Proceedings of
THE NUTRITION SOCIETY
OF
AUSTRALIA

Volume 15

Fifteenth Annual Conference
Adelaide, South Australia, November 1990
CONTENTS AND PROGRAMME

OPENING ADDRESS
8.30 - 10.30am Monday 26th November
Chairperson: Dr David Topping

The Contribution of Nutrition to Better Health
Mr Brian Howe
*Federal Minister for Health*

The Marketing of Foods in Australia
Mr Ian Gittus ................................................................. x

SYMPOSIUM: DIETARY FATS
11.00 - 12.45pm Monday 26th November
Chairperson: Professor Stewart Truswell

*Quality Bakers Lecture*
Fatty Acids and Human Health
T.A.B. Sanders ............................................................... 1

Animal Nutrition - Fatty Acids and New Technology
T.W. Scott and J. R. Ashes ..................................................... 7

Dietary Fats and Blood Pressure
L.J. Beilin ................................................................. 15

DIETARY FATS 1
2.00 - 4.00pm Monday 26th November
Chairperson: Dr Bob Gibson

Potato Crisps Experiment: Comparison of Plasma Lipids in Healthy Subjects on Palm Oil Compared with Canola Oil
N. Choudhury, A. S. Truswell and D.C.K. Roberts ..................... 19

The Effects of Dietary Induced Changes in LDL-Cholesterol on Blood Pressure, Cardiovascular Reactivity and Sympathetic Nervous System Function
N. E. Straznicky, P. McGrade and L.G. Howes ............................. 20

Moderate Fish Oil Intake Improves Lipaemic Response to a Standard Fat Meal: Double - Blind Study on 25 Healthy Men
A.J. Brown and D.C.K. Roberts ........................................ 21

Abnormal Fatty Acid Metabolism in Patients with Atopic Eczema
S. Wright, M. S. Manku, C. H. Bolton and T. A. B. Sanders ............ 22

Interactive Effects of Non-starch Polysaccharides and Fish Oil on Lipid Metabolism
C. Triantafilidis, M. Abbey and D.L. Topping .......................... 23
Effect of Varying the Linoleic Acid : Linolenic Acid Ratio of Infant Formulas on Red Cell Omega 3 Fatty Acids
K. Clark and R.A. Gibson ................................................. 24

Dietary Fish Oil Supplementation Improves the Plasma Lipid Profile in Healthy Elderly Subjects
L. Cobiac, P.R.C. Howe and P. J. Nestel ................................. 25

A New Model of Global Ischaemia for the Assessment of Myocardial Function After Dietary Fat Supplementation
S. Pepe and P. McLennan .................................................. 26

DIETARY FATS 2
4.30 - 6.00pm Monday 26th November
Chairperson : Dr Les Cleland

Apolipoprotein B Gene Polymorphism Associates with Plasma Cholesterol Changes Induced by Dietary Fat and Cholesterol
M. Abbey, G. B. Belling, P. M. Clifton and P. J. Nestel ................. 27

Polyunsaturated Fatty Acids are Pharmacoactive when given Transdermally : Anti-inflammatory Activity in Polyarthritic Rats
M. Whitehouse, C. Hann, G. Ford and B. Vernon-Roberts ................ 28

Volatile Fatty Acid Production and Cholesterol Metabolism in Rats Fed Guar Gum and Antibiotic
R. L. Hood, A. J. Evans, D. G. Oakenfull and G. S. Sidhu ............... 29

Effects of Dietary Baked Beans, Oat Bran and Wheat Bran on Plasma Lipids and Large Bowel Volatile Fatty Acids in the Pig

Interaction between Fish and Vegetable Oils in Relation to Rat Leucocyte Eicosapentaenoate Content and Leukotiene Production
M. J. James, L. G. Cleland, J. S. Hawkes and R.A. Gibson ................ 31

A Diet Which is Low in Sodium and Contains Fish Oil Enhances the Antihypertensive Effect of Enalapril, an Angiotensin Converting Enzyme (ACE) Inhibitor, in Stroke Prone Spontaneously Hypertensive Rats (SHRSP)
A. Marley and P.R.C. Howe ............................................. 32

POSTERS : Dietary Fats
Monday 26th November

Low Fat Diets Rich in Lean Meat : The Effects of Addition of Safflower and Olive Oil
S. Morgan, A. J. Sinclair and K. O'Dea .................................. 33

The Effect of Coprophagy on the Cholesterol-lowering Action of Oat Bran in the Rat
K.A. Jackson and D.L. Topping ......................................... 34

The Use of Evening Primrose Oil (EFAMOL) in the Management of Breast Pain
D.F. Horrobin ................................................................. 35
Influence of Dietary Minerals on Lipoprotein Metabolism in Rabbits
Fed Cholesterol-free Atherogenic Diets
S. Samman, E. M. Kurowska, P. Khosla, N. Guthrie, L. Eckel
and K. K. Carroll .............................................................. 36

NON-RUMINANT ANIMAL NUTRITION
2.00 - 4.00pm Monday 26th November
Chairperson : Dr Graham Faichney

Milk Intake and Birth Weight Determine Live Weight of Piglets
J. Pluske and I. H. Williams ............................................... 37

Effect of Dietary Polyunsaturated Fatty Acids on Tissue Vitamin E Status
in Growing Pigs
Y. H. Wang and J. Leibholz .............................................. 38

The Concentration of Fat in Sow's Milk from Suckled and
Unsuckled Glands During Lactogenesis
C. S. Atwood, J. K. Toussaint and P. E. Hartmann ...................... 39

Sows Catabolise Fat and Muscle in Lactation
B. P. Mullan and I. H. Williams ...................................... 40

Continuous Measurement of Energy Expenditure of Finisher Pigs
at Raised Ambient Temperatures
L. R. Giles, J. M. Gooden, M. L. Lorschy, E. F. Annison
and J. L. Black .......................................................... 41

Effect of Ractopamine on Performance in Finishing Pigs
F. R. Dunshea, R. H. King, R. G. Campbell and R. D. Sainz ............ 42

Improvement in Broiler Performance at High Temperatures by Sodium
Bicarbonate Supplementation of Diet or Drinking Water
D. Balnave and A. G. Oliva ............................................. 43

The Digestibility of Polished Rice, Rice Pollard and Lupin Grains in Horses
N. P. McMeniman, T. A. Porter and K. Hutton ........................... 44

POSTERS : Non-ruminant Animal Nutrition
Monday 26th November

Evidence of Protein Catabolism During Exercise in the Horse
W. L. Bryden, Y. Mollah and R.J. Rose ................................ 48

Temporal Response to Somatotrophin in the Growing Pig
F. R. Dunshea, D. E. Bauman, R. D. Boyd and A. W. Bell ............. 49

Galactose and Glucose Changes in the Blood After Ingestion of Either
Lactose or Galactose Plus Glucose by Piglets with Diarrhoea
P. H. Bird, A. Di Rosso and P. E. Hartmann ........................... 50

Sucrose and Fructose as an Energy Source for the Young Piglet
P. H. Bird, S. M. Pember and P. E. Hartmann .......................... 51

Ascorbic Acid Improves Egg Shell Quality in Presence of Saline
Drinking Water
D. Balnave, D. Zhang and R. E. Moreng ................................ 52
The Absorption of Vitamin E in Growing Pigs
Y. H. Wang and J. Leibholz ........................................ 53

Effect of Cyclopiazonic Acid on Nutrient Utilisation in Broiler Chickens
S. Suksupath .......................................................... 54

Sulphur Amino Acids and Tibial Dyschondroplasia in Chicks
P. Rajadevan and T. L. Frankel .................................... 55

SYMPOSIUM : NUTRASWEET - FAT SUBSTITUTES
4.30 - 6.00pm Monday 26th November
Chairperson : Professor Mark Wahlqvist

Microparticulated Protein As a Fat Substitute
G. E. Guall .......................................................... 56

Nutritional Aspects of Microparticulated Protein
N. Kretchmer .......................................................... 57

Fat Restriction and Health
T.A.B. Sanders ..................................................... 58

Food Technology as an Aid to Achieving Dietary Goals :
Alternative Fats and Fat Substitutes
D. G. Oakenfull and G. S. Sidhu .................................. 59

SPECIAL PUBLIC LECTURE
7.30pm Monday 26th November
Chairperson : Dr Les Cleland

Fish and Human Health
William E.M. Lands .................................................. 60

SYMPOSIUM : DIET AND CANCER
8.45 - 10.45am Tuesday 27th November
Chairperson : Dr Ivor Dreosti

Nutrition Society Lecture
Strategies for Prevention of Cancer in Humans
F. L. Meyskens Jr. .................................................... 67

Australian Polyp Prevention Project : Design and Preliminary Estimates of Dietary Compliance

Free Radicals, Antioxidants and Cancer Prevention
T. M. Florence ....................................................... 88
DIET AND CANCER 1
11.15 - 12.45pm Tuesday 27th November
Chairperson : Dr Graeme McIntosh

The Melbourne Study of Diet and Cancer
G. G. Giles ................................................................. 94

Dietary Fats and UV Radiation-Induced Skin Cancer in the Hairless Mouse
V. E. Reeve and M. J. Matheson ............................................ 104

Dietary Fibre in the Prevention of Colorectal Cancer : Lessons from Studies in Animal Models
G. P. Young ................................................................. 112

DIET AND CANCER 2
1.45 - 3.30pm Tuesday 27th November
Chairperson : Dr Katrine Baghurst

The Effect of Dietary Menhaden Oil on Ultra-Violet Radiation Induced Skin Cancer in the Hairless Mouse
M. J. Matheson and V. E. Reeve ........................................... 120

Laryngeal Cancer and Beta-Carotene : Could the Association be due to Confounding by Vitamin C?
D. E. M. Mackerras .......................................................... 121

Nutrient Intake and Plasma Prolactin in Women
P. A. Baghurst, J.A. Syrette, M. Nugent and J. Carman .................. 122

The Influence of Dietary Calcium and Vitamin E on Colon Cancer Risk
G. H. McIntosh, N. A. Mazzoc and J. Turner ............................. 123

N-Acetyl Transferase Activity (NAT) in Normal and Neoplastic Human Colon

Vitamin E and UV Related Skin Damage in Mice
I. R. Record, I. E. Dreosti, R. S. Tulsi and M. Konstantinopoulos .... 125

The Influence of β-Carotene and the Tumour Promoter, TPA, on the Induction of Micronuclei in Mouse Epidermal Keratinocytes
H. H. Steinel and R. S. U. Baker ........................................ 126

RUMINANT NUTRITION 1
11.15 - 12.45pm Tuesday 27th November
Chairperson : Dr Brian Siebert

Effect of Herbage Intake on Daily Abomasal Flows of Digesta and Microbial Protein in the Grazing Ewe
H. Dove and J. A. Milne .................................................. 127

Comparative Digestibility of Sulphur Amino Acids in Rumen Bacterial and Fungal Proteins by Sheep
S. K. Gulati, J. R. Ashes and G. L. R. Gordon ............................ 128
Dietary Changes, Staple Strength and Point of Break
G. Mata, D. W. Peter and D. B. Purser ........................................ 132

Sulphur and Flavomycin Supplementation of Lupin Grain for Sheep
P. J. Murray, S. G. Winslow and J. B. Rowe .................................. 133

Energy Intake, Expenditure and Cost of Locomotion in Lambs
K. Oppong-Anane, R. V. Baudinette, J. C. Dighton and S. Laube ............. 137

Nutrient Metabolism of Sheep Fed a Diet Supplemented with Lupin Grain
D. W. Pethick and N. G. Harman ............................................. 138

**RUMINANT NUTRITION 2**
1.45 - 3.30pm Tuesday 27th November
Chairperson : Dr Hugh Dove

A Comparison of the Hydrogenation of C18, C20 and C22 Unsaturated Fatty Acids by Rumen Micro-Organisms
J. R. Ashes, S. K. Gulati and T. W. Scott ..................................... 139

Amino Acids in Pregnant and Lactating Ewes
C. A. Stewart and D. G. Masters ............................................. 140

Predicted and Observed Diet Selection and Grazing Behaviour by Sheep

Effects of Supplementary Iron on Tissue Trace Elements and Plasma Folate and Vitamin B12 in Young Sheep
Z. S. Wang and D. G. Masters ............................................. 142

The Nutritive Value of Annual Legumes
X. Li, G. Annison, R. C. Kellaway and R. L. Ison .......................... 143

Highly Digestible Fibre Supplements for Cows Grazing Ryegrass-Clover Pasture

Portal Uptake of Amino Acids by Sheep Given Oaten Chaff Supplemented with Rumen Escape Protein

**POSTERS : Ruminant Nutrition**
Tuesday 27th November

Level of Intake and Grinding of Hay Have Little Effect on the Size of Particles Leaving the Rumen of Sheep
G. J. Faichney .......................................................... 146

Effect of Level of Intake and Grinding of Lucerne Hay on the Efficiency of Rumination in Sheep
G. J. Faichney .......................................................... 147

Rumen Degradation Rate of Feed Protein Measured *in Vitro*
S. A. Neutze and W. A. Forbes ............................................ 148
Effect of Diet on Amino Acid Composition of Rumen Bacteria
S. A. Neutze, V. H. Oddy and W. A. Forbes ........................................ 149

The Effects of Nitrogen Supplementation on the Chemical Composition of Rumen Bacteria
R. S. Hegarty, I. B. Sudana and R. A. Leng ........................................ 150

Responses of Sheep Supplemented with N-Hydroxymethyl-DL-Methionine-Ca (MEPRON)
C. A. Stewart and D. G. Masters .................................................. 151

Pasture Consumption by Grazing Dairy Cows
R. C. Kellaway and R. J. Tassell .................................................. 152

The Effect of Glucose Infusion on Nitrogen Utilization in Sheep Given Roughage Diets
H. Soetanto, K. Boodhoo and N. P. McMeniman ................................ 153

The Effect of Bentonite Clay on Feed Intake, Wool Growth and Liveweight Gain in Sheep
P. J. Murray, S. G. Winslow and J. B. Rowe .................................... 157

NUTRITION METHODS / EDUCATION
4.00 - 5.30pm Tuesday 27th November
Chairperson: Dr Graham Giles

A Proposal for the Collection and Collation of Dietary Intake Data from Cancer Patients
P. L. Cooper and N. J. Roberts .................................................. 158

Dietary Intake and Adipose Tissue Fat Composition - A Predictor Question which Determines the Quality of Fat Intake
D. C. K. Roberts and E. Pang .................................................. 159

Evaluation of a Dietary Fat Rapid Assessment Method (RAM)
M. Makrides, A. A. Hertzler, D. C. Rainsford and M. J. Bond .............. 160

Comparison of Estimated Nutrient Intake by Food Frequency and Weighted Food Records
I. C. Gelissen and D. C. K. Roberts ............................................. 161

The 12345 (+) Nutrition Plan
K. I. Baghurst, A. Hertzler, S. J. Record and C. Spurr ..................... 162

Development of an Evaluated Pre-School Nutrition Education Programme
J. M. Appleton and C. M. Patterson ............................................. 163

METABOLISM / RODENT MODELS
4.00 - 5.30pm Tuesday 27th November
Chairperson: Dr David Pethick

Discovery of an Atypical β-Adrenoreceptor in Rat Skeletal Muscle
N. G. Moore, M. N. Silence, G. G. Pegg and D. B. Lindsay ............ 164
Reversal of Glucocorticoid Induced Catabolism by Insulin-like Growth Factors  
F. M. Tomas, S. E. Knowles, J. L. Burgoyne, S. L. Quinn and F. J. Ballard  
165

Effects of Barley and Isolated Barley β-Glucans on Plasma and Liver Cholesterol Concentrations in the Rat  
D. G. Oakenfull, R. L. Hood, G. S. Sidhu and H. S. Saini  
166

Relationship Between In Vitro Viscosity of Different Fibres and Their in Vivo Glycaemic Impact in Rats  
D. Cameron-Smith, G. R. Collier and K. O'Dea  
167

Nutritional Quality of Hypogenous Fungi for Small Mammals  
S. J. Cork and W. J. Foley  
168

The Effect of Inhibiting Fatty Acid Oxidation on Glucose Tolerance in Sand Rats  
M. Barnett, G. R. Collier and K. O'Dea  
169

POSTERS : Metabolism / Rodent Models  
Tuesday 27th November

Effects of an α2-Agonist on Growth and on Metabolic Rate in Mice  
M. N. Sillence, M. L. Matthews, W. G. Spiers and D. B. Lindsay  
170

The Effect of Dehydroepiandrosterone (DHEA) on Pentose Phosphate Pathway Activity in Rat Colonic Tissue  
R. N. Butler, D. Antoniou, I. C. Roberts-Thomson, V. Pascoe and J. F. Williams  
171

α2-Agonist-Induced Effects on Growth in Rats  
W. G. Spiers, M. N. Sillence and D. B. Lindsay  
172

ANNUAL GENERAL MEETING  
5.30pm Tuesday 27th November

SYMPOSIUM : BODY COMPOSITION  
8.45 - 10.30am Wednesday 28th November  
Chairperson : Dr Frank Tomas

Some Recent Techniques in Body Composition Assessment: Comparison with Traditional Methods  
A. Beddoe  
173

The ANSTO Body Protein Monitor  
N. Blagojevic and B. J. Allen  
185

Clinical Application of Body Composition Studies  
B. J.G. Strauss  
186
BODY COMPOSITION
11.00 - 12.30pm Wednesday 28th November
Chairperson : Dr Alun Beddoe

Energy Requirements and Body Composition with Cystic Fibrosis
R. W. Shepherd ....................................................... 190

Measurement of Body Composition in Farm Animals:
Research and Practical Applications
R. D. Sainz and N. M. Tulloh ........................................ 196

Growth and Body Composition in Children with Phenylketonuria (PKU)
J. R. Allen, D. C. K. Roberts and K. J. Gaskin .................... 202

Energy Expenditure and Body Composition Changes in Subjects Given
Controlled Energy Intakes to Match Those from Self-Reported Diaries
D. G. Clark, R. T. Withers, C. S. Chandler and F. M. Tomas ......... 203

POSTERS : Body Composition
Wednesday 28th November

Measurement of Total Body Nitrogen by \textit{in Vivo} Neutron Activation
Analysis- Accuracy and Precision
L. A. Baur, A. L. Moase, A. Rose, B. J. Allen and K. J. Gaskin ...... 204

Total Body Water Estimation by Bioelectrical Impedance Analysis :
A 2 Method Cross-Validation Study
D. Prijatmoko, B. J. G. Strauss and R. S. D. Read .................. 205

COMMUNITY NUTRITION (BODYWEIGHT/SATIETY)
11.00 - 12.30pm Wednesday 28th November
Chairperson : Dr Mavis Abbey

Nutrition Messages in Popular Television Programs
H. N. Morton and C. L. Smith ...................................... 206

Prevalence of Overweight and Hypercholesterolaemia in Dalby,
Queensland
P. W. J. Harvey, J. N. Bruggemann, R. Swannell
and P. F. Heywood .................................................. 207

Melbourne Chinese Health Study: Dietary Habits and Cardiovascular Risks.
24-Hour Urinary Sodium and Potassium Excretion in Relation to Blood
Pressure
B. Hage, M. L. Wahlqvist, R. G. Oliver, J. Powles and N. Balazs .... 208

Plasma Glucose Correlates Inversely with Satiety and CCK
J. C. Brand, S. Holt, C. Saveny and J. Hansky ..................... 209

Do Different Sources of Muscle Protein Affect Satiety Differently?
A. M. Uhe, G. R. Collier and K. O'Dea .......................... 210

An Ethnographic Study of the Influences on Daily Food Choices of People
Trying to Lose Weight
S. R. Nolan and A. M. Stewart .................................... 211
POSTERS: Community Nutrition
Wednesday 28th November

Healthy Hearts West - Nutrition Programs in Western Sydney
D. E. Degeling, B. Stickney, H. F. Hromas, S. L. McElnea,
K. L. Webb and D. A. Wilson .................................................. 212

Does Cardiovascular Risk Factor Screening at Community Fairs Identify
Those at Greatest Risk?
A. M. Lilburne and P. McLeod .................................................. 213

Consumer Reaction to Food Irradiation
D. A. Crawford and K. I. Baghurst .............................................. 214

Prospective Study of Weight Status of Adolescents

The Effect of Duration Between Visits on Weight Loss and Attrition
Y. Webb .................................................................................. 216

Nutrient Computation: An Epidemiological Application
P. D. Ireland, D. J. Jolley and G. G. Giles .................................... 217

Nutrition Education Programmes: The Effect of Format and Health
Screening on Drop-Out Rates
J. A. Syrette, K. I. Baghurst and J. McConaghy ......................... 218

The Healthy Koorie Klub
M. Cox and S. Pelham................................................................. 260

ABORIGINAL NUTRITION
1.30 - 3.00pm Wednesday 28th November
Chairperson: Professor Kerin O'Dea

Influence of Body Build on Body Composition in Aborigines
I. H. E. Rutishauser .................................................................... 219

Analysis and Interpretation of Food Record Data from Remote Aboriginal
Communities
P. M. A. Maggiore ....................................................................... 220

A Community Based Food and Health Project in a Small Northern Coastal
Aboriginal Community
A. J. Lee and A. P. V. Bonson ..................................................... 224

Food Intake Patterns in a Traditionally-Oriented Aboriginal Community:
Dietary Fat as an Example
N.G. White .................................................................................. 225

Traditional Influences on Contemporary Aboriginal Diet: Animal Fats as
Valued Foods
J. Devitt ...................................................................................... 226

Changes in Total Body Potassium in Australian Aboriginal Children During
the First Year of a Dietary Supplementation Program
G. Lawrence, J. Sheridan, R. Buttenshaw, B. Thomas, V. Tye,
O. Miller, J. Carseldine, D. Battistutta and R.W. Shepherd ............ 227
POSTERS : Aboriginal Nutrition  
Wednesday 28th November  

Lactose Malabsorption and its Temporal Stability in Aboriginal Children  
R. Buttenshaw, J. Sheridan, V. Tye, O. Miller, J. Carseldine,  
D. Battistutta, P. Gaffney and G. Lawrence ........................................... 228

INFANT/CHILDHOOD NUTRITION  
1.30 - 3.00pm Wednesday 28th November  
Chairperson : Dr Geoff Davidson

Essential Fatty Acid Deficiency in Parenterally Fed Preterm Infants  
E. J. Lee, K. Simmer and R. A. Gibson ................................................... 229

Consistency of Reconstitution of Infant Formula Preparations by Adelaide Caregivers  
A. L. Vladcoff, D. J. Palmer and R. A. Gibson ........................................ 230

Measurement of Infant Formula Powders Using the Scoop Methods  
D. J. Palmer, A. L. Vladcoff and R. A. Gibson ........................................ 231

Umbilical Arteries Appear to be Essential Fatty Acid Deficient:  
Are There Nutritional Implications for the Foetus?  
M. Phillips and R. A. Gibson .............................................................. 232

Synthetic Food Colouring and Behavioural Change in Children with  
Attention Deficit Disorder: A Double-Blind, Placebo Controlled,  
Repeated Measures Study  
J. Sarantinos, K. S. Rowe and D. R. Briggs .......................................... 233

Protein Nutritional Status in Children Pre- and Post- Liver Transplantation  
L. A. Baur, S. F. A. Dorney and K. J. Gaskin ........................................ 234

POSTERS : Infant/Childhood Nutrition  
Wednesday 28th November  

Comparison of Two Indicators of Essential Fatty Acid Deficiency in  
Neonates on Fat Free Parenteral Nutrition  
M. A. Neumann, E. Lee and R. A. Gibson ............................................... 235

Aluminium Absorption in Infancy  
F. F. Chedid, A. Fudge, S. L. James and K. Simmer ................................ 236

Relative Effectiveness of Varying Levels of Lactose Reduction in Milk in  
Alleviating Milk Intolerance  
J. C. Brand and S. Holt ......................................................................... 237

NUTRIENT/ENERGY INTAKE STUDIES  
3.30 - 5.00pm Wednesday 28th November  
Chairperson : Dr Carole Pinnock

No Paradoxical Effects of Aspartame on Food Intake  
B. J. Rolls, S. Kim and P. A. Pirraglis ................................................... 238

Nutrient Intake Differences Between Social Status Groups  
A. M. Smith and K. I. Baghurst ............................................................ 239
Improving the Feeding of the Australian Defence Force
C. H. Forbes-Ewan ................................................................. 240

Energy Expenditure and Food Intake of Soldiers in Three Operational Environments
B. L. L. Morrissey, P. J. Cavanough, C. H. Forbes-Ewan and D. R. Waters ......................................................... 241

P. M. Warwick, J. Baines, R. Busby and I. R. Wallis ......................... 242

The Effect of a Breakfast Meal on Bioelectrical Impedance
M. R. Gallagher, I. H. E. Rutishauser and K. O'Dea .......................... 243

POSTERS : Nutrient/Energy Intake Studies
Wednesday 28th November

Assessment of Nutritional Intake of Meals on Wheels Recipients
L. Ferry, E. Squelch and C. M. Patterson .................................. 244

Food Intakes of Southern European and Australian Born Adults
J. A. Nichols ................................................................. 245

FOOD STUDIES
3.30 - 5.00pm Wednesday 28th November
Chairperson : Dr Barbara Radcliffe

Food Composition Tables for Australians
R. M. English and J. L. Lewis .................................................. 246

Fat Content in Untrimmed Retail Beef and Lamb Cuts
M. J. Watson, N. J. Mann, J. E. Gazenbeek, A. J. Sinclair and K. O'Dea ................................................................. 250

Glycaemic Index of Tropical Fruit and Australian Biscuits
J. C. Brand, E. Pang and A. S. Truswell ................................... 251

The Malabsorption of Carbohydrate in Ale and Lager Beers

Measurement of Physiological Resistant Starch : Food Processing Affects the Amount of Starch Which Escapes Digestion in Vivo
J. G. Muir, T. Johnson, P. Moon, and K. O'Dea ................................ 253

Evaluation of Some Algal Species as Food for Sydney Rock Oyster Saccostrea commercialis Larvae
J. A. Nell and W. O'Connor .................................................. 254

POSTERS : Food Studies

Structured Meals : Diplomatic Entertaining
A. M. S. Coles ................................................................. 255

The Effects of Processing on the Potassium Content of Potatoes
D. A. Stormont, P. McNeil, T. S. Muller, Z. Khalil and D. B. Patel .... 256
Evaluation of Rapid Fat Determination in Meats Using an Automated Meat Fat Analyzer
N. J. Mann, A. J. Sinclair, M. J. Watson and K. O'Dea .......................... 257

Toxicity of Fusarium compactum Isolated in Australia
N. Wing, W. L. Bryden and L. W. Burgess ......................................... 258

The Simultaneous Analysis of Thirteen Synthetic Food Colourings by High Performance Liquid Chromatography
J. F. Carroll, D. R. Briggs and G. P. Jones ........................................... 259

KELLOGG / NSA STUDENT MEDAL AND CLOSE
5.00pm Wednesday 28th November

Author Index ......................................................................................... 264
