CLIMATE EVOLUTION AND ENVIRONMENTAL RESPONSE ON THE TIBETAN PLATEAU

Climate evolution and environmental response on the Tibetan Plateau
A. Schwalb, B. Schütt and X. Fang

Last Glacial Maximum climate inferences from integrated reconstruction of glacier equilibrium-line altitude for the head of the Urumqi River, Tianshan Mountains
X. Xu, L. Wang and J. Yang

Changes of climate, glaciers and runoff in China’s monsoonal temperate glacier region during the last several decades

Paleoenvironmental and archaeological investigations at Qinghai Lake, western China: Geomorphic and chronometric evidence of lake level history

Reconstructing Holocene vegetation and climate history of Nam Co area (Tibet), using pollen and other palynomorphs
M. Herrmann, X. Lu, J. Berking, B. Schütt, T. Yao and V. Mosbrugger

Glacial advances in southeastern Tibet during late Quaternary and their implications for climatic changes
Z. Shangzhe, W. Jie, X. Lihong, W. Xiaoli, P.M. Colgan and D.M. Mickelson

Uplift events of the Qinghai–Tibetan Plateau and environmental evolution of the southwest monsoon since 2.7 Ma, recorded in a long lake sediment core from Heqing, China

An ostracod-inferred large Middle Pleistocene freshwater lake in the presently hyper-arid Qaidam Basin (NW China)
S. Mischke, Z. Sun, U. Herzschuh, Z. Qiao and N. Sun

Late Quaternary hydrological changes inferred from lake level fluctuations of Nam Co (Tibetan Plateau, China)

Differences between East Asian and Indian monsoon climate records during MIS3 attributed to differences in their driving mechanisms: Evidence from the loess record in the Sichuan basin, southwestern China and other continental and marine climate records
W. Han, X. Fang, S. Yang and J. King

Late Quaternary transition from lacustrine to a fluvo-lacustrine environment in the north-western Nam Co, Tibetan Plateau, China
B. Schütt, J. Berking, M. Frechen, P. Frenzel, A. Schwalb and C. Wrozya

Hydrological and geomorphological basin and catchment characteristics of Lake Nam Co, South-Central Tibet
A. Keil, J. Berking, I. Müller, B. Schütt, A. Schwalb and P. Steeb

Basin morphology and seismic stratigraphy of Lake Donggii Cona, north-eastern Tibetan Plateau, China

Biomarkers of modern plants and soils from Xinglong Mountain in the transitional area between the Tibetan and Loess Plateaus
G.L. Lei, H.C. Zhang, F.Q. Chang, Y. Pu, Y. Zhu, M.S. Yang and W.X. Zhang
Contents continued from outside back cover

Hydrological and solute budgets of Lake Qinghai, the largest lake on the Tibetan Plateau
Z. Jin, C.-F. You, Y. Wang and Y. Shi

Palaeo-water depth estimation for a 600-year record from Nam Co (Tibet) using an ostracod-based transfer function
P. Frenzel, C. Wrozyna, M. Xie, L. Zhu and A. Schwalb

Changes of the Hailuogou glacier, Mt. Gongga, China, against the background of climate change during the Holocene

Evaporite minerals and geochemistry of the upper 400 m sediments in a core from the Western Qaidam Basin, Tibet
M. Li, X. Fang, C. Yi, S. Gao, W. Zhang and A. Galy

Palynological and satellite-based MODIS observations of modern vegetational gradients in China

Corrigendum
Corrigendum to the Guest Editorial "Geoarchaeology and taphonomy" [Quaternary International 214 (2010) 1–2]
C. Mallol and P. Bertran
