
PROCEEDINGS
OF THE
FOURTH SYMPOSIUM
ON

ENGINEERING APPLICATIONS OF SOLID MECHANICS

SPONSORED BY
Ontario Research Foundation
Canadian Society of Mechanical
Engineering (R & D)
Canadian Society for
Civil Engineering

HELD AT

Sheridan Park Research Community
September 25th and 26th , 1978

TIB/UB Hannover 89
130 546 16X

EDITOR'S PREFACE	i
LIST OF PARTICIPANTS	iii
CONTENTS	vi

WELCOMING ADDRESS

F. D. M. Williams - Ontario Research Foundation "Revolutionary Advances in Structural Dynamics Technology"	1
--	---

NEW DEVELOPMENTS IN ANALYTICAL AND EXPERIMENTAL TECHNIQUES

<u>Keynote Address:</u> A. Bazergui "Recent Advances in Experimental Stress Analysis Methods"	28
J. C. Thompson and D. D. Curtis "Optimization of Finite Element Studies of Stress Concentration Regions Using Asymptotic Analyses"	54
K. K. Subbayya "Large Scale Three Dimensional Finite Element Stress Analysis Using a Mini Computer"	66
M. A. Oluyomi and B. Tabarrok "Some Aspects of Symmetry Analysis in the Finite Element Solution of Plate Bending Problems"	93
D. Budney and D. G. Bellow "Photoelastic Analysis of Neutral Holes"	106
M. Y. T. Chan and M. S. Cheung "Static and Dynamic Analyses of Three Dimensional Plates Using Finite Strips"	127
A. M. Elsaie, B. Tabarrok and R. G. Fenton "Dynamic Analysis and Testing of Corrugated Plates"	142
P. Fazio and S. Rizzo "Wrinkling of Framed Aluminum Sandwich Panels"	156

CONTENTS (Continued)

	<u>Page</u>
M. Levinson and S. Bharatha	
"Elastic Foundation Models - A New Approach" .	177
H. A. ElMaraghy and J. N. Siddall	
"Computer Aided Simulation and Prediction of Fatigue Life Distributions of Steel Alloys" .	190
A. Firmin	
"Unusual Technical Features in the ASAS Finite Element System and Their Value to Canadian Industry"	206
L. Domaschuk and A. Staudzs	
"Frost Heave Forces on Vertical and Horizontal Structural Members"	226
D. G. Havard	
"Control of Conductor Galloping by Detuning" .	239
R. Sauve	
"Applications of Eigensolution Techniques Using Mini Computers"	252
S. Srinivas and J. S. Panesar	
"Stress Analysis of Piping Elbows"	283
H. P. Batra and R. J. Pick	
"Design and Stress Analysis of a Threaded End Closure of a Pressure Vessel"	295
R. Kumar and J. S. Panesar	
"Considerations for Stress Analysis of Feeder Coupling in Candu Nuclear Power Plants"	317
D. J. Turner	
"Strain Gauging Techniques"	332
R. D. Venter and R. L. Hewitt	
"An Introduction to the Matrix Operator Techniques for Solving Plane Strain Metal Forming Problems" .	345
<u>Dinner Speaker:</u> R. M. Renfrew	
"The Importance of R & D to Canadian Industry" .	360
