Contents

Session – 1

System Softwares and Algorithms

A Modified Differential Evolution using Non-linear Simplex Method to Initialize the Population <i>By Millie Pant, Musrrat Ali and V. P. Singh</i>	1
A Survey on Scalable CPU Scheduling in Real Time Database <i>By Sadanand S. Patil and Gajendra R. Bamnote</i>	8
Decision Support System for Jobshop Scheduling <i>By A. Jawahar Babu and G. Janardhana Raju and S. Viswanadha Raju</i>	12
An Architectural Approach on Distributed Multimedia Application Support in Operating Systems <i>By V. Mahesh, M. Padma and J. Durga</i>	18
Modified Bacterial Foraging Optimization and its Application for the Design of a Nonlinear Taper <i>By N. C. Chauhan, B. R. Vasista, M. Sandeep Reddy, M. V. Kartikeyan and A. Mittal</i>	23
Sequence Alignment Algorithms Using Dynamic Programming Technique <i>By P.V. Lakshmi, Allam AppaRao and G. AppaRao</i>	29
Facilities Layout Optimization using Genetic Algorithm <i>By K. Venkata Subbaiah, A.V.N.L. Sharma and Prof.G.V.S.Raju and Altab H. Basha</i>	32
Linear Polynomial Swarms for Aid to the Physicians Efforts in Proper Diagnosis of Breast Cancer <i>By Sanat Mishra and Bijan Bijari Misra</i>	37
An Improved Harmony Search Algorithm with Differential Mutation Operator <i>By Prithwish Chakraborty, Gourab Ghosh Roy, and Swagatam Das</i>	45

Session – 2

Advance Computer Architecture and Object Oriented Analysis

A Memory Efficient Architecture for Diamond Search Block Matching Algorithm <i>By Sumit K Chatterjee and Indrajit Chakrabarti</i>	53
Design and Implementation of Microcontroller Based Automatic ON/OFF Genset <i>By S.Balamurugan, G.Arunprasath and R.Karthikeyan</i>	60
Software Metrics Based Evaluation of Web Services <i>By D. Rajaguru and P. Dhavachelvan</i>	68
Optimizing Techniques for noise in IC Layout Design <i>By Jitesh R. Shinde and S.B.Pokle</i>	73
Performance Analysis of web service Architecture <i>By Jijun Lu, Swapna and S. Gokhale</i>	77
Design Issues of Reconfigurable Embedded System Architectures <i>By Prof. Sunil Kr. Singh, M. P. S. Bhatia and Rajni Jindal</i>	84

Timing Driven Physical Implementation of USB 2.0 Core using SoC Encounter <i>By L.Basavaraj and R.D Sudhaker Samuel</i>	90
An open source methodology to Increase Observability in Verilog Programs <i>By L.Swarnajyothi and A.S.Manjunath</i>	96
Extraction of MOS Device Parameters from C-V Measurement, using VEE Pro Software <i>By Viranjay and M. Srivastava</i>	102
Intelligent Model for Agent Based Secure Web Services Discovery <i>By V.Prasath, D. Kiran Kumar Reddy and M. Thirumaran</i>	105
A Comparative Study of Various Techniques Implemented to Improve the Performance of Flash ADC <i>By S.S.Khot, R.P. Ghugardare and M.S.Sutaone</i>	110
Design and Development of Smart Card Based Quick Charger for an Electric Car <i>By Robert Prabhakar M., Sanket Dessai and S.G.Shivaprasad Yadav</i>	114
A Novel Method in Datapath Operator Cell Design <i>By Manikandan Raju</i>	120
A Review of ADC Architectures and their Design Implementations <i>By S.S.Khot, R.P. Ghugardare and M.S.Sutaone</i>	126
Simulation of Digital Organisms using AI Techniques to Design Controllers <i>By Raja Mohamed S, Rajeswaran. N, Ramaraju V and Madhu T</i>	134
Design and Analysis of Object Oriented Software using UML in Different Perspectives <i>By S. Balamurugan and P.Ganesh Kumar</i>	140
Object Oriented Implementation of Grid Framework using .Net Technology <i>By K. Mukherjee and G. Sahoo</i>	149
A Multitier High-level Mechanism for Secure Object Oriented Design <i>By K. Mustafa and S. Rehman</i>	155
A Case Study on Estimation of Software Development Effort <i>By Vandana Bhattacharjee, Sanjay Kumar and Ekbal Rashid</i>	161
A study of the Ongoing Research and Industrial Adoption of AOSD <i>By Rupali Ahuja and Anita Goe</i>	165
An Approach to Support QoS in Composite Web Service Environment <i>By Lalit Purohit and Amit Kumar Vyas</i>	172
SS1.0 – A New Novel Software Solution to control Shoulder Surfing <i>By Divyans Mahansaria and Karthik.S</i>	180
Web 3.0: Emerging Applications for Internet Generation <i>By Navneet Bhardwaj and Priyanka Bhutani</i>	186
A New Dynamic Cohesion Metric for Object Oriented Design <i>By Vandana Bhattacharjee, Vinay Singh and Kumar Rajnish</i>	191
On Line Visual Inspection System (OLVIS) Schemes for Process Industries <i>By Ashwani Kumar Dubey and R.P.Singh</i>	196

Session – 3
Databases and Data Mining

An Efficient Queue Structure Model for Mining Frequent Patterns in Large Databases <i>By Divya Bhatnagar, Neeru Adlakha and K. R. Pardasani</i>	203
Automatic Clustering with the Bacterial Evolutionary Algorithm <i>By Archana Chowdhury and Swagatam Das</i>	207
Clustering Algorithms in Microarray Spot Detection –A comparative study <i>By Karteeka Pavan K and Appa Rao Allam</i>	215
Design and Implementation of Scalable Sequential Pattern Mining Algorithm for Sequence of Transaction <i>By Aruna Tiwari and Puneet Vyas</i>	220
Clustering with Multi-objective Differential Evolution Algorithms – A Comparative Study <i>By Debarati Kundu, Sayan Ghosh, Kaushik Suresh, Swagatam Das and Ankur Mondal</i>	227
Exploring Random Forest Classifier in Parallel Computing Environment <i>By Vrushali Y Kulkarni, Vineet Krishnan and Deep Shah</i>	235
Some Interesting Knowledge Structures for Discovery of Decision Rules with Exceptions and Hierarchies – A Review <i>By Saroj and Yogita</i>	240
Analysis of Human Face through Fuzzy Based Simulated Model <i>By R. Ramya and R. Priya</i>	248
Extension of Clustering Algorithms and their Application in Cancer dataset <i>By R. Kavitha Kumar, R. M Chandrasekar, E.Ilavarasan, A.Athirai , K.P Mafina and C. Sahiti</i>	256
The Role of Data Mining in CRM for Efficient Campaign Management <i>By Sai Hanuman A, Sesham Anand, Vinaybabu A, Govardhan A and Padmanabham P</i>	259
Generation of Clusters for Duplicate Eecords using Union-Find Algorithm <i>By K.Prasanna Lakshmi, K.R. Madhavi and T.Aritha</i>	265
Comparative study of Hierarchical Clustering Algorithms Suitable for Video Data Mining <i>By D. Saravanan and G.Geetha</i>	268
Analysis and Design of a Comprehensive Text Categorization Approach for English Language <i>By R.V. Dharaskar, V.M. Thakre, M.B. Chandak and Shantanu A. Lohi</i>	271
Semi-Supervised Learning for Text Classification <i>By Nitin N. Pise</i>	274
Spatial Databases Emerging New Type of Databases <i>By Swati S. Sabnis</i>	282
The Need, use and Efficiency of Mining in Spatial Databases <i>By M. Satish, B. Kishore and P. Srinivasa Rao</i>	288
Privacy Preserving Data Mining Using Randomized Perturbation Technique <i>By P.Kamakshi and Dr.A.Vinaya Babu</i>	292
Web Mininig: Integration of Semantic Web and Web Usage mining <i>By D.Vasumathi, A. Govardhan and K.Suresh</i>	296

Analysis of Assorted Bioinformatics Tools and its Metrics <i>By P. Dhavachelvan and Jayanthi Manicassamy</i>	303
A Review on Open Source and Free Expert System Shells <i>By G.N.R. Prasad, A. Vinaya Babu, B.Sasidhar and P.M.Yohan</i>	310
Using Kalman Filter and Velocity Renovation to Improved GPS Location Tracking <i>By Mohammad Zahaby, Prof. Ganesh D. Bhutkar, and M. L. Dhore</i>	314
Source Code Plagiarism Detection Using Back-Propagation Neural Network <i>By Kalindi Sinha, Ruchira Barik, Shubhra, Sindhura T and Ch. Aswani Kumar</i>	318
Handwritten Hindi Character Recognition: A New Approach <i>By Dayashankar Singh, Maitreyee Dutta and Sarvpal H. Singh</i>	323
A Genetic Algorithm Optimized Neural Net for Classification based on NOFM algorithm <i>By Kumar Saurabh Bisht and Sanjay Chaudhary</i>	327
Evaluation of Feature Selection Methods for Predictive Modeling Using Neural Networks in Credit Scoring <i>By Raghavendra and Jay B.Simha</i>	331
Predicting the Class Labels of the Given Training Tuples through Backpropagation Algorithm <i>By C.V.Guru Rao and V.Shankar</i>	336
Data Mining in a Regression Framework <i>By Sesham Anand, Sai Hanuman A, Govardhan A, Vinaybabu A and Padmanabham P</i>	340
Classifying the Human Chromosomes using Neural Networks <i>By G. Shyama Chandra Prasad and B.Satyanarayana</i>	346

Session – 4

Distributed and Parallel Computing

IDA: Contributing towards Reliable and Secure Distributed Storage <i>By Tarang Gupta and Anshul Malik</i>	351
Distributed Rogue Access Point Detection in IEEE 802.11 Wireless LAN using Mobile Agent <i>By A. V. Dhaygude, M. S. Karyakarte, S. B. Vanjale and M. S. Vanjale</i>	356
A Game-Theoretic Model for Dynamic Load Balancing in Distributed Systems <i>By S. Shailendra Aote and M. U. Kharat</i>	361
A Unified Framework for Distributed Shared Memory Consistency Models <i>By Bal Gopal and Pankaj Kumar</i>	364
Resource Discovery and Task Assignment for Distributed System using Semantic Service <i>By Sudhir G. Shikalpure and Laxman D. Netak</i>	370
DRDS: Dynamic Resource Discovery System-An Approach to Resource Discovery in a Grid Computing Environment using Dynamic Agents <i>By D. Sudheer Kumar Reddy and Arun Agarwal</i>	375
Microcontroller Hybrid Network for Distributed Embedded Applications <i>By Trupti Nagrare and V M. Thakare</i>	381

Session – 5
Image and Speech Processing

Facial Expression Classification using Multilayer Perceptron <i>By Praseeda Lekshmi V, M. Sasikumar and Reena Sathyan</i>	387
Facial Expression by Feature Extraction <i>By Praseeda Lekshmi. V and M. Sasikumar</i>	391
A Combine Approach for Skin Color Based Hand Gesture Extraction <i>By Amresh Nikam, Poonam Kapade and Sonali Patil</i>	394
A Novel Method for Linear Feature Extraction Based on Markov Random Fields and Morphological Operations <i>By C. NagaRaju, S. Anusha Naidu and A. Vijaya Lakshmi</i>	398
Analysis of Rolling Shutter Effect and Compensation in Image Databases <i>By R. Sinduja and R. Thenmalar</i>	402
Classification of Images using SVMs <i>By M. Raja Sekar, P. Prem Chand and I.V. Muralikrishna</i>	409
Detection of Pupil and Iris for Personal Identification <i>By C. M. Patil and SudarshanPatil Kulkarani</i>	412
Image Watermarking Encoder for FPGE Devices <i>By S. China Venkateswarlu , B. Y. David Solomon Raju and C. M. Renu Babu</i>	416
SDMS – An Image Processing Application <i>By Bhushan V. Patil, Kalpesh V. Joshi and Kiran H.Sonawane</i>	422
<i>Adaptive Motion Estimation with Artifact Reduction for Video Compression</i> <i>By K. Sivakami Sundari and P. Senthil Kumar</i>	429
Classification of Facial Images using FFNN <i>By Shubhangi D. Sapkal, Mahananda D. Malkauthekar and Sangeeta N. Kakarwal</i>	435
A New Biometric Watermarking Algorithm for Color Images using DWT and SVD <i>By V.Santhi, G.Manikandan, and M.M.Eugene</i>	439
Analysis of Classification Methods of Face Images using PCA and Fisher-Based Algorithms <i>By Mahananda D. Malkauthekar and Shubhangi D. Sapkal</i>	446
Facial Expression Recognition <i>By Sachin Ruikar. Atul Ingole and Chittaranjan Mahajan</i>	453
Machine Readable Blood Group Analyzer <i>By A S Arvind, K Sugendran, H.N. Suma, K. Vijayalakshmi and Manswi. M. Gundi</i>	459
A Robust Invariant Curvature Scale Space Based Recognition Algorithm for Shape Based Image Recognition <i>By Vivek M Gulhane and V M Thakare</i>	462
Application of Haptics Technology in Virtual Reality <i>By Shubhangi H.Patil, Patil B.S, Patil A. D and Tejashri H. Mohite</i>	469
Research on DNA Matching and Classification <i>By Priti C. Golar and U. Shrivankar</i>	473

A New Image Encryption Approach with Dual Carrier Images <i>By Panduranga H.T and Aravind B.N</i>	478
Image Retrieval on Parallel Multicomputers <i>By T. Venu Gopal, B.Ramesh Naik and V.Kamakshi Prasad</i>	482
Recognition of Continuously Spoken Bangla Numbers <i>By Mohammad Ali Moni, Md. Mijanur Rahman and Md. Farukuzzaman Khan</i>	489
Open Domain Real Time Lecture Translation System <i>By Sonal Sharma and A.K.Dubey</i>	495
Pattern Recognition using a Hybrid model based on Genetic Algorithm and Neural Network <i>By Satish Chandra and D.S. Chawhan</i>	502
Voice Biometrics: An Identification Engine for Information Security <i>By Safia Yasmeen and Jameela Bano</i>	506
Development of a Procedure for the Automatic Recognition of Disfluencies in the Speech of People Who Stutter <i>By K.M Ravikumar, Sachin Kudva, R.Rajagopal and H.C.Nagaraj</i>	514
Real Time Automatic Speech Recognition System Blind People <i>By P. Laxminarayana, Mythilisharan and A.V. Ramana</i>	520
Designed Generalized Code for Real Time Image Processing of Welding Process <i>By Er. Pradeep N. Fale and S. A. Raut</i>	525

Session – 6

Information Retrieval System

An Adaptive Technique to Categorize Indic Language Documents <i>By D.A.Meedeniya and A.S.Perera</i>	531
Automatic Document Classifier based on Statistical Machine Learning Techniques <i>By Rajashree Shettar and Shobha G</i>	538
Overall Operation of DNA Computer with Emphasis on Memory Operations <i>By Subrata Sinha</i>	544
Crawling the Web using Graph Partitioning Models <i>By Sahar Farajian, Ganesh Bhutkar and Shraddhanand Pukate</i>	550
Ontology Based Information Extraction from Resume <i>By Mhapasekar Darshan P.</i>	555
PageRank Computation Methods: A Text Mining Application Method for Information Retrieval <i>By D. Saritha and P. Parimala</i>	559
Parallel Algorithms for String Matching on 2D Linear Array with Reconfigurable Pipelined Bus Systems <i>By S.Viswanadha Raju, A.Vinaya Babu, Altaf.H.Basha, B.Sasidhar and A.Govardhan</i>	564
WSD Approaches for Information Retrieval <i>By S. K. Dwivedi and Parul Rastogi</i>	569
Topical Crawlers Based on Mutual Information Feature Selection Method <i>By N. V. G Sirisha Gadiraju and G.V Padma Raju</i>	574
Analysis of Assorted Bioinformatics Tools and its Metrics <i>By P. Dhavachelvan and Jayanthi Manicassamy</i>	579

Fast and Efficient Web Page Classification Based on URL Features Oriented Metadata Generation Algorithm <i>By K. Selvakuberan, M. Indra Devi and R Rajaram</i>	587
Web 2.0 Mapping Mashup Applications for Academic Universities – Comparative Case Study (Secure Google Maps API versus Microsoft Virtual Earth API) <i>By D. Sravani, M. V. S. S. Giridhar, P.Praneeth, M.K.Rami Reddy and Md.Ilyasuddin</i>	591
Sequence Arithmetic for Reducing the Search Space for Proteins Database <i>By Y. RamaDevi and C.R.Rao</i>	599

Session – 7

Networking, Cryptography and Mobile Computing

A Multiple Axis Key Shadowing Cipher Technique for Symmetric Key Cryptograph <i>By K. Venkateswara Rao, S. Rama Krishna and M. Srinivasarao</i>	603
Achieving Better Contrast in Visual Cryptography Schemes <i>By Thomas Monoth and Babu Anto P</i>	609
An Asymmetric Image Encryption and Decryption based on Jumbled Parallel Computing (IEJPC) <i>By Karthik. T, Varalakshmi. R.S, Subburaj V and Thavavel V</i>	613
Adaptive Nonlinear Channel Equaliser using MLANN <i>By Gunamani Jena, R Baliarsingh and G M V Praśad</i>	618
Key Agreement Protocol for Dynamic Peer Group with Efficient Authentication <i>By M. Sukanya</i>	625
Implementation of Wi-Fi in Industrial Automation with Enhanced Security <i>By Shankar Ganesh, Kamal Kumar Panta and Venkata Veeravalli</i>	630
Preventive Approaches for Web Application's Security Attacks <i>By A.Damodaram, R. Sridevi, K. Venkateshwara Rao and M.V.Ramaraju</i>	637
Streaming Media Caching Algorithms for Transcoding Proxies (TeC & AMTrac) <i>By M.Nagaratna, V.Kamakshi Prasad and T.Y.J.Naga Malleswari</i>	642
Cryptography using Elliptic curve – Multiplication Issue <i>By Yogita S. Pagar</i>	649
Cryptanalysis of Simplified AES <i>By S. J. Karale and A.S. Alvi</i>	654
Magnetic Resonance Imaging Image Optimization using Stochastic Resonance <i>By Vinay Kumar Shukla</i>	658
X-Server Database: An ADBMS for Secure Transmissions over all Networks <i>By Prakash Devale, Pritesh Patil and Amol Dhumane</i>	661
Discovery of Objects through Radio Frequency <i>By B.Sudhir, C. Nageswara Raju and R.Guruvaiah</i>	665
Design and Implementation of A Novel Stego Archiver <i>By S.Balamurugan, C. Arul raj and V.Harish</i>	670
Network Intrusion Detection using Fast K-Means <i>By D. Saritha and G. Yamuna</i>	678

Secure Routing Protocols in Wired Networks <i>By S.Venkata Raju, M.Venkat Dass, P.Premchand and A.Govardhan</i>	683
A Summary of New Cryptographically Well-built Compression Function <i>By A.Arul Lawrence Selvakumar and C. Suresh Gnanadhas</i>	685
The Evolution of Cyber Forensics Models <i>By P.B.Vijaya Kumar and P.S.Avadhani</i>	694
Security Over Web Services using Evidence Based Access Control <i>By E. S. Shamila and Maganti Suresh Kumar</i>	703
A New Method for Identifying Monitoring Nodes in Intrusion Detection Systems of Mobile Ad Hoc Network <i>By Marjan Kuchaki Rafsanjani, Ali Movaghar and Amir Sabbagh Molahosseini</i>	708
Dynamic Resource Management and Call Admission Control in QoS Cellular Network – An Integrated Approach <i>By Sulata Mitra</i>	713
“Implementation of an Embedded Controller to Monitor & Control Electrical/Electronic Devices using Short Message Service” <i>By Mr.Mahendra A Sheti and N. G. Bawane</i>	719
Network Management using Ant based Mobile Agents <i>By Ms. Purnima P. Soni and Prof. S. V. Gumaste</i>	724
The Design of Mobile Agent based Intelligent System for Autonomic Network Management <i>By Naveen Kumar Gandhi and Durgesh Pant</i>	730
A Low Cost Approach to Transfer Data in Remote Data Acquisition Systems using Cellular Phones <i>By G.V.Ramachandra Rao, K. Satya Prasad and C. B. Rama Rao</i>	736
Self-Organized Public-Key Management for Mobile Ad Hoc Networks using Mat Lab <i>By G.V.S.Raju, P.Ravi Kiran and G. V. Suresh</i>	740
Energy Evaluation of Two Reactive Protocols under ON/OFF Source Traffic <i>By Dhiraj Nitnaware and Ajay Verma</i>	745
Threshold Key Management for MANET <i>By P. Sumathi</i>	750
Performance Improvement in Cluster Based Routing using Selective Unidirectional Link <i>By Sonal A. Bhople, Sunita S. Barve and Lata Ragha</i>	754
Amendments and Confrontations in the Management of Resources for Mobile Grid Computing <i>By Aditya Vidyart and Divya Bhatnagar</i>	760
A Summary of Current Approaches and Future Challenges in IP Over WDM <i>By Amitangshu Pal</i>	764
Protecting Web Servers from DDoS Attacks Using WebSOS <i>By M. Sankara Prasanna Kumar and M. Rudra Kumar</i>	776
Progress in Optical Networks <i>By K. Aparna and S. Suryanarayana</i>	783
A Layered Approach to Modeling Network Connectivity for Topological Analysis of Network Security <i>By M. Sreedevi and R. Seshadri</i>	790
A Scalable Intrusion Detection System for Wireless Sensor Networks <i>By Ravindara Bhatt and T.S. Lamba</i>	797

Adaptive Slot Transfer TDMA Protocol for Energy-Efficient Wireless Intelligent NanoSensor Networks <i>By Irrai Anbu .J</i>	803
Dynamic Mobility Management and Vertical Handoff Algorithm for Next Generation All-IP Wireless Network <i>By Sulata Mitra</i>	810
Self-Adaptive Handoff Model for 4G <i>By Alok Singh and Saurabh Singh</i>	816
IP Based Address Network Management <i>By H.V Ramakrishnan, and Sira G Rao and Nagaraja G.S.</i>	824
Reverse AARM: A novel and effective suffix based IP Address Assignment and Routing Mechanism <i>By Monika Mangla</i>	829
Vehicular ad-hoc network <i>By Smita N.Pathak and S.A.Raut</i>	834
A System for Locating Users of WLAN using Statistical and Dynamic Mapping in Indoor and Outdoor Environment-LOIDS <i>By K. Krishna Naik, M.N. Giri Prasad, Sara Tabassum and K Sri Lakshmi</i>	839
An Efficient Fault-Tolerant Irregular Extra Group Network <i>By Harsh Sadawarti and P.K. Bansal</i>	845
Fault Tolerant Local Delaunay Triangulation for Ad Hoc Sensor Network <i>By Annaji M. Kuthe, Amit R. Ukalkar, Animesh Tayal and Madhuri A. Tayal</i>	850
Issues in Cognitive Radio Network for Dynamic Spectrum Access in Wireless Networks <i>By Sunita S. Barve, Sonal A. Bhople and Dipali Shende</i>	857
Intelligent Model for Agent Based Secure Web Services Discovery <i>By V. Prasath, D. Kiran Kumar Reddy and M. Thirumaran</i>	864
A Novel Kernel Level Mechanism for Preventing Password Thefts by TSRs <i>By A. Narayana Rao and H. Balaji</i>	870
DT Algorithm Agents for Mobile Robot Navigation <i>By M.Hariharasudan</i>	876
EAD for Wireless Sensor Networks <i>By Mayank Chakraverty, Mohamed Arshad Akbar and S.Vignesh</i>	880
Intelligent Robotic Control: Operated by Wireless 802.11 wi-fi System <i>By Er. Aishwari V. Talhan, Prof. S. A. Raut and Er. S. P. Gawate</i>	886
MFL3G: An Open Source Mobile Forensics Library for Digital Analysis and Reporting of Mobile Devices for Collecting Digital Evidence, An Overview from Windows mobile OS perspective <i>By Rizwan Ahmed</i>	891
Performance Analysis of Power Aware Cross Layer Routing Protocol for Manet <i>By Rekha Patil and A. Damodaram</i>	897
Temporal Modeling of Node Mobility in a Mobile Ad hoc Network <i>By Jyoti Prakash Singh and Paramartha Dutta</i>	902
Traffic Aware Multipath Routing Protocol for Adhoc Networks <i>By Sujatha P. Terdal, V.D Mytri and A Damaodaram</i>	908

Session – 8

Applications of Science and Engineering

Advancements in Power System Protection and Control <i>By Bhushan V. Patil, Kalpesh V. Joshi, Kiran H. Sonawane</i>	911
Detection and Analysis of Human Energy Field A Review <i>By D. V. Kurmude, Satish Panchal and J. S. Sardar</i>	918
Simulation of Digital Organisms using AI techniques to Design Controllers <i>By S. Raja Mohamed, N. Rajeswaran, V. RamaRaju and T. Madhu</i>	923
Fault Prognosis for Electrical Equipment for Battery Operated Vehicle <i>By M. Lakshmi Swarupa, G. Tulasi Ram Das and P. V. Raja Gopal</i>	929
Modeling of Direct Silicon Fusion Wafer Level Packaging <i>By Shruti Jain, S. C. Sood and C. C. Tripathi</i>	934
Designing a Low Power Sigma Delta Modulator and HRV Analysis for ECG System <i>By T. Padma, M. Madhavi Latha, K. Jaya Kumar and B. Balaji</i>	939
Fuzzy Controller for DC/DC Converter <i>By B. Jagadish Kumar, Banakara Basavaraja and G. Rajendar</i>	945
