Klaus Goelker

GIMP 2.6 for Photographers
Image Editing with Open Source Software
# Table of Contents

## Chapter 1

**Basics** ................................................................. 3

1.1 Preface to the Extended Second Edition ......................... 4

1.2 Introduction .................................................................. 5
  1.2.1 Using GIMP 2.6 – About This Book ......................... 5
  1.2.2 About GIMP 2.6 .................................................... 6

1.3 Introduction to Digital Image Editing .............................. 7
  1.3.1 Characteristics of Pixel Images ................................. 7
  1.3.2 Resolution ............................................................. 9
  1.3.3 Screen Colors – Color Models and GEGL, the New Graphics Library .................................................. 10
  1.3.4 Important File Formats for Practical Work .................. 14

1.4 Loading and Managing Digital Photos on the Computer .......... 18
  1.4.1 Using the Operating System’s File Management Tools to Import Images from a Camera .......................... 18
  1.4.2 Using Wizards to Import Images ............................... 21
  1.4.3 Using the Operating System’s File Management to Organize Photo Collections ............................... 22
  1.4.4 Helpers: Image Management Programs for Windows, Mac OS X, and Linux ............................................... 23
  1.4.5 Converting Camera RAW Image Formats under Windows, Mac OS X, and Linux: Freeware and Plug-Ins .................. 24
# TABLE OF CONTENTS

1.5 Get GIMP Running ........................................... 28
  1.5.1 Where Can I Get GIMP? ............................... 28
  1.5.2 Installing GIMP and Plug-Ins ......................... 29
  1.5.3 Starting GIMP for the First Time ..................... 34
  1.5.4 Is GIMP Insecure? Some Comments and Tips ............ 35
  1.5.5 GIMP'S Program Windows ........................... 36
  1.5.6 The Image Window, the Main GIMP Interface ......... 41
  1.5.7 Real Help – GIMP’S Help Function .................. 47

## Chapter 2

**Using GIMP: Correcting and Touching Up Your Images** ........................................ 51

2.1 JPEG versus RAW ............................................ 52

2.2 Opening and Developing a RAW Format, or Digital Negative, with GIMP ............... 53
  2.2.1 Opening an Image in UFRaw ......................... 56
  2.2.2 Features and Elements of UFRaw’s Main Window .... 57
  2.2.3 RawTherapee for Developing Raw Images ............ 75

2.3 Editing Images in GIMP ....................................... 77
  2.3.1 Opening, Setting, and Storing an Image—the Steps ... 77
  2.3.2 Opening an Image ........................................ 78
  2.3.3 The Image Window – Your Workspace ................. 82
  2.3.4 Rotating an Image by Fixed Values ................... 85
  2.3.5 Changing the Image View Size (Zooming) ............. 86
  2.3.6 Setting the Image Size and Resolution ............... 88
  2.3.7 Scaling the Print Size of Images – An Example for Converting Resolution and Size .......... 90

Chapter 3

Using Masks and Layers—Painting, Filling, and Color Tools .......................... 167

3.1 Introduction to Masks and Selections ...................... 168
  3.1.1 Overview of Select Tools in the Toolbox ............. 169
  3.1.2 Tips for Handling Select Tools ..................... 170
  3.1.3 The Select Menu .................................. 171
  3.1.4 The Edit Menu .................................. 173

3.2 Touchup Work 3—Removing Red Eyes .................... 175
  3.2.1 Avoiding Red Eyes—Using the Flash Correctly ...... 175
  3.2.2 Eliminating the Red-Eye Effect ..................... 176

3.3 Introduction to Working with Layers ..................... 178
  3.3.1 The Layers Dialog ................................ 180
  3.3.2 The Context Menu in the Layers Dialog ........... 182
  3.3.3 Background or Layer with an Alpha Channel ....... 184
  3.3.4 Working with Several Images—
       Inserting Layers from Another Image ............ 185

3.4 Touchup Work 4—Correcting Overexposed or
       Underexposed Images ................................ 186
  3.4.1 The Mode Settings in the Layers Dialog ........... 186
  3.4.2 Editing Overexposed Images ..................... 186
  3.4.3 Editing Underexposed Images ..................... 188
### 3.5 Touchup Work 5—Using Perspective Correction to Remove Converging Verticals

- 3.5.1 Trying to Avoid Converging Verticals When Taking Shots...
- 3.5.2 Steps Involved and Description of Work
- 3.5.3 Removing Converging Verticals from an Image
- 3.5.4 Transform Tool Options
- 3.5.5 Removing Lens Distortion, Making Perspective Corrections, and Reducing Vignetting
- 3.5.6 The Perspective Clone Tool

### 3.6 Touchup Work 5—Freshening Up a “Dull Sky”

- 3.6.1 Steps Involved and Description of Work
- 3.6.2 Step 1: Selecting an Area by Color, Deleting It, and Replacing It by Color Fill
- 3.6.3 Step 2: Creating and Positioning an Image Object on a New Layer
- 3.6.4 Step 3: Creating a Multicolor Sky— the Blend Tool
- 3.6.5 Step 4: Adding a New Object or Layer (Sky) to an Image

### 3.7 Typing in GIMP—Adding Text to an Image

- 3.7.1 Introduction to Fonts
- 3.7.2 Typing in GIMP—the Text Tool
- 3.7.3 Typing Text and Defining the Text Attributes
- 3.7.4 Creating Three-Dimensional Text and a Drop Shadow

### 3.8 Creating Your Own Image Frames and Vignettes

- 3.8.1 Single-Color Image Frames
- 3.8.2 Creating a Frame with Pattern
- 3.8.3 Vignettes for Images
3.9 Creating and Editing Image Elements—
Lighting Effects and Shadow Layers ..................... 237

3.9.1 Overview of Part 1—Creating a New Image and
New Image Objects ........................................ 237

3.9.2 Creating a New Image .................................. 238

3.9.3 Transforming a Selection ................................ 239

3.9.4 Using the Paintbrush Tool to Create Lighting and
Shadow Effects—Painting in Glazing Technique ........ 240

3.9.5 Overview of Part 2—Inserting, Duplicating, and
Colorizing Image Objects .................................. 241

3.9.6 Changing the Color of an Image Object—
the Hue-Saturation Function ............................... 243

3.10 Extracting Image Objects with Select and
Masking Tools ................................................. 244

3.10.1 The Free Select Tool (Polygon Lasso) as a Select Tool .... 245

3.10.2 Extracting a Wine Glass with the Polygon Lasso .......... 245

3.10.3 Creating a Selection with the Polygon Lasso,
Following a Contour ....................................... 246

3.11 Using the Paths Tool as a Masking Tool—
Using Filters for Light Effects ............................... 249

3.11.1 Copying a Wine Glass and Creating a
Drop Shadow—Overview of the Steps Involved .......... 249

3.11.2 Creating and Editing a Path—the Design Editing Mode .... 250

3.11.3 The Path Editing Mode ................................ 251

3.11.4 The Paths Dialog ...................................... 253

3.11.5 Transforming Paths—the Shear Tool .................. 253

3.11.6 Lighting Effects—Creating Light Reflections with Paths,
Paintbrushes, or Filters .................................... 256

3.11.7 Paths and Text ......................................... 258

Chapter 4

Working with Black-and-White and Color Images .................................. 313

4.1 Converting Color Images Partly or Entirely into Grayscale Images ............ 314
   4.1.1 Hints for Working in Grayscale and RGB Modes ....................... 314
   4.1.2 Removing Color Partly or Entirely .......................................... 315
   4.1.3 Developing Black-and-White Images with the Channel Mixer .......... 316
   4.1.4 The Graphical Library GEGL—Developing Black-and-White Images with GEGL Operations .......... 318
   4.1.5 Converting Images into Black-and-White Graphics ..................... 320
   4.1.6 Graphic Effects with Gray Levels—an Example ....................... 321

4.2 Touching Up Black-and-White Images—Levels, Brightness, Contrast .......... 323

4.3 Extracting Hair from the Background—a Tricky Task ......................... 324
   4.3.1 The Threshold Function ..................................................... 324
   4.3.2 Using the Threshold Function to Extract Hair—the Task ............... 325
   4.3.3 Using Channels to Extract an Object from the Background ............. 328

4.4 Coloring Grayscale Images ...................................................... 335
   4.4.1 Using the Colorize Function to Color an Image ......................... 335
   4.4.2 Using the Levels Function to Color an Image ............................ 336
   4.4.3 Using the Curves Function to Color an Image with One or More Colors .................................................. 337
### 4.4.4 Using the Colorify Filter to Color an Image
338
### 4.4.5 Using Transparency and the Colorize Filter to Color Image Areas by Brightness
339
### 4.4.6 Using the Sample Colorize Function to Color an Image
340
### 4.4.7 Using Filters to Color and Bleach an Image
342

#### 4.5 “Hand-Colored” Collages from Black-and-White Photos
344

## Chapter 5

### Appendix
349

#### 5.1 The IWarp Filter—a Closing Comment
350

#### 5.2 So Far, So Good—How to Proceed from Here:
Tips and References
351

#### 5.3 A Forecast on GIMP 2.8
351

##### 5.3.1 Changes in GIMP 2.8
352

##### 5.3.2 Downloading and Installing GIMP 2.7
353

#### 5.4 Thank You!
353

#### 5.5 Further Reading on GIMP: References
354

#### 5.6 What’s on the DVD
354

#### 5.7 Native GIMP File Formats
356
