# Contents

Preface by <i>Richard Taylor, Callist Tindimugaya, Michael Owor &amp; Mohammad Shamsuddoha</i>	v
Groundwater and Climate in Africa – The Kampala Statement	vii
<b>1 Impact of Climate Variability and Change on Groundwater-Based Livelihoods</b>	
Groundwater resources assessment under the pressures of humanity and climate change (GRAPHIC) <i>M. Taniguchi, A. Aureli, J. L. Martin &amp; H. Treidel</i>	3
Water supply provision for poverty alleviation in rural areas of Zambia <i>D. C. W. Nkuwa</i>	9
Increased risk of diarrhoeal diseases from climate change: evidence from urban communities supplied by groundwater in Uganda <i>R. Taylor, M. Miret-Gaspa, J. Tumwine, L. Mileham, R. Flynn, G. Howard &amp; R. Kulabako</i>	15
The influence of hydrochemistry on the distribution of pathogenic strains of <i>Escherichia coli</i> in urban groundwater of Yaoundé, Cameroon <i>M. E. Nougang, M. Nola, T. Njine, S. H. Zebaze Togouet, M. Djaouda &amp; M. Djah</i>	20
Groundwater quality monitoring in collaboration with rural communities in Bénin <i>Stephen Silliman, Pamela Crane, Moussa Boukari, Nicaise Yalo, Felix Azonsi &amp; Flavien Glidja</i>	27
Chemical quality of groundwater drawn from boreholes in the Ashanti region of Ghana <i>M. A. Nkansah &amp; J. H. Ephraim</i>	36
Reliability of interview data for monitoring and mapping groundwater <i>D. R. Lightfoot, N. Mavlyanov, D. Begimkulov &amp; J. C. Comer</i>	40
<b>2 Impact of Climate Variability and Change on Groundwater and Groundwater-Fed Ecosystems</b>	
Climate variability and change in Africa: a review of potential impacts on terrestrial water resources <i>Ogallo Laban</i>	47
Variations in intensity of the westerly monsoon-like flow from the tropical Atlantic and summer rainfall over equatorial and tropical southern Africa <i>N. Vigaud, M. Rouault, Y. Richard &amp; N. Fauchereau</i>	52
Groundwater–surface water interactions and the ecohydrology of arid regions: evidence from the Tafilalt Oasis of southern Morocco <i>Mohamed Messouli, Asma El Alami El Filali, Bahia Ghallabi, Saloua Rochdane, Abdelkrim Ben Salem &amp; Fatima Ezzahra Hammadi</i>	61

Monitoring groundwater–surface water interactions in the Upper Nile Basin of Uganda <i>M. Owor, R. Taylor, J. Thompson, C. Mukwaya &amp; C. Tindimugaya</i>	68
---	----

An isotopic study of surface water and groundwater in a semi-arid environment: Souss-Massa basin in SW Morocco <i>L. Bouchaou, T. Tagma, Y. Hsissou, M. Ikenne, S. Boutaleb, L. Bouragba, J. Mudry &amp; J. L. Michelot</i>	76
---	----

Seasonal variability in groundwater resources available to rural communities in western Kenya <i>Gelas Simiyu, Tom Esipila &amp; Donald Dick Adams</i>	82
--	----

Modelling freshwater availability in Africa: projected changes in groundwater recharge <i>Jürgen Schuol, Karim C. Abbaspour &amp; Hong Yang</i>	88
---	----

Impact of a groundwater reservoir on simulated extreme hydroclimatic conditions: case study from the United States <i>Richard O. Anyah</i>	94
--	----

### **3 Monitoring and modelling groundwater use and replenishment**

Monitoring groundwater resources in Sub-Saharan Africa: issues and challenges <i>S. M. A. Adelana</i>	103
---	-----

The global groundwater monitoring network in Africa: an introduction and invitation <i>N. Kukuric &amp; M. T. H. Van Vliet</i>	114
--	-----

Design of an issue-based groundwater monitoring network in Uganda <i>D. Mwesigwa &amp; C. Tindimugaya</i>	119
---	-----

Groundwater recharge mechanisms and water management in the coastal sedimentary basin of Benin <i>H. S. V. Totin, M. Boko &amp; M. Boukari</i>	127
--	-----

Impact des changements climatique sur le renouvellement des ressources en eau souterraines: Cas du Bassin Hydrographique Chéliff-Zahrez / Impact of climate change on groundwater recharge in the Chéliff-Zahrez Basin of Algeria <i>M. Meddi &amp; A. Boucefiane</i>	135
---	-----

Application of a semi-distributed SWAT model to estimate groundwater recharge in the Lake Kyoga basin of Uganda <i>M. Kigobe</i>	143
--	-----

Climate change impacts on groundwater recharge in semi-arid Uganda and the role of groundwater in livelihood adaptation and peacebuilding <i>J. Gavigan, R. Mackay &amp; M. O. Cuthbert</i>	153
---	-----

### **4 Estimation of groundwater resources and demand under a changing climate**

Impacts of climate change on groundwater recharge and salinization of groundwater resources in Senegal <i>S. Faye, M. Diaw, S. Ndoye, R. Malou &amp; A. Faye</i>	163
--	-----

The impact of climate change on groundwater recharge: a case study from the Ethiopian Rift <i>T. A. Abiye, D. Legesse &amp; H. Abate</i>	174
Climate variability and its impact on groundwater recharge to the Table Mountain Group aquifers in South Africa <i>Anthony A. Duah &amp; Yongxin Xu</i>	181
Impacts du changement et de la variabilité climatiques sur les eaux souterraines en zone tropicale humide: Cas de la Côte d'Ivoire / Impact of climate change and variability on groundwater resources in humid tropical areas: a case study from the Ivory Coast <i>B. T. A. Goula, F. W. Kouassi, V. Fadika, K. E. Kouakou, G. B. Kouadio, K. Koffi, K. Bamory, D. Inza &amp; I. Savane</i>	190
Staged development of a model to evaluate climate change impacts on groundwater in Benin <i>Antoine Kocher &amp; Barbara Reichert</i>	203
Quantifying the impact of climate change on groundwater recharge to fractured-rock aquifers: a case study from Canada <i>E. K. Appiah-Adjei &amp; D. M. Allen</i>	210
<b>5 Groundwater management in Africa under variable climates</b>	
Urban water-supply security – making the best use of groundwater to meet the demands of expanding population under climate change <i>Stephen Foster</i>	221
Episodic recharge to the Quelo-Luanda aquifer in Angola: anticipating the impacts of climate change <i>G. L. Miguel, L. F. Rebollo &amp; M. Martin-Loeches</i>	229
Carbon-14, Chlorine-36 and noble gases in deep groundwaters from northeastern Sahara (Algeria): palaeoclimatic implications <i>A. Guendouz, A. S. Moulla &amp; J. L. Michelot</i>	234
Development of groundwater resources to adapt to climate variability in Dar es Salaam, Tanzania <i>Praxedo Kalugendo</i>	241
Recent improvements in the conceptual model of hard rock aquifers and its application to the survey, management, modelling and protection of groundwater <i>P. Lachassagne, Sh. Ahmed, B. Dewandel, N. Courtois, J. C. Maréchal, J. Perrin &amp; R. Wyns</i>	250
Trade-off analysis between economic development and climate change adaptation strategies for River Nile Basin water resources <i>E. M. Fathelrahman, J. C. Ascough, T. R. Green, M. H. Babiker &amp; K. M. Strzepek</i>	257
Key word index	271
