Electronic Health Records

Portable CDA for the Exchange of Clinical Documents .................................................. 1
J. Chang, J. S. Lai, P. H. Cheng, Faipei Lai

Design and Implementation of a Centralized Electronic Medical Records Consortium in a Rural Area of Michigan ................................................................. 6
Guy Hembroff, Donald Wheeler, Daniel Boyle

An Electronic Health Record Content Protection System Using SmartCard and PMRTM ................................................................. 11
Weider D. Yu, Mark A. Chekhanovskiy

A Preliminary Study of Medical Image Distributed Intelligent Access Integrated with Electronic Medical Records System for Brain Degenerative Disease Abstract ..................... 19
Mei-Ju Sua, Heng-Shuen Chenb, Chung-Yi Yang, Sao-Jie Chen, Wen-Jeng Lee,
Po-Hsun Cheng, Ping-Kung Yip, Hon-Mon Liu, Pei-Pei Lai, Daniel Racoceanu

The Design and Implementation of a Next Generation Information System for Newborn Screening ................................................................. 24

Management in e-Health

Privacy Management in Consumer e-Health ................................................................. 29
Arnab Chowdhury, Pradeep Ray

Context-aware Workflow Driven Resource Allocation for e-Healthcare ........................................ 34
Fu-Shiung Hsieh

Ambulance Allocation Capacity Model ................................................................. 40
Dah-Ming Shiah, Shu-Wen Chen

An Analysis of Reduction in Medical Expenditures by e-Health Systems: Case of Nishiaizu Town, Fukushima Prefecture ................................................................. 46
Masatsugu Tsuji, Fumio Taoka, Masaaki Teshima

Management of E-Health Networks for Disease Control: A Global Perspective ..................... 52
S. Hinske, P. Ray

IT and Health Promotion

A Probability-Based Prediction Framework for Stress Identification .................................. 58
Dong-soo Han, Jisoo Song, Janarbek Matali, Minhyu Lee

A Study of the Electronic Healthy Diet and Nutrition Assessment System Applied in a Nursing Home ................................................................. 64
Lan-Hsin Hung, Han-Wei Zhang, Yaw-Jen Lin, I-Wen Chang, Heng-Shuen Chen
Improvement of Satellite Visibility by Space Diversity consisted of Two Geostationary Satellites - Aiming to High Performance Data Communication for Ambulance
Toshihiko Kitano, Yasumitsu Tomioka, Hiroshi Juzoji, Isao Nakajima

A Unified Approach to Adoption of Laboratory LOINC in Taiwan
Chien-Tsai Liu, Min-Hui Hsu, Liang-Wen Wang, Li-Li Wen, Jin-shin Lai

Dynamic Messages Creation Method for HL7 based Healthcare Information System
Xiao-Ou Ping, Li-Fan Ko, Rung-Ji Shang, Faipei Lai, Chi-Huang Chen, Kuo-Hsuan Huang, Sarangerel Dorjgochoo

A Hospital Applied Circuit Back Up Framework for External Network Services
Yaw-Jen Lin, Cheng-Chin Huang, Chin-Dar Fan

Ubiquitous Healthcare (u-Health) System

iCare Home Portal: Substitution-Based Case Adaptation CBR for Quality Aging in Place
Wei-Lun Chang, Shih-Hsiang Wang, Soe-Tsyr Yuan

Design of Satellite-Based Networks for u-Health
-Galenos, Deltass, Medaship, Emispher
G. Graschew, T.A. Roelofs, S. Rakowsky, P.M. Schlag

Worldwide Network-Centric Healthcare Operations and the Associated Telecommunications Infrastructure
Dag von Lubitz Frédéric, Frédéric Patricelli, Pasquale Palma

Using Reputation System in Ubiquitous Healthcare
Weiwei Yuan, Donghai Guan, Sungyoung Lee, Heejo Lee

U-Care for the elderly: Implementation of a Comprehensive Living and Health Care Network
Heng-Shuen Chen, Mei-Ju Su, Tsung-Hsueh Tsai, Shih-Shung Teng, Han-Wei Zhang, Jin-Shin Lai, Fei-Pei Lai, Ching-Yu Chen

u-Health Devices & Applications

Moving beyond the machines: the concept of “MICT device at hand” and “mobility in practice”
Henrique MG Martins, Matthew R. Jones

Single Key Omni Directional Pointing and Command System (SKOPS)
-a smart on screen navigational tool for physically disabled persons
Suman Deb, Sujay Deb

Utility Grid Computing and Body Area Network as Enabler for Ubiquitous Rural e-Healthcare Service Provisioning
O.O. Olugbara, M.O. Adigun, S.O. Ojo, P. Mudali

A Patch-type Wireless Physiological Monitoring Microsystems
T.C. Ke, W.S. Lin, W.Y Chang

xi
Standard Deviation Based Weighted Average Function for Reducing Tremor Disturbance of the Joystick

Bing-Yuh Lu, Chen-Yuan Liu, JerJunn Luh, Chao-Chih Shiao, Fok Ching Chong, Te-Son Kuo

e-Health Applications

The Different Demands of the Smart Clothing Functions Among Three Types of Hikers

Ching Li, Sheng-Min Wang

An Experiment of Telemedicine between Japan and Kazakhstan in order to Improve the Accuracy of Pathological Diagnosis

Yuichi Ishibashi, Atsuko Hara, Isao Okayasu, Mikhail Valivach, Murat Mukarov, Sergei Chernyakov, Isao Nakajima

Emotion Deficiency And Compensation Strategy in Web Based Education

Qi Luo

Cardiology and e-Health

Knowledge Management in E-Health — The Cardiac Rehabilitation Home Monitoring System

Dafu Lou, Tet Hin Yeap, Shu-Tim Cheung

The Morphology of the Electrocardiogram for Evaluating ECG Biometrics

Ya-Ting Tsao, Tsu-Wang Shen, Tung-Fu Ko, Tsung-Hsing Lin

Dependence of Heart Rate Variability on Stress Factors of Stress Response Inventory

Lizawati Salahuddin, Myeong Gi Jeong, Desok Kim, Seong-Kyeon Lim, Kim Won, Jong-Min Woo

Ultra Short Term Analysis of Heart Rate Variability Using Normal Sinus Rhythm and Atrial Fibrillation ECG Data

Lizawati Salahuddin, Myeong Gi Jeong, Desok Kim

Medical Image Processing

Medical Image Encryption Based on Pixel Arrangement and Random Permutation for Transmission Security

Koredianto Usman, Hiroshi Juzoji, Isao Nakajima, Soegijardjo Soegidjoko, Mohamad Ramdhani, Toshihiro Hori, Seiji Igi

Design and Evaluation of a DICOM compliant Video-fluoroscopy Imaging System

Chang Mei-Yen, Liu Chien-Tsai, Sun Ying-Chou, Lee Rheun-Chuan, Change Chian-Fa, Teng Michael Mu-Huo, Change Cheng-Yen

Three Dimensional Volume Measurement of Mouse Abdominal Fat in Magnetic Resonance Images

Yongsu Chae, Myeong Gi Jeong, Desok Kim

Medical Endoscopic Image Segmentation with Multi-resolution Deformation

Sung Won Yoon, Hang Sik Shin, Se Dong Min, Myoungho Lee
Telemedicine in Developing Countries

Teleradiology – Building Bridges of Knowledge ................................................................. 260
Archna Gupta

Role of Telemedicine during disaster: A Case Study ......................................................... 261
Ahsan Jamal, Sabir Hussain, Ali Zafar, Asif Zafar Malik

Role of Telemedicine in follow up and monitoring of people with Haemophilia in Northern Pakistan ................................................................. 264
Tahira Zafar, Asif Zafar Malik

The Role of Telemedicine for Pre and Post Operative Evaluation of Elective Surgical Patients ................................................................. 267
Qasim Alta, Faisal Murada, Mussarat Abdullah, Asif Zafar Malik

Rural Telemedicine

A Hybrid Color Slow Scan TeleVision for Developing Nations ........................................ 270
Isao Nakajima, Hiroshi Juzoji, Koredianto Usman, Yasumitsu Tomioka, Yuichi Ishibashi

e – Health networking to cater to Rural Health Care and Health Care for the Aged .......... 273
D.S. Venkateswarlu, K.S. Verma, K.S.R.A.Murthy

Personal Health Record (PHR) in a Talisman: An Approach to Providing Continuity of Care in Developing Countries Using Existing Social Customs ................................................................. 277
Uma Srinivasan, Gora Datta

Knowledge Management

Design a Collaborative Stroke System based on IHE ........................................................ 280
Shin Yu Jeng, Shao-Chun Chen, Pao-Cheng Lee, Pei-Shun Ho, Ronlon Tsai

Phylogenetic Analysis of Neuraminidase Genes of H5N1 Isolates using HPC Technologies .... 285
Dadabhai T. Singh, Rahul Trehan, Pradeep Ray, Bertil Schmidt

Information Management Inresource Poor Settings for the Healthcare Sector .................. 289
Sampathkumar Veeraraghavan, Karthik Srinivasan

A Framework for Collaborate SCORM-Compliant Web-Based Authoring System ........... 292
Chon-Kit Leong, Chien-Tsai Liu

e-Health/u-Health Initiatives

Building u-Hospice from HCI Perspectives ................................................................. 295
Hee-Cheol Kim, Heung-Kook Choi, Tsogzolmaa Saizmaa, Joo-Young Sohn, Hyun Cho

Caregiver-Patient-Information System Triad:
Conceptualizing the workspace for mobile and ubiquitous computing in Health ............ 299
Henrique M.G. Martins
Construction of APEC e-Health Portal Site for e-Health Service Providers and Demanders in APEC Area ................................................................. 300
Byung Woo Lee, Se Dong Min, Wanjin Jeong, Youngmin Choo, Myoungho Lee

Actual Condition of Korean e-Health: What Do Enterprisers Want for Developing e-Health Industry? ................................................................. 304
Se Dong Min, Byoung Woo Lee, Sung Won Yoon, Young Bum Lee,
Jin Kwon Kim, Myoungho Lee, Cheol Oh Park

Security in u-Health

Security in Wireless Mobile Technology for Healthcare Systems .................................................. 308
Weider D. Yu, Vijayalakshmi Jothiram

The Role of Trust in Ubiquitous Healthcare ....................................................................................... 312
Weiwei Yuan, Donghai Guan, Sungyoung Lee, Young-Koo Lee

A u-Health Security Structure by Using 2D Barcodes ................................................................. 316
Tsu-Wang Shen

Analysis of a Reported Incident Resulting in an Actual Airline Hijacking due to a Fanatical and Engrossed Virtual Reality State .................. 319
Hiroshi Juzoji, Atsushi Ichimura, Isao Nakajima, Muhammad Athar Sadiq

Devices in Ubiquitous Healthcare

RFID Emergency Notification System for Fall Accidents at Home ............................................. 323
Yung-Chin Chen, Chun-Chi Wang

Development of Integrated Module using Wireless Accelerometer and ECG Sensor for ADL Monitoring .............................................................. 327
Youngbum Lee, Muntak Son, Myoungho Lee

VMote: A Wearable Wireless Health Monitoring System ............................................................ 330
E. Hughes, M. Masilela, P. Eddings, A. Rafiq, C. Boanca, R. Merrell

Development of a Self-Constructing Neuro-Fuzzy Inference System for Online Classification of Physical Movements ........................................... 332
L. Jatobá, U. Großmann, J. Ottenbacher, Dr. rer.nat.,
W. Stork, Dr.-Ing., K. Müller-Glaser

Author Index .......................................................................................................................... follows page 336
