IFM 2006

16th International Forgemasters Meeting

15 - 19 October 2006
Cutlers' Hall, Sheffield, UK

Published by
IOM Communications Ltd
1 Carlton House Terrace
London SW1Y 5DB
United Kingdom

Tel: +44 (0)20 7451 7300
Fax: +44 (0)20 7839 1702

IOM Communications Ltd is a wholly owned subsidiary of
The Institute of Materials, Minerals and Mining.
Registered Charity Number 1059475
CONTENTS

MARKET/INDUSTRY OVERVIEW

The Current Status of The UK Forging Industry
Dr Graham A Honeyman (Chief Executive Officer, Sheffield Forgemasters International Ltd, UK)

Middle & East European Forging Industry
Dr Vladislav Sima (Sales Director, SKODA Hute, Czech Republic)

Selected Successful Achievements by the European Members of the
Open Die Forging Committee within the Steel Institute VDEH
Dipl.-Ing. Ralf Rech (Chairman, VDEh Forging Committee, Germany)
W Bender, D Bokelmann, J Golz, A von Hehl, G Hirt, A Holl, F Koch,
G Lichtenegger, H-P Pannek, K-E Piper, R Rabitsch, G Reiter,
O Ziegelmayer (VDEh Forming Committee, Germany)

The Open Die Forging Industry in Spain
Snr Juan Blanco Tirador (Commercial Director, Sidenor Industrial SL, Spain)

The Italian Forging Industry: Actual Development Trends
Giuseppe Abba (Federacciai (Italian Steel Association), Italy)

Presentation of France Market at IFM 2006 in Sheffield
M. David Guillon (President and CEO, SFARSTEEL Group, Creusot Forge, France)

Recent Developments in the North American Open Die Forging Industry
Dr Kevin J Handerhan (Group Executive Director, Elwood Group Inc, North American Forging Foundation, USA)

Recent Trends and Developments in the Heavy Open-Die Forging Industry in Japan
Dr Kihei Soeda (Managing Director, Japan Casting & Forging Corporation, Japan)

The Status of Open Die Forging Industry in Korea
Dr Jeong-Tae Kim (Vice President, Corporate R&D Institute, Doosan Heavy Industries & Construction Co Ltd, Korea) Suk-Hee Ko, HyeoYung-Chul Yoon (Castings & Forging Business Group, Doosan Heavy Industries & Construction Co Ltd, Korea)

</table>
The World Largest Forging Manipulators, Technical Features and Solutions
A S Tuncel, W Kirchner (SMS Meer GmbH, Mönchengladbach, Germany)

The Fine Difference - Modern Forging Manipulators for Open Die Forging Plants
R Dango, S Krusch, B Mende, M Orthey (Dango & Dienenthal Maschinenbau GmbH, Siegen, Germany)

The Design and Bringing into Operation of an Integrated Control System for a 400 MN Closed Die Forging Press
D Kinsey, F Jamet (Oilgear Towler SA, Croissy-Beaubourg, France)

Integrated Manufacture of Heavy Components for Capital Projects
I Nicholls (Sheffield Forgemasters Engineering Ltd, UK) (SMS Eumoco)

Renewal of Oil Hydraulic Press and Optimization of Forging Path Design to Improve Productivity
H Kakimoto, T Choda (Materials Research Laboratory, Kobe Steel Ltd, Japan) H Takamori, Y Takahashi, H Takahara, I Takahashi (Steel Casting & Forging Division, Kobe Steel Ltd, Japan)

Process-Integrated Powder Coating by Radial-Axial Rolling of Rings
H Meier, J Golz, R Hammelmann (Ruhr University Bochum, Germany)

Inventive Forging Processes
V A Tiurin, V V Ovechkin (Moscow State Institute of Steels and Alloys, Russian Federation)

Reduced Costs and Improved Environment?
G I Fielding (Kadant UNiGY, Manchester, UK)

The "Art" of Integration - Automatic Handling of Forgings and Pre-Shapes at Closed Die Presses and Ring Rolling Plants
R Dango, J Drescher, S Krusch, H-U Morgenstern (Dango & Dienenthal Maschinenbau GmbH, Germany)

Four-Die Radial Forging Device - An Attached Improvement for Conventional Forging Presses
V A Lazorkin, N P Petrov (OAO "Tyazhpromsmash", Ryazan, Russia)

FORGING TECHNOLOGIES: OPEN DIE

A Study on the Fishtail Formation at the End Part of the Bloom in Free Forging Process
M C Song, I K Kwon, S B Shin (Hyundai Heavy Industries Co Ltd, South Korea)
Manufacturing Technology of Thin and Long Austenitic Stainless Steel Forging
K Tokuno, N Mizuno, H Yamaguchi, Y Funakoshi, T Morimoto, K Tsuruhisa (Japan Casting & Forging Corporation, Japan)

New Manufacturing Process of Super Huge Wide Plates
L Zhubai, Li Weimin (College of Mechanical Engineering, Yanshan University, Qinhuangdao, People's Republic of China) S Haiyan (China National Erzhong Group Co, Deyan, People's Republic of China) Zhu Wenbo (Tangshan Branch of China Coal Research Institute, Tangshan, People's Republic of China) Ni Liyong (College of Engineering, Guangdong Ocean University, Zhanjiang, People's Republic of China)

Mechanical Analysis of the Difficulty in Forging Heavy Tube Plates with Conventional Methods

Development and Commissioning of a Centrifugal Extraction Hood for Reducing Emissions During Flame Scarfing of Forgings at Saarschmiede GmbH Freiformschmeide, Volklingen
J Poppenhager, D Bokelmann, V Schneider (Saarschmiede GmbH Freiformschmiede, Völklingen, Germany) P Schug (HiServ, Gebäudedienstleistungen, Frankfurt, Germany)

FORGING TECHNOLOGIES: RADIAL FORGING

GFM Radial Forging for Tubular Products and Special Applications
R Wieser (GFM GmbH, Steyr, Austria)

Improved Process Control for Radial Axial Ring Rolling
A Kneißler, H Meier (Ruhr-Universität Bochum, Germany)

Experience with the New Hydraulic Radial Forging Machine at Baosteel Co Ltd, Special Steel Branch
P Nieschwitz (SMS Meer GmbH, Germany) W Wenge (Baoshan Iron & Steel Co Ltd, China) L Baoqing (SMS Demag, China)

New Potential in the Field of the Ring Rolling Research
D Michl, G Hirt, I Tiedemann (Institute of Metal Forming, RWTH Aachen University, Germany) U Koppers (SMS Eumuco GmbH Wagner Banning Ring Rolling Division, Witten, Germany)
Long Time Temper Brittleness of 3.5%NiCrMoV Steel Rotor Forgings for Fossil Power Plant
M Mikami, S Tanimoto, K Morinaka, K Soeda (Japan Casting & Forging Corporation, Tobata-ku, Kitakyushu, Japan)

Manufacturing of Trial rotor forgings of COST E steel (X12CrMoWVNbN10-1-1)
Y Wakeshima (Forging Engineering Section, Japan Casting and Forging Corporation, Tobata-ku, Kitakyushu, Japan) M Mikami (Research and Development Department, Japan Casting and Forging Corporation, Tobata-ku, Kitakyushu, Japan)

Largest Turbine Rotors Ever Manufactured From 10 % Cr-Steels
R Magoshi, M Tanaka, Y Kadoya, Y Hirakawa, (Mitsubishi Heavy Industries Ltd., Takasago Machinery Works, Takasago Hyogo, Japan)
G Weides, P Braun, B Donth, N Blaes, D Bokelmann (Saarschmiede GmbH Freiformschmiede, Völklingen, Germany)

Manufacturing and Properties of Advanced 12%Cr Rotor Steel for USC Power Plant
S-T Kang, D-S Kim, M-S Kim, K-C Kim, J-T Kim (Corporate R&D Institute, Doosan Heavy Industries & Construction Co Ltd, Korea)

Influence of Heat Treatment Conditions on Microstructures of 12%Cr Turbine Rotor
Y Nakamura, M Mikami, Y Wakeshima, K Toriumi (Japan Casting & Forging Corporation, Japan) Y Kadoya, Y Hirakawa (Mitsubishi Heavy Industries Ltd, Japan)

Development of Multiple Alloy Rotor Forging for Turbine Application

Manufacture of the Largest Forged Steam Turbine Rotor Shaft Worldwide in Steel Type 17% Cr-2% Ni
S Chandra, W Schneiders (MAN TURBOAG, Oberhausen, Germany)
K-H Schonfeld, N Blaes, D Bokelmann (Saarschmiede GmbH Freiformschmiede, Volkingen, Germany)

Process Optimisation for Enhanced Toughness in SA 508 Grade 3 Material
P Bates, P Noak (Sheffield Forgemasters Engineering Ltd, Sheffield,UK)
J Talamantes-Silva (Vulcan SFM, Sheffield, UK)
Manufacturing of Nozzle Shell with Integral Flange for EPR Reactor Pressure Vessel and its Properties

Heavy Forgings for High-Pressure Application
G Weides, N Blaes, D Bokelmann (Saarschmiede GmbH Freiformschmiede, Völklingen, Germany)

ROLL AND TOOL STEEL

Dynamic Shape Roll (DSR®) - Metallurgical Challenges and Developments
M Crabbe (Sheffield Forgemasters Engineering Ltd, UK) M Michaut (Siemens (Clecim))

Development of a Long-life Intermediate Roll for Cold Rolling Mills
Y-C Park, I-B Kim, B-H Kim (Corporate R&D Institute, Doosan Heavy Industries & Construction Co Ltd, Korea) W-D Lee, J-C Won (Casting & Forging Business Group, Doosan Heavy Industries & Construction Co Ltd, Korea)

Development and Manufacture of Large Plate Mill Rolls
M Crabbe, M Kearney (Sheffield Forgemasters Engineering Ltd, UK) J Talamantes-Silva (Vulcan SFM, UK)

Development of Residual Stresses During Heat Treatment of Work Rolls and Their Effect on Roll Hardness
K F Reppert (Lehigh Heavy Forge, Bethlehem PA, USA) B Somers (Lucius Pitkin, New York NY, USA)

Production and Properties of Spray Formed Monobloc Rolling Mill Work Rolls
M G Kearney, R Bown (Sheffield Forgemasters Engineering Ltd, UK) W M Rainforth, C Rodenburg (The University of Sheffield, UK) C Spiegelhauer (Dan Spray A/S)

Improvement of Heat Treatment of a Large Forged Rolling Roll
T Katayama, Y Akimoto, S Seo (Pacific Steel Mfg Co Ltd, Toyama Works, Japan)
FEM Application on the Forging Processes of Large Forgings  
D-Y Kim, D-K Kim, Y-D Kim, J-T Kim (Corporate R&D Institute, Doosan Heavy Industries & Construction Co Ltd, Korea) K-B Sim (Casting & Forging Business Group, Doosan Heavy Industries & Construction Co Ltd, Korea)

Determination of Input Data for FEM-Calculation of Hardening Process of Worldwide Largest Forged 17%Cr-2%Ni-Rotorshaft  
C Berger, A Sholz, M Schwienheer, H-C Walther (Institute for Materials Technology, Darmstadt University of Technology, Germany) G Hirt, M Bambach, M Thome (Metal Forming Institute (IBF), RWTH Aachen University, Germany) D Bokelman, N Blaes, K H Schönfeld, G Weides (Saarschmiede Freiformschmiede GmbH, Völklingen, Germany)

Numerical Analysis Method for Stress Caused by Phase Transformation in Cylindrical Steel Forgings During Quenching Process  
M Fukuya (Research and Development Dept., Japan Casting & Forging Corporation, Tobata-ku, Kitakyushu, Japan) T Terasaki, H Kawakami, K Hasegawa (Department of Material Science, Kyushu Institute of Technology, Tobata-ku, Kitakyushu, Japan)

Process-Synchronous Simulation of the Temperature Distribution Inside a Ring Formed by Radial-Axial Ring Rolling  
H Meier, J Golz (Ruhr-University Bochum, Germany)

Two Mechanical Models of Cylinders Upset Between Spheric Concave Platen and Concave Supporting Plate  

Development of Microstructural Controlling Free Forging Process Using Process Modeling  
A Masunaga, T Furuse, H Yoshida, T Okajima, T Hatta, S Isogawa (Daido Steel Co Ltd, Shibukawa, Japan)

Finite-Element Modelling of Radial Forging of Nickel-Base Alloys with a Multi-Mesh-Method  
G Barton, X Li, V Schneider, M Franzke, G Hirt (Institute of Metal Forming, RWTH Aachen University, Germany)

The Simulation of ICHC Formation  
E Y Kolpishon, O N Yampolsky (United Heavy Machinery, St Petersburg, Russia)
Intercrystalline Cracks in Heavy Forgings
E Y Kolpishon, I N Mikheeva, O N Yampolsky (United Heavy Machinery, St Petersburg, Russia)

Application of 3D-Deformation Analyses to RR Forging Simulation
T Nozaki, Y Takahashi, H Takahara, H Mori, K Fujita (Steel Casting & Forging Division, Kobe Steel Ltd, Japan) H Kakimoto, T Choda (Materials Research Laboratory, Kobe Steel Ltd, Japan) K Nakayama (Kobelco Research Institute inc, Japan)

A Design Technique for the Forging Pass Schedule of Bloom Forging Process on the Basis of the Simplified Deformation Model
I K Kwon, G G Kim, S B Shin (Hyundai Heavy Industries Co. Ltd, South Korea)

Use of Analytical Techniques in Understanding and Avoiding Critical Forging Plant Failures
S J Goldthorpe (Presses, Jacks & Hammers Ltd, Sheffield, UK)

On Thermal State of Blanks in Production of Railway Wheels
V A Tiurin, V V Ovechkin (Moscow State Institute of Steels and Alloys, Russian Federation)

An Integrated Manufacturing Model
J Talamantes-Silva Vulcan (Sheffield Forgemasters Engineering Ltd, UK) X Xu, A Partridge (The National Metals Technology Centre, UK)

QC AND NDE

Geometrical Laser Measurements on Large Open Die Forgings
R Rech, N Müller (Buderus Edelstahl GmbH, Germany) R Lamm, S Kirchhoff (Ferrotron Technologies, Germany)

Development of Automated Dimension Measuring Equipment
K Onzuka, H Kawakami, M Asou (Manufacturing Department., Japan Casting & Forging Corporation, Japan)

Innovative Quality Controls on Cold Forged Pieces
D Cerniglia (Tecnogamma SPA, Palermo, Italy) F Prior, F Carpanese (Tecnogamma SPA, Treviso, Italy)

Capturing, Analyzing and Presenting the Forging Process at Scana Steel Björneborg
J Sarnet (Royal Institute of Technology, Stockholm, Sweden) E Wedin (Uppsala, Sweden) M Brännbacka (Scana Steel Björneborg AB, Sweden)
The Possibility of Evaluation of Defects and Grain Structure by Ultrasonic Techniques in Large Forgings and Test Pieces of Ingots
J Sarnet (Royal Institute of Technology, Stockholm, Sweden)

Improvement of UT-Systems for the Automated Ultrasonic Inspection of Heavy Forgings
J Meiser, N Blaes, D Bokelmann (Saarschmiede GmbH Freiformschmiede, Völklingen, Germany)

Consensus Standards in the Context of Quality Assurance
E G Nisbett

Development of an Automatic Ultrasonic Testing System for Turbine Rotor Bore Inspection
J-S Park, U-H Seong (Corporate R&D Institute, Doosan Heavy Industries & Construction Co Ltd, Korea) S-W Ryu (Non-Destructive Examination Dept, Doosan Heavy Industries & Construction Co Ltd, Korea)

Product Traceability in Tough Environments
E O'Neal (InfoSight Corporation, Chillicothe OH, USA)

Automatic Ultrasonic Inspection System for Crankthrow of Marine Diesel Engine
Y Wasa, A Okamoto, T Yamaji (Kobe Steel Ltd, Japan) N Suzuki (Shinko Inspection & Service Co Ltd, Japan)

SUPERALLOY, AUSTENITIC TI ALLOYS

Mechanical Properties and Segregation Behavior of Ni-Fe base Superalloy (FENIX-700) for A-USC Steam Turbine Rotor Large Forgings
S Imano (Hitachi Research Laboratory, Ibaraki, Japan) H Doi (Power Systems, Hitachi Works, Ibaraki, Japan) K Kajikawa, T Takahashi (Murooran Research Laboratory, The Japan Steel Works Ltd, Hokkaido, Japan)

Manufacturing and Improvement of Creep Rupture Ductility on Alloy 706 Disc for Gas Turbine
R Masumoto, T Furuse, H Sakuma (Daido Steel Co Ltd, Shibukawa, Japan)

Manufacturing Technology of Ti-6246 Alloy Aero Engine Disc Forgings
Y Momota, S Ishigai, S Murakami, Y Maeda, T Choda, S Araki (Kobe Steel Ltd, Hyogo-Ken, Japan)
Near-α Titanium Alloy Aeroengine Component by Isothermal Forging
T Raghu, I Balasundar, M Sudhakara Rao, M K Rohatgi, G G Saha
(Near Net Shape Group, Defence Metallurgical Research Laboratory, Hyderabad, India)

Improvement of Forging Yield on Titanium Slab
S Funamoto (Sumitomo Metal Industries Ltd, Osaka Steel Works, Osaka, Japan)

PHYSICAL METALLURGY

Grain Refined Marageing Steels: The Way Forward?
E A Wilson*, S K Ghosh, P G Scott, T A Hazeldine,
D C Mistry (* Emeritus Fellow, Faculty of ACES, Sheffield Hallam University, Sheffield, UK)
