Soft Computing Applications for Database Technologies: Techniques and Issues

K. Anbumani
Karunya University, India

R. Nedunchezian
Sri Ramkrishna Engineering College, India
Table of Contents

Preface ............................................................................................................. xiii

Chapter 1
Fuzzy Database Modeling: An Overview and New Definitions......................... 1
  Angélica Urrutia, Universidad Católica del Maule, Chile
  José Galindo, Universidad de Málaga, Spain

Chapter 2
A Quick Presentation of Evolutionary Computation........................................ 22
  Pierre Collet, Université de Strasbourg, France

Chapter 3
Evolutionary Algorithms in Supervision of Error-Free Control....................... 39
  Bohumil Šulc, Czech Technical University in Prague, Czech Republic
  David Klimanek, Czech Technical University in Prague, Czech Republic

Chapter 4
Soft Computing Techniques in Spatial Databases .......................................... 49
  Markus Schneider, University of Florida, USA

Chapter 5
Type-2 Fuzzy Interface for Artificial Neural Network.................................... 72
  Priti Srinivas Sajja, Sardar Patel University, India

Chapter 6
A Combined GA-Fuzzy Classification System for Mining Gene Expression Databases.......... 93
  Gerald Schaefer, Loughborough University, UK
  Tomoharu Nakashima, Osaka Prefecture University, Japan
Chapter 7
Fuzzy Decision Rule Construction Using Fuzzy Decision Trees: Application to E-Learning Database ................................................................. 104
Malcolm J. Beynon, Cardiff University, UK
Paul Jones, University of Glamorgan, UK

Chapter 8
A Bayesian Belief Network Methodology for Modeling Social Systems in Virtual Communities: Opportunities for Database Technologies ........................................ 125
Ben K. Daniel, University of Saskatchewan, Canada
Juan-Diego Zapata-Rivera, Educational testing service, USA
Gordon I. McCalla, University of Saskatchewan, Canada

Chapter 9
Integrity Constraints Checking in a Distributed Database ...................................................... 153
Hamidah Ibrahim, Universiti Putra Malaysia, Malaysia

Chapter 10
Soft Computing Techniques in Content-Based Multimedia Information Retrieval ................................. 170
G. Castellano, University of Bari, Italy
A. M. Fanelli, University of Bari, Italy
M. A. Torsello, University of Bari, Italy

Chapter 11
An Exposition of Feature Selection and Variable Precision Rough Set Analysis: Application to Financial Data ................................................................. 193
Malcolm J. Beynon, Cardiff University, UK
Benjamin Griffiths, Cardiff University, UK

Chapter 12
Interconnecting a Class of Machine Learning Algorithms with Logical Commonsense Reasoning Operations ................................................................. 214
Xenia Nadenova, Military Medical Academy, Russia

Chapter 13
A Human-Machine Interface Design to Control an Intelligent Rehabilitation Robot System .......... 247
Erhan Akdoğan, Marmara University, Turkey
M. Arif Adli, Marmara University, Turkey
Ertuğrul Taşgün, Marmara University, Turkey
Nureddin Bennett, Technical University of Kaiserslautern, Germany
Chapter 14
Congestion Control Using Soft Computing ................................................................. 271
T. Revathi, Mepco Schlenk Engineering College, India
K. Muneeswaran, Mepco Schlenk Engineering College, India

Compilation of References ....................................................................................... 290

About the Contributors ............................................................................................ 317

Index ......................................................................................................................... 324
