# Table of Contents

## Volume 1 of 2

### Breakthrough Ideas in Information Technology

1. **Understanding the Role and Transformation of the Information Technology Function in Organizations**  
   Manon G. Guillemette and Guy Paré, HEC Montréal

11. **Computer Art: A New Agenda for Information Systems Research**  
    Briony J. Oates, University of Teesside

22. **IT Service Climate: A Definition and Research Model**  
    Ronnie Q. Jia, The Ohio State University, and Blaize Horner Reich, Simon Fraser University

27. **Profit Maximization with Data Management Systems**  
    Adir Even, G. Shankaranarayanan, and Paul D. Berger, Boston University School of Management

42. **The Application of the Viable Systems Model to Information Technology Governance**  
    Joe Peppard, Cranfield School of Management

56. **Software Versioning and Quality Degradation: An Exploratory Study of the Evidence**  
    Anindya Ghose and Arun Sundararajan, New York University

### Global Information Technology Management

68. **Autonomy, Procedural Justice, and Information Systems Planning Effectiveness in Multinational Firms**  
    Dinesh A. Mirchandani, University of Missouri, St. Louis, and Albert L. Lederer, University of Kentucky

81. **Antecedents of Onshore and Offshore Business Process Outsourcing**  
    Jonathan Whitaker, University of Michigan, Sunil Mithas, University of Maryland, and M. S. Krishnan, University of Michigan

93. **Impact of Information Technology on Agricultural Commodity Auctions in India**  
    Rajiv D. Banker, Temple University, and Sabyasachi Mitra, Georgia Institute of Technology

104. **Of Governance and the BPO Paradox: The Impact of Information Capabilities on Service Satisfaction**  
    Deepa Mani, Anitesh Barua, and Andrew B. Whinston, University of Texas at Austin

### Alternative Approaches to Information Systems Development

118. **In the Age of the Humanchine**  
    Chris Atkinson, University of Manchester, and Laurence Brooks, Brunel University

131. **A Human Capital Perspective of Organizational Intention to Adopt Open Source Software**  
    Yan Li, Chuan-Hoo Tan, Hock-Hai Teo, and Alex Siow, National University of Singapore

144. **A Review of Component-Based Software Development**  
    Jason H. Sharp, Tarleton State University, and Sherry D. Ryan, University of North Texas
Not All Innovations Are Created Equal: A Survey of Internet Computing as Disruptive Innovation in Systems Development Organizations
Jessica Luo Carlo, Case Western Reserve University, Kalle Lyytinen, Case Western Reserve University, and Gregory M. Rose, Washington State University

Intelligent Agents as a Modeling Paradigm
Kafui Monu, Yair Wand, and Carson Woo, University of British Columbia

Coordination of Free/Libre Open Source Software Development
Kevin Crowston, Kangning Wei, Qing Li, U. Yeliz Eseryel, and James Howison, Syracuse University School of Information Studies

Knowledge Management

Knowledge Management as an Autonomous Venturing Process: A Process Model of Establishing Knowledge Management
Annemette Kjærgaard and Karlheinz Kautz, Copenhagen Business School

Mobilizing Informational Social Capital in Cyber Space: Online Social Network Structural Properties and Knowledge Sharing
Siyuan Huang and Gerardine DeSanctis, Duke University

Mohamed Khalifa, City University of Hong Kong, and Vanessa Liu, New Jersey Institute of Technology

Casting the Net: A Multimodal Network Perspective on Knowledge Management
Gerald C. Kane and Maryam Alavi, Emory University

A Structurationist Review of Knowledge Management Theories
Greg Timbrell, Patrick Delaney, Taizan Chan, Aaron Yue, and Guy Gable, Queensland University of Technology

Dual Networks of Knowledge Flows: An Empirical Test of Complementarity in the Prepackaged Software Industry
David Dreyfus, Bala Iyer, Chi-Hyon Lee, and N. Venkatraman, Boston University School of Management

Developing Individuals’ Transactive Memories of Their Ego-Centric Networks to Mitigate Risks of Knowledge Sharing: The Case of Professionals Protecting CyberSecurity
Sirkka L. Jarvenpaa, University of Texas at Austin, and Ann Majchrzak, University of Southern California

Preferential Attachment and Mutuality in Electronic Knowledge Networks
Steven L. Johnson and Samer Faraj, University of Maryland

Philosophy and Research Methods in Information Systems

Information Systems Development as Inquiring Systems: Lessons from Philosophy, Theory, and Practice
Andrea Carugati, IESEG School of Management

Play as the Way Out of the Newspeak–Tower of Babel Dilemma in Data Modeling
Frederico Fonseca and James Martin, The Pennsylvania State University
