Modelling, Simulation, Verification and Validation of Enterprise Information Systems

Proceedings of the
7th International Workshop on
Modelling, Simulation, Verification and Validation of Enterprise Information Systems
MSVVEIS 2009

In conjunction with ICEIS 2009
Milan, Italy, May 2009

INSTICC PRESS
Portugal
# Table of Contents

Foreword ............................................................... iii
Workshop Chairs ....................................................... vii
Program Committee .................................................... vii

## Full Papers

Use Case Maps as an Aid in the Construction of a Formal Specification .............................................. 3  
*Cyrille Dongmo and John A. van der Poll*

Test Cases Generation for Nondeterministic Duration Systems ................................................................. 14  
*Lotfi Majdoub and Riadh Robbana*

A Petri Net Based Approach for Modelling and Analyzing Interorganizational Workflows with Dynamic Structure ... 24  
*Oana Otilia Prisecaru*

Modeling the System Organization of Multi-Agent Systems in Early Design Stages with Coarse Design Diagrams ........ 34  
*Lawrence Cabac and Kolja Markwardt*

A Process-Oriented Tool-Platform for Distributed Development ........................................................................ 44  
*Kolja Markwardt, Lawrence Cabac and Christine Reese*

Preliminary Design of an Agent-based System for Human Collaboration in Chemical Incidents Response .............. 53  
*Mihnea Scafeş and Costin Bădică*

## Short Papers

From Reactive to Deliberative Multi-agent Planning ............ 67  
*Anmar Mohammed and Ulrich Furbach*
Methods for Service Identification: A Criteria-based Literature Review ..................................................... 76
René Boerner and Matthias Goeken

Layered Queuing Networks for Simulating Enterprise Resource Planning Systems ........................................ 85
Stephan Gradl, André Bögelsack, Holger Wittges and Helmut Krcmar

The Role of Testing in Agile and Conventional Methodologies 93
Agustin Yagüe and Juan Garbajosa

Multi Project Organization Optimization using Genetic Algorithm ................................................................. 101
Sven Tackenberg and Sebastian Schneider

Posters

An Automatic Transformation of Event B Models into UML using an Interactive Inference Engine Thinker .......... 119
Leila Jemni Ben Ayed and Mohamed Nidhal Jelassi

Using SCADE for Decision Support in Dam Management ... 125
Maria del Mar Gallardo, Pedro Merino, Laura Panizo and Antonio Linares

Database Integrity in Integrated Systems ......................... 132
José Francisco Zelasco and Judith Donayo

Making Use Case Slices Manage Variability in Aspect-based Product Line .................................................... 141
Satish Mahadevan Srinivasan and Mansour Zand

Using UML Activity Diagrams and Event B for the Specification and the Verification of Workflow Applications 149
Ahlem Ben Younes and Leila Jemni Ben Ayed

ImageNetDiff: Finding Differences in Models ...................... 156
Lawrence Cabac, Kolja Markwardt and Jan Schlüter
