Critically-Stressed-Fracture Analysis in Naturally Fractured Carbonate Reservoir—A Case Study in West Kuwait

An Integrated Approach To Efficiently Unlock the Resource Potential in a Large Cluster of Fields

Martin A. Kraaijveld, Jon B. Hognestad, Ajay Samantray, Pius Udeh, Waleed Bulusher Al Kindy, Ayman Ibrahim, Norbert Janusz

Expert Determination in International Oil & Gas Disputes: The Impact of Lack of Harmonization in Reserves Classifications Systems and Uncertainty in Reserves Estimates

S.P. Stultz-Karim

The Identification of Condensate Banking With Multiphase Flowmeters—A Case Study

B.C. Theuveny, P.D. Maizeret, N.S. Hopman, S. Perez

Preventive Treatment for Enhancing Water Removal From Gas Reservoirs by Wettability Alteration

Mohan K.R. Panga, Suzylawati Ismail, Mathew Samuel

Improved Oil Recovery by Application of Ultrasound Waves to Waterflooding

M.M. Amro, M.A. Al-Mobarky, E.S. Al-Homadi

Applications of Streaming Potential Transient Tests to Electrokinetic Characterization of Oil Reservoirs

Saad F. Alkafeef, Nab M. Alajmi, Abdullah F. Alajmi

Volume 3

A Novel Approach of Detecting Water Influx Time in Multizone and Multilateral Completions Using Real-Time Downhole Pressure Data

G.H. Aggrey, D.R. Davies, L.T. Skarsholt

Recent Advances in the Understanding and Incorporation of the Multiphase Fluid Flow Properties of Fault Rocks Into Production Simulation Models

Suleiman M. Al-Hinai, Quentin J. Fisher, Carlos A. Grattoni, Simon D. Harris, Bader S. Al-Busafi

An Accurate Multiphase Upscaling for Flow and Transport in Heterogeneous Porous Media

Yan Li, Yalchin Efendiev, Richard E. Ewing, Guan Qin, Xiao-Hui Wu

Multiphysics and Multiscale Methods for Modeling Fluid Flow Through Naturally Fractured Vuggy Carbonate Reservoirs

Peter Popov, Linfeng Bi, Yalchin Efendiev, Richard E. Ewing, Guan Qin, Jianguo Li, Yulin Ren

Applications of Mechanical External Casing Packers

Miguel Armenta, Ali Al-Ghamdi, Ali Al-Hajji

Analyses of Wellbore Instability in Drilling Through Chemically Active Fractured Rock Formations: Nahr Umr Shale

Vinh Nguyen, Younane Aboueleiman, Son Hoang

Application of Thermal Recovery Processes in Heavy Oil Carbonate Reservoirs

Swapan Das

Improving Injector Efficiencies Using Streamline Simulation: A Case Study in a Giant Middle East Field

First Full Field Steam Injection in a Fractured Carbonate at Qarn Alam, Oman ........................................ 1104

Development of a New Artificial-Neural-Network Model for Predicting Minimum Miscibility Pressure in Hydrocarbon Gas Injection ............................................................. 1110
Y. Birang, N. Dinavand, S.F. Shariatpanahi, M. Edalat

An Empirical Saturation Modeling of a Complex Carbonate Abu Dhabi Reservoir Using the Routine High-Pressure Mercury and Oil/Water Capillary Pressure Data............... 1115

Implication of Properly Tuned EOS and Properly Measured SCAL on Prediction of Rates, Reserves, and Field Performance using a Full-Field, Fully Compositional Model for an Offshore Complex Carbonate Field in Abu Dhabi, UAE ................ 1130
Salma Al Hejeri, Ahmed El Mahdi, Shahin Negahban

An Integrated Approach for a Full-Field, Optimized Development of a Carbonate Reservoir on a Shallow Marine Environment, Abu Dhabi .................................................. 1138
Ahmed El Mahdi, Mohammed Ayoub, Samy Daif-Allah, Shahin Negahban, Maria Ribeiro, Jamal Bahamaish

Tight Reservoirs—A Development Challenge Example From a Carbonate Reservoir Offshore Abu Dhabi, UAE .................................................. 1153
Salma Al Hajeri, Abeer Al Shehhi, Maria Teresa Ribeiro, Mohamed Ayoub, Shahin Negahban, Jamal Bahamaish

Identification of High-Porosity Reservoir Sands From 3D-Seismic Attributes Using Neural Network Technique in South Umm Gudair Field, Kuwait ................ 1160
Ram Kumar Thakur, Frederic Duval, Claude Boibien, Gilles Pages

Improvement of Business Processes Through Knowledge Management ........................................... 1168
S.R. Gatta

Enhanced Oil Recovery by Hot CO2 Flooding ........................................... 1182
Mahesh Shrichand Picha

A Novel Approach to Fracture Characterization Utilizing Borehole Seismic Data ................................. 1187
Pradyumna Dutta, Sunil Kumar Singh, Jarrah Al-Genai, Azhar Akhtar, Mahmood Akbar

Cuttings Removal Simulation for Deviated and Horizontal Wellbores ................................................. 1193
S.A. Mirhaj, S.R. Shadizadeh, M. Fazaelfizadeh

Reservoir Candidate Screening Is Critical To Ensure Successful Application of Underbalanced Drilling Technology—Case Study ........................................ 1199
Salar Babajian, Hani Qutob

State of the Art in Geophysics and Wells Imaging for Giving a New Lease on Life to Giant Brownfield ........................................... 1204
Zayda Sanchez-Perez, Emmanuelle Baud, Frederic Jeanjean, Gilles Cassou, Jean-Louis Lesueur

Characterization of Fractures and Faults From High-Resolution Image Logs To Optimize the Geological Model of a Fractured Carbonate Reservoir, Offshore Abu Dhabi ......................................................................................................................... 1210
Sandip Chakravorty, Jean-Louis Lesueur, Xavier Poirier-Coutensais, Jean-Yves Gory, Ashok Srivastava, Scott Reynolds

Rotary Steerable System Technology Case Studies in a High-Volume, Low-Cost Environment ............................................................... 1217
Using GIS as a Data Access and Integration Platform .............................................. 1228
James R. Blaha

Development of a Deep-Penetrating Emulsified Acid and Its Application in a
Carbonate Reservoir ................................................................. 1238
Dilip Kumar Sarma, Pawan Agarwal, Eashwar Rao, Pradip Kumar

Case Studies of Emulsion Behavior at Reservoir Conditions ................................ 1245
Sunil Kokal, Mohammed Al-Dokhi

First Application of Underbalanced Drilling in Fractured Carbonate Formations of
Iranian Oil Fields Leads to Operational Success and Cost Savings ............... 1251
A. Hooshmandkoochi, M. Zaferanieh, A. Malekzadeh

Application of a Hybrid Dual-Porosity/Dual-Permeability Representation of Large-
Scale Fractures to the Simulation of a Giant Carbonate Reservoir ............... 1255
Halilu M. Uba, Yann Chiffoleau, Tony Pham, Vincent Divry, Abdulaziz Kaabi, Jamil Thuwaini

Feasibility Study of In-Situ Combustion in a Carbonate Reservoir ............... 1266
S. Vahidreza Mostafavi, R. Kharrat, S. Razzaghi

Development Approach Appraisal: An Effective Way To Evaluate Employees'
Performance ................................................................................. 1272
Moustafa Abou Heif

Clustering and Corridoring Project and Challenges ........................................ 1296
Amjad Elabed, Intisham Ur Rahim

Gas Blending for Miscible Gasfloods in South Oman .................................. 1305
G. Deinum, B. Dindoruk, M. O'Dell

Nuclear Magnetic Resonance Logging: While Drilling, Wireline, and Fluid
Sampling ....................................................................................... 1312
Douglas J. Seifert, Ridvan Akkurt, Saleh Al-Dossary, Ramez Shokeir, Haluk Ersoz

A Systematic Approach To Remove Iron Sulphide Scale: A Case History .... 1322
Jairo Leal, J. Ricardo Solares, H.A. Nasr-El-Din, Carlos Franco, Francisco Garzon, Hamad
M. Marri, S.A. Aqeel, Guillermo Izquierdo

Pressure Transient Behavior of Horizontal and Slant Wells Intersecting a High-
Permeability Layer ....................................................................... 1332
Harmohan Gill, Rayed Al-Zayer, Mohammed Ben Issaka

Smart Wells Experiences and Best Practices at Haradh Increment-Ill, Ghawar
Field ............................................................................................. 1345
Ibrahim H. Al-Arnaout, Rashad M. Al-Zahrani, Suresh Jacob

A Case Study of the Application of Slimhole Passive Inflow-Control Devices To
Revive Wells With Tubular Limitations in a Mature Field ......................... 1351
Stig Lyngra, Drew Hambling, Tareq M. Al-Zahrani, Ulthman F. Al-Otaibi, Hassan S. Al-
Marhoun, Adam B. Anderson

Lessons Learned From Repickling Old/Sour Gas Wells ............................. 1357

New Cement Formulation That Solves Gas Migration Problems in Iranian South
Pars Field Condition ....................................................................... 1368
M. Mohammadi Pour, J. Moghadasi

Survey Accuracy Extends Well Displacement at Minimum Cost .................. 1376
Bart Landry, Benny Poedjono, Goke Akinniranye, Mike Hollis
A New Technique To Determine Horizontal and Vertical Permeabilities From the Time-Delayed Response of a Vertical Interference Test
James J. Sheng

1381

Reservoir Candidate Screening: The SURE Way to Successful Underbalanced Drilling Projects—Case Study
Ashraf Keshka, Ali Salem Al Rawahi, Rashid Abdulla Al Murawwi Khalid Al Yaqeeb, Hani Qutob, Said Boutalbi, Jaime Villaloro

1391

A New Tool To Evaluate the Feasibility of Petroleum Exploration Projects Using a Combination of Deterministic and Probabilistic Methods
Mohammed Siddiqui, Karam Al-Yateem, Abdulla Al-Thawadi

1402

Protecting Industrial Process Control, Automation, and SCADA Systems From Cyber Threats
J. Lowe, J. Lasky, D. Gilbert, K. Sheil

1410

Support Vector Machines Framework for Predicting the PVT Properties of Crude-Oil Systems
E. El-Sebakhy, T. Shellami, S. Al-Bokhitan, Y. Shaaban, T. Raharja, Y. Khaderuzzaman

1416

Integrating Advanced Production Logging and Near-Wellbore Modeling in a Maximum-Reservoir-Contact (MRC) Well
S. Mubarak, N.I. Al-Afaleg, T.R. Pham, M. Zeybek, A. Soleimani

1430

Solid Tubular Expansion in Horizontal Wells

1439

Intelligent-Well Technology Used for Oil Reservoir Inflow Control and Auto-Gaslift, Offshore India
Michael Konopczynski, Mike Tolan

1448

Detecting and Analysing Fractures in the Subsurface: The Critical Steps in Modeling Fractured Carbonate Reservoir
Mohamed Elhami Elsaid, Ghassan M. Al-Jafri, Gary Mercado, Yuki Sugawara

1455

Inflow Profile Control in Horizontal Wells in a Fractured Carbonate Using Swellable Elastomers
Rudy W.F. Welling, Franz Marketz, Riyadh Moosa, Noha Riyami, Edward J. Follows, Gerbert de Brujin, Khalid Hosny

1462

Optimization of High-Pressure, High-Rate (HP/HR) Gas Wells in a Giant Offshore Field

1472

A Case Study of the World’s First Maximum-Reservoir-Contact Well With Intelligent Well Systems and MultiPhase Flow Monitoring
Fahad Al-Bani, Hassan Al-Sarrani, Ibrahim Armaout, Adam Anderson, Yaser Aubed, E.S. Johansen

1487

A Step Change in Openhole Gravelpacking Methodology: Drilling-Fluid Design and Filter-Cake Removal Method
Matthew Law, George W. Chao, Hafeez Ab Alim, Elnamra Samuel, Aziz Ejan, Abdul Hameed Mohsen, Mathew Samuel

1496

Cement Seal Units Eliminate Interzonal Communication
S.Z. Elzeghhaty, Holger Kinzel, R.L. Colvard

1505

Utilizing the Effect of Nitrogen To Implement Light Oil-Air Injection in Malaysian Oil Fields
Zeeshan Mohiuddin, D.M. Anwar Reja, Ismail Mohd Saaid

1514
