C&C’09
Proceedings of the 2009 ACM SIGCHI Conference on Creativity and Cognition

Sponsored by:
ACM SIGCHI

In cooperation with:
ACM SIGMM, ACM SIGART, ACM SIGGRAPH, ACM SIGCAS, & ACM SIGSOFT

Supported by:
BIGDOG Interactive, National Science Foundation, Centre for Digital Music, Creativity and Cognition Studies, and Taylor & Francis Group
Table of Contents

Creativity & Cognition 2009 Organization ................................................................. xvi
Creativity & Cognition 2009 Sponsors & Supporters .................................................. xx

Keynote Addresses

• Using the Creative Process to Map N Dimensions: Quantum Information At Your Fingertips ................................................................. 1
  JoAnn C. Kuchera-Morin (University of California, Santa Barbara)

• One Person's Everyday Creativity Is Another's Extraordinary Insight .......................... 3
  Jane Prophet (University of London)

• The Creative Person and the Creative System .......................................................... 5
  Mihaly Csikszentmihalyi (Claremont Graduate University)

• Panel: Promoting Social Creativity: A Component of a National Initiative for Social Participation .................................................. 7
  Ben Shneiderman (University of Maryland), Elizabeth Churchill (Yahoo! Research),
  Gerhard Fischer (University of Colorado), Ken Goldberg (University of California, Berkeley)

Session 1: Young Creators

• A Tale of Two Online Communities: Fostering Collaboration and Creativity in Scientists and Children .................................................. 9
  Cecilia R. Aragon, Sarah S. Poon (Lawrence Berkeley National Laboratory),
  Andrés Monroy-Hernández (Massachusetts Institute of Technology), Diana Aragon (Berkeley High School)

• Children's Storytelling and Programming with Robotic Characters .................................. 19
  Kimiko Ryokai, Michael Jongseon Lee, Jonathan Micael Breibart (University of California, Berkeley)

• Musicomputation: Teaching Computer Science to Teenage Musicians ............................. 29
  Adam L. Meyers (New York University), Marilyn C. Cole (University of Georgia),
  Evan Korth (New York University), Sam Pluta (Columbia University)

Session 2: Inclusion & Identity

• Geezers, Turbines, Fantasy Personas: Making the Everyday into the Future ......................... 39
  Ann Light (Sheffield Hallam University),
  Gini Simpson, Lois Weaver, Patrick G. T. Healey (Queen Mary University of London)

• Computational and Cognitive Infrastructures of Stigma: Empowering Identity in Social Computing and Gaming ............................................. 49
  D. Fox Harrell (Georgia Institute of Technology)

Session 3: Design I

• A Cognitive Account of Collective Emergence in Design .............................................. 59
  Benjamin G. Shaw (IBM Almaden Research Center),

• Situated Design: Toward an Understanding of Design Through Social Creation and Cultural Cognition .................................................. 69
  Christopher A. Le Dantec (Georgia Institute of Technology),

• Assistive Devices — Stroke Patients' Design ................................................................. 79
  Ana Correia de Barros (UTAD - UNIDCOM/IADE), Carlos Duarte (UNIDCOM/IADE)

• Microsketching: Creating Components of Complex Interactive Products and Systems ................................................................. 87
  Jodi Forlizzi (Carnegie Mellon University), Carl DiSalvo (Georgia Institute of Technology)
Session 4: Craft & Art I

- Creativity in Algorithmic Art.................................................. 97
  Frieder Nake (University of Bremen)

- Directed and Emergent Play................................................. 107
  Brigid M. Costello (University of New South Wales), Ernest A. Edmonds (University of Technology, Sydney)

- An Empirical Study of Cognition and Theatrical Improvisation............................................. 117
  Brian Mageenko, Waleed Manzoul, Mark Riedl, Allan Baumer, Daniel Fuller, Kurt Luther, Celia Pearce (Georgia Institute of Technology)

Session 5: Theory, Metrics, Methods, & Tools I

- Creativity Factor Evaluation: Towards a Standardized Survey Metric for Creativity Support................ 127
  Erin A. Carroll, Celine Latulipe (University of North Carolina, Charlotte), Richard Fung, Michael Terry (University of Waterloo)

- Random Thinking, Ordered Doing: Understanding Group Creative Practice Through Repertory Grid Technique........... 137
  Shaun McWhinnie, Shaleph J. O'Neill, Louise Valentine (University of Dundee)

- Alcohol and Creativity: A Pilot Study.................................... 147
  Jesse C. Smith (Georgia Institute of Technology), Teresa M. Smith (Fuzzy Logic), Ellen Yi-Luen Do (Georgia Institute of Technology)

- Understanding Productive, Structural and Longitudinal Interactions in the Design of Tools for Creative Activities............................................. 155
  Tim Coughlan, Peter Johnston (University of Bath)

Session 6: Design II

- The Efficacy of Prototyping Under Time Constraints.................................................. 165
  Steven P. Dow, Kate Heddleston, Scott R. Klemmer (Stanford University)

- Generative Walkthroughs: To Support Creative Redesign............................................ 175
  Danielle Lottridge (University of Toronto), Wendy E. Mackay (University Paris-Sud)

Session 7: Craft & Art II

- Hand E-craft: An Investigation into Hand Use in Digital Creative Practice.................................... 185
  Cathy P. Treadaway (University of Wales Institute Cardiff)

- Reflections on Craft: Probing the Creative Process of Everyday Knitters..................................... 195
  Daniela K. Rosner, Kimiko Ryokai (University of California, Berkeley)

- RiTa: Creativity Support for Computational Literature.................................................. 205
  Daniel C. Howe (Brown University)

- Supporting Remote Creative Collaboration in Film Scoring.................................................. 211
  Julien Philip (University of Technology, Sydney & University of La Réunion), Ernest A. Edmonds (University of Technology, Sydney & Australasian CRC for Interaction Design), David Joan (University of Toulouse)

Session 8: Culture & Context

- Cultivating and Commodifying Everyday Creativity in Postwar American Childhood................................ 221
  Amy F. Ogata (Bard Graduate Center)

- Promoting Creativity in Education — From Policy to Practice: An Australian Perspective.................. 229
  Carly J. Lassig (Queensland University of Technology)

- Dialogue Through Design: Visual Communication Across the Cultural Divide.................................. 239
  Kan Pecknold (Emily Carr University of Art + Design)

- Local Issues, Local Uses: Tools for Robotics and Sensing in Community Contexts.......................... 245
  Carl DiSalvo (Georgia Institute of Technology), Marti Louw (University of Pittsburgh), Juliana Coupland (Carnegie Mellon University), MaryAnn Steiner (University of Pittsburgh)
Session 9: Design III

- Nature of Creative Analogies in Biologically Inspired Innovative Design .................................................. 255
  Swaroop S. Vattam, Michael E. Helms, Ashok K. Goel (Georgia Institute of Technology)

- The Elusive Act of Synthesis: Creativity in the Conceptual Design of Complex Engineering Products .......... 265
  Claudia M. Eckert (The Open University), David F. Wyatt, P. John Clarkson (University of Cambridge)

- Designing to Support Reasoned Imagination through Embodied Metaphor .................................................. 275
  Alissa N. Antle, Greg Corness (Simon Fraser University), Saskia Bakker (Eindhoven University of Technology),
  Milena Droumeva (Simon Fraser University), Elise van den Hoven (Eindhoven University of Technology),
  Allen Bevans (Simon Fraser University)

- Collaboration and Framing as Dimensions of Design Innovation .......................................................... 285
  Vanessa Svihla (The University of Texas at Austin)

Session 10: Theory, Metrics, Methods, & Tools II

- Growing and Destroying the Worth of Ideas ................................................................................................. 295
  Ricardo Sosa (Tecnologico de Monterrey), John S. Gero (George Mason University),
  Kyle Jennings (University of California, Berkeley)

- Discovery Is Never By Chance: Designing for (Un)Serendipity ................................................................. 305
  Paul André, m. c. schraefel (University of Southampton),
  Jaime Teevan, Susan T. Dumais (Microsoft Research)

- Fostering Metaphorical Creativity Using Computational Metaphor Identification .................................. 315
  Eric P. S. Baumer, Bill Tomlinson, Lindsey E. Richland, Janice Hansen
  (University of California, Irvine)

Graduate Student Symposium

- Designing Collaborative Services on the Digital Platform ................................................................. 325
  Joon Sang Baek, Ezio Manzini (Politecnico di Milano)

- Creativity under Constraints: The Affect of Problem Space on Design Learning Among Engineering Students .................................................................................................................. 327
  Andrea M. Goncher (Virginia Polytechnic Institute and State University)

- assimilate.net: Creativity Support for Situated Collaborative Storytelling ........................................ 329
  Damian Hills (University of Technology, Sydney)

- Evaluating Machine Creativity ........................................................................................................ 331
  Anna K. Jordanous (University of Sussex)

- Flexible Environment and Creativity: A Preliminary Case Study of Interdisciplinary Student Design Teams ................................................................................................................................. 333
  Kahyun Kim (Virginia Polytechnic Institute and State University)

- Student Engineers Learning to Become Designers ................................................................................. 335
  Micah Lande (Stanford University)

- Adolescents' Conceptions and Experiences of Creativity .................................................................. 337
  Carly J. Lassig (Queensland University of Technology)

- Learning About Creativity from an Artificial Artist .............................................................................. 339
  David Norton (Brigham Young University)

- A Study of Lay Graphic Communication ............................................................................................... 341
  Sarah T. Owens (University of Reading)

- Exploring Illuminative Systems in Informal Networks of Adults ......................................................... 343
  Amy K. Scatliff (Fielding Graduate University)

- Remixed Realities: Distributed Studios for Collaborative Creativity .............................................. 345
  Viveka Weiley (University of Technology, Sydney)
Posters

- **An Ecology of Practice: Chiptune Marching Band** .................................................. 347
  Jamie Allen, Areti Galani, Kazuhiro Jo (Newcastle University)

- **Ideaion2.0 Project: Web2.0 Tools to Support Brainstorming Networks and Innovation Teams** .................................................. 349
  Oscar Ardaiz Villanueva, Xabier Nicuesa Ciacón, Oskar Brene Artazcoz, María Luisa Sanz de Acedo Lizarraga, María Teresa Sanz de Acedo Baquedano (Public University Navarra)

- **The Usability of Creativity – Experts v. Novices** .................................................. 351
  Julie L. Baher, Bill Westerman (Create with Context)

- **Managing Information in a Creative Environment** .................................................. 353
  Carol J. Bales, Ellen Yi-Luen Do (Georgia Institute of Technology)

- **Navigator** .................................................. 355
  Derek Michael Besant (Alberta College of Art + Design), Paul Connolly (Fluor International)

- **Everyday Experience as Stimuli for Technology Enhanced Creativity Workshops** .................................................. 357
  Angela Carell, Thomas Hermann (University of Bochum)

- **“STOLEN!”: Categories of In-Context Response to Unauthorized Reuse of User-Generated Media** .................................................. 359
  Eric Cook (University of Michigan), Ingrid Erickson (Social Research Council), Jennifer Thom-Santelli (Cornell University)

- **Designing Case Libraries to Encourage Creative Design** ........................................ 361
  Chandan Dasgupta, Janet L. Kolodner (Georgia Institute of Technology)

- **Increasing and Sustaining Participation to Support and Foster Social Creativity** .................................................. 363
  Holger Dick, Hal Eden, Gerhard Fischer (University of Colorado)

- **A Quantitative Analysis of the Collective Creativity in Playing 20-Questions Games** .................................................. 365
  Wen Dong, Taemie Kim, Alex Pentland (Massachusetts Institute of Technology)

- **Towards the Ultimate Aesthetic Experience** .................................................. 367
  Haakon Faste, Massimo Bergamasco (Scuola Superiore Sant’ Anna)

- **Class-Wide Projects: Fostering Collaboration and Creativity in Computer Science Courses** .................................................. 369
  Alexandre R. J. François (Tufts University)

- **Destination, Imagination & The Fires Within: Design Thinking in a Middle School Classroom** .................................................. 371
  Shelley Goldman, Maureen Carroll, Adam Royalty (Stanford University)

- **Design Patterns in Creative Design Processes** .................................................. 373
  Paula Gomez Zamora, Ellen Yi-Luen Do (Georgia Institute of Technology)

- **Extending the Reggio Emilia Educational Approach to Creativity Support Environments** .................................................. 375
  Keith Evan Green, Angela Eckhoff, Suzanne Rosenblith, Ian D. Walker (Clemson University)

- **In Search of a Perceptual Basis for Interacting with Parametric Images** .................................................. 377
  Daryl H. Hepting, Leila Latifi, Chris Oriet (University of Regina)

- **MobileAct: Applying Mobile Design and Kinetic Art to an Interactive Visualization Tool** .................................................. 379
  Jee Yoon Hwang (Georgia Institute of Technology)

- **The One-Week Curious ‘Hood: Creative inhabitation as a mode of urban revitalization** .................................................. 381
  Joanne Jakovich (University of Technology, Sydney)

- **Early Results with Faceted Classification of “Alternate Uses” Test Responses** .................................................. 383
  Kyle E. Jennings (University of California, Berkeley)

- **Relationship between the Diversity of Information and Idea Generation** .................................................. 385
  Sachiko Kiyokawa (Chubu University), Yuichi Washida (Hakuhodo Inc.), Kazuhiro Ueda (The University of Tokyo), Eileen Peng (Textron Inc.)
• The Effects of Computing Technology in Creative Design Tasks: A Case Study of Design Collaboration .......................................................... 387
  Seunghyun Lee, Ellen Yi-Luen Do (Georgia Institute of Technology)

• The Artist Loft Effect in the Clustering ‘Creative Types’: A Computer Simulation .......................................................... 389
  Stefan Leijnen, Liane Gabora (University of British Columbia)

• Predicting Successful Completion of Online Collaborative Animation Projects .......................................................... 391
  Kurt Luther, Kevin Ziegler, Kelly E. Caine, Amy Bruckman (Georgia Institute of Technology)

• Cultivating Creativity in Tangible Interaction Design .......................................................... 393
  Fred G. Martin, Karen E. Roehr (University of Massachusetts, Lowell)

• HandJabber: An Enactive Framework for Collaborative Creative Expression .......................................................... 395
  Cristóbal Martínez, Jessica Mumford, Stjepan Rajko, Lisa Tolentino, Ellen Campana, Todd Ingalls, Harvey Thomburg (Arizona State University)

• Notes on the Creative Process of Artist Collectives .......................................................... 397
  Meredith Tromble McDonald (San Francisco Art Institute)

• Supporting Human Creative Story Authoring with a Synthetic Audience .......................................................... 399
  Brian O’Neill, Mark Riedl (Georgia Institute of Technology)

• Visualization and Empowerment .......................................................... 401
  Indhira Rojas, Wendy Ju (California College of the Arts)

• Big Lampan Lamps: Designing for DIY .......................................................... 403
  Daniel Saakes (Delft University of Technology)

• Enhancing the Creativity of Engineers by Idea Drawing .......................................................... 405
  Yoshifumi Tanaka, Sumio Nakamura, Kazuya Takenata (Kanazawa Institute of Technology)

• Affective Support for the Creative User .......................................................... 407
  Priyamvada Tripathi, Winslow Burleson (Arizona State University)

• A Sub-symbolic Model of the Cognitive Processes of Re-representation and Insight .......................................................... 409
  Dan Ventura (Brigham Young University)

• Improvisation – the Neural Foundation for Creativity .......................................................... 411
  Morten Friis-Olivarius (Copenhagen Business School), Mikkel Wallentin, Peter Vuust (Aarhus University Hospital)

• The Creative Footprint: The impact of physical space on workplace creativity .......................................................... 413
  Alison Williams (University of East London)

• Locomotion Storytelling: Kinesthetic Intelligence and Tangible Objects in Storytelling Creativity .......................................................... 415
  Jasmine Williams, Ellen Li-Luen Do (Georgia Institute of Technology)

• VIP: A Creative Drawing System for the Visual Imagination Puzzle .......................................................... 417
  Eun Joo Youk, Doo Young Kwon (Korean German Institute of Technology)

Demonstrations

• In Translation — A Visualization of Language .......................................................... 419
  Linda Becker

• Our House .......................................................... 421
  Julia Burns, Ardrian Hardjono, Alla Bekker, Doreen Ec (University of Technology, Sydney)

• BodyDaemon .......................................................... 423
  Carlos Castellanos, Thecla Schiphorst (Simon Fraser University)

• Sim-Suite .......................................................... 425
  Manuela Jungmann, Geraldine Fitzpatrick (University of Sussex)

• ToneZone: Image Exploration with Spatial Memory Cues .......................................................... 427
  Celine Latulipe (University of North Carolina, Charlotte), Michael Youngblood (University of North Carolina, Charlotte), Ian Bell (Luminand Imaging Science), Carissa Orlando (Queens University of Charlotte)

• Subliminal Wiretapping .......................................................... 429
  Shawn Lawson (Rensselaer Polytechnic Institute)
• **Designing Space for Socially Meaningful Creativity Enhanced by New Technologies** .................................................. 431
  Yoshiro Miyata (Chukyo University), Nobuyuki Ueda (Doshisha Women's College of Liberal Arts),
  Keiko Onishi (SODA Design Research), Tomoyuki Sowa (Kobe Design University),
  Yasuhiro Harada (Chiba Industry University), Kazuhi Mogi (Gunma University),
  Chihiro Totsuka (Hyogo University of Teacher Education), Masaki Inoue (Gunma University)

• **A Surfaceless Pen-Based Interface** ................................................................. 433
  Joshua M. Peschel, Brandon Paulson, Tracy Hammond (Texas A&M University)

• **2DEQ: An Intuitive Audio Equalizer** .............................................................. 435
  Andrew T. Sabin, Bryan Pardo (Northwestern University)

• **Fun with Blow Painting! Making leaf collages by blowing at toy windmill** ..................... 437
  Yang-Ting Shen, Ellen Yi-Luen Do (Georgia Institute of Technology)

• **Exploring Architectural Robotics with the Human Hive** ........................................ 439
  Michael Philetus Weller (Carnegie Mellon University), Ellen Yi-Luen Do (Georgia Institute of Technology)

• **Alchemy: Experiments in Interactive Drawing, Creativity, & Serendipity** ......................... 441
  Kari D. D. Willis (The University of Tsukuba), Jacob Hina (Inspire Group)

• **A Collaborative Interface for Managing Design Alternatives** .................................... 443
  Anbang Xu, Brittany Smith, Brian Bailey (University of Illinois at Urbana-Champaign)

• **Toward Entertainment Blimps for Everyone by Everyone** ........................................ 445
  Hideki Yoshimoto (University of Tokyo), Kazuki Jo (Newcastle University), Koichi Hori (University of Tokyo)

**Invited Art Pieces**

• **Call for Bags** ........................................................................................................ 447
  Sarah Atkinson (Independent Artist)

• **Inescapable** ........................................................................................................ 449
  Amuse-Bouche (Independent)

• **The Sheep Market** .............................................................................................. 451
  Aaron Michael Koblin

• **‘Swab’ Drawings** .................................................................................................. 453
  Jane Prophet (University of London)

**Juried Art Exhibition**

• **(In)box with Malcom** .......................................................................................... 455
  Evan Barba, Blair McIntyre, Rebecca Rouse, Jay Bolter (Georgia Institute of Technology)

• **Where I Come From...An Art Exhibition Highlighting How Digital Tools Are Helping At- Risk Youth Make Meaning of Their World** .......................... 457
  Angela E. Brown (San Francisco Art Institute), Joseph Alter (San Francisco Unified School District)

• **Material Inspiration: The Practice-led Research of a Craft Artist** .................... 459
  Nithikul Nimkulrat (University of Art and Design Helsinki)

• **Uberobjects: Père Ubu Installation** ........................................................................ 461
  Carla Diana (Smart Design)

• **Stratification: Embodied Poetry Works by High School Students** ..................... 463
  Sarah Hatton, Ellen Campana, Andreea Danielescu, David Birchfield (Arizona State University)

• **Vehicle #3: Heliotropic Furniture — An Autonomous Installation** ......................... 465
  Matthew G. Hebert (San Diego State University)

• **Paruresis** ............................................................................................................. 467
  Luke Moloney (Encuity Digital Media),
  Jan Rod, Marc Tutors, Miyuru Dayaratna, Adrian D. Cheok (Keio University)

• **Glowdoodle: A Medium for Expressive Inquiry** .............................................. 469
  Eric Rosenbaum (Massachusetts Institute of Technology)

• **Telematic Timelapse: Surveillance Suite** ......................................................... 471
  Joshua Pablo Rosenstock (Worcester Polytechnic Institute)
Invited Live Performances

- Two Generative Pieces: Port Hacking and DC_Release
  Ernest Edmonds (University of Technology, Sydney), Mark Fell (non-affiliated artist)

- Addressing the Unexpected
  Di Mainstone (The Old Rectory)

Juried Live Performances

- I Seek the Nerves Under Your Skin
  Joe Marshall (University of Nottingham)

- Graffiti Dance: Interaction of Light, Information, and Environment
  David A. Shamma, Jürgen Scheible, Renata M. Sheppard (University of Art and Design)

- Chiptune Marching Band: A Public Workshop and Performance
  Kazuhiro Jo, Jamie Allen, Areti Galani (Newcastle University)

- Nature as Interface: MacGyver'ing and Martha-Stewart'ing Interactivity with Trees, Pencils, Grandpa, Even the Kitchen Sink
  Jay S. Silver (Massachusetts Institute of Technology)

- Ghost Scraper: Urban Sonic Activation on Wheels
  Eva Sjuve (Moolab)

Workshops

- Creativity and Cognition in Engineering Design: Theoretical and Pedagogical Issues
  Aditya Johri (Virginia Polytechnic Institute and State University), Helen L. Chen, Micah Lande (Stanford University)

- Design of a Learning Place for Collaborative Creation by the Mode of Byo-bu (Japanese Folding Screen)
  Chihiro Tetsuka (Hyogo University of Teacher Education), Kazuzi Mogi (Gunna University), Yoshihiro Miyata (Chukyo University), Nobuyuki Ueda (Doshisya Women’s College of Liberal Arts), Yasushi Harada (Chiba Institute of Technology), Tomoyuki Sowa (Kobe Design University), Keiko Onishi (SODA Design Research), Masaki Inoue (Gunma University)

- Understanding the Creative Conversation: Modeling to Engagement
  David A. Shamma (Yahoo! Research), Dan Perkel (University of California, Berkeley), Kurt Luther (Georgia Institute of Technology)

- Designing for a Sustainable Future
  Daniela K. Busse (SAP Laboratories), Eli Blevis (Indiana University, Bloomington), Catherine Howard (Jump Associates), Brinda Dalal (Palo Alto Research Center), David Fore (Cooper), Lara Lee (Jump Associates)

- Using User Research in Creativity: Informing Systems, Service and Product Experience Design
  Catriona Macaulay (University of Dundee), Daniela Busse (SAP Laboratories Palo Alto)

Tutorial

- Understanding and Evaluating Creativity
  Linda Candy (University of Technology, Sydney), Zafer Bilda (Bienalto Consulting, Australia)
