PROCEEDINGS OF THE
SECOND INDIAN CONVENTION
OF
FOOD SCIENTISTS AND TECHNOLOGISTS

19–20 FEBRUARY, 1981
MYSORE

Sponsored by the
ASSOCIATION OF FOOD SCIENTISTS AND TECHNOLOGISTS (INDIA)
and the
CENTRAL FOOD TECHNOLOGICAL RESEARCH INSTITUTE, MYSORE

## Symposia

### Symposium 1: Sensory evaluation and consumer perceptions

| S1.1 Problems and possibilities of sensory evaluation, V. S. Govindarajan | 2 |
| S1.2 Nonparametric statistical inference as applied to foods, G. Sadasivan | 12 |
| S1.3 Consumer concepts and product development, Rajni Chadha | 22 |
| S1.4 Consumer perceptions of food quality, J. Mandanna | 28 |
| Discussions | 33 |

### Symposium 2: Microbial, metallic and man-made food contaminants

| S2.1 Mycotoxins in foods: the problem in India, S. G. Srikanthia | 38 |
| S2.2 Microbial contaminants of foods, J. W. Bhattacharjee | 43 |
| S2.3 Metallic food contaminants, O. P. Kapur and K. V. Nagaraja | 51 |
| S2.4 Pesticides contaminants and biodegradability, P. G. Deo | 58 |
| Discussions | 68 |
Symposium 3: Nutritional angles to food technology

S3.1 Some aspects of the effects of processing on the nutritive value of foods, H. S. R. Desikachar 72
S3.2 Some changing concepts of nutrition in relation to food technology, D. V. Rege 74
S3.3 Low-cost food processing possibilities, Sunit Mukherjee 76
S3.4 Experience with irradiated foods, P. K. Vijayaraghavan 81
Discussions 83

Poster section: Summaries of research papers

1. Cereals, pulses and oilseeds

1.1 Histochemical peculiarities of grain cracking in rice (Oryza sativa L.), M. K. Bhashyam and T. Srinivas 90
1.2 Comparative studies on rice varieties of Assam with those of Punjab for processing and nutritional quality, L. Saikia and G. S. Bains 90
1.3 Gluten composition of some Indian wheats in relation to their chapati-making quality and textural characteristics, Bhanu Pratap Ram and B. P. Nigam 91
1.4 Effect of chemical pre-treatments on enzymatic degradation of wheat straw, D. N. Kulkarni and O. B. Joergensen 91
1.5 Nutritional quality of ragi diet supplemented with cheese whey, N. N. Balasubramanya and R. V. Rao 92
1.6 Physicochemical characteristics of sorghum and pearl millet flours and their relationship to roti quality, V. Subramanian and R. Jambunathan 92
1.7 Physicochemical changes in bajra, red gram and groundnut stored in different agroclimatic regions of Andhra Pradesh, P. Pushpamma, M. Uma Reddy and P. Geervani 92
1.8 Effect of germination and cooking on the polyphenols and in vitro protein digestibility of horsegram and moth bean, P. N. Satwadhar and S. S. Kadam 93
1.9 Biochemical studies on the seeds of some Indian wild leguminous plants, R. Chinnaswamy, R. Boopathy and K. R. Natarajan 93
1.10 Scope for using the interesterification process in the production of edible fat products, D. K. Bhattacharyya and K. Kar 94
1.11 Nature of niger (Guizotia abyssinica) seed oils, T. Mallika, Nasirullah, S. Rajalakshmi and O. P. Kapur 95
1.12 Studies on modification of cassava flour, K. C. M. Raja, T. Emilia Abraham, H. Sreemula Nathan and A. G. Mathew

2. Proteins

2.1 Quality characteristics of groundnut protein isolate as influenced by processing conditions, N. Subramanian, S. Ramamani, M. C. Shamanthaka Sastry and N. Sreedhara

2.2 Nutritional quality of low-phytic acid mustard seed concentrate, Kowsalya S. Murthy, K. S. Krishna Murthy and M. Kantharaj Urs

2.3 High-protein beverage from soybean and whey, G. R. Patil and S. K. Gupta

2.4 Functional properties of winged bean (Psophocarpus tetragonolobus) proteins, K. Narayana and M. S. Narasinga Rao

2.5 Fractionation of leaf proteins of lucerne (Medicago sativa) by organic solvents, Gurumukh Singh and Narendra Singh

3. Fruits and Vegetables

3.1 Studies on the low-temperature storage and ripening behaviour of alphonso mangoes (Mangifera indica L.), K. V. R. Ramana, B. Aravinda Prasad, C. A. Krishna Prasad and M. V. Patwardhan

3.2 Impairment of mango quality through ripening by calcium carbide, Shantha Krishna Murthy and K. P. Gopalakrishna Rao

3.3 Studies on the microflora of mango pulp, H. Onkarayya, Shantha Krishna Murthy and K. P. Gopalakrishna Rao

3.4 Biochemical, enzymatic and respiration changes during development and ripening of sapota var. Cricket Ball, T. Selvaraj and D. K. Pal

3.5 Screening of grape varieties for juice production, Amba Dan, P. G. Adsule and S. S. Negi

3.6 Utilisation of jamun fruit for beverage production, D. S. Khurdiya and Susanta K. Roy

3.7 Effect of pre-harvest and post-harvest applications of benlate on the control of field fungal infections and post-harvest fungal spoilage in Golden Delicious apples of Himachal Pradesh, M. S. Krishna Prakash, Habibunnisa, B. Aravinda Prasad, P. Narasimham, S. Dhanraj, S. M. Ananthakrishna and V. S. Govindarajan

3.8 Effect of hot water washing of tomatoes of the Roma cultivar in relation to juice composition, microbial load and seed viability, P. G. Adsule, Amba Dan and H. Onkarayya

4. Dairy products

4.1 Technological studies on the utilisation of buttermilk and soybean for the manufacture of 'softy' icream, R. B. Rajor and S. K. Gupta 107

4.2 A new method for curd tension measurement, Satish Kulkarni and L. Vishweshwaraiyah 107

4.3 Coagulation of milk with immobilized rennet, I. A. Angelo and K. M. Shahani 108

4.4 Antibacterial and curdling activities of reconstituted spray-dried acidophilus milk powder, P. A. Anil Kumar and D. N. Gandhi 109

4.5 Occurrence of enterotoxigenic strains of Bacillus cereus in milk and milk products, Chitralekha Edwin, V. K. N. Nambudripad and M. C. Varadaraj 109

4.6 Production of staphylococcal enterotoxins and thermostable deoxyribonuclease (TDNase) in raw cow milk and their carryover to khoa, M. C. Varadaraj, V. K. N. Nambudripad and A. M. Natarajan 110

5. Microbiology and toxicology

5.1 Response of natural population of fungi in cereals as affected by the pH of the enumeration media, M. S. Mohan and R. Sankaran 112

5.2 Effect of processing methods on the contaminating bacteria present in foods, K. R. Gopala Rao, D. Vijaya Rao, Joyce D’Souza and T. R. Sharma 112

5.3 Recovery of stressed salmonellae and coliforms from convenience foods, R. K. Leela and R. Sankaran 113

5.4 Fate of inoculated staphylococci in certain convenience foods, R. Sankaran, R. K. Leela, K. C. Eapen and P. K. Vijayaraghavan 114

5.5 Development of a rural-oriented system for the production of the alga, Spirulina platensis, for utilisation in foods, L. V. Venkataraman, B. P. Nigam and P. K. Ramanathan 114

5.6 Microbial contaminants in algal cultures and processed powder for use in feeds, M. Mahadevaswamy and L. V. Venkataraman 115

5.7 The efficacy of fungal pectic enzyme in the process for curing coffee, S. A. Jaleel, K. R. Sreekantanah and V. Sreenivasa Murthy 116

5.8 Studies on antifungal properties of onion extracts against aflatoxin-producing fungi, S. R. Padical-Desai, Arun Sharma, G. M. Tewari and C. Bandhopadhyay 117

5.9 Pesticide hazard assessment in non-target species: acute oral toxicity of benzene hexachloride and X-factor to domestic fowl, Gallus domesticus, M. K. Krishnakumari, Muralidhara and S. K. Majumder 117
6. Fish and poultry

6.1 Solar drying of fish, M. N. Moorjani, N. V. Sripathy, G. Venkatasubbiah, K. P. Yashoda and G. Balasaraswathi

6.2 Some observations on heat-induced nutritional loss in fish protein, R. Balakrishnan Nair and M. N. Moorjani

6.3 Proteolytic activity of predominant bacteria isolated from mackerel, M. D. Alur and N. F. Lewis

6.4 Effect of gamma radiation on mackerel proteins, V. Venugopal and N. F. Lewis

6.5 Stabilisation of fish and fish oils against oxidation by Garcinia cambogia, R. Balakrishnan Nair and A. V. Girija Menon

6.6 Screening additives effective in preventing drip loss in frozen shrimp, S. Godavari Bai and V. S. Khabade

6.7 Electrophoretic studies on poultry meat during curing and smoking, P. Puttarajappa and M. N. Moorjani

6.8 Studies on the preparation of sausages from spent hens, M. A. Haleem, R. Jagannatha Rao, A. K. Chaudhury and M. N. Moorjani

7. Meat

7.1 Microbiological studies of minced meat processed under hygienic conditions in an abattoir, D. Narasimha Rao

7.2 Bacteriological condition and keeping quality of ground mutton, P. C. Panda

7.3 Changing profile of aerobic bacteria in mutton during storage, B. Bhagirathi, D. Vijaya Rao and T. R. Sharma

7.4 Behaviour of freeze-dried mutton prepared after ageing of carcasses, R. K. Leela, K. Radha-krishna, T. R. Sharma and R. Sankaran

7.5 Corned buff from buffalo meat, M. S. Madhwaraj, K. K. S. Nair, S. B. Kadkol and B. R. Baliga

7.6 The occurrence of salmonellae in raw frozen froglegs, K. P. Srivastava

7.7 Frog leg meat flavour constituents, S. V. Suryanarayana Rao and M. Suparno

8. Sensory evaluation and attributes

8.1 Product development optimisation through sensory evaluation, D. Rajalakshmi, S. M. Ananthakrishna and V. S. Govindarajan
8.2 Development of some instrumental quality measures and their correlation with sensory quality attributes in Red Delicious apple variety, S. M. Ananthakrishna, S. Dhanraj, M. G. Ramakrishnarajan and V. S. Govindarajan

8.3 Genetic variability for some consumer quality characteristics and their interrelationship with yield and maturity in green gram (Vigna radiata L.), L. P. Rajput, S. K. Rao and A. K. Gupta

8.4 Score variations in a consumer profile on sensory qualities of infused and brewed tea, N. Das, B. Barooa and A. Devi

9.5 Flavour impact components in pepper, Shanthi Narasimhan, K. G. Raghveer and V. S. Govindarajan

8.6 Enhancement of organoleptic qualities and energy conservation in heat-processed foods, K. C. Eapen, Thangamani, M. S. Mohan, R. Sankaran and P. K. Vijayaraghavan

8.7 Stability of carotenoids in foods, S. S. Arya, K. S. Premavalli, V. Natesan and P. K. Vijayaraghavan
