    Argonne National Laboratory

2010-01-0815  Engine Test for DOC Quenching in DOC-DPF System for Non-Road Applications .......................................371
    Alexandr Kozlov, Thomas Harris and Colton Salyards
    John Deere Power Systems
2010-01-1066 Effective Usage of LNT in High Boosted and High EGR Rate of Heavy Duty Diesel Engine..............................381
Tetsuya Murayama, Yuzo Aoyagi, Masayuki Kobayashi,
Takayuki Adachi and Kazuaki Shimada
New Ace Inst. Co., Ltd.
Hisakazu Suzuki, Yuichi Goto and Yoshio Sato
National Traffic Safety & Enviro Lab

2010-01-1067 Development of Control Logic and Optimization of Catalyst in DeNOx System with Secondary Injection for Euro 6..............................................................391
Jun Sung Park, Sang Min Lee, Hyo Kyung Lee,
Jin-Woo Park, Jinha Lee and Hong-Jip Kim
Hyundai Motor Co.

2010-01-1070 Fuel Vaporizer Catalyst Enables Compact Aftertreatment System Packaging by Reducing Mixing Length ........................................397
Bret Robert Armanini and James Edward McCarthy, Jr.
Eaton Corp.

2010-01-1071 Study of On-Board Ammonia (NH3) Generation for SCR Operation.................................................................409
Yuuchi Kodama
Komatsu, Ltd.
Victor W. Wong
Massachusetts Institute of Technology

2010-01-1170 Volume Reduction of SCR Catalyst Using Zeolite-Base Honeycomb Substrate ..................................................429
Takahiko Ido, Ken Yoshimura, Masafumi Kunieda,
Yasuki Tamura and Kazushige Ohno
IBIDEN Co., Ltd.

2010-01-1171 Hydrocarbon Effect on a Fe-zeolite Urea-SCR Catalyst: An Experimental and Modeling Study.................................441
Maruthi Devarakonda, Russell Tonkyn and Darrell Herling
Pacific Northwest National Laboratory

2010-01-1172 Specifics of Daimler's new SCR system (BLUETEC) in the Diesel Sprinter Van - Certified for NAFTA 2010 ..................455
Norbert Waldbuesser, Josef Guenther, Hanns Hoffmann,
Oliver Erlenmayer, Frank Duvinage, Christian Enderle,
Joachim Schommers and Dieter Waeller
Daimler AG
Effects of B20 Fuel and Catalyst Entrance Section Length on the Performance of UREA SCR in a Light-Duty Diesel Engine

PO-I Lee, Amy Peterson and Ming-Chia Lai
Wayne State Univ.
Mark Casarella
Robert Bosch LLC
Ming-Cheng Wu
Delphi Corp.

An Adaptive Proportional Integral Control of a Urea Selective Catalytic Reduction System based on System Identification Models

Chun Y. Ong and Anuradha M. Annaswamy
MIT
Ilya V. Kolmanovsky, Paul Laing and Dennis Reed
Ford Motor Company

Model Predictive Control of a Combined EGR/SCR HD Diesel Engine

Claes Westerlund and Björn Westerberg
Scania CV AB
Ingemar Odenbrand
Lund University
Rolf Egnell
Lund University

Experimental Study of SCR in a Light-Duty Diesel Exhaust to Provide Data for Validation of a CFD Model Using the Porous Medium Approach

N. Tamaldin
Univ. Teknikal Malaysia Melaka
C. A. Roberts and S. F. Benjamin
Coventry Univ.

New Titania Materials with Improved Stability and Activity for Vanadia-Based Selective Catalytic Reduction of NOx

D.M. Chapman, G. Fu, S. Augustine, J. Crouse,
L. Zavalij, M. Watson and D. Perkins-Banks
Cristal Global

Deactivation of Cu/Zeolite SCR Catalyst under Lean-Rich Aging Conditions

Yisun Cheng
Ford Research and Innovation Center,
Ford Motor Company
Yinyan Huang
IAV Automotive Engineering, Inc.
2010-01-1181 Removal of NOx from Diesel Exhausts: The New “Enhanced NH3-SCR” Reaction ........................................543
Pio Forzatti, Isabella Nova and Enrico Tronconi
Politecnico di Milano

2010-01-1182 Why Cu- and Fe-Zeolite SCR Catalysts Behave Differently At Low Temperatures ........................................553
Krishna Kamasamudram, Neal W. Currier,
Tamas Szailer and Aleksey Yezerets
Corporate Research & Technology, Cummins Inc.

2010-01-1183 The Development of Advanced Urea-SCR Systems for Tier 2 Bin 5 and Beyond Diesel Vehicles........................................563
Gang Guo, James Warner, Giovanni Cavataio,
Douglas Dobson, Edward Badillo and Christine Lambert
Ford Motor Company

2010-01-1184 Model Predictive Control: A Unified Approach for Urea-Based SCR Systems........................................577
Thomas L. McKinley
Cummins, Inc.
Andrew G. Alleyne
University of Illinois at Urbana-Champaign

2010-01-1185 Development of a Novel Device to Improve Urea Evaporation, Mixing and Distribution to Enhance SCR Performance ........................................595
Reggie Zhan, Scott T. Eakle, Phillip Weber and Wei Li
Southwest Research Institute

2010-01-1186 Development and Field Performance Validation of a Retrofit SCR System for On-Road Heavy-Duty Application ........................................605
Anthony El-Behery
