### PART TWO  PLANNING

#### 4 IDENTIFYING AND SELECTING SYSTEMS DEVELOPMENT PROJECTS  123

**Learning Objectives**  123

**Introduction**  123

Identifying and Selecting Systems Development Projects  124

- The Process of Identifying and Selecting IS Development Projects  125
- Deliverables and Outcomes  129

Corporate and Information Systems Planning  130

- Corporate Strategic Planning  131
- Information Systems Planning  133

Electronic Commerce Applications: Identifying and Selecting Systems Development Projects  140

- Internet Basics  140
- Pine Valley Furniture WebStore  141

**Summary**  142

**Key Terms**  142

**Review Questions**  143

**Problems and Exercises**  143

**Field Exercises**  144

**References**  144

#### BEC CASE: IDENTIFYING AND SELECTING THE CUSTOMER RELATIONSHIP MANAGEMENT SYSTEM  146

**Case Introduction**  146

- The Idea for a New System  147
- Formalizing a Project Proposal  147

**Case Summary**  150

**Case Questions**  150

#### 5 INITIATING AND PLANNING SYSTEMS DEVELOPMENT PROJECTS  151

**Learning Objectives**  151

**Introduction**  151

Initiating and Planning Systems Development Projects  152

- The Process of Initiating and Planning IS Development Projects  153
- Deliverables and Outcomes  154

Assessing Project Feasibility  155

- Assessing Economic Feasibility  155
- Assessing Technical Feasibility  165
- Assessing Other Feasibility Concerns  166

Building and Reviewing the Baseline Project Plan  168

- Building the Baseline Project Plan  168
- Reviewing the Baseline Project Plan  173

PART FOUR DESIGN

AN OVERVIEW OF PART FOUR 350

9 DATABASE DESIGN 351
Learning Objectives 351
Introduction 351
Database Design 352
The Process of Database Design 353
Deliverables and Outcomes 354
Relational Database Model 357
Well-Structured Relations 358
Normalization 359
Rules of Normalization 359
Functional Dependence and Primary Keys 359
Second Normal Form 360
Third Normal Form 360
Transforming E-R Diagrams Into Relations 362
Represent Entities 362
Represent Relationships 363
Summary of Transforming E-R Diagrams to Relations 366
Merging Relations 366
An Example of Merging Relations 367
View Integration Problems 367
Logical Database Design for Hoosier Burger 368
Physical File and Database Design 371
Designing Fields 371
Choosing Data Types 371
Controlling Data Integrity 373
Designing Physical Tables 374
Arranging Table Rows 376
Designing Controls for Files 380
Physical Database Design for Hoosier Burger 382
Electronic Commerce Application: Designing Databases 383
Designing Databases for Pine Valley Furniture’s WebStore 383
Summary 385
Key Terms 386

BEC CASE: DESIGNING INTERNET FEATURES INTO THE CUSTOMER RELATIONSHIP MANAGEMENT SYSTEM 493
Case Introduction 493
Establishing Web Site Design Principles for MyBroadway 493
Case Summary 493
Case Questions 493

PART FIVE IMPLEMENTATION AND MAINTENANCE

13 IMPLEMENTING THE SYSTEM 499
Learning Objectives 499
Introduction 499
System Implementation 500
The Processes of Coding, Testing, and Installation 501
Deliverables and Outcomes from Coding, Testing, and Installation 501
Deliverables and Outcomes from Documenting the System, Training Users, and Supporting Users 503
Software Application Testing 503
Seven Different Types of Tests 505
The Testing Process 507
Combining Coding and Testing 509
Acceptance Testing by Users 509
Installation 510
Direct Installation 511
Parallel Installation 512
Single-Location Installation 512
Phased Installation 513
Planning Installation 513
Documenting the System 514
User Documentation 515
Training and Supporting Users 517
Training Information Systems Users 517
Supporting Information Systems Users 519
Support Issues for the Analyst to Consider 520
