12th Abu Dhabi International Petroleum Exhibition and Conference

ADIPEC 2006

"Meeting the Increasing Oil and Gas Demand Through Innovation"

November 5-8, 2006
Abu Dhabi, UAE

Volume 2 of 2

CSIN: 9999900417
Eliminating Additional Drilling Expense Due to Well Stability Problem in Laminated/Fractured Nahr Umr Shale Formation .......................................................... 457
Tatsuhiko Waragai, Zadco; Koji Yamamoto, Jogmec; and Noriyuki Tokuda, Adma-Opco

Challenges, Lessons Learned, and Successful Implementations of Multilateral Completion Technology Offshore Abu Dhabi ......................................................... 463
Shuichi Kikuchi and Abdulla S. Fada'q, Zadco

Dynamic Production Optimization in Khafji Offshore Field ........................................... 476
E.O. Ghoniem, M.A. Al-Khaldi, N. Samizo, and A. Al-Thuwayni, Al-Khafji Joint Operations

Use of the NMR Diffusivity Log To Identify and Quantify Oil and Water in Carbonate Formations .......................................................... 494

Restoring Well Integrity in a Critical Gas Pilot Injection Well .................................................. 504
Jamal K. Al-Ashhab, Naeem Khan, and Douglas Boyd, Zakum Development Co.

Techniques Used to Monitor and Remove Strontium Sulfate Scale in UZ Producing Wells ........................................................................ 515
Jamal Al-Ashhab and Hasounah Al-Matar, ZADCO, and Shahril Mokhtar, Schlumberger

Debottlenecking and Expansion of Upper Zakum GTP Plant at Zadco ................................ 522
Sanjay Bhatia and Muhammed Fiaz, Zadco

Competency Management: Value, Approaches, and Challenges ........................................ 532
J.F. Brett, PetroSkills; M.G. Salah, PetroSkills Middle East; and Larry L. Lilly, J.M. Campbell and Co.

Evolution of Gas Bubbles From Offshore Wells .............................................................. 544
C.O. Emenike, Ali Chareef Afghoul, Nabil El Mzien, and Laid Latifi, Zadco

The Impact of Chloride Contamination From Leaking Heat Exchanger Tubes on Plant Materials of Construction ......................................................... 552
E.Y. El-Roubi, ADGAS; B. Kermani, KeyTech; and M. Selim Nasif, ADGAS

Tectonic History and Basement Fault Control on Structural Development of an Offshore Field, Abu Dhabi .......................................................... 569
Ewart Edwards, Hong Sit, Hamad Bu Al-Rougha, Akmal Sultan, and Naeema Khouri, Zakum Development Co.

Static and Dynamic Characterization of a Major Transient Fault Zone: Its Effect on Reservoir Quality and Deliverability From an Offshore Thamama Oil-Field in Abu Dhabi ........................................................................ 577
Ewart Edwards, SPE, Zadco

Reliability of Cement Bond Log Interpretations Compared to Physical Communication Tests Between Formations .......................................................... 589
Douglas Boyd, Salah Al-Kubli, Osama Hamdy Khedr, Naeem Khan, and Kholoud Al-Nayadi, Zadco; Didier Degouy, Adma-Opco; and Antoine Elkadi and Zaid Al Kindi, Schlumberger

Strategic-Based Project Organization of Field-Development Activities ................................ 600
Ali Al Jarwan, Wallace W. (Bill) Martin, John Walters, Richard Smith, Qasem Al Kayaouni, and Hamad Bu Al Rougha, Zadco

Can the Existing F&G Detection System Provide Safe Guard Against All Possible Gas Releases? (Case Study) ........................................................................... 607
Ashraf E. Shabaka, Zadco

The Role of Geomechanics at Early Stages of Field Development: A Case Study .................. 612
Jorge S. Gomes, Maria Ribeiro, Shahin Naghaban, Yousef Dabbour, Jamal Bahmash, and Georges Zaborovski, ADCO

Producing Dry Oil From a Transition Zone: Should This Be Called a Wedge Zone? ............ 624
Mohamed Saleh Esnik, Hafez Hafez, Masoud Haujjizadeh, Mohamed Hamawi, Matsoon Al-Mansouri, and Mather Kenawy, Adco, and Faisal Abdulla, Adnoc

Miscible Gas Injection Piloting and Modeling in a Giant Carbonate Reservoir ................. 629
Masoud Haujjizadeh, Hafez Hafez, Rasheed Al Hassan, Abdulla Bakheet AlKatheevi, Mohamed N. Ghezali, and Mather Kenawy, Adco
Uncertainty Analysis of a Giant Oil Field in the Middle East Using Surrogate Reservoir Model........................................................................................................645

Shahab D. Mohaghegh, West Virginia U. & Intelligent Solutions, Inc.; Hafez Hafez, ADCO; Razi Gaskari, WVU; and Masoud Haajizadeh and Maher Kenawy, ADCO

Production Well Testing Optimization Using Multiphase Flow Meters (MPFM)..........................................................................................................................658

M. Metwalli Hassan and M. Bekkoucha, Adco, and M. Abukhaled, Schlumberger

Maximizing Use of Well Log Acoustic Data To Define Seismic Attributes Leading to Better Development of a Mature Cretaceous Field in Abu Dhabi.................................................................................663

Ashok Srivastava, SPE, Sandeep Chakravorty, and Kashif Malik, Schlumberger, and Fathy El Waizy, SPE, and Martin Boekholt, Adco

Identification of Key Fracture Effects on Fluid Flow and Iterative Approach for Effective Permeability Modeling of a Matrix-Dominated Carbonate Reservoir, Offshore Abu Dhabi .........................671

Toshiaki Shibasaki*, Ewart Edwards, Mamdouh Qotb, and Kazzhito Akatsuki, Zakum Development Co.

Towards an Adco Real-Time Operations Centre (RTOC) .................................................................................................................................680

Adco ESP Pilot .................................................................................................................................686

Hafsa A. Hashim, Adco

Clustering and Corridoring Project ........................................................................................................690

Amjad Elabed, Luis Remisio, Khaliquzzaman Katchi, and Ihtisham Ur Rahim, Adco

Reservoir Fluid Sampling and Characterization—Key to Efficient Reservoir Management ....................................................................................698

Unique Expandable Sand Screen and Expandable Liner Hanger Completion for Saudi Aramco ..............................................................................................................708

Zaki A. Al-Baggal and Ibrahim Refai, Saudi Aramco, and James W. Abbott, Halliburton Energy Services Inc.

Remote Well Surveillance at an Adco Field ........................................................................................................731

Ameen Al-Hosani, Adco

Quantification of Fracture Permeability From Micro Resistivity Logs in Offshore Abu Dhabi Reservoir ..................................................................................................................734

Omar Al-Farisi, Mohamed Elhami, Abdul Naser Barkawi, Mariam Al-Morzaqui, Ghassan Al-Jefri, and Talal Kadada, Adma-Opco

Fracture Analysis for Carbonate Reservoirs Using 3D Seismic P-Wave Data: Middle East Case Study ...........................................................................................................................738

David Y. Wang, Chih-Ping Lu, Wenjie Dong, Mary K. Johns, James M. DeGraff, and James H. Anderson, ExxonMobil Upstream Research Co.

P-Wave Azimuthal AVO in a Carbonate Reservoir: An Integrated Seismic Anisotropy Study.........................................................................................................................743

Application of Model-Based Uncertainty Analysis .......................................................................................752

Li-Bong W. Lee, Glenn L. Krum, Tingting Yao, Robert C. Wattenbarger, and Lester H. Landis, ExxonMobil Upstream Research Co.

Reactive Transport Modeling of Carbonate and Siliciclastic Diagenesis and Reservoir Quality Prediction..........................................................................................757

Yitian Xiao, ExxonMobil Upstream Research Co., and G.D. Jones, ExxonMobil Production Co.
Assisted Interpretation of Fiber-Optic Data for Smart-Well Completions
Jim H. Lee, ExxonMobil Upstream Research Co.

Down Dip Oil Potential for an Onshore Abu Dhabi Petroleum System

Opportunities and Challenges for Enhanced Recovery in the Middle East

New Hybrid Steam-Solvent Processes for the Recovery of Heavy Oil and Bitumen
T.N. Nasr and O.R. Ayodele, Alberta Research Council

5K Dual Splitter Wellhead System: 1st Middle East Deployment on an Offshore Oilfield, Combining Simultaneous Production and Drilling on Adjacent Wells Within the Same Conductor
A. Santos and A. Floch, Total ABK

Simulation of Microbial Enhanced Oil Recovery
M.R. Ghadimi Gheshlaghi, Natl. Iranian Oil Co., and M. Ardjmand, Islamic Azad U. of Tehran

Screening of Field Development Options by Simulation Study To Improve Recovery From Lower Southern Units of Complex Carbonate Reservoir
Zahid Bhatti, Shahin Negahban, and Mohamed Shuaib, Adco

Understanding a Reservoir: 3D Geological Modelling Using Scenario-Based Approach and Conventional Geostatistics, Onshore, UAE
Layla Saleh Al Muhairi, Maria Teresa Ribeiro, Agung Dharmawan, and Mohamed Al Neaimi, Adco, and Jose Gregorio Rodriguez-Gonzalez, Schlumberger

Real-Time Image Data for Successful Horizontal Drilling in Carbonate Reservoirs
Onshore Abu Dhabi, UAE
Maria Teresa Ribeiro, Mohamed Al Neaimi, Irfan Hendrawan, Sultan Karrani, Mohamed Ben Saad, Mohammed R. Ayouh, Kamal Zuhair, Khalid Al Marzouqui, and Suaad Khoori, Adco

Adco Well Casing Cathodic Protection Project
Abdulla Al Marzouqi, Adco

Calculation of Phase Behavior of Asphalten Precipitation by Using a New EOS

Integrated Management System—Implementing QHSE Into Projects From Beginning to End
Srijayan N. Iyer, AFOES Consultants

Avon Mod 5020 — Technology Infusion Offers Benefits for Workhorse Gas Turbine
Gordon Hillman, Bryan Kendig, and Dave Taylor, Rolls-Royce

Enhanced Gas-Saturation Determination in Abu Dhabi Offshore Reservoirs Through Integrated Pulsed and Thermal Neutron Log Approach
Mariam Al Marzouqi, Omar Al-Parisi, Mohammed Mostafa Amer, Ali Al-Habshi, and Espin Lund, Adma-Opco

Abu Dhabi Heterogeneous Carbonate: New Upscaling Approach of Detailed 3D Geological Model
Mohamed Ethami Elsaid, Adel Belgaied, Faisal Al-Ginibi, and Omar Al-Parisi, Adma-Opco

Integrating Seismic-Derived Porosity Into a Geocellular Model—A Case Study
Hasan Al Ilosani, Adco

Commissioning of Northeast Bab (NEB) Development Project
Hisham Saadawi, Adco
