The materials and information presented at the North American Conference and contained in this report are for informational purposes only. Exhibitors and authors are solely responsible for the accuracy of the information they present. Accordingly, the North American Society for Trenchless Technology (NASTT disclaims all responsibility for the accuracy of any such information. Such information does not represent the official policies or recommendations of NASTT.
## Table of Contents

### Track 1 - HDD Case Studies

- **Drilling Up A Mountain On A Gas Pipeline Project Through Hard Quartz Arenite Using Horizontal Directional Drilling**  
  *James P. Murphy, P.Eng., M.Eng*  
  A-1-01

- **Lessons Learned from the Design, Construction, and Post Construction of 10 Miles of 24-Inch HDPE Transmission Main By HDD**  
  *Dennis Simpson, P.E.*  
  A-1-02

- **Design and Construction Challenges for Hdd Shore Crossings**  
  *Glenn Duyvestyn, Project Engineer, Ph.D., P.E.*  
  A-1-03

- **Design, Construction, and Quality Assurance Testing of a Natural Gas Distribution Pipeline Installed by Horizontal Directional Drilling**  
  *Richard M. Stauber, P.E., James D. Hart, Ph. D., P.E.*  
  A-1-04

- **Horizontal Directional Drilling Application of Fusible C-905™ Pvc Pressure Pipe**  
  *Tom Harris, P.E., Henry Drexel, P.E., Shah Rahman, EIT*  
  A-1-05

### Track 2 - Product Selection & Evaluation

- **Monitor Pipe Liner Performance Using Fiber Optic Sensors**  
  *Aziz Saber, Raymond L. Sterling*  
  A-2-01

- **Ductile Iron Pipe For Horizontal Directional Drilling A Successful Paradigm Shift**  
  *Ralph Carpenter, Rodney Schwarzlose, Keith Whitaker*  
  A-2-02

- **Comprehensive Use Of Trenchless Technologies – The Los Alamos Story**  
  *Tom Parker, PE, DEE, Steve Cummins, PE, Vicente Quintana*  
  A-2-03

- **Recent Developments In High Performance Polyethylene Piping MaterialsStory**  
  *Mike Goins, Brian Cole, Etienne Laurent*  
  A-2-04

- **Directional Drilling An Ocean Outfall For Rockaway Beach, Oregon**  
  *Michael J. Britch, David S. Murray*  
  A-2-05

### Track 3 - Large Diameter Rehab - CIPP

- **Brick Sewer Evaluation and Rehabilitation Program in Newark, New Jersey**  
  A-3-01

- **Design Considerations for Corrosion Protection In Large Diameter Sewer**  
  *Tunnel Construction*  
  *David R. Chapman P.E., and Glen Frank P.E.*  
  A-3-02

- **Relining of an Irregularly Shaped Double Barrel Sewer**  
  *Jason S. Lueke, Steve Croxford, Chris Skowronsuki, Darwin Smith*  
  A-3-03

- **Gunners Run Relief Sewer – Challenges and Lessons Learned in Rehabilitating a Large Diameter Sewer**  
  *Vanessa Nedrick, E.I.T.*  
  A-3-04
**Track 3 - Large Diameter Rehab - CIPP (cont’d)**

Case Study: Large Diameter Cured-In-Place Plastic Pipe

Kent Nelson, P.E., Tim Tekippe, P.E., Ron Matheson, Rolf Ohlemutz, Barry Pomeroy

**Track 4 - Pipeline Assessment**

Sizing Replacement Interceptors – Beyond Ten States Standards

Robert K. Lee1, P.E.

Inspection And Diagnosis of Pipeline Systems Using Impact Elastic-Wave Methods

Toshiro Kamada, Manabu Okubo

Improving Condition Assessment Of Buried Pipes Using Non-Contact Ultrasound

Based 3-D Crack Map Generation

Shivprakash Iyer, Sunil K. Sinha

Refining Laser Profiling Methods Used for Pipeline Assessment

Andy Dettmer, David Hall, Hisham Hegab, Mike Swanbom

Evaluation Of Conical Laser Projection Schemes for Optical Triangulation

Pipe Measurement Techniques

Mike Swanbom, Hisham Hegab, David Hall, Andy Dettmer

**Track 1 - Microtunneling**

Microtunneling Beneath The American River for the Howe Avenue 54-Inch Water Transmission Main

Bruce Harbin, MSc, PE, Matthew Wallin, MS, PE, David Bennett, PhD, PE

City Of Bloomington, Mall Of America Sanitary Sewer Improvement Project 2003-50

Wayne Force, P.E., Shelly Pederson, Shane McFadden, P.E., Rob Tumbleson

Microtunneling Through Liquefied Soils in Mixed Business and Residential Area

James Kwong, Ph.D., P.E., Glenn Okita, P.E., June Nakamura, P.E., Jeff Kalani, P.E.

**Track 2 - Inspection & Quality Control**

Q/A Technology for Polyethylene Butt Fusion Joints

Jim Craig, P.E.

Specification Compliance Testing of a Installed Rigid Liner: City of Toronto Case Study

M. A. Knight, S. Giles, K. Sarrami

Second Generation Cctv Equipment for Inspecting Live Gas Mains

George Ragula

A Case Study - Protective Coating Failure Analysis and Prevention

Gerhard (Gerry) P. Muenchmeyer, P.E.

**Track 3 - Large Diameter Rehab**

Structural Rehabilitation of Egg-Shaped Brick Sewers

George McAlpine

Wrc Type Panel Lining Projects – Three Different Sewers

Ian J. Doherty, Kevin Bainbridge, and Kamran Sarrami

Application Of Glass-Reinforced Plastic To Sewer Rehabilitation

Lynn Osborn
Track 4 - Planning - CMOM

Rehabilitating The Benefit-Cost Model for Infrastructure Funding
S. Wayne Miles, J. Moyer, J. Ridge

Evaluating Sewer Rehabilitation Effectiveness: A Practical Methodology and Case Study
Paul J. Batman, Jim Shelton, PE

Trenchless Technologies Provide Cost-Effective Consent Decree Compliance for Monroe, Louisiana
Kimberly Martin, Jacqueline Westey, Paul Prichard

Track 1 - HDD Modeling

Planning Horizontal Directional Drilling Projects Using Simulation
Asela Seneviratne, Janaka Y. Ruwanpura, Jason Lueke

Experimental Investigation of Borehole And Surface Friction Coefficients During Hdd Installations
G. El-Chazli, S. Hinchberger, M. Baumert, E.N. Allouche

Analysis Of Ground Fracture Due to Excessive Mud Pressure
Ian D. Moore

Track 2 - Watermain Rehab

RAAM – Remote Anode Attachment Method
Gerry Evans, Bryan Wiens

Water Main Rehabilitation Using Cipp Structural Lining Technology
Benoit Côté

Rehabilitation of a 16" Water Pipeline Utilizing the U-Liner® High Density Polyethylene Liner System
Douge Crabtree

Track 3 - Rehabilitation Techniques

Fusible C-900™, Fusible C-905™, And Fusible Pvc™ The Development and Application
Tom Marti

Trouble Shooting for Liner Installation: Observations and Recommendations Based on Field Experiences
Salam A. Khan, P.E.

Cured In Place Pipe Designed to Last
Ed Kampbell, PE

A First in Quebec: Trenchless Rehabilitation of a 12 Inch Diameter Water Main
Luc Lahaie, eng.

Track 4 - Subsurface Utility Engineering

Damage Prevention Best Practice for Buried Utilities
Yun J. Jung, Sunil K. Sinha

Proactive Utilities Management: Conflict Analysis & Subsurface Utility Engineering
Nicholas M. Zembillas, Bryan J. Beyer

Trenchless Rehabilitation of the Indian Rocks Beach Force Main Replacement
William H. Gill, PE, Dorian Modjeski, PE
Track 1 - Microtunneling

Practical Considerations in the Selection and for the Use of Microtunneling vs. Other Trenchless Techniques
David G. Abbott

Starting off on the Wrong Foot - Problems With Microtunneling Shafts
Bruce Harbin, MSc., P.E., Matthew Wallin, MSc., P.E., David Bennett, PhD, P.E., Kimberlie Staheli

Microtunneling Construction Challenges on the Alvarado Boulevard Trunk Sewer Project
Rollie Arbolante, Dave Mathy

Track 2 - Contract Innovation & Resolution - Case Studies

Evaluation Of Post Bid Alternative Tunneling Construction Proposals by Contractors – The Henderson / MI King Cso Project
James Chae, Brad Cowles, Dan Pecha

Trenchless Technologies - Working Together to Rebuild The CCMD CDD’s Secondary Stormwater System
Tomasita D. Crowell, Larry Smith, M. Robert Garrison

Dispute Resulting from Horizontal Directional Drilling Through Difficult Ground

Spending Dimes To Save Dollars: The Value of Specialized Construction Management on Large Trenchless Projects
Kimberlie Staheli, P.E., Matthew Wallin, P.E.

Track 3 - CIPP Research

Optimizing Initiator Systems for Cured-In-Place Pipe Infrastructure Repair
David J. Herzog, Anthony J. Bennett, David Jay Lampert, Jason D. Schiro

Oxidative Chemical Effects on Cipp Liners
V. Firt Sеваr, Glen R. Boyd, Redа M. Bakeer

Rehabilitation Method for Increasing Flow Velocity and Reducing Sedimentation
Hwan-Kook Hwang, Ho-Myeon Song, Dae-Hyun Koo

Laboratory Examination of a Cured-In-Place Pressure Pipe Liner for Potable Water Distribution Pipes
Erez N. Allouche, Kevin Bainbridge, Ian D. Moore

Track 4 - Planning

Procurement – Strategies For Owners on Trenchless Projects
Sanjiv Gokhale

A Holistic Approach Sewer Rehabilitation Strategy Project
Charter Herman Ng, Frank Fechner, Ken Chua, Chris Ward, John Hodgson

National Guide To Sustainable Municipal Infrastructure
Sylvain Boudreau

Track 1 - Pipe Bursting

Installing Pre-Chlorinated Water Mains With Static Pull Pipe Bursting Systems In Fort Pierce, Florida
Jeff Wage, Andy Mayer, David Mellert

Articulated Lead – An Innovation for Success in the Trenchless Pipe Replacement of Severely Misaligned Lines
Al Tenbusch
Track 1 - Pipe Bursting (cont’d)
Lateral Pipe Bursting Perspectives
Collins Orton
New Orleans To Bridge the Last Mile With Dual Purpose Rehabilitation
Joe Becker, Sal Mansour, Wendy Lundeen, Stephen Paletta

Track 2 - Lining & Grouting
Case Histories Of Polymer Concrete Applications in the US: Pipes, Manholes, Structures
Gerhard Lang Dr.-Ing.
Strawberry Sanitary Trunk Sewer Rehabilitation Project
Kris Hughes, P.E., Shelley Serres, P.E.
Effective Soil Stabilization Through Jet Grouting
Thomas M. Hurley
The Economics of Chemical Grouting
Dennis Oetting

Track 3 - CIPP Rehab
City Of Reno Glendale Emergency Sewer Rehabilitation
Ronald L. Ablin, P.E., Mike Stram
20 Years Of Experience in Pressure Pipe Relining and Presentation of Our New Nordipipe Relining
Michael Herman
Industrial Waste System Pipeline Inspection and Rehabilitation Seattle-Tacoma
International Airport, Seattle, WA
Robert J. York, P.E., Ross W. Dunning, P.E., Chris Pecca

Track 4 - Asett Management
Edmonton’s Service Connection Strategy
Dave Krywiak, Ken Chua, John Hodgson
Aquazoom For Prioritization
Robert K. Lee, P.E.
Utilizing SSET with GPR for Assessing Large Diameter Lined Concrete Sewers
Samuel T. Arjaratnam, Robert E. Webb, Aimee Conroy
Municipal Infrastructure Asset Management: A Watershed Protection Approach
Sunil K. Sinha, Tom Iseley, Grant Whittle
Policy of Renewal of The Water Network of the Syndicat Des Eaux D’île De France
Pierre Chopard

Track 1 - HDD Case Studies
A Mid-Harbor Connection with Horizontal Directional Drilling
Mathew Francis, James Kwong, Jon Nishimura, Devin Nakayama
Mandalay Channel Pedestrian Bridge Utilities Relocation Project Using Horizontal Directional Drilling
Lisa Murrin, Robert Kalch, Donald R. McCullers
New Construction Case Study for Horizontal Directional Drilling
Gerald J. Ruschkofski, P.E., Thomis J. Meinhart, P.E.
Analysis of Tooling Behavior on Directional Drilling Operations
Jason S. Lueke, Samuel T. Arjaratnam
Track 2 - Trail by Fire: contract Dispute Mock Trial (not included)

Track 3 - Lateral Rehab

Verifiable Non-Leaking Connection Where No Water Migrates
*Larry Kiest, Jr., Shaun M. Flanery*

Private Lateral Rehabilitation: Is This a Silver Bullet?
*Mark G. Wade, P.E., G. Alan Johnson*

Awakening From The Nightmare On 10th Street – Trenchless Repair to
Prevent Deep Excavations in Closed Rear-Yard Easements
*Peter Larsen, P.E., Gordon Keibler, Ethan C. Heijn*

Disputing The Myth Of Inflow And Infiltration Removal Efficiency
*Keith Cheek*

F-3-01

F-3-02

F-3-03

F-3-04

Track 4 - Condition Assessment

Sewer Rehabilitation – Integral Component of an Infrastructure Rehabilitation
Program In Fort Lauderdale, Florida
*Walt Schwarz, P.E.*

Evaluating Pipeline Reinvestment Needs & GASB 34
*Richard E. Nelson*

Utility Evaluation Plan for the Metro Reclamation District’s Central Treatment Plant In Denver, Co
*Alison Ratliff, Orin Padgett, Jeff Glover*

Laser Profiling – A Necessary Tool For Pipeline Assessment
*N.H. Bennett, Geoff I. Logan*

F-4-01

F-4-02

F-4-03

F-4-04
