# TABLE OF CONTENTS

## VOLUME 1

### OPENING SESSION

<table>
<thead>
<tr>
<th>Description</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>Welcoming Address</td>
<td>3</td>
</tr>
<tr>
<td>Chester M. McKinney</td>
<td></td>
</tr>
<tr>
<td>Welcoming Address</td>
<td>5</td>
</tr>
<tr>
<td>Thomas Kennedy</td>
<td></td>
</tr>
<tr>
<td>Introductory Remarks</td>
<td>5</td>
</tr>
<tr>
<td>Chester M. McKinney</td>
<td></td>
</tr>
<tr>
<td>Introductory Remarks</td>
<td>6</td>
</tr>
<tr>
<td>Caroline Leroy</td>
<td></td>
</tr>
<tr>
<td>Keynote Address - Doppler Techniques: A Major Research Tool</td>
<td>7</td>
</tr>
<tr>
<td>Jean Kovalevsky</td>
<td></td>
</tr>
</tbody>
</table>

### SESSION Ia - SOFTWARE REFINEMENTS

<table>
<thead>
<tr>
<th>Description</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>The Future Navy Navigation Satellite System</td>
<td>21</td>
</tr>
<tr>
<td>Gerald W. Hoskins</td>
<td></td>
</tr>
<tr>
<td>&quot;Broadcast&quot; Versus &quot;Precise&quot; Ephemeris - Apples and Oranges?</td>
<td>39</td>
</tr>
<tr>
<td>Robert E. Jenkins, Caroline F. Leroy</td>
<td></td>
</tr>
<tr>
<td>Improvements in Canadian Geodetic Doppler Programs</td>
<td>63</td>
</tr>
<tr>
<td>Jan Kouba</td>
<td></td>
</tr>
<tr>
<td>Experiments for Improved Positioning by Means of Integrated Doppler Satellite Observations and the NNSS Broadcast Ephemeris</td>
<td>83</td>
</tr>
<tr>
<td>Manohar G. Arur</td>
<td></td>
</tr>
<tr>
<td>Ionospheric Residual Range Error Model</td>
<td>113</td>
</tr>
<tr>
<td>James R. Clynch, Robert A. Altenburg</td>
<td></td>
</tr>
<tr>
<td>Ephemeris Comparisons</td>
<td>135</td>
</tr>
<tr>
<td>Robert E. Ziegler</td>
<td></td>
</tr>
<tr>
<td>Short Arc Adjustment Based on a Precise Numerical Integration of the Orbit</td>
<td>157</td>
</tr>
<tr>
<td>P. Paquet, C. Devis, D. Standaert</td>
<td></td>
</tr>
<tr>
<td>Translocation Accuracy Improvements Due to Enhanced Time Recovery</td>
<td>169</td>
</tr>
<tr>
<td>Ronald D. Brunell</td>
<td></td>
</tr>
</tbody>
</table>
MX 1502 Doppler Survey Software ........................................ 187
    Ron Hatch, Steve Chamberlain, Jack Moore

Translocation and Other Studies Using the On-Board Ephemeris .... 209
    Peter J. Morgan

Refinement of Positioning Software (DOPPLR) .......................... 233
    Robert E. Jenkins, Brett D. Merritt, David R. Messent, James R. Lucas

A Summary of the Discussion Session ................................... 267

SESSION II - GENERAL SURVEY APPLICATIONS

Application of Satellite Doppler Data For Metric Radar
    Performance Monitoring .............................................. 277
    Stanley K. Garoutte, Edgar P. Hall, Russell E. Roy

Monitoring of Arctic Ice Movements Utilizing Satellite Doppler
    Methods .............................................................. 297
    Alexander Hittel

Use of Satellite Doppler Techniques to Position Movable Offshore
    Drilling Platforms .................................................. 317
    Philip J. Stutes

Error Analysis of Satellite Doppler Positioning at AIDJEX
    Manned Camps ........................................................ 329
    David E. Wells, C. R. Gillespie, P. Martin, A. Thorndike

Adjustment of Inertial Survey System Data With Satellite Doppler
    and Conventional Control .......................................... 347
    David J. Boal, Donald J. Junkins

Doppler Positioning in Mexico .......................................... 367
    Gabriel A. Garcia

Application of Doppler Satellite Observations to the Study of Ice-
    Flow in East Antarctica - Problems Peculiar to Doppler
    Surveys in High Latitudes ........................................... 373
    Neal W. Young

A Summary of the Discussion Session ................................... 393

SESSION Ib - HARDWARE REFINEMENTS

Some Doppler Satellite Applications at the Directorate of
    Overseas Surveys .................................................... 405
    D. W. Proctor

Effect of Oscillator Performance on Doppler Geodesy ................. 409
    E. S. Colquitt, Richard J. Anderle
Status and Capabilities of TRANET II .......................... 423
John Linder

Automatization of TRANET Station of I.R.O.E. .................. 441
Luigi Ciraolo, Luciano Mezzani

Automatic Computer Controlled Tracking Operations, Data Handling
and Communication at Canadian TRANET Stations .............. 459
J. A. Orosz, J. Popelar

An Automatic Digital Meteorological Module Interfaced to the
JMR-1 Receiver .................................................. 473
Joseph A. Gacek, John D. Brown

Removing Apparent Clock Drift From JMR-1 Doppler Survey Sets ..... 487
Harry C. Harris

The MX 1502 Satellite Surveyor .................................. 497
Thomas A. Stansell, Jr.

Features and Capabilities of a New Generation CMA-751 Satellite
Doppler Field Survey System ................................... 535
Franz Blaha

Major Improvements in Satellite Receiver Time Recovery for
(cm) Accuracy ....................................................... 557
Phineas J. Icenbice, Jr., Roger D. Loiler

A Summary of the Discussion Session ............................ 575

Geocceiver Phase Center Measurements - Unofficial Summary of
Results and Discussion .......................................... 577
R. K. Larsen

SESSION III - INTERCOMPARISONS

LBI and Satellite Doppler: Baseline Comparisons .............. 589
R. B. Langley, W. H. Cannon, W. T. Petrachenko, Jan Kouba

Determination of Accuracy, Orientation and Scale of Satellite
Doppler Point-Positioning Coordinates .......................... 609
Larry D. Hothem

Longitude Orientation of the Doppler Reference System as Determined
From Astronomic and Gravity Observations ..................... 631
Haschal L. White, Donovan N. Huber

Comparison of Doppler-Derived and Gravimetric Geoid Undulations
in North America ................................................ 653
Gerard Lachapelle

Geoid Determination With Heterogeneous Data .................... 671
Rafael S. Torres
The Relationship of Doppler Satellite Positions to the United States Transcontinental Traverse

John G. Gergen

Determination of Plate Tectonic Motion From Doppler Observations of Navy Navigation Satellites

Carol Malyevac, Richard J. Anderle

MEDOC Experiment

Francois Nouel

Polar Motion From Astrometric, Laser and Doppler

Claus Oesterwinter

Comparison Between the Results With the Doppler Positioning and With the Astronomical Observations of Time and Latitude

Shigeru Yumi

Determination of Geodetic Parameters Using Doppler Data

Bruce C. Douglas

A Summary of the Discussion Session
