E-Learn 2005
World Conference on E-Learning in Corporate, Government, Healthcare, & Higher Education

Proceedings of E-Learn 2005
World Conference on E-Learning in Corporate, Government, Healthcare, & Higher Education
October 24-28, 2005 • Vancouver BC, Canada

Edited by Griff Richards

A CONFERENCE OF AACE
http://www.aace.org
Video Surveillance in the Ontario Workplace

Franklin Ramsoomair, Charles Borras, Wilfrid Laurier University, Canada

Weblogs to Promote Creative Expression and Reflective Practice in E-Learning Environments

Beverly B. Ray, Idaho State University, USA; Martha Hoccutt, University of West Alabama, USA; Susan K Patterson, Rhode Island College, USA

eLearning Supporting The Revitalisation of the Maori Language

Antony Royal, Te Wananga o Raukawa, New Zealand

Encouragement in On-line Education

David Sarnoff, Capella University, USA; Daniel Eckstein, Donna Eckstein, Capella University, USA

Teen Substance Abuse Prevention Virtual Community

Richard Schoech, U of Texas at Arlington, USA

Integrating Computer Technology and the Internet in Learning Communities for Culturally and Linguistically Diverse Students

George Semich, Paul Gregory, John Graham, Robert Morris University, USA

A Binational Project to Introduce and Promote E-Learning in a Latin American University

Stephen D. Sorden, Northern Arizona University, USA; Paloma Morua, University of Sonora, USA

Strategies for addressing personality type and learning style inhibitors to e-learning

Louise Terry, London South Bank University, UK; Carol Leppa, University of Washington, Bothell, USA

Social Interaction: The Engine for Effective Online Learning?

Hui-Hsien Tsai, University of Missouri-Columbia, USA

Non Completion in Distance Higher Education

Claudio Vasquez, UNIVERSITY OF GUADALAJARA, Mexico

Direct Accountability in Online Learning Programs: A Student Perspective - Year Two

Elsa Waters, Kevin Feenan, University of Phoenix Online, USA

Knowledge Culture and Teacher Preparation

Hanan Yaniv, University of Calgary, Canada

Cultural Factors Affecting Chinese Students’ Participation in Asynchronous Online Learning

Naxin Zhao, Department of Education/Concordia University, Canada; Douglas McDougall, Ontario Institute for Studies in Education/University of Toronto, Canada

SCORM Conformant Courseware Development

Bradley Barker Bradley, John Ansorge, University of Nebraska-Lincoln, USA

An Educational Modelling Language Meta-model to Enhance E-learning Instructional Design

Manuel Caeiro-Rodriguez, Luis Anido-Rifón, Martin Llamas-Nistal, University of Vigo, Spain

A Service On-Demand Model for E-Learning

Tom Chan, Southern NH University, USA

Fundamental Requirements of Personalised eLearning Development Environments

Declan Dagger, Owen Conlan, Vincent Wade, Trinity College Dublin, Ireland

Future trends and directions in Learning, Technology and Standards

Norm Friesen, Feenberg Andrew, Simon Fraser University, Canada; Wayne Hodgins, Autodesk Inc, USA; Lassi Nirhamo, University of Turku, Finland

Interoperation of Knowledge Domain Taxonomies Using Ontology Mappings

Jerry Li, D Gašević, John C. Nesbit, Griff Richards, Simon Fraser University, Canada

Application Service Provider System: a new concept to provide interoperability between learning management systems

Ngomo Macaire, Société A6, France; Abdulrab Habib, Institut National des Sciences Appliquées de Rouen - Laboratoire PSL, France; Oubahsi Lahcen, Université René Descartes - Laboratoire CRIF5/AIDA, France

Mapping the e-Learning Assessment Domain: Concept Maps for Orientation and Navigation

David Millard, Yvonne Howard, Christopher Bailey, Hugh Davis, Lester Gilbert, University of Southampton, UK; Steve Jeyes, University of Hull, UK; Joseph Price, University of Southampton, UK; Niall Sclater, University of Strathclyde, UK; Robert Sherratt, University of Hull, UK; Iain Tulloch, University of Strathclyde, UK; Gary Wills, University of Southampton, UK; Rowin Young3, University of Strathclyde, UK

Towards a new learning concept: Using dynamic metadata for educational virtual collections

Raul Morales-Salcedo, Tokushima University, Japan
Extending the Learning Design Specification with Services .................................................. 2784
Diana Ragbir, Permanand Mohan, The University of the West Indies, Trinidad And Tobago

Ontology-based learning objects retrieval ............................................................... 2793
Mario Arrigoni Neri, Politecnico di Milano, Italy

David Beach, Matthew Humphrey, Karolina Caran, Lisa Marshak, Maureen Madden, Carolyn Iguchi, Nada Dabbagh, George Mason University, USA

Empowering Learners - Changing the World ........................................... 2805
Justine Bizzocchi, Lions Gate Learning Alliance, Inc., Canada

Interactive Learning Objects in Mobile E-Learning ................................................. 2809
Peter Bleckmann, Rene Sprotte, University of Paderborn, Germany; Bernd Eßmann, Thorsten Hampel, Heinz Nixdorf Institut, University of Paderborn, Germany

Showcases: Design and Development of EPSS to Scaffolding Students with Learning Disabilities and/or Emotional/behavioral Disorders .................................................. 2817
Thitinun Boonseng, University of Missouri - Columbia, USA; Gail Fitzgerald, University of Missouri-Columbia, USA; Kevin Koury, California University of Pennsylvania, USA

Integration of New Technologies into a Room-Based CSCW System ....................... 2822
Thomas Bopp, Thorsten Hampel, Heinz Nixdorf Institute, Germany

Supporting self-assessment in a competency approach to learning ....................... 2828
Anne Brisebois, Diane Ruelland, Gilbert Paquette, LICEF/CIRTA Research Center, Tele-universite, Canada

Building a Learning Object Content Management System ....................................... 2836
Christopher Brooks, Lori Kettel, Collene Hansen, University of Saskatchewan, Canada

Collaborative Paper Exchange ............................................................................. 2844
Peter Brusilovsky, Michael Yudelson, Sergey Kosnosky, University of Pittsburgh, USA

Ontology-based Framework for User Model Interoperability in Distributed Learning Environments .................................................................................................................. 2851
Peter Brusilovsky, Sergey Kosnosky, Michael Yudelson, University of Pittsburgh, USA

Bricolage and Model Driven Approach to design distant course ......................... 2856
Pierre-André Caron, Alain Derycke, Xavier Le Pallec, Laboratoire Trigone, équipe NOCE, France

u-Learning = e-Learning + m-Learning ........................................................................ 2864
Des Casey, Monash University, Australia

Blogging as a Professional Development Tool ...................................................... 2872
Terence Cavanaugh, Cathy Cavanaugh, University of North Florida, USA

Best Practices for Delivering LIVE E-Learning in Universities, Corporate Training, and Government Institutions ................................................................. 2877
Pierre Charlebois, David Snell, WebTrain Communications, Canada

Internet-Based Virtual Futures Market ..................................................................... 2880
An Sing Chen, Department of Finance, National Chung-Cheng University, Taiwan; Jyun-Cheng Wang, Institute of Technology Management, National Tsing-Hua University, Taiwan

Web-based Aural Skills Learning System with Spoken Music Browser for the Elementary School Students ............................................................... 2885
Chi Nung Chu, National Taiwan Normal University, Taiwan

E-Learning Environment Implemented in Manufacturing Engineering Courses .......... 2891
Franc Cus, Faculty of Mechanical Engineering, Slovenia; Predrag Cosic, Faculty of Mechanical Engineering and Naval Architecture, Croatia

An application for automatic updating of the Artificial Intelligence TutorBot Knowledge Base in an e-learning platform .......................................................... 2893
Orlando De Pietro, Maurizio De Rose, Giovanni Frontera, Department of Economics and Statistic - University of Calabria, Italy

A Succession of Eyes: Building an E-learning City ............................................. 2900
Jon Dron, University of Brighton, UK

Reframing as an On-line Teaching Skill ............................................................... 2909
Daniel Eckstein, Capella University, USA; David Sarnoff, Donna Eckstein, Capella University, USA; Armando Fierro, University of Texas of the Permian Basin, USA

Connectivity – Context – Consistency: Key Factors for Mobility Supporting CSCW/L-Environments .............................................................................................................. 2915
Bernd Eßmann, Thorsten Hampel, Heinz Nixdorf Institute, Germany
Dynamic Test Generation, Visual Assessment and Modular Virtual Learning Worlds
Roya Foroughi, Technical University of Darmstadt, Germany; Nadeem Bhatti, Fraunhofer IGD, Germany

E-TESTER: A computer-based Tool for Auto-generated Question and Answer Assessment
Christian Guetl, TU Graz, Austria; Heinz Dreher, Robert Williams, Curtin University of Technology, Australia

An Analysis of Application of Business Process Management Technology in E-Learning
Denis Helic, IICM, TU Graz, Austria; Janez Hrastnik, Hyperwave Software Research & Development GmbH, Austria; Hermann Maurer, IICM, TU Graz, Austria

VisualSync: An Interactive Visualization Tool for Teaching/Learning Multithreaded Programming with Synchronization Primitives
Cecilia Hernandez, Marcelo Rivera, Jorge Lopez, University of Concepción, Chile

ClickCourse Suite: Design, develop, manage, and track e-learning better and less expensively than you ever have before!
Garin Hess, Rapid Intake Inc., USA; Steven Hancock, Rapid Intake Inc., USA

Application of the Deductive Conceptual Learning System to Online Cooperative Learning
Tzu-Hua Huang, Graduated School of Mathematics and Science Education, National Taipei Teachers College, Taiwan

Development of an In-service Teacher training system using online ‘Structured Card method’
Takashi Ikuta, Niigata University, Japan; Yasashi Gotoh, Niigata University of health and welfare, Japan; Wataru Uchiyama, Niigata University, Japan

Web-based Learning System for Improving Children’s Cognitive Strategy for Better English Word Recognition
Shu-Juan Jing, Graduated School of Mathematics and Science Education National Taipei Teachers College, Taiwan

TANGRAM: An Ontology-based Learning Environment for Intelligent Information Systems
Jelena Jovanovic, FON-School of Business Administration, University of Belgrade, Yugoslavia; Gasevic Dragan, School of Interactive Arts and Technology, Simon Fraser University Surrey, Canada; Vladan Devedzic, FON-School of Business Administration, University of Belgrade, Yugoslavia

Designing a Web-based NHRD (National Human Resource Development) System to Support Lifelong Learning
TaeJun Kim, Youngmin Lee, Jiyoung Hong, Korean Educational Development Institute, Korea (South)

A System for Browzing FD/SD Contents in Higher Education and the Consciousness Surveys
Ikuo Kitagaki, Li Donglin, Akira Arimoto, Keiko Yokoyama, RIHE, Hiroshima University, Japan

K3 – an e-Learning Forum with Elaborated Discourse Functions for Collaborative Knowledge Management
Rainer Kuhlen, Joachim Griesbaum, Tao Jiang, Jagoda Koenig, Andreas Lenich, Peter Meier, Thomas Schuetz, Wolfgang Semar, University of Konstanz, Germany

Schedule Your Buddies - Collaborative Work Needs Peer-to-Peer Calendar-Coordination
Birger Kühnel, Daniel Hollerung, Thorsten Hampel, Bernd Eßmann, University of Paderborn, Germany

An Ontology-Based Ubiquitous Learning Grid
Ching-Jung Liao, Chung Yuan Christian University, Taiwan

Using cognitive conflict to construct a learning system for decimal numbers
Yuan-Chen Liu, Graduated School of Mathematics and Science Education National Taipei Teachers College, Taiwan

Product Literature with Annotation and Analysis Tools - Customer Education using Learning Kits
Bob MacKie, Simon Fraser University, Canada

Phoenix Framework: Towards an Adaptive Learning Environment
Hend Madhour, Emmanuel Fernandes, Sami Miniaoui, Maia Wentland Forte, HEC Lausanne, Switzerland

Integration of LMS and Document Management System into existing EnterprisePortal Infrastructure
Martin Malcik, University of Ostrava, Czech Republic; Ivo Martink, Technical University of Ostrava, Czech Republic

Ubiquitous Learning Management with e-Portfolio on PDA/PC
Kenji Matsuura, Kazuhide Kanenishi, Keiji Niki, Yasuo Miyoshi, Hiroaki Mitsuhara, Hiroaki Ogata, Yoneo Yano, Tomiaki Morikawa, Tokushima University, Japan
If we know then what we know now ................................................................. 3035
Patricia McGee, The University of Texas at San Antonio, USA; Jashoda Bothra, Cicso Systems, Inc., Canada;
Jennifer Gurrie, WebCT, USA; Ameeta Jadav, The Art Institute of Atlanta, USA

Application of Computer-Assisted-Assessment (CAA) into the Instructor-Centred Model of E-
Learning .............................................................................................................. 3039
Zahra Mehrizi, The University of Manchester, UK

The Use of a Dynamic Background Library within the Scope of adaptive e-Learning ........ 3045
Felix Mörtsicher, Victor Manuel Garcia-Barrios, Hermann Maurer, IICM, Graz University of Technology, Austria

Controlling the Electronic Whiteboard’s Writing Surface without Cluttered Toolboxes:
Shifting the Focus Back to Content Delivery ...................................................... 3053
Khaireel Mohamed, Thomas Ottmann, Albert-Ludwigs-Universität Freiburg, Germany

An Algorithm For Learning Object-Based Instructional Adaptation ......................... 3061
Santally Mohammad Issack, Alain Senteni, VCILT, Mauritius

Construction and evaluation of E-Learning system for medical treatment safety measures ...... 3069
Tomiaki Morikawa, Takaaki Nose, Hiroki Moriguchi, Department of medical informatics The University of
Tokushima Hospital, Japan

Design and resolution of Exercises based on the Detection of Errors in Documents using
the DeepTest tool ................................................................................................. 3072
Roberto Moriyon, Active Documents, Universidad Autónoma de Madrid, Spain; Francisco Saiz, Universidad
Autónoma de Madrid, Spain

E-Start: Student Contribution to Computer Literacy of Croatian Citizens by means of
e-Learning Methods ......................................................................................... 3080
Danijel Nejasmic, Vedran Lovrecic, Josip Tomisic, Faculty of Electrical Engineering and Computing, Croatia

Conceptual Framework for A Heuristic-based Methodology for Contingent Usability
Evaluation of Online Learning Systems ................................................................ 3086
Thao Nguyen, Curtin University of Technology, Australia

Using Work Action Analysis to Design Information Technology Support for an Academic
Community ........................................................................................................... 3093
George Nickles, Texas A&M University, USA

Improving Intercultural Competence by Predicting in French Film ......................... 3101
Amy Ogan, Vincent Aleven, HCII, Carnegie Mellon University, USA; Christopher Jones, Modern Languages Dept,
Carnegie Mellon University, USA

How to Select the Right Learning Management System for your Organization .......... 3107
Andy Pasternak, Foreign Service Institute, US Dept. of State, USA

Advantages of XML-based Architecture for Educational Content Delivery ............... 3111
Tanya Podchiyska, Brent Fitzgerald, Pauline Brutlag, Lee Brimelow, Parvati Dev, SUMMIT, Stanford School of
Medicine, USA; Jenn Stringer, Educational Technology Services, Stanford School of Medicine, USA

The role of ICT developments by CENEVAL in support of Government policy for the
Professional development of public servants ....................................................... 3116
Julian J Robles-Rivas, Francisco M Otero-Flores, CENEVAL A.C., Mexico

A Virtual Library for Lifelong Education on E-learning Domain ............................... 3121
Neide Santos, Dept of Computer Science - Universidade do Estado do Rio de Janeiro, Brazil; Fernanda Campos,
Braga Regina, Dept of Computer Science - Universidade Federal de Juiz de Fora, Brazil

Current and Future Developments In Learning Content Management Systems .......... 3129
Steven Shaw, Eedo Knowledgeware Corp, Canada

Stereopsis to Support Discovery-Based Learning .................................................. 3133
Stephanie Smullen, Clinton Smullen, University of Tennessee at Chattanooga, USA

e-Testing Management System .......................................................................... 3139
Pokpong Songmuang, Maomi Ueno, Nagaoka University of Technology, Japan

Moodlerooms: A Service Company for Moodle Open-Source E-Learning ................. 3145
Gina Stevens, Sheila Gailing, Tom Murdock, Moodlerooms, Inc., USA

Automatic Camera Control System for a Distant Lecture with Both Image Processing
and Voice Processing ......................................................................................... 3149
Akira Suganuma, Ryota Takemura, Kyushu University, Japan

Selecting a learning system - a case of LCMS selection for an online business school ... 3153
Sarah Teo, Universitas 21 Global Pte Ltd, Singapore
On ePortfolios: An Educators High-tech Passport to Career-path Success ........................................ 3159
Gary Theal, College of Education, University of Hawaii, USA; Peter Leong, College of Education, University of Hawaii, USA

Designing a Tool for Moodle Quiz Data Production ................................................................. 3160
Steven Tripp, University of Aizu, Japan

Using Knowledge Management Platform in Instruction to Improve Teaching Introspection of Teachers ............................................................. 3163
Kuo-Hung Tseng, Department of Business Administration, Mei-Ho Institute of Technology, Taiwan; Yuan Chen, Department of Industrial and Technology Education, National Kaohsiung Normal University, Taiwan

Intelligent LMS with an agent that learns from log data .......................................................... 3169
Maomi Ueno, Nagaoka University of Technology, Japan

Technology for Advanced e-Learning ...................................................................................... 3177
Vladimir Uskov, Bradley University, USA

The Use of Blogs in Teaching, Knowledge Management, and Performance Improvement ........ 3192
Minjuan Wang, San Diego State University, USA; Rhea Fix, Redpepper Consulting, USA; Laura Bock, Simon Fraser University, Canada

Automated Text Extraction and Indexing of Video Presentation Recordings for Keyword Search Via a Web Interface .................................................. 3200
Martina Welte, Thomas Eschbach, Bernd Becker, University of Freiburg i. Br., Germany

Web-Based Intelligent Tutoring to Improve Reading Comprehension in Elementary and Middle Schools: Design, Research, and Preliminary Findings ............................................................... 3206
Kay Wijektumara, Bonnie Meyer, James Spielvogel, The Pennsylvania State University, USA

Enhancing Online Discussion through Web Annotation ......................................................... 3212
Cindy Xin, Geoffrey Glass, Simon Fraser University, Canada

Dreamweaver Templates and CSS Style sheets Solutions for Online Documents .................. 3218
Qing Hua Yu, Ohio Northern University, USA
