PART I  Guidance on Linking Aquatic Exposure and Effects in the Registration Procedure of Plant Protection Products

Chapter 1  Executive Summary and Recommendations: European Union Workshop on Linking Aquatic Exposure and Effects in the Registration Procedure of Plant Protection Products (ELINK) ........ 3

Chapter 2  Introduction to the Guidance on Linking Aquatic Exposure and Effects in the Risk Assessment for Plant Protection Products ........ 15

Chapter 3  Tier 1 Aquatic Risk Assessment for Plant Protection Products in Europe ................................................................................................................................. 25

Chapter 4  Generalized Exposure Regimes and Tiered Exposure Assessment for Plant Protection Products ................................................................. 37

Chapter 5  Species Sensitivity Distribution Approach in the Risk Assessment of Plant Protection Products ................................................................. 69

Chapter 7  Toxicokinetic and Toxicodynamic Modeling in the Risk Assessment of Plant Protection Products ...................................................... 85

Chapter 8  Model Ecosystem Approach in the Risk Assessment of Plant Protection Products ................................................................................................. 101
Chapter 9  Ecological Models in the Risk Assessment of Plant Protection Products ................................................................. 119

Chapter 10 Ecological Field Data in the Risk Assessment of Plant Protection Products ............................................................................. 133

Chapter 11 References for Guidance Chapters (Part I) .............................................. 145

PART II Reports from ELINK Work Groups

Chapter 12 A Novice's Guide to FOCUS Surface Water ..................................... 155

Chapter 13 Interaction between Fate and Effect Experts ...................................... 207

Peter van Vliet, Paulien Adriaanse, Karin Howard, Chris Lythgo, Aiden Moody, Jo O'Leary-Quinn, and Paul Sweeney

Chapter 14 Extrapolation Methods in Aquatic Effect Assessment of Time-Variable Exposures to Pesticides ........................................ 211

Udo Hommen, Roman Ashauer, Paul van den Brink, Thierry Caquet, Virginie Ducrot, Laurent Lagadic, and Toni Ratte

Chapter 15 Ecological Characterization of Water Bodies ...................................... 243

Chapter 16 References for Work Group Reports (Part II) .................................. 321

PART III Appendices and Glossary

Appendix 1: List of Workshop Participants ......................................................... 333

Appendix 2: List of Workshop Sponsors ............................................................. 337

Appendix 3: Case Studies Used during Two Workshop Meetings ..................... 339

Appendix 4: Foldout Page of the ELINK Decision Scheme: Explanatory Notes for Figure 2.1 .................................. 387

Glossary ........................................................................................................... 391

Index .............................................................................................................. 399
