# Table of Contents

Preface vii
Acknowledgements viii

Problems and solutions in squeezing ground: cases from Egnatia motorway tunnels 1
*G. Aggistalis, C. Georgopoulobo, N. Kazilis, & R.C. Game*

A finite element model for dynamic analysis of shotcrete on rock subjected to blast induced vibrations 15
*A. Ansell*

Shotcrete design and specification for the Cross City Tunnel, Sydney 27
*H.R. Asche & E.S. Bernard*

Mechanisms of shotcrete roof support 39
*C. Banton, M.S. Diederech, D.J. Hutchinson, & S. Espley*

Creep of cracked fibre reinforced shotcrete panels 47
*E.S. Bernard*

Durability of cracked fibre reinforced shotcrete 59
*E.S. Bernard*

Design performance requirements for fibre reinforced shotcrete using ASTM C-1550 67
*E.S. Bernard*

Comparison of methods for early age strength testing of shotcrete 81
*M.J.K. Clements*

Hydro-scaling – An overview of a young technology 89
*M.J.K. Clements, P.A. Jenkins & L. Malmgren*

Recommendations for future developments in shotcrete: a contractor's perspective 97
*A. Collis & A.M.O. Mueller*

A study on the effect of changes in fibre type and dosage rate on Fibre Reinforced Shotcrete performance 103
*J.M. Denney & P.C. Hagan*

Reliability-based resistance design of FRS tunnel linings 109
*D. Diamantidis & E.S. Bernard*

Toughness of fibre-reinforced shotcrete as a function of time, strength development and fiber type according to ASTM C1550-02 127
*T.P. DiNoia & K.-A. Rieder*

Alkali-free shotcrete accelerator interactions with cement and admixtures 137
*T.P. DiNoia & P.J. Sandberg*

The use of synthetic fibres for shotcrete reinforcement at Northparkes Mines second block cave 145
*S.B. Duffield & J. Phillips*

Fire protection for shotcrete tunnel linings 153
*I.D. Hague*
Macro-synthetic fibre reinforced shotcrete in a Norwegian road tunnel
C. Hauck, & A.E. Mathisen, E. Grimstad

Experiences from shotcrete works in Swedish hard rock tunnels
J.B. Holmgren

Determination of criteria for the acceptance of shotcrete for certification
M. Jolin, F. Gagnon & D. Beaupré

Post-crack creep behavior of steel and synthetic FRC under flexural loading
J. MacKay & J.-F. Trottier

In-cycle application of fibre reinforced shotcrete
G. Methven

Rehabilitation of the seawall at Stanley Park Vancouver, BC, Canada, with synthetic fibre reinforced shotcrete
D.R. Morgan, M. Ezzat & C. Pﬁhol

Surface support in mines: recent shotcrete applications
Y. Potvin, J. Hadjigeorgiou & T.R. Stacey

Recent innovations in final lining shotcrete in North American tunneling and mining
M. Rispin, C. Gause, & R. Knight

Strengthening of reinforced concrete structures using shotcrete
H. Schorn

Mining through filled stopes using shotcrete linings at Xstrata – Mount Isa Mines
N. Slade & K. Kuganathan

Sprayed concrete systems in the Gotthard base tunnel
C. Spirig

Experiences in the repair of tall structures with dry mix shotcrete
G. Slowek & W. Majchrzak

High toughness shotcrete for large deformation control at Perseverance Mine
D. Tyler & M.J.K. Clements

The use of Calcium Aluminate Cement in shotcrete
D. Van Heerden

Efficient passive fire protection systems for high performance shotcrete
R. Winterberg & R. Dietze
