Agents that Learn from Human Teachers

Papers from the AAAI Spring Symposium

Andrea L. Thomaz, Chair

Technical Report SS-09-01

AAAI Press
Menlo Park, California
Contents

CLARIFY: Human-Powered Training of SMT Models / 1
   D. Scott Appling, Ellen Yi-Luen Do

Learning Robot Motion Control from Demonstration and Human Advice / 8
   Brenna D. Argall, Brett Browning, Manuela Veloso

Curricula and Metrics to Investigate Human-Like Learning / 16
   Jacob Beal, Paul Robertson, Robert Laddaga

   A Confidence-Based Approach to
   Multi-Robot Learning from Demonstration / 20
   Sonia Chernova, Manuela Veloso

Encoding Intelligent Agents for Uncertain, Unknown, and Dynamic Tasks:
   From Programming to Interactive Artificial Learning / 28
   Jacob W. Crandall, Michael A. Goodrich, Lanny Lin

Learning from Disagreeing Demonstrators / 36
   Bruno N. da Silva

Iteration Learning by Demonstration / 40
   Steven Eker, Thomas J. Lee, Melinda Gervasio

   A Task Specification Language for Bootstrap Learning / 48
   Ian Fasel, Michael Quinlan, Peter Stone

Question Asking to Inform Preference Learning: A Case Study / 56
   Melinda Gervasio, Karen Myers, Marie desJardins, Fusun Yaman

Scaffolding Instructions to Learn Procedures from Users / 63
   Paul Groth, Yolanda Gil

   Toward Mixed-Initiative Email Clustering / 71
   Yifen Huang, Tom M. Mitchell

Design Principles for Creating Human-Shapable Agents / 79
   W. Bradley Knox, Ian Fasel, Peter Stone

   Phrasing Questions / 87
   Geert-Jan M. Kruijff, Michael Brenner

Interactive Planning for Shepherd Motion / 95
   Jyh-Ming Lien, Emlyn Pratt

   Learning Sequential Composition Plans
   Using Reduced-Dimensionality Examples / 103
   Nik A. Melchior, Reid Simmons

Learning Prospective Robot Behavior / 111
   Shichao Ou, Rod Grupen
Help Me Understand You: Addressing the Speech Recognition Bottleneck / 119
Rebecca J. Passonneau, Susan L. Epstein, Joshua B. Gordon

Predicting the Robot Learning Curve based on Properties of Human Interaction / 127
Sekou Remy, Ayanna M. Howard

Asking Questions and Developing Trust / 133
Stephanie Rosenthal, Manuela Veloso, Anind Dey

Assisting Transfer-Enabled Machine Learning Algorithms: Leveraging Human Knowledge for Curriculum Design / 141
Matthew E. Taylor

Teaching an Agent by Playing a Multimodal Memory Game: Challenges for Machine Learners and Human Teachers / 144
Byoung-Tak Zhang
