# Table of Contents

A program for harmonic modeling of distribution network transformers and determination of loss in the transformers and the amount of decrease of their life........................................................................................................ 1  

M. Marzband, A. Shaikholeslami

Novel Integral Cycle Voltage Controller for Self Excited Induction Generators .......................................................................................................................... 7  

S. S. Murthy, A. J. P. Pinto, A. R. Beig

Graphical Estimation of Optimum Weights of Iron and Copper of a Transformer .................................................................................................................. 15  

C. Easwarlal, V. Palanisamy, M. Y. Sanavullah, M. Gopila

Graphical Estimation of Optimum Weights of Iron and Copper of a Transformer .................................................................................................................. 15  

C. Easwarlal, V. Palanisamy, M. Y. Sanavullah, M. Gopila

Nonlinear Behavior of Self-excited Induction Generator Feeding an Inductive Load ........................................................................................................ 20  

Design and Transient Analysis of Cage Induction Motor Using Finite Element Methods ......................................................................................................... 30  

Bhoj Raj Singla, Sanjay Marwaha, Anupma Marwaha

Methodology for Estimating Performance Characteristics of Three Phase Induction Motor Operating Direct-on-Line or with Six Pulse Inverter .......................................................................................................................... 35  

Slatish Chander Slobharwal

Design of Squirrel Cage Induction Motors for Traction Applications ......................................................................................................................... 39  

S. S. Murthy, Bhim Singh, G. Bhuvaneswari, Kiran Naidu, Uddanti Siva

Effect of Sequential Phase Energization on the Inrush Current of a Delta Connected Transformer .......................................................................................... 46  

K. P. Basu, Ali Asghar, Stella Morris

Accurate Performance Prediction of Three-Phase Induction Motor by FEM Using Separate Saturation Curves for Teeth and Yoke .................................................................................................................. 50  

V. Jaiswal, M. Fazil, A. Hangal, N. Ravi

Nonlinear Sliding-Mode Controller for Sensorless Speed control of DC servo Motor Using Adaptive Backstepping Observer .................................................................................................................. 54  

A. Farrokh Payam, B. Mirzaeian Dehkordi

Robust Speed Sensorless Control of Doubly-Fed Induction Machine Based on Input-Output Feedback Linearization Control Using a Sliding-Mode Observer .................................................................................................................. 59  

A. Farrokh Payam, M. Jalalifar

Adaline Based Control of Solid State Voltage Regulator for Isolated Asynchronous Generators .................................................................................................................. 64  

Bhim Singh, Gaurav Kumar Kasal

Development of a Prototype Controller for PMDC Motor Based Portable Telemetry Tracking System for Defense Application .......................................................................................................................... 70  

Parveen Kumar, A K Pradhan, Gautam Sadhukhan

Design & Development of a High Performance Electronic Starter for Single-Phase Induction Motors .................................................................................................................. 75  

T. P. Shenoy, J. S. Nirody

Transient Analysis of a Single-Phase Self-Excited Induction Generator using a Three-Phase Machine feeding Dynamic Load .......................................................................................................................... 80  

S. N. Mahato, M. P. Sharma, S. P. Singh

Performance Analysis of a Three-Phase Squirrel-Cage Induction Motor under Unbalanced Sinusoidal and Balanced Non-Sinusoidal Supply Voltages .......................................................................................................................... 86  

C. Thanga Raj, Pramod Agarwal, S. P. Srivastava

Efficiency Optimization of Induction Motor Using a Fuzzy Logic Based Optimum Flux Search Controller .......................................................................................................................... 90  

L. Ramesh, S. P. Chowdhury, S. Chowdhury, A. K. Saha, Y. H. Song

Observer Based Position and Speed Estimation of Interior Permanent Magnet Motor .......................................................................................................................... 96  

Bhim Singh, Premra Gaur, A. P. Mittal

Genetic Algorithm Based Optimal Design of Switching Circuit Parameters for a Switched Reluctance Motor Drive .......................................................................................................................... 101  

Behzad Mirzaeian-Dehkordi, Peyman Moallem

Reduction of Cogging Torque in PMBLD Motor with Reduced Stator Tooth Width and Bifurcated Surface Area Using Finite Element Analysis .......................................................................................................................... 107  

Zx Somanathav, ftxYxKsflrasadv and 3xXZajkumars
## Table of Contents

A Novel Phasor Diagram of Interior Permanent Magnet Synchronous Motors based on Spiral Vector Theory ........................................ 111
Bishnu P. Muni

A Novel DTC Strategy of Torque and Flux Control for Switched Reluctance Motor Drive .................................................. 117
R. Jeyabharath, P. Veena, M. Rajaram

Remedial Strategies for the Minimization of Cogging torque in PMBDC Motor possessing Material Saturation .......................... 122
M. H. Ravichandran, V. T. Sadashivan Achari, C. C. Joseph, Robert Devasahayam

Fuzzy Pre-compensated PI Controller for PMBLDC Motor Drive .................................................................................. 126
Mukesh Kumar, Bhim Singh, B. P. Singh

A Simplified Design Methodology for Switched Reluctance Motor using analytical and Finite Element Method ................. 131
‘0Yafieivheandran V0Tfdfsddstri 4eharr FPO=osepiq firobert jevasahayam

Computer Aided Design of Permanent Magnet Brushless DC Motor for Hybrid Electric Vehicle Application .................. 135
Bhim Singh, Devendra Goyal

Design and Analysis of a 3 kVA, 28 Permanent Magnet Brushless Alternator for Light Combat Aircraft .......................... 141
Nimit. K. Sheth, K. R. Rajagopal

ASimplified Design Methodology for Switched Reluctance Motor using analytical and Finite Element Method ................. 131

A Novel Hybrid Brushless dc motor/Generator for Hybrid Vehicles Applications ........................................ 151
E. Afjei, H. Toliyat, H. Moradi

Computer Aided Design and FE Analysis of a PM BLDC Hub Motor ................................................................................ 157
K. R. Rajagopal, Chippa Sathaiah

Effect of Armature Reaction and Skewing on the Performance of Radial-flux Permanent Magnet Brushless DC Motor .......... 163
Parag Upadhyay, K. R. Rajagopal

Torque Ripple Minimization of Interior Permanent Magnet Brushless DC Motor Using Rotor Pole Shaping ......................... 168
Parag Upadhyay, K. R. Rajagopal

Design and Development of an In-Wheel Brushless D.C. Motor Drive for an Electric Scooter ........................................ 171
N. Ravi, S. Ekram, D. Mahajan

Comparative Study of Laminated Core Permanent Magnet Hybrid Stepping Motor with Soft Magnetic Composite Core Claw Pole Motor ................................................................. 175
E. V. Chandra Sekhara Rao, P. V. N. Prasad, G. Ravindranath

A Doubly Fed Induction Motor as High Torque Low Speed Drive ..................................................................................... 179
Mukhtar Ahmad, M. Rizwan Khan, Atif Iqbal

Performance of Doubly Salient Permanent Magnet Motors for Parallel and Tapered Rotor Poles ........................................ 182
Nimit K. Sheth, K. R. Rajagopal

Improved Torque Profile of a Doubly Salient Permanent Magnet Motor using Skewed Rotor Teeth and Sinusoidal Excitation ........................................................................................................ 187
Nimit K. Sheth, K. R. Rajagopal

M. Jalalifar, A. Farrokh Payam, B. Mirzaeiyan, S. M. Soghaeiyan nezhad

Prototyping of a Precision Mechanism Using a Hybrid-Driven Piezoelectric Actuator .................................................. 199
Fu-Shin Lee, Yung-Tsung Lei, Sheng-Feng Chiang, Jyun-Jhong Jiang, Shao-Chun Tseng, Po-Jia Chen

DSP Based Implementation of Vector Controlled Induction Motor Drive using Fuzzy Pre-compensated Proportional Integral Speed Controllers ................................................................. 204
Bhim Singh, S. Ghatak Choudhuri

Optimal Controller for High Frequency AC-Link Converter Induction Motor Drive System ........................................ 210
R. A. Gupta, A. K. Wadhawan, R. R. Joshi

A. Farrokh Payam

Application problem of PWM AC drives due to long cable length and high dv/dt .............................................................. 219
B. Basavarajya, D. V. S. S. Sivak Shankara

Adaptive Controller Design for Permanent Magnet Linear Synchronous Motor Control System ........................................ 225
B. Srinivasu, P. V. N. Prasad, M. V. Ramana Rao
# Table of Contents

An Overmodulation Scheme for Vector Controlled Induction Motor Drives .................................................. 231
S. Venugopal, G. Narayanan

Modified Direct Torque Control of Matrix Converter Fed Induction Motor Drive ........................................... 237
Bhim Singh, Jally Ravi

LMI Based Digital State Feedback Controller for a Wound Rotor Induction Drive with Guaranteed Closed Loop Stability ................................................................. 244
D. Sivanandakumar, K. Ramakrishnan

Open-End Winding Induction Motor Driven With Matrix Converter For Common-Mode Elimination .................. 250
Krushna K Mohapatra, Ned Mohan

Elimination of Common Mode Voltage and Fifth and Seventh Harmonics in a Multilevel Inverter fed IM Drive using 12-Sided Polygonal Voltage Space Phasor ......................................................... 256
Sanjay Lakshminarayanan, Gopal Mondal, P. N Tekwani, K. Gopakumar

A New Space Vector Pulsewidth Modulation for Reduction of Common Mode Voltage in Direct Torque Controlled Induction Motor Drive ................................................. 262
Y. V. Siva Reddy, T. Brahmananda Reddy, M. Vijaya Kumar

Parallel Power Flow AC/DC Converter with High Input Power Factor and Tight Output Voltage Regulation for Universal Voltage Application ......................................................... 267
Aman Kumar Jha, K. Hari Babu, B. M. Karan

A Generalized Space Vector Modulation with Simple Control technique for Balancing DC-Bus Capacitor Voltages of a Three-Phase, Neutral-Point Clamped Converter ......................................................... 274
A. H. Bhat, P. Agarwal

A Novel Load Compensator for a 12-pulse Diode Converter .............................................................................. 280
Maryclaire Peterson, Brij N. Singh

Resonant Operated Buck Converter with Reduced Device Switching Stress with Power Factor Improvement ........................................................................................................... 286
Vinayak N. Shet

A High Power Factor Forward Flyback Converter with Input Current Waveshaping ....................................... 292
Vinayak N. Shet

A Fuzzy Logic Controller for Direct Power Control of PWM Rectifiers with SVM ............................................. 298
R. Skandari, A. Rahmati, A. Abrishamifar, E. Abiri

DSP-Based Matrix Converter Operation Under Various Abnormal Conditions with Practicality ....................... 303
Vinod Kumar, R. R. Joshi

Improvement of an input waveform of a Neutral Point Type Step-down Converter ........................................... 307
Yoshito KATO, Masaaki NAKAMURA, Nabil M. Hidayat, Nobuo TAKAHASHI

Development of Neutral-Point Type Converter and Application to Electronic Ballast ........................................ 310
Nabil M. Hidayat, Masaaki Nakamura, Yoshito Kato, Nobuo Takahashi, Shun-ichi Adachi, Ichiro Yokozeki

Hysteresis-Band Current Control of a Four Quadrant AC-DC Converter giving IEEE 519 compliant performance at any Power Factor ............................................................................. 315
A. N. Arvindan, V. K. Sharma

Multiphase Inverter Topology and its Modulation Technique for Optimal Harmonic Output ............................... 321
Ravindra Kumar Singh

A PWM Current Source Rectifier with Leading Power Factor ........................................................................ 331
B. Geethalakshmi, P. Sanjeevikumar, P. Dananjayan

A Novel Harmonic Mitigation Converter for Variable Frequency Drives ....................................................... 336
Bhim Singh, Sanjay Gairola

Performance Comparison of High Frequency Isolated AC-DC Converters for Power Quality Improvement at Input AC Mains ........................................................................................................ 342
Bhim Singh, B. P. Singh, Sanjeeet Dwivedi

Single-Phase Resonant Converter with Active Power Filter ............................................................................. 348
M. A. Chaudharti, H. M. Suryawanshi

PV Power Tracking Through Utility Connected Single-Stage Inverter ............................................................. 354
K. S. Phani Kiranam, Veeracharya, M

A Novel Control of Bi-Directional Switches in Matrix Converter ................................................................. 360
Mehergzi Tewolde, Shyama P. Das

# Table of Contents

Simulation of PMSM VSI Drive for Determination of the Size Limits of the DC-Link Capacitor of Aircraft Control

Surface Actuator Drives ................................................................. 500
M. Khatre, Alan G. Jack

A Novel Soft Switched Improved Power Quality Converter Fed D.C. Motor Drive ......................................................... 506
M. B. Daigavane, Z. J. Khan, H. M. Suryawanshi

Generalized Discontinuous PWM Based Direct Torque Controlled Induction Motor Drive with a Sliding Mode Speed Controller ......................................................... 511
T. Brahmananda Reddy, J. Amarnath, D. Subbarayudu, Md. Haseeb Khan

Hardware-in-Loop Simulation of Direct Torque Controlled Induction Motor .......................................................... 517
P. K. Gujarathi, M. V. Aware

Near-Field Modeling and Prediction of Switched Mode Power Supply ........................................................................... 522
Bai Feng, Niu Zhong-Xia, Shi Yu-Jie, Zhou Dong-Fang

Power Electronic Circuit-oriented Model for the Fuel Cell System ............................................................. 526
Veeracharya M, Arun Shailendra Kumar

A Simplified Space-Vector Modulated Control Scheme for CSI fed IM drive ............................................................. 531
P. Parthiban, Pramod Agarwal, S.P. Srivastava

A Study on Design and Dynamics of Voltage Source Inverter in Current Control Mode to Compensate Unbalanced and Non-linear Loads ..................................................... 537
Mahesh K. Misra, K. Kothariyog

Optimal Voltage and Reactive Power Control Based on Multi-Objective Genetic Algorithm ............................................ 545
Behzad Mirzaeian Dehkordi

Model Validation Studies in Obtaining Q-V Characteristics of P-Q Loads in Respect of Reactive Power Management and Voltage Stability ......................................................... 550
G. Govinda Rao, K. V. S. Ramachandra Murthy

Simulation Study of a Shunt Active Power Filter Using Nonlinear Least Squares Harmonic Extraction Technique ........... 555
RM Bhudamani, JM Vasudevan, BMSM Ramalingam

Comparison of Synchronous Detection and I.Cosf Shunt Active Filtering Algorithms ...................................................... 560
G. Bhuvaneswari, Manjula G. Nair, Sathish Kumar Reddy

A Nonlinear Control Method for SSSC to Improve Power System Stability .......................................................... 565
Majid Poshtan, Brij N. Singh, Parviz Rastgoufard

An Improved Power Flow Analysis Technique with STATCOM ........................................................................... 572
Annapurna Bhargava, Vinay Pant, Biswarup Das

Design of a Current Hybrid Filter Including Active and Variable Passive Filters ............................................................. 577
H. Dalvand

Grid Connected Photovoltaic Interface with VAR Compensation and Active Filtering Functions ........................................... 583
Aslain Ovono Zue, Ambrish Chandra

Design and Implementation of a Current Controlled Parallel Hybrid Power Filter ......................................................... 589
Bhim Singh, Vishal Verma

Active Power Filter Control in Three-Phase four-wire Systems using Space Vector Modulation .......................................... 596
H. Mokhtari, M. Rahimi

Operation of a 12-pulse converter in closed loop for controlled P-Q operation .......................................................... 602
Faisal M. Ahsan, J.K. Chatterjee, Anandarup Das

A Novel Structure for Three-Phase Four-Wire Distribution System Utilizing Unified Power Quality Conditioner (UPQC) .................................................................................. 608
V. Khadikkar, A. Chandra

Load Compensation for Diesel Generator Based Isolated Generation System Employing DSTATCOM ............................. 614
Bhim Singh, Jitendra Solanki

Automatic Classification of Power Quality Events Using Multiwavelets ........................................................................... 620
Surender Dahiya, D.K. Jain, Manish Kumar, Ashok Kumar, Rajiv Kapoor

Power quality monitoring at the industrial, commercial and educational centers of Mazandaran province and presenting the related solution .......................................................... 625
M. Marzband, A. Shaikhholeslami
