FIFTH ANNUAL SYMPOSIUM
ON
AUTOMATIC IMAGERY PATTERN RECOGNITION

APRIL 17-18, 1975
CENTER FOR ADULT EDUCATION
UNIVERSITY OF MARYLAND

THE AUTOMATIC IMAGERY PATTERN RECOGNITION COMMITTEE
GOVERNMENT PRODUCTS DIVISION
ELECTRONIC INDUSTRIES ASSOCIATION
CONTENTS

PATTERN RECOGNITION BY MELLIN TRANSFORM ............................................. 1
G. C. Huang, F. D. Russell, W. H. Chen
Aeronutronic-Ford

IMAGE CORRELATOR FOR BREAST THERMOGRAPHY ......................................... 19
A. G. Malmon

AN INVESTIGATION OF HOLOGRAPHIC MATCHED FILTER TECHNIQUES FOR IMAGE CORRELATION ................................................................. 20
Joseph T. Guil1, Director, Night Vision Lab.
U. S. Army Electronics Command

STATISTICAL MEASURES FOR THE DETERMINATION OF TEXTURE PRIMITIVES .......... 21
O. R. Mitchell, C. R. Myers
Purdue University

A COMPARATIVE STUDY OF TEXTURE MEASURES FOR TERRAIN CLASSIFICATION ...... 22
Joan Weszka, Azriel Rosenfeld
University of Maryland

DIGITAL RECORDING ON COLOR FILM ............................................................ 25
Don F. Ugglta
Dicomed Corporation

PATTERN RECOGNITION IN ORDINAL FEATURE SPACE ..................................... 26
Jean Blin, Northwestern University
Andrew Whinston, Purdue University

A FEATURE EVALUATION AND SELECTION TECHNIQUE (FEAST) FOR DEPLOYMENT IN UNSUPERVISED DISTRIBUTION FREE ENVIRONMENTS .................................................... 27
Belur V. Dasarathy
Computer Science Corporation

OPTICAL POWER SPECTRUM PATTERN RECOGNITION ..................................... 38
George E. Lukes
U. S. Army Engineer Topographic Laboratories

ASSOCIATIVE AND PARALLEL TECHNIQUES FOR AUTOMATED PATTERN RECOGNITION ................................................................. 39
Barry K. Moritz, PRC/Information Sciences
Aaron B. Navarro, Synectics Corporation

AN INTERACTIVE SYSTEM FOR DIGITAL IMAGE PROCESSING AND PATTERN RECOGNITION .................................................... 40
Lester A. Gerhardt, James W. Modestino,
Edward Sims, Nelson Corby
Rensselaer Polytechnic Institute
DESIGN CHOICES IN THE CONSTRUCTION OF THE MARYLAND INTERACTIVE PATTERN ANALYSIS AND CLASSIFICATION SYSTEM (MIPACS) ....................................................... 52
George Stockman, Laveen Kanal
University of Maryland

SEMI-AUTOMATIC BATHYMETRIC CHART DIGITIZING SYSTEM ................. 53
Hollis Ryan, R. B. Solosko, Calspan Corp.
R. G. Cantarella, Burroughs Corp.

EVALUATION OF AN AUTOMATIC TARGET CUEING SYSTEM ...................... 54
Robert W. McDowell, U.S. Army
Timothy P. Truitt, Glenn E. Tisdale
Westinghouse Systems Development Division

A REAL-TIME IMAGERY SCREENER ...................................................... 55
M. Geokezas, Honeywell, Inc.
R. Jennewine, AFAL, Wright Patterson A.F.B.
G. D. Swanlund, Control Data Corporation

AUTOMATIC SIGNATURE CLASSIFICATION ............................................. 87
G. R. Jones, Night Vision Lab.
U.S. Army

RECOGNITION AND DESCRIPTION OF COMPLEX CURVED OBJECTS ............... 88
Ramakant Nevatia, University of Southern California
Thomas O. Binford, Stanford University

ON PREPROCESSING OF AERIAL PHOTOGRAPHIC DATA .......................... 90
C. H. Chen
Southeastern Massachusetts University

APPLICATION OF EDGE DETECTION TO IMAGE ENHANCEMENT ................... 92
T. S. Huang, G. Y. Tang
Purdue University

A TEXTURAL TRANSFORM FOR IMAGES ............................................... 93
Robert M. Haralick
University of Kansas

PICTURE ANALYSIS AND DATA RETRIEVAL ENVIRONMENT .......................... 94
Roger Nagel
University of Maryland

PRELIMINARY GUIDE TO IMAGE PROCESSING EQUIPMENT AND SERVICES ........ 95
G. O. Richards
Technical Operations, Inc.
