Second Annual IEEE International Workshop on Horizontal Interactive Human-Computer System

(TABLETOP 2007)

Newport, Rhode Island, USA
10-12 October 2007
Table of Contents

Message from the Chairs .......................................................... viii
Program Committee ................................................................ ix
Reviewers ............................................................................. x

Far & Away: Remote and Distributed Tabletop Collaboration

C-Slate: A Multi-touch and Object Recognition System for Remote Collaboration
Using Horizontal Surfaces.......................................................... 3
   Shahram Izadi, Ankur Agarwal, Antonio Criminisi, John Winn, Andrew Blake,
   and Andrew Fitzgibbon

T3: Rapid Prototyping of High-Resolution and Mixed-Presence Tabletop Applications........ 11
   Philip Tuddenham and Peter Robinson

Distributed Tabletops: Supporting Remote and Mixed-Presence Tabletop Collaboration .......... 19
   Philip Tuddenham and Peter Robinson

TableTops: Worthwhile Experiences of Collocated and Remote Collaboration .................. 27
   A. Pauchet, F. Coldefy, L. Lefebvre, S. Louis Dit Picard, L. Perron, A. Bouguet,
   M. Collobert, J. Guerin, and D. Corvaisier

Out & About: Tabletops in the Real World

Put That There NOW: Group Dynamics of Tabletop Interaction under Time Pressure........ 37
   Xianhang Zhang and Masahiro Takatsuca

Affective Tabletop Game: A New Gaming Experience for Children ................................. 44
   Abdullah Al Mahmud, Omar Mubin, Johanna Renny Octavia, Suleman Shahid,
   LeeChin Yeo, Panos Markopoulos, Jean-Bernard Martens, and Dima Aliakseyeu

The TViews Table in the Home .................................................................. 52
   Ali Mazalek, Matthew Reynolds, and Giorliana Davenport
Living with a Tabletop: Analysis and Observations of Long Term Office Use of a Multi-touch Table

Daniel Wigdor, Gerald Penn, Kathy Ryall, Alan Esenther, and Chia Shen

Reading, Writing & More: Tabletop-User Experiences

Applying an Aesthetic Framework of Touch for Table-Top Interactions

Thecla Schiphorst, Nima Motamedi, and Norm Jaffe

Reproducing and Re-experiencing the Writing Process in Japanese Calligraphy

Kumiyo Nakakoji, Kazuhiro Jo, Yasuhiro Yamamoto, Yoshiyuki Nishinaka, and Mitsuhiro Asada

Reading Revisited: Evaluating the Usability of Digital Display Surfaces for Active Reading Tasks

Meredith Ringel Morris, A. J. Bernheim Brush, and Brian R. Meyers

Photohelix: Browsing, Sorting and Sharing Digital Photo Collections

Otmar Hilliges, Dominikus Baur, and Andreas Butz

Information Layout and Interaction on Virtual and Real Rotary Tables

Hideki Koike, Shintaro Kajiwara, Kentaro Fukuchi, and Yoichi Sato

WIMPI!: Bringing Traditional Interactions to the Tabletop

Examination of Text-Entry Methods for Tabletop Displays

Uta Hinrichs, Mark Hancock, Christopher Collins, and Sheelagh Carpendale

Tabletop File System Access: Associative and Hierarchical Approaches

Anthony Collins, Trent Apted, and Judy Kay

Improving Menu Interaction for Cluttered Tabletop Setups with User-Drawn Path Menus

Daniel Leithinger and Michael Haller

Multimodal Split View Tabletop Interaction over Existing Applications

Edward Tse, Saul Greenberg, Chia Shen, John Barnwell, Sam Shipman, and Darren Leigh

Going Deeper: A Taxonomy of 3D on the Tabletop

Tovi Grossman and Daniel Wigdor

Inside & Out: Novel Tabletop Interactions and Infrastructure

Augmenting Mood Boards: Flexible and Intuitive Interaction in the Context of the Design Studio

Andrés Lucero, Dima Aliakseyeu, and Jean-Bernard Martens

Tablescape Plus: Interactive Small-Sized Vertical Displays on a Horizontal Tabletop Display

Yasuaki Kakehi, Takeshi Naemura, and Mitsunori Matsushita
Spilling: Expanding Hand Held Interaction to Touch Table Displays ........................................... 163
Dan R. Olsen Jr., Jeffrey Clement, and Aaron Pace

Supporting Multiple Off-axis Viewpoints at a Tabletop Display .................................................. 171
Mark Hancock and Sheelagh Carpendale

Multiple Input Support in a Model-Based Interaction Framework .............................................. 179
Stéphane Chatty, Alexandre Lemort, and Stéphane Valès

Gadgets & Gizmos: 'Notable' Tabletop Hardware

EmiTable: A Tabletop Surface Pervaded with Imperceptible Metadata ......................................... 189
Sho Kimura, Masahiko Kitamura, and Takeshi Naemura

Ortholumen: Using Light for Direct Tabletop Input ...................................................................... 193
Tommaso Piazza and Morten Fjeld

High Precision Multi-touch Sensing on Surfaces Using Overhead Cameras ................................. 197
Ankur Agarwal, Shahram Izadi, Manmohan Chandraker, and Andrew Blake

Depth-Sensing Video Cameras for 3D Tangible Tabletop Interaction ........................................... 201
Andrew D. Wilson

Low-Cost Malleable Surfaces with Multi-touch Pressure Sensitivity ........................................... 205
J. David Smith, T.C. Nicholas Graham, David Holman, and Jan Borchers

Author Index ................................................................................................................................... 209
