2008 PEI Tech Forum

Dense Phase Pumping and Spraying of P/E Powder 3
Ken Kreeger

Development of the Cold Roll RP45 Grade for Water Heater Tank Bodies 9
Stan Lipkowski

Energy Cost in Washer Systems 15
Brian Rozdilsky

Comparison of Cobalt and Nickel in Frit Formulations 17
Mike Wilczynski and Roger Wallace

Raw Materials and Energy: Influence on Enamels Market 23
Bruce Hanna

LustReflex Coatings for Porcelain Enamel 29
E.A. Axtel III and Klaus-Dieter Fritsche
Advances in Porcelain Enamel Technology
21st Century Cleaning Systems
Ken Kaluzny

Using Control Systems to Go “Green” While Saving You Money!
John O’Connor

Porcelain Enamel Powder Coating Systems for Oven Cavities Worldwide
Jeff Hale and Phil Flasher

Dense Phase Pumping of Porcelain Enamel Powder—Part II
Ken Kreeger

Case Study: Process Rheology of Cover Coats at Engineered Storage Products Company
Greg Budnick

Water Heater and Inside Coating with Wet Enamel, Usable for Solar Energy
Brigitte Riester-Alt

Sustainability—More Than a Buzz Word
W. Mark McGinley

Decorating with Ceramic Decal
Michael McCall

Digital Ceramic Printing
Ron Manwiller

Preliminary Evaluations of Functional Coatings for Improved Chemical and Water Resistance
Charles Baldwin and Lou Gazo

Improving the Covering Power of Titanium White Cover Coat by Controlling Bubble Structure
Koichi Tanaka

Chemically Resistant Enamel
Eckhard Voss

Steve Pew
