Contents

Preface vii
   Lodewijk Bos

Board Lists ix

“The Impatient Patient” 1
   Lodewijk Bos, Denis Carroll and Andy Marsh

National and Regional Projects

Telemedicine Endurance – Empowering Care Recipients in Asian Telemedicine Setup 17
   Jagjit Singh Bhatia and Sagri Sharma

The Patient’s Perspective in the Dutch National Technical Agreement on Telemedicine 26
   Wouter J. Meijer

Electronic Health Records (EHR) in PROMED Platform in Accordance with the Romanian Legislative Framework 34
   Roxana Antohi, Cristina Ogescu, Daniel Bistriceanu, Livia Stefan and Silviu Dumitru

Colorectal Cancer Screening – Using Informatics and Compunetics to Empower the At-Risk Individual 42
   Jeffery J. Aramini, Xiaohui Zhang and Michael L. Popovich

Aspects of Electronic Health Records

Computer Generated Operation Notes 51
   V.A. Currall and T.J. Chesser

Personals Attitudes Towards Robot Assisted Health Care – A Pilot Study in 111 Respondents 56
   Ola Göransson, Krister Pettersson, Pär A. Larsson and Bo Lennernäs

Giving Patients Secure «Google-Like» Access to Their Medical Record 61
   Catherine Quantin, Maniane Fassa, Gouenou Coatrieux, Vincent Breton, Jean Yves Boire and François André Allaert

Improving Outcomes with Interoperable EHRs and Secure Global Health Information Infrastructure 68
   Luis Kun, Gouenou Coatrieux, Catherine Quantin, Regis Beuscart with consultations and contributions from Robert Mathews
European Projects

A Tele-Medicine Service over Satellite Network
Thomas Pliakas, Serafeim Dermeitzoglou, Christos Papachristos and Artur Krukowski

An Assisted-Living Home Architecture with Integrated Healthcare Services for Elderly People
Andy Marsh, Christos Biniaris, Dimitrios Vergados, Arnold Eppler, Christoforos Kavvadias, Olaf Bigalke, Eric Robert, Boro Jerabek, Alevizos Alevizos and Michael Caragiozidis

Knowledge Management

Functional and Technological Description of a Real-Time Data Management System for Telehealthcare
Fabiola Fernández, Laura M. Roa and Manuel Prado

Validating a Knowledge Transfer Framework in Health Services
Doug Orendorff, Alex Ramirez and Elayne Coakes

Knowledge Management Model for Teleconsulting in Telemedicine
Lilia Edith Aparicio Pico, Orlando Rodriguez Cuenc, Daniel José Salas Alvarez and Piere Augusto Peña Salgado

InWiM: Knowledge Management for Insurance Medicine
Juerg P. Bleuer, Kurt Bösch and Christian A. Ludwig

Realising the Knowledge Spiral in Healthcare: The Role of Data Mining and Knowledge Management
Nilmini Wickramasinghe, Rajeev K. Bali, M. Chris Gibbons and Jonathan Schaffer

Platforms

Improving Healthcare Services Using Web Based Platform for Management of Medical Case Studies
Cristina Ogescu, Claudiu Plaisanu, Florian Udrescu and Silviu Dumitru

Design and Development of a Knowledge Driven Web Based ECG Data Monitoring and Diagnostic Tool in Lab-View
H.R. Singh and Manju Singh

Improving Healthcare Middleware Standards with Semantic Methods and Technologies
Isabel Román, Jorge Calvillo, Laura M. Roa and Germán Madinabeitia

Intelligent Information System for Treatment Response Monitoring and Prognosis Establishment on Genital Neoplasia Patients
Claudiu Plaisanu, Daniel Niculae, Cristina Ogescu and Cristina Stefan
Behavioural Computonetics

The Safe Implementation of Research into Healthcare Practice

Bryan Manning and Stephen Benton

Finding the Service You Need: Human Centered Design of a Digital Interactive Social Chart in DEMentia Care (DEM-DISC)

The Doctor-Manager Relationship: A Behavioural Barrier to Effective Healthcare?

Heather Taylor and Stephen Benton

The Transition from 'Informed Patient' Care to 'Patient Informed' Care

Ruth Gardiner

Active Ageing: Independence Through Technology Assisted Health Optimisation

B.R.M. Manning, J. McCann, S. Benton and J. Bougourd

Empowerment

Populomics

M.C. Gibbons

Virtual Health Platform for Medical Tourism Purposes

Debora Martinez, Pedro Ferriol, Xisco Tous, Miguel Cabrer and Mercedes Prats

Access and Privacy Rights Using Web Security Standards to Increase Patient Empowerment

Filipa Falcão-Reis, Altamiro Costa-Pereira and Manuel E. Correia

Immunizations: The First Step in a Personal Health Record to Empower Patients

Michael L. Popovich, Jeffery J. Aramini and Michael Garcia

Publication Only

Intelligent Device Management in the Selfcare Marketplace

Christos G. Biniaris and Andrew J. Marsh

Ethical Issues of Brain Functional Imaging: Reading Your Mind

Irene S. Karanasiou, Christos G. Biniaris and Andrew J. Marsh

Social Prospecting

Andrew J. Marsh, Christos G. Biniaris, Irene S. Karanasiou and Denis Carroll

Experimental Study of Fuzzy-Rule Based Management of Tropical Diseases: Case of Malaria Diagnosis

Okure U. Obo and Faith-Michael E. Uzoka
Social Network of PESCA (Open Source Platform for eHealth) 340
  Carlos L. Sanchez, Miguel Romero-Cuevas, Diego M. Lopez, Julio Lorca, Francisco J. Alcazar, Sergio Ruiz, Carmen Mercado and Pedro Garcia-Fortea

The Need for the Use of XACML Access Control Policy in a Distributed EHR and Some Performance Considerations 346
  Snezana Sucurovic and Veljko Milutinovic

European Federation of Medical Informatics

Architectural Approaches to Health Information Systems for Empowering the Subject of Care 355
  Bernd Blobel and Peter Pharow

Requirements for User-Friendly Personal Health Information Systems 367
  Pirkko Nykänen

Changes in Doctor-Patient Relationships for Realizing the Personal Health Paradigm 373
  Heather Grain

Finland’s Strategy and Implementation of Citizens’ Access to Health Information 379
  Pekka Ruotsalainen, Anna-Kaisa Iivari and Persephone Doupi

How Can the German Electronic Health Card Support Patient’s Role in Care Management 386
  Peter Pharow, Bernd Blobel and Claudia Hildebrand

The Value of Personal Health Records – A Joint Position Statement for Consumers of Health Care 402
  American Health Information Management Association and American Medical Informatics Association

Subject Index 407

Author Index 409
