Volume 2
Proceedings
Twenty-sixth Arctic and Marine Oilspill Program (AMOP) Technical Seminar
Twenty-fourth Technical Seminar on Chemical Spills (TSOCS) and
Fifth Biotechnology Solutions for Spills (BI OSS)
June 10 to 12, 2003
Harbour Towers Hotel
Victoria, British Columbia
Canada
The seminars are sponsored by the Environmental Protection Service of the
Environmental Technology Advancement Directorate of Environment Canada.

Volume 2
Compte Rendu
Le vingt-sixième Colloque technique du programme de lutte contre les déversements
d'hydrocarbures en mer et dans l'Arctique
Le vingt-quatrième Session sur les déversements de produits chimiques (TSOCS)
Le cinquième Session de Solutions en biotechnologie lors de déversements (BI OSS)
du 10 au 12 juin 2003
Hôtel Harbour Towers
Victoria (Colombie-Britannique)
Canada
Les Colloques sont commandités par le Service de la protection de l'environnement,
Direction générale pour l'avancement des technologies environnementales
der Environnement Canada.

Workers clean up the oiled rock face on a beach in Spain after the oil spill from the
Prestige-Nassau in November/December, 2002. (Photo courtesy of the National
Oceanic and Atmospheric Administration/NOAA, Seattle, Washington)

Photo couverture
Des travailleurs nettoient les hydrocarbures de la surface des roches sur une plage
d'Espagne lors de l'intervention suite au déversement d'hydrocarbures de la
Prestige-Nassau en novembre/décem bre 2002. (photo fournie par la National Oceanic
and Atmospheric Administration/NOAA, Seattle, Washington)
Notice
The papers in these Proceedings are published as submitted by the authors. All papers have been peer reviewed. Any statements or views presented here are those of the authors. Mention of trade names or commercial products does not constitute endorsement or recommendation for use.

Inquiries about the technical content of papers in this seminar should be directed to the author(s). Information about the seminars in general is available from:

Table of Contents
Table des matières

Containment and Recovery
Rétenion et récupération

Extended Testing of GT-185 Pumps in Bitumen ....................... 543
D. Cooper  R. MacKay
SAIC Canada  Canadian Coast Guard
Ottawa, Ontario, Canada  Charlottetown, Prince Edward Island, Canada

Positive Displacement Archimedes' Screw Pumps and
Flow Enhancing Techniques. Essential Tools in Response to
Spills of Heavy Oil and Bitumen .................................. 559
F. Hvidbæk
flemingCo environmental aps
Sulpsted, Aalborg, Denmark

Recent Oil Recovery Test Trials with Ice in Finland .................. 577
J. Rytkönen and J. Sassi  E. Mykkänen
VTT Industrial Systems  Finnish Environment Institute
Espoo, Finland  Espoo, Finland

The Influence of Oil Viscosity on Spilled Oil Recovery by Suction ...... 595
K. Ueda and H. Yamanouchi
National Maritime Research Institute
Mitaka, Tokyo, Japan

Proposed Oil Recovery Wall System for Kuwait's Oil Fields ............ 605
K.V. Wong and M.N. Budair
University of Miami
Miami, Florida, U.S.A.

Oil Bioremediation Processes in Brazilian Marine
Environments - Laboratory Simulations ............................... 617
E.S. Souza and J.A. Trigulis  S.M. Barbanti and A.T. Volpon
Universidade Estadual deo Norte Fluminense  Petrobras Research & Development Center
Macaé, Brazil  Rio de Janeiro, Brazil
In-situ Burning and Shoreline Protection and Cleanup

Brûlage in-situ et Protection et nettoyage des rives

Tests to Determine the Limits to In Situ Burning of Thin Oil Slicks in Brash and Frazil Ice

I.A. Buist
SL Ross Environmental Research Ltd.
Ottawa, Ontario, Canada

D.F. Dickins
DF Dickins Associates
Escondido, California, U.S.A.

C. Owens
ExxonMobil Upstream Research
Prudhoe Bay, Alaska, U.S.A.

J.V. Mullin
Minerals Management Service
Herndon, Virginia, U.S.A.

In-Situ Burning of Orimulsion: Mid-Scale Burns

M.F. Fingas, P.G. Lambert, M. Goldthorp
and R.L. Gamble
Environment Canada
Ottawa, Ontario, Canada

Accelerating the Natural Removal of Oil on Beaches:
Part 1 - Sediment Relocation

E.H. Owens
Polaris Applied Sciences, Inc.
Bainbridge Island, Washington, U.S.A.

G.A. Sergy
Environment Canada
Edmonton, Alberta, Canada

Field Instruments for Real Time In-Situ Crude Oil Concentration Measurements

C.B. Fuller, J.S. Bonner, C.A. Page
and G. Arrambide
Texas A&M University
Corpus Christi, Texas, U.S.A.

Biodegradation of Oil-contaminated Sediments: Effect of a Dispersant and Natural Organic Matter

D. LaRiviere and R.L. Autenrieth
Texas A&M University
College Station, Texas, U.S.A.

Is SMART Really that Smart?

R.H. Goodman
Innovative Ventures (IVL) Ltd.
Cochrane, Alberta, Canada

Application of Particle Population Kinetics in Modeling the Vertical Transport of Chemically Dispersed Crude Oil

M.C. Sterling, Jr., T.O. Ojo and R.L. Autenrieth
Texas A&M University
College Station, Texas, U.S.A.

Trace Dispersant Detection and Removal

D. Cooper, K. Volchek, S.J. Cathum and H. Peng
SAIC Canada
Ottawa, Ontario, Canada

Field Simulation Experiment of Aerial Dispersant Application for Spill of Opportunity

T.O. Ojo and M.C. Sterling, Jr.
Texas A&M University
College Station, Texas, U.S.A.

Spill Modelling

Modélisation des déversements

Advantages of Separating the Circulation Model and Trajectory Model: GNOME Trajectory Model Used With Outside Circulation Models

C.J. Beegle-Krause
National Oceanic and Atmospheric Administration
Seattle, Washington, U.S.A.
Inclusion of an Oil Database into a Forecasting System ............................................. 841
E. Comerma
Laboratorio de Ingenieria Maritima
Barcelona, Spain

J. Guyomarch, F. Cabioc'h and A. Doré
Cedre
Brest Cedex, France

Assessment of the Potential Impacts of Oil Spills in the James River, Virginia .......... 857
D. French McCay, N. Whittier, T. Isaji and W. Saunders
Narragansett, Rhode Island, U.S.A.

Operational Simulation and Forecast of the Aige 2002 Oil Spill in the Sea of Japan ........ 879
S.M. Varlamov and J.-H. Yoon
Kyushu University
Kasuga, Fukuoka, Japan

A Stochastic Model to Predict the Formation of Oil-Mineral Aggregates .................. 893
A. Khelifa and P.S. Hill
Dalhousie University
Halifax, Nova Scotia, Canada

Vertical Dispersion of Oil Droplets ............................................................................. 911
P. Tkalich
The National University of Singapore
Singapore, Singapore

Calculation of the Thermal Inertia of Sunken Oil ....................................................... 927
W.J. Lehr and D.A. Simecek-Beatty
National Oceanic and Atmospheric Administration
Seattle, Washington, U.S.A.

Integration of the CDOG Deep Water Oil and Gas Blowout Model with the NOAA GNOME Trajectory Model .......................................................... 935
P.D. Yapa and F. Chen
Clarkson University
Potsdam, New York, U.S.A.

Recent Spill Experiences
Expériences récentes de déversements

The Baltic Carrier Oil Spill: Monitoring and Assessment of PAC Levels in Water, Sediment and Biota ................................................................. 953
M. Pécseli
National Environmental Research Institute
Aalborg, Denmark

O. Anderson and G. Banta
Roskilde University
Roskilde, Denmark

Some Observations on Heavy Fuel Oil Spills: Trends, Impacts and Comparisons with Crude Oil Spills ................................................................. 971
D.I. Little and T. Deakin
Arthur D. Little Limited
Cambridge, United Kingdom

W.J. Lehr and D.A. Simecek-Beatty
National Oceanic and Atmospheric Administration
Seattle, Washington, U.S.A.

Removing Heavy Fuel Oil from the Submerged Wreck of the Jacob Luckenbach .......... 999
C. Moffatt
PCCI/GPC
Williamsburg, Virginia, U.S.A

B. Snyder
PCCI Alexandria
Alexandria, Virginia, U.S.A.

Oil Spill Monitoring and Forecasting on the Prestige-Nassau Accident ....................... 1013
P. Montero, J. Blanco, J.M. Cabanas, J. Maneiro, V. Pazos and A. Morofio
Unidade de Observación Próxima - CPAM
Vitxoaña, Pontevedra, Spain

F. Braunschweig, R. Fernandes, P.C. Leitao and R. Neves
MARETEC - IST
Lisbon, Portugal

Papers from Poster Presentations
Articles d'après les présentations d'affichage

Aerial Spill Response Coordination ............................................................................. 1031
C.M. Cornell and R.E. Miller
Clean Sound Cooperative, Inc.
Everett, Washington, U.S.A.

P. Rudin-Brown
Environment Canada
Hull, Quebec, Canada
