## TABLE OF CONTENTS

Near a Kilometer of Perforating Guns, in a 7½-km, Extended-Reach Well—Coiled Tubing Shows Its Mettle in New Zealand ................................................................. 1  
P. Bartholomew, Shell Todd Oil Services Ltd.; L. Portman and R. Frost, BJ Services; P. Nunn and P. Vause, Vause Wireline; D. Edmondson, L. Andrich, and T. LaGrange, Owen Oil Tools

Coiled-Tubing Perforation and Zonal Isolation in Harsh Wellbore Conditions ......................................................... 8  

Striving the Coil Tubing Limit Intervention on Snake “Long Horizontal” Complex Gas Well: Successful Perforation and Completion ......................................................... 16  
Nasser M. Al-Araimi, Brunei Shell Petroleum Co. and Surasak Srira-ard, Schlumberger

Coiled-Tubing Gyro MWD Improves Kickoff Direction Accuracy for Cased-Hole Re-entry Drilling ......................................................... 24  
R. Madarapu, C.S. Corson, and D. Grant, Inteq

Recent HP/HT Coiled-Tubing Intervention and Perforating Operations on the Jade Field ......................................................... 30  

Semistiff Carbon-Fiber Rod Pushed Into Live Wells for Reservoir Performance Monitoring and Leakage Detection ......................................................... 42  
H. Hansen and T. Wilberg, Ziebel A.S.; G. Naldrett, FloDynamics Ltd.; and N. Meldrum, Sensornet Ltd.

Rigless Installation of Safety Valves To Implement a Well-Integrity Campaign and Return Wells to Production ......................................................... 50  
Folorunso Afolabi, Shell Petroleum Development Co. of Nigeria Ltd.; Rodger Lacy, Robert Asher, and Bobby Butler, Weatherford Intl.

World’s First Combined Acid Stimulation of Horizontal Openhole Gravel-Pack Application of Coiled-Tubing, Dynamically Positioned Vessel, and Floating Production, Storage, and Offloading, Deepwater Offshore Brazil ......................................................... 57  
Philip Bogaert, Shell Brasil E&P, and G. Cavazzoli, D.R. Perez, C. Guilmaraes, S. Trummer, and Bernhard Lungwitz, Schlumberger

Effective Application of an Innovative Conveyance-Risk Management Methodology To Reduce Well-Intervention Cost and Risks in Long/Deep/Tortuous Wells ......................................................... 72  
H.C. Castillo and P. Wills, Baker Hughes Inc.

Fiber-Optic-Enabled Coiled-Tubing Operations on Alaska’s North Slope ......................................................... 87  
P.D. Range! and I. Sorman, Schlumberger, and C.G. Blount and N. Woods, ConocoPhillips

Use of 3D Visualization Software for Multifinger Caliper Analysis at Prudhoe Bay, Alaska ......................................................... 95  

16Cr Coiled-Tubing Field Trial at Prudhoe Bay, Alaska ......................................................... 102  
Pipeline Flow Capability Restoration Using Coiled-Tubing and Rotating-Jetting Technology
Marco Acosta, Juan Santamaria, Paul Moss, and Herman Rivera, BJ Services, and Julio Mosquera, Mario Robles, and Fernando Barragán, Petroproduccion

An E-Line Deployed Retrofit Completion With Temporary Automatic Water Shutoff in a Subsea U.K. North Sea Well Using an Intervention Vessel
Michael Hartley, and Neil Moodie, BP, and Mark Rogers, Bob Murphy, Weatherford Intl. Ltd.

Economic Recovery of Gulf of Mexico Shelf Reserves Using an Integrated Approach to Well Services
Chad Nicosia and M.E. Fremin, Halliburton, and N.J. Matthews, Apache Corp.

Repeatedly Increased Efficiency and Success Rate From a New Solids-Cleanout Process Using Coiled Tubing: A Review of Recent Achievements From Over 100 Operations
M. Sach and J. Li, BJ Services Co.

Ultradeep Extended-Reach Stimulation
Taylor Tongs, Andergauge Drilling Systems; Angela Hinrichs, Suncor Energy; Rae Spickett, Schlumberger Reservoir Evaluation & Development; and Les Robertson, Andergauge Drilling Systems

Coiled-Tubing-Deployed ESP in 5½-in. Casing: Challenges in Designing Down
John Mack and Jimmy Donnell, Centrilift

Successful Application of Underbalanced Coiled-Tubing Drilling in Horizontal Short-Radius Re-entry Well in Hassi Messaoud, Algeria

Vibration and Rotation Considerations in Extending Coiled-Tubing Reach
Kenneth R. Newman, CTES, Natl. Oilwell Varco

Challenges in Working Over-Severely Corroded Water Injectors for PWRI Application
Manish Kumar, and Hon Voon Chin, Shell U.K. Ltd., and Alex Malcolm, EGIS

New Cleanup System for Gravel-Pack Completions: A Synergy of a Unique Acid System and Special Rotating Jetting Tool
J. Aguiar, J.M. Por Deus, and J.B. Almeida, Petrobras, and R.C.B. Melo, L. Duque, and R.S. Aboud, BJ Services

Enhanced Solids-Removal Techniques From Ultralow-Pressure Wells Using Concentric Coiled Tubing Vacuum Technology
Phil Rafferty, BJ Services Co.; Jim Ennis, ConocoPhillips Alaska Inc.; and Jason Skufca and Steven Craig, BJ Services Co.

Sour-Well Serviceability of Higher-Strength Coiled Tubing
H.B. Luft, T. Padron, and E. Kee, BJ Services Co. Canada Ltd., and E. Szklarz, Shell Canada Ltd.

Liquid Unloading of Depleted Gas Wells in the North Sea and Continental Europe, Using Coiled Tubing, Jointed Pipe Velocity/Insert Strings, and Microstrings
R.M. de Jonge, and U. Tousis, BJ Services Co.

Abrasive Perforating via Coiled Tubing Revisited
Darcy Schultz, BJ Services; Dave Thompson, Encana; and Dwayne Whitney, Thru Tubing Solutions

Coiled-Tubing-Deployed Fracturing Service Yields Increase in Completion Efficiency

Oriented Perforating Using Abrasive Fluids Through Coiled Tubing
A.D. Nakhwa, S.W. Loving, and A. Ferguson, Thru Tubing Solutions, and S.N. Shah, U. of Oklahoma

Coiled Tubing Becomes the Key Enabler for Successful Multilateral Well Development Campaign Offshore Brazil ................................................................. 365
S. Trummer, D. Silva, V. Cano, and M. Guzman, Schlumberger, and N. Siqueira, C. Peixoto, and V. Nazareth, Petrobras

Fatigue Life of Coiled Tubing With External Mechanical Damage ................................................................. 379
Tomas Padron, Bernie Luft, and Emmanuel Kee, BJ Services, and Steve M. Tipton, U. of Tulsa

Drilling With a Positive-Displacement Motor and a Rotary-Steerable System on 3½-in. Coiled Tubing in the San Juan Basin ................................................................. 395
Tony Pink, Maria Neves, Chuck Seyler, and Marc Allcorn, Schlumberger, and Jim O'Leary, Sam Noynaert, and Fred Hartensteiner, BP

Application of Lateral Entry Guidance System (LEGS) Technology in Western Kazakhstan Oil Fields ................................................................. 404
Doru Pumnea, BJ Services Co., and Anthony Hunt and Giuseppe Mennilli, Karachaganak Petroleum Operating Kazakhstan

A Novel Coiled-Tubing Wall Thickness and Ovality Measuring Tool for Field Use ................................................................. 409
Robert Standen and Don Pike, BJ Services Co.

Enabling Workover Applications With Coiled-Tubing-Deployed Inflatable Packers ................................................................. 415

Toolstring Impact Sensors ................................................................. 427
Stuart McLaughlin and Alan McLauchlan, Impact Guidance Systems Inc.

First Subrigfloor HWO Intervention System for a Floating Vessel ................................................................. 434
Tim Pollock and Ken Armagost, BP America; David Andersen, Halliburton/Granherne; and Michael Oser and Jason Besly, Halliburton

4th-Generation Coiled-Tubing Manufacturing Technology ................................................................. 439
