Collaborative Computer Security and Trust Management

Jean-Marc Seigneur
Université de Genève, Switzerland

Adam Slagell
National Center for Supercomputing Applications
University of Illinois at Urbana-Champaign, USA
# Table of Contents

**Foreword** ........................................................................................................... xii

**Preface** ................................................................................................................... xvi

**Acknowledgment** ................................................................................................... xviii

**Chapter 1**

Knowledge Assets, E-Networks and Trust ..................................................................... 1

*G. Scott Erickson, Ithaca College, USA*

*Helen N. Rothberg, Marist College, USA*

**Chapter 2**

Teamworking for Security: The Collaborative Approach .............................................. 12

*Rainer Bye, Technische Universität Berlin, Germany*

*Ahmet Camtepe, Technische Universität Berlin, Germany*

*Sahin Albayrak, Technische Universität Berlin, Germany*

**Chapter 3**

Tensions in Collaborative Cyber Security and how They Affect Incident Detection and Response ........................................................................................................... 34

*Glenn Fink, Pacific Northwest National Laboratory, USA*

*David McKinnon, Pacific Northwest National Laboratory, USA*

*Samuel Clements, Pacific Northwest National Laboratory, USA*

*Deborah Frincke, Pacific Northwest National Laboratory, USA*

**Chapter 4**

Challenges in Sharing Computer and Network Logs .................................................. 65

*Adam Slagell, University of Illinois at Urbana-Champaign, USA*

*Kiran Lakkaraju, University of Illinois at Urbana-Champaign, USA*
Chapter 5
Data Protection in Collaborative Business Applications ............................................................... 81
Florian Kerschbaum, SAP Research CEC Karlsruhe, Germany

Chapter 6
An Approach to Unified Trust Management Framework ............................................................ 111
Weiliang Zhao, Macquarie University, Australia
Vijay Varadharajan, Macquarie University, Australia

Chapter 7
Trust-Aware Recommender Systems for Open and Mobile Virtual Communities ......................... 135
N. Sahli, Dhofar University, Sultanate of Oman
G. Lenzini, Telematica Instituut/Novay, The Netherlands

Chapter 8
Securing Mobile-Agent Systems through Collaboration ............................................................ 154
Mohammed Hussain, Queen's University, Canada
David B. Skillicorn, Queen's University, Canada

Chapter 9
Noria Foukia, University of Otago, New Zealand
Nathan Lewis, University of Otago, New Zealand

Chapter 10
Trusted Computing for Collaboration ......................................................................................... 204
Joerg Abendroth, Technische Universität München, Germany
Holger Kinkelin, Technische Universität München, Germany

Chapter 11
Trust-Privacy Tradeoffs in Distributed Computing .................................................................. 216
Rima Deghaili, American University of Beirut, Lebanon
Ali Chehab, American University of Beirut, Lebanon
Ayman Kayssi, American University of Beirut, Lebanon

Selected Readings

Chapter 12
A Proposition for Developing Trust and Relational Synergy in International e-Collaborative Groups ................................................................................................................. 227
Bolanle A. Olaniran, Texas Tech University, USA
