Informed by Knowledge
Expert Performance in Complex Situations

EDITED BY
Kathleen L. Mosier and Ute M. Fischer
Contents

Series Editor’s Preface ix
Preface xi
Kathleen L. Mosier and Ute M. Fischer, Editors

Part I Managing Complexity: Discussions from Various Fields and Decision Contexts

1 NDM Issues in Extreme Environments 3
Judith Orasanu and Phil Lieberman

2 Expert Cognition and Sensemaking in the Global Organization Leadership Context: A Case Study 23
Joyce Osland

3 Focused Cognition: Information Integration and Complex Problem Solving by Top Inventors 41
Harald A. Mieg

4 Large-Scale Coordination of Work: Coping With Complex Chaos Within Healthcare 55
Shawna J. Perry and Robert L. Wears

5 The Role of Cognition in Team Collaboration During Complex Problem Solving 69
Susan G. Hutchins and Tony Kendall

6 Decision-Making Processes of Leaders in Product Development 91
Petra Badke-Schaub
7  Expert Cultural Sensemaking in the Management of Middle Eastern Crowds
    Winston R. Sieck, Jennifer L. Smith, Anna Grome, and David A. Rababy

8  Managing Complex Military Planning: Processes and Techniques Used by Experienced and Less Experienced Commanders
    Peter Thunholm

Part II  Technological Support and Training for Knowledge Management

9  The Design of a Distributed Work System to Support Adaptive Decision Making Across Multiple Organizations
    Philip J. Smith, Amy L. Spencer, and Charles Billings

10  An Investigation of Technology-Mediated Ad Hoc Team Operations: Consideration of Components of Team Situation Awareness
    Laura D. Strater, Haydee M. Cuevas, Sandro Scielzo, Erik S. Connors, Cleotilde Gonzalez, Diane M. Ungvarsky, and Mica R. Endsley

11  Planning, Monitoring, and Trouble Shooting: Decision Making in Distributed Drilling Operations
    Kristina Lauche and Petra Saskia Bayerl

12  Expertise in the Submarine Domain: The Impact of Explicit Display on the Interpretation of Uncertainty
    Susan S. Kirschenbaum

13  Using High-Fidelity Computerized Training to Prepare Commanders for Operational Decision Making
    Laura A. Zimmerman, Jeff M. Sestokas, and Christopher A. Burns

Part III  Commentary: Overlooked Issues in Expert Decision Making

14  Naturalizing Sensemaking
    David Snowden

15  Anticipatory Thinking
    Gary Klein, David Snowden, and Chew Lock Pin
Contents

16 Uncertainty Management and Macro cognition in Teams: A Multidisciplinary Review and Integration 247
Stephen M. Fiore, Michael A. Rosen, and Eduardo Salas

17 How Do You Find an Expert? Identifying Blind Spots and Complex Mental Models Among Key Organizational Decision Makers Using a Unique Profiling Tool 261
Lia DiBello, David Lehmann, and Whit Missildine

18 Losing Sight of the "Golden Mean": Accountogenic Decisions in UK Policing 275
Laurence Alison, Marie Eyre, and Michael Humann

Part IV: Outlook: New Methods and Approaches

19 Systematizing Discovery in Cognitive Task Analysis 295
Laura Militello, B.L. William Wong, Susan S. Kirschenbaum, and Emily Patterson

20 Expertise in Assessing and Managing Risk of Violence: The Contribution of Naturalistic Decision Making 313
Paul R. Falzer

21 A Data-Frame Sensemaking Analysis of Operative Reports: Bile Duct Injuries Associated With Laparoscopic Cholecystectomy 329
Lygia Stewart, Cynthia O. Dominguez, and Lawrence W. Way

22 Coordination of Event Detection and Task Management in Time-Critical Settings 339
Barrett S. Caldwell and Sandra K. Garrett

23 "Convince Me": An Interdisciplinary Study of NDM and Portfolio Managers 353
Claire McAndrew and Julie Gore

24 Knowns, Known Unknowns, and Unknown Unknowns: Time and Uncertainty in Naturalistic Decision Making 371
Marvin S. Cohen
