strong, Lancaster University, UK; Phil Holmfield, University of Central Lancashire, UK

Developing An Instrument To Assess The Extent To Which The Design Of Multimedia CD-ROMs Accommodates Individual Differences In Cognitive Style
Anne Strehler, University of Pretoria, South Africa

Web-Based Soccer Skills Education Application with Animated Role Player Game (RPG) Functionality
Hisashi Suzuki, Masao Murota, Tokyo Institute of Technology, Japan

Development of Support Software to Create Lesson Preview Teaching Materials with Music
Toshihiko Takeuchi, Tokyo Institute of Technology University, Japan

Information Access Method to Meteorological Data for Educational Application
Masashi Toda, Ayako Osanai, Ayahiko Niimi, Future University-Hakodate, Japan; Junichi Akita, Kanazawa University, Japan; Ken-ichi Kimura, Osamu Konishi, Future University-Hakodate, Japan

Art Tool and Objective Three Dimensional LOGO
Katsuhide Tsushima, Masayuki Ueno, Takeshi Nishiki, Osaka Electro-Communication University, Japan; Takayuki Otsuka, Intelligent Cluster, Japan; Noriko Nomura, Mukogawa Women’s University, Japan

Logo based interactive Learning Environment for motion picture study
Masayuki Ueno, Takeshi Nishiki, Katsuhide Tsushima, Osaka Electro-Communication University, Japan

Using Simulation and Demonstration in Teaching Computer networking and Network Programming
Harris Wang, Athabasca University, Canada

Repurposing a Computer Role Playing Game for Engaging Learning
Birgit Woods, Elizabeth Whitworth, Aida Hadzisavovic, Jean-Pierre Fiset, Claire Dormann, Sebastien Caquard, Amos Hayes, Robert Biddle, Carleton University, Canada

How Animations and Live-Networked Video Links Coupled With Hands-on Building Activities Improve Student Learning By Assisting in the Creation of Clear Mental Models
Daniel P McVeigh, Daniel P McVeigh, John Black, John Black, Teachers College Columbia University, USA

A Survey of E-Learning in the Workplace: Checking the Status, Reporting the Future
Curt Bonk, Indiana University and SurveyShare, USA; Kyong-Jee Kim, Indiana University, USA; TingTing Zeng, Warwick University, UK

Pragmatic adaptability for e-learning systems
Sabina Bordiga, Luigi Colazzo, Francesco Magagnino, Andrea Molinari, Dept. Computer and Management Sciences, Italy

Finding Appropriate Publication Outlets for Technology Use in Education
Marwin Britto, Central Washington University, USA

Effects of Animation in Facilitating Student Achievement: A Meta-Analytic Assessment
Yu-hui Ching, Fengfeng Ke, Huifen Lin, Francis Dwyer, Pennsylvania State University, USA

EvalCT: A Knowledge Base to Assess ICT Learning Environments
Aude Dufresne, UNIVERSITE DE MONTREAL, Canada; Jacques Raynauld, HEC MONTREAL, Canada; Emmanuelle Villiot-Leclerc, UNIVERSITE DE MONTREAL, Canada

Keeping the Learning History
Eicke Godehardt, Nadeem Bhatti, Christoph Hornung, Fraunhofer Institute for Computer Graphics, Germany
Opportunities in Learning from Marked Student Work ................................................................. 4470
Eva Heinrich, JiaYi Lu, Massey University, New Zealand

Spreadsheet as Mindtool in a Mathematics Lesson: A Formative Study ........................................... 4476
Fong-Lok Lee, Lap-Foo Chu, Wai-Hung Ip, The Chinese University of Hong Kong, Hong Kong

eLearning Reality, ID Processes and Pedagogical Objects ................................................................. 4484
Karin Lundgren-Cayrol, Diane Rueillard, Ileana de la Teja Angeles, France Henri, Marc Couture, LICEF / CIRTA Research Centre, Télé-université, Canada

Resistance and Renewal: Promoting STSE Perspectives in Physics Teacher Education through Multi-Media Cases ................................................................. 4492
Erminia Pedretti, Bencze Larry, Jim Hewitt, Lisa Romkey, OISE/University of Toronto, Canada

Adaptive web based learning and factors affecting student performance in economics ..................... 4497
Dimitrios Sidiropoulos, Areti Valasidou, Despina Bousiou-Makridou, University of Macedonia, Greece

Courseware Development Using a Single Source Approach ................................................................. 4502
Ludger Thomas, Eric Ras, Fraunhofer Institute for Experimental Software Engineering (IESE), Germany

Using Computers to Support Formative Assessment of Assignments ............................................... 4510
Jun Zhang, Eva Heinrich, Massey University, New Zealand

The Design, Development and Evaluation of a Virtual Reality (VR)-Based Learning Environment: Its Efficacy in Novice Car Driver Instruction ........................................... 4516
Chwen Jen Chen, Seong Chong Toh, Mohd Faizy Wan, University Science Malaysia, Malaysia

Immersive Displays for Education Using CaveUT ................................................................................... 4525
Jeffrey Jacobson, School of Information Sciences, University of Pittsburgh, USA; Matthew Ellis, Sean Ellis, Lyle Seethaler, Virtual Information Systems Center, University of Pittsburgh, USA

The Virtual Egyptian Temple ................................................................................................................. 4531
Jeffrey Jacobson, School of Information Sciences, University of Pittsburgh, USA; Lynn Holden, FiatLUX Studios, Canada

From Laser Scanning to Virtual Reality: The Art and Science of Constructing a Thule Whalebone House ................................................................. 4537
Richard Levy, University of Calgary (EVDS), Canada; Peter Dawson, University of Calgary, Department of Archaeology, Canada

Spreadsheets in Education: A Peer-reviewed Medium for Active Learning ........................................... 4542
Sergei Abramovich, State University of New York at Potsdam, USA; Steve Sugden, Bond University, Australia

Academic Use of Online Encyclopedias ................................................................................................. 4548
Claire Bélisle, LIRE (CNRS-University Lumière Lyon 2), France

Developing a learning object repository for international agricultural research .................................. 4553
Jan Beniest, World Agroforestry Centre (ICRAF), Kenya; Thomas Zschocke, International Potato Center (CIP), Peru

Instructional Design for High School Students: Making complex content accessible ......................... 4556
Joanne Bentley, Utah State University, USA

SHARING & RE-USING LEARNING OBJECTS: LEARNING MANAGEMENT SYSTEMS And LEARNING OBJECT REPOSITORIES ......................................................... 4558
Julien Broisin, Université Paul Sabatier, France

Log Files for Educational Applications ................................................................................................. 4566
Jason Ceddia, Judy Sheard, Monash University, Australia

An Analysis of the web-based learning environment for earth science education in Taiwan ................................................................. 4574
Cheng-Chieh Chang, Fang-Ying Yang, Department of Earth Sciences, National Taiwan Normal University, Taiwan; Chin-Chung Tsai, National Chiao-Tung University, Taiwan

Students' Trust-Aware Learning Material Recommendation System .................................................. 4580
Chih-Wei Chang, Chen-Chung Liu, Jorng-Tsong Horng, Gwo-Dong Chen, Computer Science and Information Engineering, National Central University, Taiwan, Taiwan

Web course design in action: The design of an asynchronous online course using an action research methodology ................................................................. 4586
Patrick Devey, Concordia University, Canada

Empowering learning objects: an experiment with the ganesha platform ........................................... 4592
Patrick Duval, Agathe Merceron, Michel Scholl, Laurent Wargon, ESILV Engineering School, France

Free Internet-based Vocational Assessment Resources: Quantity and Quality Issues .......................... 4600
William Garner, Gary Szimony, University of Arkansas at Little Rock, USA
