DSPxPlore – Design Space Exploration Methodology for an Embedded DSP Core
Christian Panis, Carinthian Tech Institute, Austria
Ulrich Hirnschrott, Vienna University of Technology, Austria
Gunther Laure, Infineon Technologies, Austria
Wolfgang Lazian, Infineon Technologies, Austria
Jari Nurmi, Tampere University of Technology, Finland

An Energy Efficient Cache Memory Architecture for Embedded Systems
Jung-Wook Park, Yonsei University, Korea
Cheong-Ghil Kim, Yonsei University, Korea
Jung-Hoon Lee, Yonsei University, Korea
Shin-Dug Kim, Yonsei University, Korea

Multi-Objective Co-Exploration of Source Code Transformations and Design Space Architectures for Low-Power Embedded Systems
Giovanni Agosta, Politecnico di Milano, Italy
Gianluca Palermo, Politecnico di Milano, Italy
Cristina Silvano, Politecnico di Milano, Italy

A Hardware Extension of the RISC Microprocessor for Attribute Grammar Evaluation
Ioannis Panagopoulos, National Technical University of Athens, Greece
Christos Pavlatos, National Technical University of Athens, Greece
George Papakonstantinou, National Technical University of Athens, Greece

L0 Buffer Energy Optimization through Scheduling and Exploration
Murali Jayapala, ESAT/ELECTA, Belgium
Tom Vander Aa, ESAT/ELECTA, Belgium
Francisco Barat, ESAT/ELECTA, Belgium
Geert Deconinck, ESAT/ELECTA, Belgium
Francky Catthoor, IMEC, Belgium
Henk Corporaal, Technical University, The Netherlands

Fine-Grained Power Management for Multithreaded Processor Cores
Sascha Uhrig, University of Augsburg, Germany
Theo Ungerer, University of Augsburg, Germany

Engineering e-Learning Systems (ELS)
Track Co-Chairs: Symeon Retalis, University of Piraeus, Greece
Paris Avgeriou, University of Cyprus, Cyprus

Track Editorial

Issues of Pedagogy and Design in e-learning Systems
Charalambos Vrasidas, Intercollege, Cyprus

Patterns for Blended, Person-Centered Learning: Strategy, Concepts, Experiences, and Evaluation
Michael Derntl, University of Vienna, Austria
Renate Motschnig-Pitrik, University of Vienna, Austria
Information Access and Retrieval (IAR)
Track Co-Chairs: Fabio Crestani, University of Strathclyde, UK
Gabriella Pasi, ITC-CNR, Italy

Track Editorial

A Comparison of Several Predictive Algorithms for Collaborative Filtering on Multi-Valued Ratings
Maritza Calderón-Benzavides, Universidad Autónoma de Bucaramanga, Colombia
Cristina González-Caro, Universidad Autónoma de Bucaramanga, Colombia
Jose Pérez-Alcázar, Universidad Autónoma de Bucaramanga, Colombia
Juan García-Díaz, Universidad Autónoma de Bucaramanga, Colombia
Joaquín Delgado, TripleHop Technologies, USA

A Knowledge Based System for Content-based Retrieval of Scalable Vector Graphics Documents
Eugenio Di Sciascio, Politecnico di Bari, Italy
Francesco Donini, Universita' della Tuscia, Italy
Marina Mongiello, Politecnico di Bari, Italy

Ontology and Rule based Retrieval of Sound Objects in Augmented Audio Reality System for Museum Visitors
Marek Hatala, Simon Fraser University, Canada
Leila Kalantari, Simon Fraser University, Canada
Ron Wakkary, Simon Fraser University, Canada
Kenneth Newby, Simon Fraser University, Canada

Geographical Information Recognition and Visualisation in Texts Written in Various Languages
Bruno Pouliquen, EC-Joint Research Centre, Italy
Ralf Steinberger, EC-Joint Research Centre, Italy
Camelia Ignat, EC-Joint Research Centre, Italy
Tom De Groeve, EC-Joint Research Centre, Italy

Experiments on using Fuzzy Quantified Sentences in Adhoc Retrieval
David E. Losada, University of Santiago de Compostela, Spain
Félix Díaz-Hermida, University of Santiago de Compostela, Spain
Alberto Bugarín, University of Santiago de Compostela, Spain
Senén Barro, University of Santiago de Compostela, Spain

Shadow Document Methods of Results Merging
Shengli Wu, University of Strathclyde, UK
Fabio Crestani, University of Strathclyde, UK

The Effectiveness of Combining Information Retrieval Strategies for European Languages
Jaap Kamps, University of Amsterdam, Holand
Maarten de Rijke, University of Amsterdam, Holand
An Architecture for Information Retrieval over Semi-Collaborating Peer-to-Peer Networks...1078
Iraklis Klampanos, University of Glasgow, Scotland
Joemon Jose, University of Glasgow, Scotland

Video Information Retrieval using Objects and Ostensive Relevance Feedback..........................1084
Paul Browne, Dublin City University, Ireland
Alan Smeaton, Dublin City University, Ireland

A New Algorithm for Computing Transitive Closures .................................................................1091
Yangjun Chen, University of Winnipeg, Canada

Internet Data Management (IDM)
Track Co-Chairs: Marios Dikaiakos, University of Cyprus, Cyprus
Alexandros Labrinidis, University of Pittsburgh, USA
Qiong Luo, Hong Kong University of Science and Technology, China

Track Editorial..........................................................................................................................1093

Text Mining Agent for Net Auction ..........................................................1095
Yukitaka Kusumura, Osaka University, Japan
Yoshinori Hijikata, Osaka University, Japan
Shogo Nishida, Osaka University, Japan

Specifying Temporal Data Models for Semistructured Data by a Constraint-based Approach .................................................................1103
Carlo Combi, Universita degli studi di Verona, Italy
Barbara Oliboni, Universita degli studi di Verona, Italy
Elisa Quintarelli, Politecnico di Milano, Italy

Caching in Web Memory Hierarchies ..........................................................1109
Dimitrios Katsaros, Aristotle University, Greece
Yannis Manolopoulos, Aristotle University, Greece

Learning Query Languages of Web Interfaces..........................................................1114
André Bergholz, Xerox Research Centre Europe, France
Boris Chidlovskii, Xerox Research Centre Europe, France

Efficient Management of XML Contents over Wireless Environment by Xstream..............1122
Eugene Y.C. Wong, Hong Kong Polytechnic University, China
Alvin T. S. Chan, Hong Kong Polytechnic University, China
Hong-Va Leong, Hong Kong Polytechnic University, China

Automatic Language Identification of Written Texts ..................................................1128
Rafael Lins, Universidade Federal de Pernambuco, Brazil
Paulo Gonçalves, Universidade Federal de Pernambuco, Brazil
Minimizing the Reconfiguration Overhead in Content-Based Publish-Subscribe..........................1134
Gianpaolo Cugola, Politecnico di Milano, Italy
Davide Frey, Politecnico di Milano, Italy
Amy L. Murphy, Politecnico di Milano, Italy
Gian Pietro Picco, Politecnico di Milano, Italy

GD-GhOST: A Goal-Oriented Self-Tuning Caching Algorithm.................................................1141
Ganesh Santhanakrishnan, University of Pittsburgh, USA
Ahmed Amer, University of Pittsburgh, USA
Panos K. Chrysanthis, University of Pittsburgh, USA
Dan Li, University of Pittsburgh, USA

A Web-page Fragmentation Technique for Personalized Browsing...........................................1146
Christos Bouras, University of Patras, Greece
Vaggelis Kapoulas, University of Patras, Greece
Ioannis Misedakis, University of Patras, Greece

Mobile Computing and Applications (MCA)
Track Co-Chairs: Hong Va Leong, Hong Kong Polytechnic University, Hong Kong
Alvin Chan, Hong Kong Polytechnic University, Hong Kong

Track Editorial..............................................................................................................................1149

A Call Admission Control Scheme using Genetic Algorithms......................................................1151
Dilek Karabudak, Southern Polytechnic State University, USA
Chih-Cheng Hung, Southern Polytechnic State University, USA
Benny Bing, Georgia Institute of Technology, USA

A Comparison of Randomized and Evolutionary Approaches for Optimizing Base Station
Site Selection...............................................................................................................................1159
Larry Raisanen, Cardiff University, UK
Roger M. Whitaker, Cardiff University, UK
Steve Hurley, Cardiff University, UK

Delivering Attribute Certificates over GPRS................................................................................1166
Georgios Kambourakis, University of the Aegean, Greece
Angelos Rouskas, University of the Aegean, Greece
Stefanos Gritzalis, University of the Aegean, Greece

Extending Invalid-Access Prevention Policy Protocols for Mobile-Client Data Caching..............1171
Shin Parker, University of Nebraska at Omaha, USA
Zhengxin Chen, University of Nebraska at Omaha, USA

A Declarative Framework for Adaptable Applications in Heterogeneous Environments..............1177
P. Inverardi, Università degli Studi dell'Aquila, Italy
F. Mancinelli, Università degli Studi dell'Aquila, Italy
M. Nesi, Università degli Studi dell'Aquila, Italy
Object-Oriented Middleware for Location-Aware Systems .......................................................... 1184
Riku Jakovskiv, Tampere University of Technology, Finland
Risto Pietikainen, Tampere University of Technology, Finland
Tommi Mikkonen, Tampere University of Technology, Finland

UbiCollab: Collaboration Support for Mobile Users ................................................................. 1191
Monica Divitini, IDI, NTNU, Norway
Babak A. Farshchian, Telenor R&D, Norway
Haldor Samset, Telenor R&D, Norway

MIRES - an Information Exchange System for Mobile Phones .................................................. 1196
Qing Li, City University of Hong Kong, Hong Kong
Xiang Li, City University of Hong Kong, Hong Kong
Jian Zhai, City University of Hong Kong, Hong Kong
Liu Wenyin, City University of Hong Kong, Hong Kong

Wireless Spatio-Semantic Transactions on Multimedia Datasets ........................................... 1201
James D. Carswell, Dublin Institute of Technology, Ireland
Keith Gardiner, Dublin Institute of Technology, Ireland
Marco Neumann, Dublin Institute of Technology, Ireland

A Network Independent Broker for Obtaining Position of Nomadic Users ................................ 1206
N. Frigouris, University of Athens, Greece
G. Papazafeiropoulos, University of Athens, Greece
G. F. Marias, University of Athens, Greece
S. Hadjiefthymiades, University of Athens, Greece
L. Merakos, University of Athens, Greece

Towards an Intelligent Mobile Travel Assistant ........................................................................ 1208
Marc Torrens, EPFL, Switzerland
Patrick Hertzog, EPFL, Switzerland
Pearl Pu, EPFL, Switzerland
Boi Faltings, EPFL, Switzerland

Multimedia and Visualization (MV)
Track Co-Chairs: Chaman L. Sabharwal, University of Missouri-Rolla, USA
S. R. Subramanya, University of Missouri-Rolla, USA

Providing Resource Allocation and Performance Isolation in a Shared Streaming-Media Hosting Service .......................................................... 1213
Ludmila Cherkasova, Hewlett-Packard Laboratories, USA
Wenting Tang, Hewlett-Packard Laboratories, USA

A New Algorithm for Removing Noisy Borders from Monochromatic Documents ................. 1219
Bruno Tenorio Avila, Universidade Federal de Pernambuco, Brazil
Rafael Dueire Lins, Universidade Federal de Pernambuco, Brazil
LEMP: Lightweight Efficient Multicast Protocol for Video on Demand..................1226
Panayotis Fouliras, University of Macedonia, Greece
Spiros Xanthos, University of Macedonia, Greece
Nikolaos Tsantalis, University of Macedonia, Greece
Athanasios Manitsaris, University of Macedonia, Greece

Similarity between Euclidean and Cosine Angle Distance for Nearest Neighbor Queries........1232
Gang Qian, Michigan State University, USA
Shamik Sural, Indian Institute of Technology, India
Yuelong Gu, Michigan State University, USA
Sakti Pramanik, Michigan State University, USA

Cost Effective Transcoding for QoS Adaptive Multimedia Streaming........................1238
Ilhoon Shin, Seoul National University, South Korea
Kern Koh, Seoul National University, South Korea

Axes-Based Visualizations with Radial Layouts..................................................1242
Christian Tominski, University of Rostock, Germany
James Abello, Rutgers University, USA
Heidrun Schumann, University of Rostock, Germany

Modelling and Filtering of MPEG-7-Compliant Meta-Data for Digital Video................1248
Harry Agius, Brunel University, UK
Marios Angelides, Brunel University, UK

A High-Dimensional Approach to Interactive Graph Visualization.........................1253
Hiroshi Hosobe, National Institute of Informatics, Japan

Exploring an Open, Distributed Multimedia Framework to Design and Develop an
Adaptive Middleware for Interactive Digital Television Systems........................1258
Glédson Elias, Federal University of Rio Grande do Norte, Brazil
Adilson B. Lopes, Federal University of Rio Grande do Norte, Brazil
Frederico Borelli, Federal University of Rio Grande do Norte, Brazil
Mauricio Magalhães, State University of Campinas, Brazil

Object-Oriented Programming Languages and Systems (OOP)
Track Co-Chairs: Davide Ancona, DISI - Università di Genova, Italy
Rajeev Raje, Indiana University Purdue University Indianapolis, USA
Mirko Viroli, Università di Bologna, Italy

Track Editorial.............................................................................................................1265

The Inheritance Anomaly: Ten Years After ..........................................................1267
Giuseppe Milicia, Chi Spaces Technologies ltd., UK
Vladimiro Sassone, University of Sussex, UK

Another Step Towards a Smart Compilation Manager for JAVA............................1275
Giovanni Lagorio, DISI - Università di Genova, Italy
Modeling Multiple Class Loaders by a Calculus for Dynamic Linking ........................................ 1281
Sonia Fagorzi, DISI - Università di Genova, Italy
Elena Zucca, DISI - Università di Genova, Italy
Davide Ancona, DISI - Università di Genova, Italy

Adding Wildcards to the JAVA Programming Language ........................................................... 1289
Mads Torgersen, University of Aarhus, Denmark
Christian Pleøer Hansen, University of Aarhus, Denmark
Erik Ernst, University of Aarhus, Denmark
Peter von der Ahé, University of Aarhus, Denmark
Gilad Bracha, Sun Microsystems, Inc., USA
Neal Gafter, Sun Microsystems, Inc., USA

Re-classification and Multi-threading: FickleMT ................................................................. 1297
Ferruccio Damiani, Università di Torino, Italy
Mariangiola Dezani-Ciancaglini, Università di Torino, Italy
Paola Giannini, Università del Piemonte Orientale, Italy

SmartMethod: an Efficient Replacement for Method ............................................................. 1305
Walter Cazzola, Università degli Studi di Milano, Italy

Interface Utilization in the JAVA Development Kit .............................................................. 1310
Jens Gölßner, Universität Hannover, Germany
Philip Mayer, Universität Hannover, Germany
Friedrich Steimann, Universität Hannover, Germany

Language Support for Incremental Integration of Independently Developed Components in JAVA .................................................................................................................................................................................. 1316
Bo Nørregaard Jørgensen, University of Southern Denmark, Denmark

Prototype System for Methods Materialisation and Maintenance in Object-Oriented Databases .................................................................................................................................................................................. 1323
Juliusz Jezierski, Poznań University of Technology, Poland
Mariusz Masewicz, Poznań University of Technology, Poland
Robert Wrembel, Poznań University of Technology, Poland

Seamless Integration of Rule-Based Knowledge and Object-Oriented Functionality with Linguistic Symbiosis .................................................................................................................................................................................. 1328
Maja D'Hondt, Vrije Universiteit Brussel, Belgium
Kris Gybels, Vrije Universiteit Brussel, Belgium
Viviane Jonckers, Vrije Universiteit Brussel, Belgium

Organizational Engineering (OE)
Track Co-Chairs: José Tribolet, Technical University of Lisbon, Portugal
Pedro Sousa, Technical University of Lisbon, Portugal

Modeling Organizational Goals: Analysis of Current Methods .............................................. 1339
Evangelia Kavakli, University of the Aegean, Greece

xxviii
Towards a Corporate Performance Measurement System .................................................. 1344
Beate List, Vienna University of Technology, Austria
Karl Machaczek, Vienna University of Technology, Austria

Evolution of Business Processes towards eBusiness using a Critiquing Approach .................. 1351
Lerina Aversano, University of Sannio, Italy
Thierry Bodhuin, University of Sannio, Italy
Gerardo Canfora, University of Sannio, Italy
Raffaele Esposito, University of Sannio, Italy
Maria Tortorella, University of Sannio, Italy

Information Requirements Engineering for Data Warehouse Systems .................................. 1359
Robert Winter, University of St. Gallen, Switzerland
Bernhard Strauch, LGT Financial Services, Principality of Liechtenstein

A Method to Define an Enterprise Architecture using the Zachman Framework .................... 1366
Carla Marques Pereira, EST-IPCB, Portugal
Pedro Sousa, I.S.T e Link, Portugal

Developing the Extended Enterprise with the FADEE .......................................................... 1372
Frank Goethals, K.U.Leuven, Belgium
Jacques Vandenbergelke, K.U.Leuven, Belgium
Wilfried Lemahieu, K.U.Leuven, Belgium

Separation, Review and Supervision Controls in the Context of a Credit Application Process – A Case Study of Organisational Control Principles ............................................. 1380
Andreas Schaad, Ernst & Young LLP, UK
Jonathan Moffett, University of York, UK

Organizational Engineering in Public Administrations – A Method for Process-oriented eGovernment Projects ................................................................. 1385
Joerg Becker, University of Muenster, Germany
Lars Algermissen, University of Muenster, Germany
Bjoern Niehaves, University of Muenster, Germany

An Integrated Model of Workflows, e-Contracts and Solution Implementation ...................... 1390
Mizuho Iwaihara, Kyoto University, Japan
Haiying Jiang, Kyoto University, Japan
Yahiko Kambayashi, Kyoto University, Japan

Applying Scheduling Techniques to Minimize the Number of Late Jobs in Workflow Systems .................................................................................. 1396
Gregorio Baggio Tramontina, Universidade Estadual de Campinas, Brazil
Jacques Wainer, Universidade Estadual de Campinas, Brazil
Clarence Ellis, University of Colorado, USA
Parallel and Distributed Systems (PDS)
Track Co-Chairs: Robert van Engelen, Florida State University, USA
Nectarios Koziris, National Technical University of Athens, Greece
Mario Furnari, Consiglio Nazionale delle Ricerche, Italy
Kleanthis Psarris, University of Texas at San Antonio, USA

Track Editorial.........................................................................................................................1405

Exploiting Fast Ethernet Performance in Multiplatform Cluster Environment..............1407
Sándor Juhász, Budapest University of Technology and Economics, Hungary
Hassan Charaf, Budapest University of Technology and Economics, Hungary

Automatic Parallel Code Generation for Tiled Nested Loops...........................................1412
Georgios Goumas, National Technical University of Athens, Greece
Nikolaos Drosinos, National Technical University of Athens, Greece
Maria Athanasaki, National Technical University of Athens, Greece
Nectarios Koziris, National Technical University of Athens, Greece

Class-Dependent Assignment in Cluster-based Servers.......................................................1420
Victoria Ungureanu, Rutgers University, USA
Benjamin Melamed, Rutgers University, USA
Phillip G. Bradford, University of Alabama, USA
Michael Katehakis, Rutgers University, USA

Efficient Fault-Tolerant Routing Algorithm for OTIS-Cube Using Unsafety Vectors.........1426
Jehad A. Al-Sadi, Zarka Private University, Jordan
Ahmad M. Awwad, Zarka Private University, Jordan

A Cost-Oriented Approach for Infrastructural Design.......................................................1431
Danilo Ardagna, Politecnico di Milano Italy
Chiara Francalanci, Politecnico di Milano, Italy
Marco Trubian, Università degli Studi di Milano, Italy

Scalable and Lock-Free Concurrent Dictionaries...............................................................1438
Hakan Sundell, Chalmers University of Technology, Sweden
Philippas Tsigas, Chalmers University of Technology, Sweden

Using a Hybrid Evolutionary-Taboo Algorithm to Solve the Job Shop Problem............1446
Joao Paulo Caldeira, Instituto Politécnico de Setúbal, Portugal
Fernando Melicio, I.S.E.L., Portugal
Agostinho Rosa, LaSEEB-ISR-IST, Portugal
Programming Languages (PL)
Track Co-Chairs: Chang-Hyun Jo, California State University at Fullerton, USA
               Marjan Mernik, University of Maribor, Slovenia
               Barrett R. Bryant, University of Alabama at Birmingham, USA

Track Editorial .................................................................................................................. 1453

Greg Michaelson, Heriot-Watt University, UK
Kevin Hammond, University of St Andrews, UK
Jocelyn Serot, Blaise Pascal University, France

Controlling Data Movement in Global Computing Applications ............................... 1462
Daniele Gorla, Università di Roma, Italy
Rosario Pugliese, Università di Firenze, Italy

Constructive Negation by Bottom-up Computation of Literal Answers ...................... 1468
Javier Alvez, Universidad del Pais Vasco, Spain
Paqui Lucio, Universidad del Pais Vasco, Spain
Fernando Orejas, Universidad Politecnica de Catalunya, Spain

Exploiting Labels in Structural Operational Semantics .............................................. 1476
Peter D. Mosses, University of Aarhus, Denmark

A Back-end for GHC based on Categorical Multi-Combinators ................................ 1482
Ricardo Massa F. Lima, Universidade de Pernambuco, Brazil
Rafael Dueire Lins, Universidade Federal de Pernambuco, Brazil
Andre L. M. Santos, Universidade Federal de Pernambuco, Brazil

Approximating Module Semantics with Constraints .................................................... 1490
Francesco Logozzo, École Polytechnique, France

Type-Safe Covariance in C++ ......................................................................................... 1496
Vitaly Surazhsky, Technion-Insrael Institute of Technology, Israel
Joseph (Yossi) Gil, Technion-Insrael Institute of Technology, Israel

Implementing the Essence of Reflection: a Reflective Run-Time Environment .......... 1503
Massimo Ancona, University of Genova, Italy
Walter Cazzola, University of Milano, Italy

A Core Calculus of Higher-Order Mixins and Classes .................................................. 1508
Lorenzo Bettini, Università di Firenze, Italy
Viviana Bono, Università di Torino, Italy
Silvia Likavec, Università di Torino, Italy
Software Engineering: Applications, Practices and Tools (SE)

Track Chair: Ibrahim K. El-Far, Microsoft Corporation, USA
Track Co-Chairs: Chia-Chu Chiang, University of Arkansas, USA
Stephan Gruner, University of Southampton, Great Britan
Markus Motigel, Systranis AG, Switzerland
Herbert H. Thompson, Security Innovation, USA

Track Editorial ........................................................................................................................................1511

Missing Requirements and Relationship Discovery through Proxy Viewpoints Model ..........1513
Seok Won Lee, University of North Carolina at Charlotte, USA
David C. Rine, George Mason University, USA

A Framework to Simulate UML Models: Moving from a Semi-Formal to a Formal Environment ....................................................................................................................................1519
Alessandra Cavarra, Oxford University, UK
Elvinia Riccobene, University of Catania, Italy
Patrizia Scandurra, University of Catania, Italy

A Portable Virtual Machine for Program Debugging and Directing ........................................1524
Camil Demetrescu, Università degli Studi di Roma “La Sapienza”, Italy
Irene Finocchi, Università degli Studi di Roma "Tor Vergata", Italy

Translating the Object Constraint Language into the JAVA Modelling Language .................1531
Ali Hamie, University of Brighton, UK

A Relational Approach to Software Metrics ...............................................................................1536
Marco Scotto, DIST - Università di Genova, Italy
Alberto Sillitti, Libera Università di Bolzano, Italy
Giancarlo Succi, Libera Università di Bolzano, Italy
Tullio Vernazza, DIST - Università di Genova, Italy

A New Approach to the BDI Agent-Based Modeling ................................................................1541
Chang-Hyun Jo, California State University Fullerton, USA
Guobin Chen, California State University Fullerton, USA
James Choi, California State University Fullerton, USA

A Control Theory Based Framework for Dynamic Adaptable Systems ................................1546
Joao W. Cangussu, University of Texas at Dallas, USA
Kendra Cooper, University of Texas at Dallas, USA
Changcheng Li, University of Texas at Dallas, USA

Aspect Oriented Programming for a Component-based Real Life Application: A Case Study ..........................................................1554
Odysseas Papapetrou, University of Cyprus, Cyprus
George A. Papadopoulos, University of Cyprus, Cyprus

Modeling Sociotechnical Specifics using Architectural Concepts .............................................1559
Michael Cebulla, Technische Universität Berlin, Germany

xxxii
Ubiquitous Computing (UC)

Track Co-Chairs: George Samaras, University of Cyprus, Cyprus
Diomidis Spinellis, Athens University of Economics & Business, Greece
George Roussos, University of London, UK

Track Editorial

Route Profiling - Putting Context to Work .................................................................1567
Anthony Harrington, Trinity College Dublin, Ireland
Vinny Cahill, Trinity College Dublin, Ireland

Applications of Context-Aware Computing in Hospital Work – Examples and Design
Principles ......................................................................................................................1574
Jakob E. Bardram, University of Aarhus, Denmark

Infotainment across Access Devices: the Perceptual Impact of Multimedia QoS ..........1580
T. Serif, Brunel University, UK
S.R. Gulliver, Brunel University, UK
G. Ghinea, Brunel University, UK

A Ubiquitous Computing Environment for Aircraft Maintenance ..........................1586
Matthias Lampe, ETH Zurich, Switzerland
Martin Strassner, University of St. Gallen, Switzerland
Elgar Fleisch, University of St. Gallen, Switzerland

Trust Enhanced Ubiquitous Payment without Too Much Privacy Loss ....................1593
Jean-Marc Seigneur, Trinity College Dublin, Ireland
Christian Damsgaard Jensen, Technical University of Denmark, Denmark

Fluid – Supporting a Transportable and Adaptive Web Service ...............................1600
I Made Pratistha, Monash University, Australia
Arkady Zaslavsky, Monash University, Australia

“Take me with you!”: A Case Study of Context-aware Application Integrating Cyber and
Physical Spaces .............................................................................................................1607
Kaori Fujinami, Waseda University, Japan
Tetsuo Yamabe, Waseda University, Japan
Tatsuo Nakajima, Waseda University, Japan

Profile and Context Filtering of Streaming Data for a Mobile Personal Assistant ........1615
Alan Berfield, University of Pittsburgh, USA
Jonathan Beaver, University of Pittsburgh, USA
Panos K. Chrysanthis, University of Pittsburgh, USA
Web Technologies and Applications (WTA)
Track Co-Chairs: Sara Comai, Politecnico di Milano, Italy
Marlon Dumas, Queensland University of Technology, Australia
Maristella Matera, Politecnico di Milano, Italy

Track Editorial.................................................................................................................................................... 1617

A Web Services Composition Approach based on Software Agents and Context............................................ 1619
Zakaria Maamar, Zayed University, UAE
Soraya Kouadri Mostefaoui, Fribourg University, Switzerland
Hamdi Yahyaoui, Laval University, Canada

Migration to Web Services Oriented Architecture – A Case Study................................................................. 1624
Jia Zhang, Northern Illinois University, USA
Jen-Yao Chung, IBM T.J. Watson Research, USA
Carl K. Chang, Iowa State University, USA

Using XML and Related Standards to Support Location Based Services....................................................... 1629
Anastasios Ioannidis, University of Athens, Greece
Manos Spanoudakis, University of Athens, Greece
Panos Sianas, University of Athens, Greece
Ioannis Priggouris, University of Athens, Greece
