Sedimentary Signature of Hurricanes and Exceptional Events in Cienfuegos Bay, Cuba, Inferred from $^{210}$Pb and $^{137}$Cs Vertical Profiles ......................................................... 3
   Alonso-Hernández, Carlos M., Carlos M., Alain Muñoz-Caravaca, Misael Díaz-Asencio, Carlo Papucci, and Roberta Delfanti

FutureGen: Clean-Coal and Near-Zero-Emission Power Generation Technology for the Gulf Coast ................................................................. 5
   Ambrose, William A., Mark H. Holtz, Vanessa Núñez López, Caroline L. Breton, Gürcan Gülen, Ian Duncan, Rebecca C. Smyth, Michelle M. Foss, Srivatsan Lakshminarasimhan, and Susan D. Hovorka

Developing Interactive 3-D Presentations and Publications for Multidimensional Geoscience Research ........................................................... 15
   Andrews, John R., Lesli J. Wood, and James C. Gibeaut

Hurricanes — How do they Change under Increased Greenhouse-Gas Concentration? ........................................................... 17
   Arpe, Klaus

Trap and Seal Analysis — Concepts and Mexican Examples ......................................................... 19
   Arreguín-López, Marco A., Raymundo Sánchez-Rivera, Edmundo Heredia-Cervantes, and Susan Hippler

Source and Evolution of the Fluids around the S. Liberty Salt Dome, SE Texas Gulf Coast ........................................................... 21
   Banga, Tat, Regina Capuano, Adry Bissada, and Don Van Nieuwenhuise

Modeling the Burial and Thermal History, Organic Maturation, and Oil Expulsion of the North Louisiana Petroleum System ......................................................... 23
   Barnaby, Roger

High-Resolution Foraminiferal Biostratigraphy of Cenomanian and Turonian Sandstones, Tyler County, Texas ........................................................... 27
   Barrett, Mary L., and John P. Goodson, Jr.

   Beaubouef, R. T., and V. Abreu

Seismic Imaging at Conger: Lessons Learned in Gulf of Mexico Subsalt Imaging ........................................................... 51
   Bergeon, Thomas C., Brad A. Robison

Diagenetic History of the Turbiditic Litharenites of the Chicontepec Formation, Northern Veracruz: Controls on the Secondary Porosity for Hydrocarbon Emplacement ........................................................... 65
   Bermúdez, Juan C., Juan Araujo-Mendieta, Manuel Cruz-Hernández, Humberto Salazar-Soto, Humberto, Sergio Brizuela-Mundo, Silvestre Ferral-Ortega, and Orquídea Salas-Ramírez
List of Technical Papers

A 1,000-Year High-Resolution Hurricane Activity Record for the Boston Area .......... 73
Besonen, Mark R., Mark B. Abbott, Pierre Francus, and Raymond S. Bradley

A Technique for Resolving Faulting Problems on the Steeply-Dipping Flanks of
Salt Bodies using Multiple Bischke Plot Analysis (MBPA) ........................................ 75
Bischke, R. E., J. Brewton, and D. J. Tearpock

Vernon Field — Waking a Sleeping Giant in North Louisiana ..................................... 77
Blanke, Steve

Coalbed Methane Production Potential in the Hartshorne Formation (Oklahoma) ....... 83
Bordelon, Natasha J.

System for Interpretation of 3-D Data in Virtual-Reality Displays and Refined
Interpretations of Geophysical and Topographic Data from the Chicxulub
Impact Crater ........................................................................................................ 87
Borst, Christoph W., Gary L. Kinsland, Vijay B. Baiyya, Adam M. Guichard, Arun P. Indugula,
Alp V. Asutay, and Christopher M. Best

The Princess Discovery — Subsalt Gulf of Mexico: Challenges of Subsalt Imaging
in a Fast-Paced Subsea Development ...................................................................... 101
Bouma, Aafke E., Ben M. Hewett, and Bret D. Hampton

Basin Characteristics, Tectonic History and Grain Size are Main Influences in the
Transport and Deposition of Turbidity Currents ....................................................... 103
Bouma, Arnold H., Anne M. Delery, and Alfonso Benavides-Iglesias

Preliminary Determination of Bacteriological Niche Communities in
Paleocene-Eocene Wilcox Group Coals from Coalbed Methane Producing
Wells in North Louisiana ......................................................................................... 119
Breland, Jr., F. C., R. J. Portier, P. D. Warwick, and C. A. Metosh-Dickey

Systematic Variability of Hydraulic Conductivity within the Mississippi River
Alluvial Aquifer in Northeastern Louisiana .............................................................. 121
Carlson, Douglas

A Preliminary Examination of Geothermal Gradient Throughout Louisiana’s 64
Parishes .............................................................................................................. 137
Carlson, Douglas, and Richard P. McCulloh

Petroleum System Attributes of the Bossier Shale of East Texas and Barnett Shale
of North-Central Texas: Evolving Ideas and their Impact on Shale and Tight Sand
Gas Resource Assessment .......................................................................................... 139
Chaouche, Ahmed

Major World Delta Variability and Wetland Loss .................................................. 151
Coleman, James M., Oscar K. Huh, DeWitt H. Braud, Jr., and H. H. Roberts

Visualization Blended into Computational Simulations: Academia and Industry
Working together at the LITE ............................................................................... 153
