

PROCEEDINGS OF THE 48TH CONFERENCE OF METALLURGISTS
AUGUST 23-26, 2009, SUDBURY, ONTARIO, CANADA

Process Control Applications in Mining and Metallurgical Plants

Editors

H. Shang

*School of Engineering,
Laurentian University
Sudbury, Canada*

L. Ryan

*Barrick Gold Corporation
Toronto, Canada*

S. Kennedy

*Barrick Gold Corporation
Dar Es Salaam, Tanzania*

*Symposium Organized by the Metallurgical Society of the Canadian Institute of Mining, Metallurgy and
Petroleum and the Minerals, Metals and Materials Society (TMS)*

Table of Contents

Process Control Applications in Mining and Metallurgical Plants

Foreword	v
Editors' Biographies	vii

EXPERT SYSTEM, CONTROL, AND PERFORMANCE MONITORING

Best Practices for Managing Control Loop Performance – Roadmap to Success.....	3
<i>C. McNabb and M. Ruel</i>	
Expert Control of Crushing Circuits at Barrick South America	11
<i>F. Cornejo, A. Festa, A. Gomez and P. Yaroshak</i>	
Implementation of Expert Control Systems at Vale Inco Limited's Clarabelle Mill	25
<i>R. Barrette, A. Bom, A. Taylor and V. Lawson</i>	
Higher Classification Efficiency by Hydrocyclone Control	39
<i>T. Neesse, M.G. Farghaly, G. Proellss and P. Kaniut</i>	
Multivariable Predictive Control for Mining, a Paradigm Shift from Expert Systems	51
<i>R.K. Jonas and A. Green</i>	
Current Trends in CCD and Thickener Circuit Operability and Control	73
<i>J. Karageorgos, S. Davies, D. Baas and R. Slack</i>	
Ahead - A Toolkit for Intelligent Asset Performance Monitoring	83
<i>J. Narozny, M. Wood, Y. Power and A. Festa</i>	

FLOTATION

Towards the Optimization of Flotation Column Operation	99
<i>A. Desbiens, R. del Villar, M. Maldonado and J. Bouchard</i>	
Model Predictive Control for Flotation Plants.....	121
<i>M. Lundh, S. Gaulocher, J. Pettersson, H. Lindvall and E. Gallestey</i>	
Model Predictive Control of Sag Mills and Flotation Circuits	131
<i>M.G. Forbes and B. Gough</i>	
Online Measurement of Xanthate in Flotation Circuits by Means of UV Spectrophotometry	143
<i>B. Lalla, B.D.H. Knights and C.J.H. Steenkamp</i>	
Improved Flow and Flotation Monitoring For Process Efficiency Improvements through New Technology Utilizing Non-Invasive Passive Arrays.....	155
<i>C.V. O'Keefe, R. Maron and P. Rothman</i>	

METALLURGICAL PROCESSES, MODELLING

Modeling in Metallurgical Process Development.....	169
<i>R. Kandep and Å. Grøvlen</i>	

Integrated Modelling of an Smelter Off-Gas Cleaning System 177
H. Shang, P. Nelson, B. Salt and J.A. Scott

Control of Copper Teniente Smelting Units Using Integrated Advanced Control Technologies 187
A.B. Morrow and M. Gajardo

High Fidelity Dynamic Simulation for the Mining and Metallurgical Industry 199
M. Delisle and J. Alamo

MINING APPLICATIONS

The Application of Discrete-Event Simulation in the Design of Underground Mines and Logistics 213
K.I. Hindle and V.A. Limmer

Remote Operation and Collaboration in Mining Applications 225
J. Murray, D. Daugherty and A. Smith

Long Term Sustainability of Advanced Process Control Optimization Projects 233
C.P.L. Sheehan, T. Chmelyk, A. Waite and D. Corovic

MONITORING, ANALYSIS

Improving Accuracy, Transparency and Auditability by Moving from Spreadsheets to an
Integrated Metal Accounting Function 245
P. Cooper

Get the Most from Maintenance: Automated Downtime Monitoring and Production Reporting 255
E. Verburg

Real Time Mineral Analysis Using COSMA 263
S. Dhanjal

Advancements in the S PLC Furnace Power Stabilizer 273
T. Ma, S. Derrah, M. Sedighy, J. Janzen and N. Voermann
